It shall be the duty of said board to ascertain as soon as practicable the annual fire loss of this State; to obtain, make and maintain a record thereof; and collect such data and information with respect thereto as will enable said board to classify the fire losses of this State, the causes thereof and the amount of premiums collected therefor for each class of risks and the amount paid thereon, in such manner as will be of assistance in determining equitable insurance rates, methods of reducing such fire losses, and reducing the insurance rates of the State.

Sec. 5. Sec. 6. It shall be the duty of the Fire Marshal of the State Insurance Board, who, for the purpose of this act, may be referred to as the State Fire Marshal, at the discretion of the board, and upon the request of the mayor of any city or village, or the chief of a fire department of any city or village; or of any village fire marshal, where a fire occurs within such city or village; or of a county or district judge; or of the sheriff or county attorney of any county, where a fire occurs within the district or county of the officer making such request; or of any fire insurance company, or its general, State or special agent, interested in a loss; or of a policy holder sustaining a loss; or upon the direction of the State Insurance Board, to forthwith investigate at the place of such fire, the origin, cause and circumstances of any fire occurring within this State, whereby property has been destroyed or damaged, and shall ascertain, if possible, whether the same was a result of an accident, carelessness or design, and shall make a written report thereof to the State Insurance Board, and shall also furnish, in writing, to the county or district attorney of the county in which such fire occurred, all the information and evidence obtained by him, including a copy of all pertinent testimony taken in the case.

Sec. 7. The State Fire Marshal shall have power to administer oaths, take testimony, compel the attendance of witnesses and the production of documents, and to enter, at any reasonable time, any buildings or premises where a fire has occurred or is in progress, or any place contiguous thereto for the purpose of investigating the cause, origin and circumstances of such fire. And he may enter and examine at any reasonable time any building, structure or place for the purpose of ascertaining the fire hazard and may remove or require the owner or occupant to remove or

safely store combustible material, dangerously exposed or improperly placed therein, and to remove any unnecessary exposure to fire hazard found therein; the said State Fire Marshal is hereby authorized when necessary to apply to a court of competent jurisdiction for the necessary writs or orders to enforce the provisions of this section, and in such case he shall not be required to give bond.

The State Insurance Board shall have authority and it shall be its duty to appoint a Deputy Fire Marshal of the State Insurance Board for every town or village in this State whether incorporated or unincorporated, with or without salary, unless such town or village already has a fire marshal; provided that the expenses and salary of such Deputy Fire Marshal of the State Insurance Board shall be paid by such town, city or village or the inhabitants thereof and not by the State; and such Deputy Fire Marshal of the State Insurance Board so appointed may be known as the Fire Marshal of such town, city or village; and such Deputy Fire Marshal of the State Insurance Board when so appointed shall perform such duties and have such powers and authorities as may be conferred upon him by the State Insurance Board, not inconsistent with law, and shall at all times act in accordance with the orders and directions of the State Insurance Board.

Sec. 9. If, for any reason, the State Fire Marshal is unable to make any required investigation in person he may designate the Fire Marshal of such city or town, or some other suitable person, to act for him, and such person so designated shall have the same authority as is herein given the State Fire Marshal with reference to the particular matter to be investigated by him, and shall receive such compensation for his services as may be allowed by the State Insurance Board. If the investigation of a fire is made at the request of an insurance company or at the request of a policy holder sustaining loss, or at the request of the mayor, town clerk or chief of the fire department of any city, village or town in which the fire occurred, then the expense of such investigation, including the traveling and other expenses of the Fire Marshal, clerical expenses, witnesses' and officers' fees, incident and necessary to such investigation, shall be paid by such insurance company, or such policy holder, or

such city or town, as the case may be, otherwise the expenses of such investigation are to be paid as part of the expenses of the State Insurance Board. Provided, the party or parties, company or companies requesting such investigation shall before such investigation is commenced deposit with the State Insurance Board an amount of money in the judgment of said board sufficient to defray the expenses of said Fire Marshal in conducting such investigation.

Sec. 10. No action taken by the State Fire Marshal shall affect the rights of any policy holder or any company in respect to a loss by reason of any fire so investigated; nor shall the result of any such investigation be given in evidence upon the trial of any civil action upon such policy, nor shall any statement made by any insurance company, its officers, agents or adjusters, nor by any policy holder or any one representing him, made with reference to the origin, cause, or supposed origin or cause, of a fire to the Fire Marshal or to anyone acting for him or under his directions, be admitted in evidence or made the basis for any action for civil damages.

Sec. 11. The said board is authorized and empowered to require sworn statements from any insurance company affected by this act and from any of its officers, directors, representatives, general agents, State agents, special agents and local agents of the rates and premiums collected for the fire insurance on each class of risks, on all property in this State during any or all years for the five years next preceding the first day of January, 1910, and of the causes of fires, if such be known, if they are in possession of such data and information, or can obtain it at a reasonable expense; and said board is empowered to require such statements for any period of time after the first day of January, 1910; and said board is empowered to require such statements showing all necessary facts and information to enable said board to make, amend and maintain the general basis schedules, provided for in this act, and the rules and regulations for applying same and to determine reasonable and proper specific rates and to enforce and assist in the enforcement of the provisions of this act. The said board shall also have the right, at its discretion, either personally or by some one duly authorized by it, to visit the offices, whether general, local or otherwise, of any insurance

company doing business in this State, and the home office of said company outside of this State, if there be such, and the office of any officers, directors, general agents, State agents, local agents or representatives of such company, and there require such company, its officers, agents or representatives, to produce for inspection by said board or by its duly authorized representatives, all books, records and papers of such company or such agents and representatives; and the said board or its duly authorized agents or representatives shall have the right to examine such books, records and papers and make, or cause to be made, copies thereof; and shall have the right to take testimony under oath with reference thereto, and to compel the attendance of witnesses for such purpose; and any company, its officers, agents or representatives, failing to make such statements and reports herein referred to and failing or refusing to permit the examination of books, papers and records as herein required, when so called upon, or declining or failing to comply with any provision of this section, shall be subject to the penalties provided for in Section 24 of this act.

Sec. 12. Immediately upon the taking effect of this act or as soon thereafter as practicable, said board is empowered, and it is hereby made its duty, to prepare a system of general basis schedules, together with rules for applying the same, for determining fire insurance rates on property in this State; the said general basis schedules and the rules for applying the same to be at all times reasonable; the said board may employ and use any facts and information now in the possession of or in the records of the present State Fire Rating Board as well as all facts obtainable from and concerning fire insurance companies transacting business in this State, showing the experience of said companies, and charges for premiums on fire insurance, and generally as to the transaction of their said business during the years named in Section 11 of this act or during any other period of time, in order to devise and fix reasonable general basis schedules and rules for applying the same for determining rates. The said board in preparing such general basis schedules showing the rates on all classes of risks, insurable by any company in this State, shall show all charges, credits, terms, privileges and conditions which in any wise affect such rates or the application of

such rates to specific risks or the cost of insurance; provided, that such schedules and the rules for applying same shall be furnished by said board to any and all insurance companies affected by this act applying therefor; and the same shall be furnished to any citizen of this State applying therefor upon the payment of the actual cost thereof; that such general basis schedules and the rules prescribed with reference thereto shall not take effect until said board shall have entered an order or orders fixing the same and shall have given notice to all insurance companies affected by this act, authorized to transact business in this State.

Sec. 13. It is further provided that after the adoption and promulgation of the general basis schedules and the rules and regulations for applying the same as herein provided for by the board, every insurance company writing fire insurance policies within this State, shall, within a reasonable time, file with the State Insurance Board, its application of said general basis schedules to the specific risks of the State, and the specific rates obtained thereby in accordance with the several provisions of this act; and provided further, that any one or more insurance companies may employ, for the application of such general basis schedules and the making of such specific rates, the service of such experts as they may deem advisable for such purpose, but the contract or contracts of employment of such experts shall first be submitted to the State Insurance Board for its approval; provided further, that the State Insurance Board shall have authority, and it shall be the duty of said board personally, or by its agents, to inspect and supervise the work of said experts in the application of said general basis schedules in the determination of specific rates; provided further, that said company or companies shall file with the board copies of all maps, and copies of the analysis of all applications of said general basis schedules to the specific risks of this State, if required to do so by the board. And it shall be the duty of the expert or experts representing the insurance companies, or any insurance company in this State, to furnish at the date of the inspection, to the owners of all risks inspected for the purpose of applying the general basis schedules provided for in this act, a copy of such inspection report, showing all defects

that operate as charges to increase the insurance rate.

It is further provided that the specific rates so made by a company or companies for any city, town, village or locality, shall not take effect, and such company or companies shall not write insurance thereunder until such specific rates shall have been approved by the board; the board shall have authority to reject said specific rates so made or any part thereof, or to alter, amend, modify or change the same; or to permit such specific rates to become effective for a limited time, or any modification or change thereof for a limited time, in its discretion; provided, however, that the said board shall have authority in its discretion to permit the said company or companies to apply the said schedules of basis rates to risks other than mercantile and special hazards without having first submitted the specific rates so made to said board for approval. But such rates, that the board may permit any company or companies to apply without the board's approval, shall always be subject to review by the board and by the proper showing of any policy holder, or holders, may be reduced. It is further provided that all changes made by any company in the specific rates made by it in applying the general basis schedules shall be subject to the review of the board for its approval or disapproval, and shall be reported to the board in such manner and form as may be prescribed by the board. Provided further, that any insurance company or companies affected by this act shall have the right at any time to petition the board for an order changing or modifying the general basis schedules, or the application of the general basis schedules to the specific risks; and the board shall consider such petition as provided in this act and enter such order as the board may deem just and equitable to such company or companies, to competing companies, and to the public. Provided further, also, that any company affected by this act shall have the right to apply to the board for an order permitting such company to reduce the specific rates of insurance on property within this State, and the board shall consider such application and enter such order with reference thereto as it may deem just and equitable to such company, to competing companies and to the public; but in no event shall discrimination be

such city or town, as the case may be, otherwise the expenses of such investigation are to be paid as part of the expenses of the State Insurance Board. Provided, the party or parties, company or companies requesting such investigation shall before such investigation is commenced deposit with the State Insurance Board an amount of money in the judgment of said board sufficient to defray the expenses of said Fire Marshal in conducting such investigation.

Sec. 10. No action taken by the State Fire Marshal shall affect the rights of any policy holder or any company in respect to a loss by reason of any fire so investigated; nor shall the result of any such investigation be given in evidence upon the trial of any civil action upon such policy, nor shall any statement made by any insurance company, its officers, agents or adjusters, nor by any policy holder or any one representing him, made with reference to the origin, cause, or supposed origin or cause, of a fire to the Fire Marshal or to anyone acting for him or under his directions, be admitted in evidence or made the basis for any action for civil damages.

Sec. 11. The said board is authorized and empowered to require sworn statements from any insurance company affected by this act and from any of its officers, directors, representatives, general agents, State agents, special agents and local agents of the rates and premiums collected for the fire insurance, on each class of risks, on all property in this State during any or all years for the five years next preceding the first day of January, 1910, and of the causes of fires, if such be known, if they are in possession of such data and information, or can obtain it at a reasonable expense; and said board is empowered to require such statements for any period of time after the first day of January, 1910; and said board is empowered to require such statements showing all necessary facts and information to enable said board to make, amend and maintain the general basis schedules, provided for in this act, and the rules and regulations for applying same and to determine reasonable and proper specific rates and to enforce and assist in the enforcement of the provisions of this act. The said board shall also have the right, at its discretion, either personally or by some one duly authorized by it, to visit the offices, whether general, local or otherwise, of any insurance

company doing business in this State, and the home office of said company outside of this State, if there be such, and the office of any officers, directors, general agents, State agents, local agents or representatives of such company, and there require such company, its officers, agents or representatives, to produce for inspection by said board or by its duly authorized representatives, all books, records and papers of such company or such agents and representatives; and the said board or its duly authorized agents or representatives shall have the right to examine such books, records and papers and make, or cause to be made, copies thereof; and shall have the right to take testimony under oath with reference thereto, and to compel the attendance of witnesses for such purpose; and any company, its officers, agents or representatives, failing to make such statements and reports herein referred to and failing or refusing to permit the examination of books, papers and records as herein required, when so called upon, or declining or failing to comply with any provision of this section, shall be subject to the penalties provided for in Section 24 of this act.

Sec. 12. Immediately upon the taking effect of this act or as soon thereafter as practicable, said board is empowered, and it is hereby made its duty, to prepare a system of general basis schedules, together with rules for applying the same, for determining fire insurance rates on property in this State; the said general basis schedules and the rules for applying the same to be at all times reasonable; the said board may employ and use any facts and information now in the possession of or in the records of the present State Fire Rating Board as well as all facts obtainable from and concerning fire insurance companies transacting business in this State, showing the experience of said companies, and charges for premiums on fire insurance, and generally as to the transaction of their said business during the years named in Section 11 of this act or during any other period of time, in order to devise and fix reasonable general basis schedules and rules for applying the same for determining rates. The said board in preparing such general basis schedules showing the rates on all classes of risks, insurable by any company in this State, shall show all charges, credits, terms, privileges and conditions which in any wise affect such rates or the application of

such rates to specific risks or the cost of insurance; provided, that such schedules and the rules for applying same shall be furnished by said board to any and all insurance companies affected by this act applying therefor; and the same shall be furnished to any citizen of this State applying therefor upon the payment of the actual cost thereof; that such general basis schedules and the rules prescribed with reference thereto shall not take effect until said board shall have entered an order or orders fixing the same and shall have given notice to all insurance companies affected by this act, authorized to transact business in this State.

Sec. 13. It is further provided that after the adoption and promulgation of the general basis schedules and the rules and regulations for applying the same as herein provided for by the board, every insurance company writing fire insurance policies within this State, shall, within a reasonable time, file with the State Insurance Board, its application of said general basis schedules to the specific risks of the State, and the specific rates obtained thereby in accordance with the several provisions of this act; and provided further, that any one or more insurance companies may employ, for the application of such general basis schedules and the making of such specific rates, the service of such experts as they may deem advisable for such purpose, but the contract or contracts of employment of such experts shall first be submitted to the State Insurance Board for its approval; provided further, that the State Insurance Board shall have authority, and it shall be the duty of said board personally, or by its agents, to inspect and supervise the work of said experts in the application of said general basis schedules in the determination of specific rates; provided further, that said company or companies shall file with the board copies of all maps, and copies of the analysis of all applications of said general basis schedules to the specific risks of this State, if required to do so by the board. And it shall be the duty of the expert or experts representing the insurance companies, or any insurance company in this State, to furnish at the date of the inspection, to the owners of all risks inspected for the purpose of applying the general basis schedules provided for in this act, a copy of such inspection report, showing all defects

that operate as charges to increase the insurance rate.

It is further provided that the specific rates so made by a company or companies for any city, town, village or locality, shall not take effect, and such company or companies shall not write insurance thereunder until such specific rates shall have been approved by the board; the board shall have authority to reject said specific rates so made or any part thereof, or to alter, amend, modify or change the same; or to permit such specific rates to become effective for a limited time, or any modification or change thereof for a limited time, in its discretion; provided, however, that the said board shall have authority in its discretion to permit the said company or companies to apply the said schedules of basis rates to risks other than mercantile and special hazards without having first submitted the specific rates so made to said board for approval. But such rates, that the board may permit any company or companies to apply without the board's approval, shall always be subject to review by the board and by the proper showing of any policy holder, or holders, may be reduced. It is further provided that all changes made by any company in the specific rates made by it in applying the general basis schedules shall be subject to the review of the board for its approval or disapproval, and shall be reported to the board in such manner and form as may be prescribed by the board. Provided further, that any insurance company or companies affected by this act shall have the right at any time to petition the board for an order changing or modifying the general basis schedules, or the application of the general basis schedules to the specific risks; and the board shall consider such petition as provided in this act and enter such order as the board may deem just and equitable to such company or companies, to competing companies, and to the public. Provided further, also, that any company affected by this act shall have the right to apply to the board for an order permitting such company to reduce the specific rates of insurance on property within this State, and the board shall consider such application and enter such order with reference thereto as it may deem just and equitable to such company, to competing companies and to the public; but in no event shall discrimination be

permitted between persons, or between different classes of risks.

The board shall also have the power and authority to give each city, town, village or locality credit for each and every hazard they may reduce or entirely remove, also for all added fire fighting equipment, increased police protection or any other equipment or improvement that has a tendency to reduce the fire hazard of any such city, town, village or locality. The board shall also have the power and authority to compel any company to give any and all policy holders credit for any and all hazards that said policy holder or holders may reduce or remove. Said credit shall be in proportion to such reduction or removal of such hazard, and said company or companies shall return to such policy holder or holders such proportional part of unearned premiums charged for such hazards that may be reduced or removed.

Sec. 14. It is provided that after the approval by the board of the specific rates made by the insurance companies hereunder, that thereafter when a policy of insurance is written that the policy holder shall be furnished by the company with a copy of the analysis of his specific rate showing the items of charge and credit which determine the rate, unless such policy holder has theretofore been furnished with such analysis of his rate; it is also further provided that the general basis schedules and all specific rates and local tariffs filed in accordance with the provisions of this act shall be open to the inspection of the public, and each local agent shall have and exhibit to the public copies thereof relative to all risks upon which he is authorized to write insurance.

Sec. 15. It is further provided that until the general basis schedules herein provided for shall have been promulgated by the board and the specific rates thereunder made by the companies and approved by the board, that the board shall designate at what rates and under what rules and regulations insurance may be written within this State, and such rates, rules and regulations so designated shall govern all companies writing contracts or policies of fire insurance under the provisions of this act.

Sec. 16. The said board shall have authority, upon reasonable notice, not exceeding thirty days, of its intention to do so, to alter, amend or revise said general basis schedules promulgated by

it, or the specific rates approved or ordered by it, as herein provided, and to give reasonable notice of such alteration, amendment or revisions to the public or to any company or companies affected thereby. Such altered, amended or revised schedules or rates shall be the schedules or rates to be thereafter charged for insurance by any company in this State; provided, that the board may order changes to be made to meet unusual conditions in any particular locality, should such conditions exist or arise, by giving similar notice to the public or to any company affected thereby. Provided, the changes or amendments made to the general basis schedules shall apply only to policies of insurance written after the order of the board making such changes or amendments becomes effective. Provided further, that no policy existing prior to the taking effect of such changes or amendments to the general basis schedules shall be affected by such changes or amendments unless there shall be a change in the hazard of the risk necessitating a change in the rate applicable to such risk, in which event such policy shall be subject to the new rates applicable under the changed or amended general basis schedules.

Sec. 17. It shall be the duty of the State Insurance Board to make, promulgate and establish uniform policies of insurance applicable to the various risks of this State, copies of which uniform policies shall be furnished each company doing business in this State or which may hereafter do business in this State. That after such uniform policies shall have been established and promulgated and furnished the respective companies doing business in this State, such companies shall, within sixty days after the receipt of such forms of policies, adopt and use said form or forms and no other; and all companies which may commence business in this State after the adoption and promulgation of such forms of policies, shall adopt and use the same and no other forms of policies. The said Insurance Board shall also prescribe all standard forms, clauses and endorsements used on or in connection with insurance policies. All other forms, clauses and endorsements placed upon insurance policies shall be placed thereon subject to the disapproval of the board. Provided, no endorsement, clause or rider, so attached to or placed upon any such policy of insurance, shall void or in any way af-

fect such policy or any provision thereof until same shall have first been approved by said board. The board shall also have authority in its discretion to change, alter or amend such form or forms of policy or policies, and such clauses and endorsements used in connection therewith upon giving notice and proceeding in accordance with Section 19 of this act.

Sec. 18. It is provided that any citizen or number of citizens of this State, or any policy holder or policy holders, or any insurance company within this State, or any board of trade, chamber of commerce or other civic organization, or the civil authorities of any town, city or village, shall have the right to file a petition with the Insurance Board setting forth any cause of complaint that they may have as to any order made by this board, or any schedule promulgated by this board, or as to any specific rate approved by this board, and that they shall have the right to offer evidence in support of the allegations of such petition by witnesses, or by depositions or by affidavits; that upon the filing of such petition, the party complained of, if other than the board, shall be notified by the board of the filing of such petition and a copy thereof furnished the party or parties, company or companies, of whom complaint is made, and the said petition shall be set down for a hearing at a time not exceeding fifteen days after the filing of such petition and the board shall hear and determine said petition; but it shall not be necessary for the petitioners or any one of them to be present to present the cause to the board, but they shall consider the testimony of all witnesses, whether such witnesses testify in person or by deposition, or by affidavits, and if it be found that the complaint made in such petition is a just one, then the matters complained of shall be corrected or required to be corrected by said board.

Sec. 19. The State Insurance Board shall give the public and all insurance companies to be affected by its orders or decisions, reasonable notice thereof, not exceeding thirty days, and an opportunity to appear and be heard with respect to the same; which notice to the public shall be published in one or more daily papers of the State, and such notice to the insurance company or companies to be affected thereby shall be by letter deposited in the postoffice, addressed to the State or general agent of

such company or companies, if the address of such State or general agent be known to the board, or, if not known, then such letter shall be addressed to some local agent of such company or companies, or, if the address of a local agent be unknown to the board, then by publication in one or more of the daily papers of the State; and the board shall hear all protests or complaints from any insurance company or any citizen, or any city, town, or village, or any commercial or civic organization as to the inadequacy or unreasonableness of any rates fixed by it or approved by it, or as to the inadequacy or unreasonableness of any general basis schedules promulgated by it or the injustice of any order or decision by it; and if any insurance company, or other person, or commercial, or civic organization, or any city, town or village, which shall be interested in any such order or decision, shall be dissatisfied with any regulation, schedule or rate adopted by such board, such company or person, commercial or civic organization, city, town or village shall have the right, within thirty days after the making of such regulation or order, or rate, or schedule, to bring an action against said board in the district court of Travis county to have such regulation or order or schedule or rate vacated or modified; and shall set forth in a petition therefor the principal ground or grounds of objection to any or all of such regulations, schedules, rates or orders; in any such suit, the issue shall be formed and the controversy tried and determined as in other civil cases, and the court may set aside and vacate or annul any one or more or any part of any of the regulations, schedules, orders or rates promulgated or adopted by said board, which shall be found by the court to be unreasonable, unjust, excessive or inadequate, without disturbing others. No injunction, interlocutory order or decree suspending or restraining, directly or indirectly, the enforcement of any schedule, rate, order or regulation of said board shall be granted.

Provided, that in such suit the court, by interlocutory order, may authorize the writing and acceptance of fire insurance policies at any rate, which in the judgment of the court is fair and reasonable during the pending of such suit, upon condition that the party to such suit in whose favor the said interlocutory order of said court may be, shall execute and file with the Commissioner

of Insurance and Banking a good and sufficient bond to be first approved by said court, conditioned that the party giving said bond will abide the final judgment of said court and will pay to Commissioner of Insurance and Banking whatever difference, in the rate of insurance, it may be finally determined to exist between the rate as fixed by said board complained of in such suit, and the rate finally determined to be fair and reasonable by the courts in said suit; and the said Commissioner of Insurance and Banking, when he receives such difference in money, shall transmit the same to the parties entitled thereto.

Whenever any action shall be brought by any company under the provisions of this section within said period of thirty days, no penalties nor forfeitures shall attach or accrue on account of the failure of the plaintiff to comply with the orders, schedules, rates or regulations sought to be vacated or modified in such action until the final determination of the same.

Either party to any such action, if dissatisfied with the judgment or decree of said court, may appeal therefrom as in other civil cases. No action shall be brought in any court of the United States to set aside any orders, rates, schedules, or regulations made by said board under the provisions of this act until all of the remedies provided for herein shall have been exhausted by the party complaining.

If any insurance company affected by the provisions of this act shall violate any of the provisions of this section, the Commissioner of Insurance shall, by and with the consent of the Attorney General, cancel its certificate of authority to transact business in this State.

Sec. 20. No company shall engage or participate in the insuring or reinsuring of any property in this State against loss or damage by fire, except in compliance with the provisions of this act; nor shall any such company knowingly write insurance at any rate different from the rates provided for in this act, or refund, or remit, in any manner, or by any device, any portion of the rates so established, or extend to any insured or other person any privilege, advantage, favor or inducement except such as is specified in the general basis schedule prepared and established by said board; and pending the fixing and establishment of said schedules and rates by said board, no such company shall

refund or remit in any manner or by any device, any portion of the rates promulgated by the board under this act, or extend to any insured or other person any privileges, advantages, favors, or inducement not authorized by the orders of the board under this act. It shall be unlawful for any insurance company authorized under the terms of this act to transact business in this State to directly or indirectly, by any special rate, tariff, rebate, drawback or other device, charge, demand, collect or receive from any person or persons, a greater or less or different compensation for the insuring of any property in this State, than it charges, demands, collects or receives from any other person or persons for like insurance on risks of like kind and hazard under similar circumstances and conditions; nor shall any company, or its officers, directors, general agents, State agents, special agents, local agents, or its representatives, grant or contract for any special favor or advantage in the dividends or other profits to accrue thereon, or in commissions or division of commissions, or any position, or any valuable consideration, or any inducement not specified in the policy contract of insurance; nor shall such company give, sell or purchase, offer to give, sell or purchase, directly or indirectly, as an inducement to insure or in connection therewith, any stocks, bonds or other securities of any insurance company or other corporation, partnership or individual, or any dividends or profits accrued or to accrue thereon or anything of value whatsoever, not specified in the policy; but nothing in this section or in this act shall be construed to prohibit the company from sharing its profits with its policy holders, provided that such agreement as to profit sharing shall be placed on or in the face of the policy, and such profit sharing shall be uniform and shall not discriminate between individuals or between classes; provided, however, that no part of the profit shall be paid until the expiration of the policy.

Any company, or any of its officers, directors, general agents, State agents, special agents, local agents or its representatives, doing any of the acts in this section prohibited, shall be deemed guilty of unjust discrimination; provided, the board, for good cause shown, may allow risks of like kind and hazard situated in any locality to be written temporarily at a different rate from

such risks similarly situated in other localities without subjecting the company so writing to the penalties hereinafter prescribed for discrimination.

Provided, however, that if any agent or company shall issue a policy without authority, and any policy holder holding such policy shall sustain a loss or damage thereunder, said company or companies shall be liable to the policy holder thereunder, in the same manner and to the same extent as if said company had been authorized to issue said policy, although the company issued said policy in violation of the provisions of this act. But this shall not be construed to give any company the right to issue any contract or policy of insurance other than as provided in this act.

Sec. 21. No person shall knowingly receive or accept from any insurance company or from any of its agents, sub-agents, brokers, solicitors, employees, intermediaries or representatives, or any other person, any rebate of premium payable on the policy or any special favor or advantage in the dividends or other financial profits accrued or to accrue thereon or any valuable consideration, position or inducement not specified in the policy of insurance, and any person so doing shall be guilty of a violation of the provisions of this section, and shall be punished by a fine of not exceeding one hundred dollars, or by imprisonment in the county jail for not exceeding ninety days, or by both such fine and imprisonment.

Sec. 22. The provisions of this law shall not deal with the collection of premiums, but each company shall be permitted to make such rules and regulations as it may deem just between the company, its agents and its policy holders; and no bona fide extension of credit shall be construed as a discrimination, or in violation of the provisions of this act.

Sec. 23. The Commissioner of Insurance, upon ascertaining that any insurance company or officer, agent or representative thereof has violated any of the provisions of this act, may, at his discretion, and with the consent and approval of the Attorney General, revoke the certificate of authority of such company, officer, agent or representative; but such revocation of any certificate shall in no manner affect the liability of such company, officer, agent or representative to the infliction of any other penalty provided by this act, and provided that any action, decision or determina-

tion of the Commissioner of Insurance and Banking and the Attorney General in such cases shall be subject to the review of the courts of this State as herein provided.

Sec. 24. Any insurance company affected by this act, or any officer or director thereof, or any agent or person acting for or employed by any insurance company, who, alone or in conjunction with any corporation, company or person, shall willfully do or cause to be done, or shall willfully suffer or permit to be done any act, matter or thing prohibited or declared to be unlawful by this act, or who shall willfully omit or fail to do any act, matter or thing required to be done by this act, or shall cause or willfully suffer or permit any act, matter or thing directed by this act not to be done, or who shall be guilty of any willful infraction of this act, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than three hundred dollars nor more than one thousand dollars for each offense; provided, that if the offense for which any person shall be convicted, as aforesaid, shall be an unlawful discrimination, such person be punished by a fine not less than three hundred dollars, nor more than one thousand dollars or by imprisonment in the county jail for a period not exceeding ninety days, or by both such fine and imprisonment, for each offense; provided, that the punishment of imprisonment shall not apply to artificial persons; provided, however, that the obeying of any order of said board shall not be construed to be a discrimination and a company, officer, director, agent or employee thereof, shall not be guilty of discrimination for obeying any order of said board.

Sec. 25. No person shall be excused from giving testimony or producing evidence when legally called upon to do so at the trial of any other person or company charged with violating any of the provisions of this act on the ground that it may incriminate him under the laws of this State; but no person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may testify or produce evidence under this act, except for perjury in so testifying.

Sec. 26. This act shall not apply to purely mutual or to purely profit-sharing fire insurance companies incorporated or unincorporated under the laws of this

State and carried on by the members thereof solely for protection of their property, and not for profit; nor to purely co-operative, inter-insurance and reciprocal exchanges carried on by the members thereof solely for the protection of their property and not for profit.

Sec. 26a. This act shall go into effect and become operative from and after the first day of September, 1910, and not before.

Sec. 27. Chapter 18 of the General Laws of the Thirty-first Legislature, passed by its First Called Session and approved April 19, 1909, entitled "An Act providing the conditions upon which fire insurance companies shall transact business in this State; and providing for the regulation and control of rates of premiums on fire insurance and to prevent discriminations therein; and to create a fire insurance rating board; and to provide penalties for violation of this act, and declaring an emergency," and all other laws and parts of laws in conflict with this act are hereby repealed.

Sec. 28. The fact that there is now no sufficient law in this State prohibiting unjust discriminations in the collection of fire insurance rates as between citizens of this State; nor protecting citizens in securing reasonable rates, constitutes an emergency and an imperative public necessity requiring that the constitutional rule requiring bills to be read on three several days to be suspended and that this act take effect and be in force from and after its passage, and it is so enacted.

(Lieutenant Governor Davidson in the chair.)

On motion of Senator Sturgeon, the committee report, which provided that the bill be printed in the Journal, was adopted.

The question being on engrossment of the bill,

Senator Hudspeth offered the following amendment:

Amend by striking out all after the enacting clause and insert the following:

"Be it enacted by the Legislature of the State of Texas:

"Section 1. Every fire, marine, or fire and marine insurance company issuing policies of insurance on property in this State, whether organized under the laws of this State or any other State, Territory or possession of the United States, or foreign countries, or by authority of the Federal government, now holding certificate of authority to transact business in this State, or hereafter granted authority to transact business in this State, shall be deemed to have accepted such certificate and to transact business thereunder, upon the condition that it consents to the terms and privileges of this act, and that it agrees to transact its business in this State subject thereto.

"Sec. 2. That there is hereby created a board to be known as the State Fire Rating Board, which shall be composed of the Commissioner of Insurance and Banking, who shall be chairman thereof, and two members to be appointed by the Governor. The members of said board, other than the Commissioner of Insurance and Banking, shall be appointed, as herein provided, within ten days after this act takes effect, for the term of one year, and biennially thereafter, and they each shall have had at least five years' practical experience in fire insurance business; they shall have the power to prescribe rates of insurance, to supervise and control rates of insurance, to decide all questions required, authorized or permitted to be passed upon by said board upon which they shall agree, and in case of disagreement as to any such question a decision of the Commissioner of Insurance and Banking shall determine the action of said board.

"Sec. 3. That the State Fire Rating Board is hereby authorized and empowered to call on any insurance company, or any officer, agent or representative thereof, authorized to transact business in this State under this act for any and all information relative to its business as often as deemed necessary by said board, and any company, officer agent or representative thereof failing to furnish such information when so called on shall be subject to the penalties provided for in Section — of this act.

"Sec. 4. That the members of the State Fire Rating Board, other than the Commissioner of Insurance and Banking, shall each receive as compensation for his service the sum of two thousand five hundred (\$2500) dollars per annum; the salaries of the members of said board and the compensation of the clerical force, and such other assistance as said board may deem proper to employ and all necessary traveling and other necessary expenses incurred by said board in carrying out the provisions of this act, shall be paid by warrants drawn by the Comptroller upon the State Treasurer, upon the order of said board; provided, that the total amount of all salaries and expenses shall not exceed the sum of twenty-five thousand dollars during any one year after this act takes effect.

"Sec. 5. That every fire, marine, or fire and marine insurance company authorized to transact business in this State shall use as the basis schedules, schedules and tariffs in effect in this State and in each locality thereof on December 31, 1909, as a maximum rate, and upon notice from the State Fire Rating Board immediately file such general basis schedules and rates and when so filed shall be the basis from which specific rates shall be made, but it is specifically provided that the State Fire Rating Board shall have the power to revise, alter and amend all rates or general basis schedules, and the rates and general basis schedules so amended shall be the basis from which the maximum rate at which the said risks shall be written, until the same shall be changed by said board or by some judicial proceeding; and provided that the rates in effect December 31, 1909, on insurance in this State shall be the maximum rate at which insurance risks of like kind and character similarly situated shall be written until said board shall have approved the maximum rate as hereinbefore provided; and it shall be unlawful

for any company authorized to transact business in this State to charge a higher rate, but it is specially provided that any insurance company may write any risk at a lower rate than the maximum rates promulgated by said board for such risks.

"Sec. 6. That no change shall be made by any company increasing the premium rates in the general basis schedules, or rates which have been filed in compliance with the requirements of this act, and the said rates of the respective companies shall not be increased by penalizing the risks or otherwise, except after thirty days' notice to the secretary of said board, which notice shall plainly state the changes proposed to be made in the schedules thereunder in force and upon the respective property or risk, and the time when such changes will go into effect; provided, that same shall not go into effect until approved by said board; and such changes shall be shown by filing new schedules in force at the time; provided, that said board may, in its discretion, and for good cause shown, allow or direct changes to be made upon notice for a shorter period than that specified herein to meet the peculiarities and demands of local conditions; provided, also, that said board may order changes in the rates of premium to meet unusual or peculiar conditions in any particular locality by giving notice of its intention to do so as herein provided.

"Provided, that said board shall have the power, upon reasonable notice of its intention to do so, to direct any or all such insurance companies, or on its own motion, to alter, amend or revise, the general basis schedules, or the specific schedules of rates filed by any company and to publish notice of such alteration, amendment, or revision; provided, that nothing herein shall be considered to deny the right of any company to reduce its rates to conform with any lower rate established or authorized by said board applying to the same character of risks under similar circumstances and conditions.

"Sec. 7. That every insurance company authorized to transact business in this State shall, before placing the policy to be used by its agents to submit same to the Fire Rating Board, shall have the power to prohibit the use of any policy, provisions, forms, clauses, endorsements or amendments, and it shall be its duty to prescribe and ap-

prove all forms of fire insurance policies, which approval shall be printed in bold type on each and every used or placed policy by any and all companies doing a fire insurance business in Texas.

"Sec. 8. That the provisions of this law shall not deal with the collections of premiums, but each company shall be permitted to make such rules and regulations as it may deem just between the company and its agents, and no policy shall be declared void or in any way affected by any endorsement not authorized by said board.

"That the policies heretofore written containing clauses making said policies void for non-payment of premiums are hereby validated and held to be in full force and effect until the expiration or cancellation of the same.

"And it is further provided that all contracts of insurance written prior to January 1, 1910, shall not be affected by any law passed by General or Special Session of the Thirty-first Legislature, nor shall any provision of this law affect such contract, but it shall remain in full force and effect according to its stipulations as originally entered into, and that no endorsement or permit entered into or attached to or passed upon said policy at any time, shall in any way affect its validity.

"Sec. 9. That the Commissioner of Insurance and Banking, if he shall find that any insurance company, or any officer, agent or representative thereof, has violated any of the provisions of this act, or failed to comply with any orders of said board, may, at his discretion, and with the consent and approval of the Attorney General, revoke the certificate of authority of such company, officer, agent, or representative, to the infliction of any other penalty provided by this act, and provided that any action, decision, or determination of the Commissioner of Insurance and Banking, in such case, shall be subject to the review of the courts of this State, as herein provided.

"Sec. 10. That the State Fire Rating Board shall not make any regulations or orders without giving all the insurance companies concerned reasonable notice thereof, and an opportunity to appear to be heard with respect to same, and if any insurance company or other person, or commercial body or city, or municipality, which shall be interested in any such order, shall be dissatisfied with any regulation, or rate adopted by said board, such insurance

company, person, commercial body, city or municipality, or their representatives, shall have the right within thirty days after the making of such rates, regulation or order to bring an action against said board in the district court of Travis county, Texas, to have such rate, regulation or order vacated or modified, and shall set forth in the petition therein the particular ground or grounds of objection to any or all of such rates, regulations or orders. In any such suit the issue shall be formed and the controversy tried and determined as in other civil cases; and the court may modify, change, set aside, vacate or annul one or more or any part of any of the regulations, orders or rates adopted or fixed by said board which shall be found by the court to be unreasonable, unjust, excessive, or inadequate, to compensate the company writing insurance thereon for the risks assumed by it, without disturbing others. No injunction, interlocutory order or decree suspending or restraining directly, or indirectly, the enforcement of any order of said board, shall be granted, provided that the court may permit any company complaining of any order or regulation made by said board to write insurance at any rate, which obtained prior to the making of such order or regulation complained of upon condition that the difference between the rate affected by the order complained of, and the rate at which it is permitted to write insurance, shall be deposited with the Commissioner of Insurance and Banking, and upon the final determination of the suit shall be paid by him to the insurance company, if the court shall find it entitled to the same, or to the holders of policies written by said company after the rates so complained of is ordered as the court may deem just and equitable.

"Either party to any such action, if dissatisfied with the judgment of said court, may appeal therefrom as in other civil cases. No action shall be brought in any court of the United States to set aside any order made by said board under the provision of this act until all the remedies provided for herein shall have been exhausted by the party complaining.

"If any fire, marine, or fire and marine insurance company authorized to transact business in this State shall violate any of the provisions of this section, the Commissioner of Insurance and Banking shall by and with the consent

of the Attorney General cancel its certificate of authority to transact business in this State.

"Sec. 11. That no person shall be excused from giving testimony or producing evidence when legally called upon to do so at the trial of any other person charged with violating any of the provisions of this act on the ground that it may incriminate him under the laws of this State, but no person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may so testify or produce evidence under the authority of this act, except for perjury in so testifying.

"Sec 12. That not later than after this act shall take effect, and annually thereafter, it shall be the duty of the Commissioner of Insurance and Banking, for the purpose of reimbursing the State for the amounts so expended during the current year in carrying out the provisions of this act, to collect from each fire, marine, and fire and marine insurance company, which transacted business in this State during the preceding calendar year or any portion thereof, the portion of said sum of twenty thousand dollars which the gross premium collected by such company during such year from persons or upon property in this State by all said insurance companies transacting business in this State. Provided, that in computing such gross premium receipts there shall be deducted therefrom the amount paid out for reinsurance and for the return premiums on canceled risks. If at the end of any year after this act shall take effect it shall be found that the aggregate amount expended in carrying out the provisions of this act during such year has been less than twenty-five thousand dollars, the amount remaining unexpended shall be applied in the reduction of the amount to be collected from said companies for the succeeding year.

"The amount due under the provisions of this section by each company shall be certified by the Commissioner of Insurance and Banking, and he shall revoke the certificate of authority of any company which shall fail to pay the same within thirty days after the receipt of such certificate. Provided, that the collections from said insurance companies provided for in this section shall not be made for any year during which any such company shall be liable under the laws of this State to the

payment of an occupation tax at a rate of not less than 2½ per cent of the gross premium received, less deduction for reinsurance and return premiums on canceled risks.

"Sec. 13. That this act shall not apply to mutual fire insurance companies incorporated under the laws of this State nor to purely co-operative, inter-insurance and reciprocal exchanges carried on by the members thereof solely for the protection of their own property and not for profit.

"Provided, that no person, persons, firm or association of persons shall be permitted to solicit, write or transact a fire insurance business in any city, town or county, except those places that are situated in the county in which it maintains its home office, and in which the said person or persons or firm is organized, except where said person or persons, firm or corporation of persons shall file with the Department of Insurance a bond with two or more good and sufficient sureties in the sum of \$10,000, made payable to the Governor of this State and for the benefit of the persons holding policies issued by them. But it is specially provided that no bond or security shall be required from such person, persons, firm or association that confines its business to one county.

"And it is further provided that any person, firm or association of persons guilty of violating any provision of this section shall be deemed guilty of a misdemeanor, and upon conviction shall be fined in any sum not less than \$100 nor more than \$1000.

"Sec. 14. That whenever the said board shall reduce any rate and such rate so reduced shall affect the unearned premium on pre-existing contracts of insurance, which shall be written after this act takes effect, such unearned premiums shall be entitled to such reduction and any company having outstanding such pre-existing contracts shall reduce the unearned portion of the premium in such contracts on a pro rata basis for the time that shall elapse between the date such reduction takes effect and the date of expiration of such pre-existing policy contracts.

"Sec. 15. And it is provided further that if any fire, marine, or fire and marine insurance company authorized to transact business under this act, or any ruling of the Fire Insurance Rating Board under this act, shall write any insurance under any schedule or schedules except that provided for in this

act, in this State or in any locality thereof, such insurance company shall forfeit its certificate of authority to transact business in this State, and the Commissioner of Insurance shall at once so declare. And it is further provided that, should any insurance company authorized to transact a fire insurance business in this State, cease to do business in this State, or cancel its policy of insurance and remove from this State on account of any law enacted by the Legislature of this State, then this shall work a forfeiture of the right of said insurance company to again re-enter this State, and the Commissioner of Insurance shall not issue a certificate of authority to said company or companies to again transact a business of fire insurance in this State."

Resolved further, that a copy of these resolutions be furnished to the Representative and Senator from Wise county.

We favor the amendment of the law to the end that no schedules or rates filed by the insurance companies shall become effective until approved by the Fire Rating Board, and that the Board shall have authority over all forms and clauses used by the companies in writing fire insurance in Texas.

Section 1. That Article 359, Chapter 4, Title 10 of the Penal Code of the State of Texas, as amended by Chapter 132, Acts of the Thirtieth Legislature,

be and the same is hereby amended so as to hereafter read as follows:

"Article 359. A bawdy house is one kept for prostitution or where prostitutes are permitted to resort or reside for the purpose of plying their vocation. A disorderly house is any assignation house or any theater, playhouse or house where spirituous, vinous or malt liquors are kept for sale, and prostitutes, lewd women or women of bad reputation for chastity are employed, kept in service or permitted to display or conduct themselves in a lewd, lascivious or indecent manner, or to which persons resort for the purpose of smoking or in any manner using opium, or any house in which spirituous, vinous or malt liquors are sold or kept for sale without first having obtained a license under the laws of this State to retail such liquors; or any house located in any county, justice precinct or other subdivision of a county where the sale of intoxicating liquor has been prohibited under the laws of this State, in which such non-intoxicating malt liquor is sold or kept for the purpose of sale as requires the seller thereof to obtain internal revenue license under the laws of the United States as a retail malt liquor dealer, or any house located in any county, justice precinct or other subdivision of a county in which the sale of intoxicating liquor has been legally prohibited, where the owner, proprietor or lessee thereof has posted license issued by the United States of America, authorizing such owner, proprietor or lessee thereof to pursue the occupation and business of a retail liquor dealer or a retail malt liquor dealer. H. B. No. 19. By Brownlee and Tarver.

A BILL

To Be Entitled

An Act to amend Article 411ppp and 411qqq, Title 11, Chapter 6c, Penal Code of the State of Texas, passed by the Regular Session of the Twenty-ninth Legislature of Texas and approved April 18, 1905, prescribing certain restrictions to be placed upon the shipment and transportation of intoxicating liquors into any county, justice precinct, school district, city or town, or subdivision of a county within this State, where the sale of intoxicating liquors has been prohibited under the laws of this State, providing that where any such intoxicating liquor is not called for and taken away and the charges thereon, if any, paid by the consignee, it shall be started in transit back to the consignor within seven days from the time of its arrival at its destination; prescribing that a book, to be open for public inspection, shall be kept in which shall be entered the transactions pertaining to the re-

ceipt, shipment and transportation and delivery of such intoxicating liquors: and fixing penalties for the violations of this act, and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. That Articles 411ppp and 411qqq, Title 11, Chapter 6c, Penal Code of the State of Texas, passed by the Regular Session of the Twenty-ninth Legislature of Texas, and approved April 18, 1905, shall hereafter read as follows:

"Article 411ppp. Each and every person in this State, who shall place or have placed any package or parcel, of whatever nature, containing any intoxicating liquor, with any express company, railroad company, or other common carrier, for shipment or transportation to any point in any county, justice precinct, school district, city or town, or subdivision of a county within this State, where the sale of intoxicating liquors has been prohibited under the laws of this State, shall first place in a conspicuous place, in plain letters, on such package or parcel the words, "intoxicating liquor," the character and quantity of such intoxicating liquor, the place from where shipped, the place of destination and the names of the consignor and the consignee; and no express company, railroad company, or other common carrier, or any agent thereof, in this State, shall accept or receive from any person, firm or corporation for shipment or transportation, to any such point where the sale of intoxicating liquors has been prohibited, under the laws of this State, any such package or parcel, unless the same shall have been labeled in the manner and form as hereinbefore, in this section, required, and no express company, railroad company, or other common carrier, or any agent thereof, in this State, shall deliver such package or parcel to any other than the consignee in person. Any agent of such express company, railroad company, or other common carrier having the custody of any book or books required by this act of such express company, railroad company, or other common carrier, to be kept, shall at the request of any person, at any reasonable time or during office hours produce such book or books for inspection. Any agent of any express company, railroad company or other common carrier, or any other person who shall violate any of the provisions of this section of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be

fined in any sum not less than \$25 nor more than \$100, and shall be punished by imprisonment in the county jail for any term not less than twenty nor more than sixty days.

"Article 411qq. When any express company, railroad company or other common carrier within this State shall receive any package or parcel of whatever nature, whether from a point within or without this State, containing any intoxicating liquor, for transportation to any point within any county, justice precinct, school district, city or town, or subdivision of a county where the sale of intoxicating liquors has been prohibited under the laws of this State, such express company, railroad company or other common carrier shall forthwith transport such intoxicating liquor to the place of its destination, and upon the arrival of same at its place of destination there shall be entered in a book to be kept for that purpose the names of the consignor and the consignee, the exact time of the arrival of such package or parcel at the place of its destination, the place from where shipped, the quantity and character of such intoxicating liquor, as shown on such package or parcel, the exact time delivered to the consignee, if delivered, and the signature of such consignee, who shall sign in person for same before delivery thereof, and such book shall be open at all reasonable hours for the inspection of the public. If such package or parcel be not called for and taken away by the consignee and all charges thereon, if any, paid by such consignee, it shall be the duty of such express company, railroad company or other common carrier to start such package or parcel in transit back to the consignor thereof within seven days from the time of its arrival at the place of its destination, and the consignor shall be liable to such express company, railroad company or other common carrier for the express or freight charges in transportation and returning same. Any express company, railroad company or other common carrier violating any of the provisions of this chapter shall be liable to a penalty of \$100 for each infraction thereof, to be recovered in the name of the State of Texas in any court of competent jurisdiction in any county where such express company, railroad company, or other common carriers have an office or an agent or a line of railway; and each day that such intoxicating liquor shall be kept at the place of its destination after the expiration of seven days

from the time of its arrival, shall be deemed a separate infraction."

Sec. 2. The fact that there is now no adequate law requiring express companies, railroad companies or other common carriers to keep a book containing the transaction pertaining to the receipt, shipment and transportation and delivery of intoxicating liquor into prohibition territory, to be open to public inspection, creates an emergency and an imperative public necessity that the constitutional rule, requiring bills to be read on three several days, be and the same is hereby suspended, and that this act shall take effect and be in force from and after its passage, and it is so enacted.

H. B. No. 38. By Looney and Vaughan.

A BILL

To Be Entitled

An Act denouncing as a nuisance any place, room or building in any county, justice precinct, town, city or such subdivision of a county as may be designated by the commissioners court of said county, in which the sale of intoxicating liquors has been prohibited under the laws of this State, kept or used for the purpose of selling intoxicating liquor in violation of law, also denouncing as a nuisance any intoxicating liquor kept, possessed or used for such purpose and the tools, appliances and furniture used therewith, prescribing a suitable procedure for the search and seizure of any such liquor, tools, appliances and furniture, for the trial of the issue presented, the judgment to be rendered therein, also to prevent by means of the writ of injunction at the suit of the State or any citizen thereof, the use or the contemplated use, or threatened use of any such place, room or building or the keeping of any such intoxicating liquor and the tools, appliances and

furniture used therewith, for any such illegal purpose, and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. Any place, room or building in any county, justice precinct, town, city, or such subdivision of the county as may be designated by the commissioners court of said county in which the sale of intoxicating liquor has been prohibited under the laws of this State, kept, maintained or used for the purpose of selling intoxicating liquor in violation of law, and any intoxicating liquor kept or possessed for such purpose, whether kept or possessed in any such place, room or building or elsewhere, and any signs, screens, bars, bottles, glasses and any other furniture, tools, appliances or other articles or things used as aids in keeping and maintaining any such place, room or building, or any such liquor are each and all hereby declared to be a common nuisance.

Sec. 2. Upon affidavit being made by any credible person of the county where the proceeding is begun, before the county judge or a justice of the peace of said county, describing the place, room or building, as near as may be, where it is believed by the affiant that intoxicating liquor is being sold in violation of law, or is being kept or possessed for the purpose of being sold in violation of law, or shall name or describe, if the name is unknown, any person who has, keeps or possesses any intoxicating liquor for the purpose of sale in violation of law, or has, keeps or possesses any signs, screens, bars, bottles, glasses, furniture, tools, appliances or other articles or things, describing them, as near as may be, for the purpose of using such articles in the sale or in any manner as an aid to the unlawful sale of intoxicating liquor, then and in either event it shall be the duty of such county judge or justice of the peace, as the case may be, to issue a warrant, commanding the sheriff or any constable of the county, to immediately search such place, room or building, describing the same, as near as may be, or such person giving name or description, and it shall be the duty of said officer to whom said warrant is delivered by the county judge or justice of the peace to immediately search such place, room or building, or such person, and if refused admission into any such place, room or building, then and in such event the officer executing such warrant

shall be and is hereby authorized to force an entrance to any such place, room or building, using such force as may be necessary for that purpose, and he shall search for and seize the intoxicating liquor described in such warrant, which may be found in such place, room or building, or in the possession or under the control of such person named or described in said warrant, that is being kept or possessed for the purpose of being sold in violation of law and shall also seize all signs, screens, bars, bottles, glasses, furniture, tools, appliances or other articles or things which may have been described in said warrant as being used in keeping or maintaining such place, or used in any manner as an aid to the unlawful sale of intoxicating liquor; and after seizure he shall make an accurate inventory of everything seized, stating therein the reasonable market value of each item, and shall securely keep the same until replevied or otherwise disposed of under the provisions of this act.

Sec. 3. The search warrant above provided for shall, in substance, conform to the following requisites: It shall run in the name of the State of Texas and be directed to the sheriff or any constable of the county; it shall name the owner of the intoxicating liquor to be seized, if his name shall be known; it shall command him to search the place, room, premises, building, or any part thereof, or the person named in the complaint, and shall specify as near as may be the things to be searched for and seized and the owner thereof, when known, if not the same shall allege that the owner is unknown, and shall be signed officially by the magistrate issuing the same; provided, an immaterial variance between the complaint and warrant shall not render the latter void.

Sec. 4. At any time before the trial of the issues as provided herein, the owner of said property seized, or any part thereof, or the person in whose possession or under whose control the same was at the time of seizure, may replevy the same by giving bond with two or more good and sufficient sureties, or a solvent guaranty or surety company, chartered or authorized to do business under the laws of this State, to be approved by the officer making the seizure, or his successor in office, payable to the State of Texas, in an amount equal to the reasonable market value of the property replevied, as fixed on the inventory; conditioned that should said prop-

erty in said action be condemned as a nuisance, the obligors in such bond will pay to the State of Texas the reasonable cash market value of the property replevied at the time it was seized, and all costs, including 15 per cent addition on said amount as a fee to the county or district attorney who discharges such duty for the State, and 10 per cent on the amount thereof for the sheriff or constable.

Sec. 5. The officer executing said warrant shall, within fifteen days, make due return thereof to the county judge or the justice of the peace issuing the same, and when a seizure has been made thereunder he shall, within five days after said seizure, make said return, showing therein a list of the intoxicating liquor and other articles seized, the reasonable market value thereof, as fixed by him, and the replevy bond or bonds, if any given, and if not replevied, the name and residence of owner or owners of any such property seized and replevied, and if no one is known to be the owner, then the name or names and residence of the person, firm or corporation in whose possession or under whose control said liquor or other property was when seized; on return being made to said county judge or justice of the peace, he shall file said cause in the district court of said county; provided further, when two or more replevy bonds are given or where there are two or more owners or claimants to the property, or parts thereof seized, urging distinct and separate claims, then and in such event each case shall be filed and docketed separately in the district court of said county, and in such event said county judge or justice of the peace shall make and certify to as many copies of the original papers as there are cases, all of which shall be considered and treated as originals. The clerk of the district court of said county when said cause is filed shall docket the same in the name of the State of Texas, as plaintiff, and the principal in the replevy bond, and if not replevied the name of the owner or person found in possession as defendant.

Sec. 6. The clerk of the district court of said county shall immediately issue notice, which shall be served upon the defendant in the manner required for service of citation in civil suits; provided the defendant shall be required to answer, if served, ten days before the first day of the return term, excluding the day of service and return; and provided further, the defendant shall have

the right to expedite a trial of the issue by waiving service and time; said cause if tried by a jury shall be submitted on a special issue, which shall be in substance whether or not the intoxicating liquors and other property seized constituted a nuisance within the meaning of this act when seized. If no jury has been demanded by either side, then said issue shall be determined by the court. Said cause shall have precedence over all other cases except cases of like kind or cases to which the State is a party; the same shall be tried and prosecuted under the rules of evidence, practice and procedure, and in all other respects as other civil cases; and in case of appeal the transcript shall, without delay, be made up and forwarded by the clerk to the proper appellate court; provided, that the State shall not be required to pay or give security for costs, nor bond on appeal, and the same shall be perfected by notice thereof given in open court.

Sec. 7. The notice provided for in this act shall briefly recite the record upon which it is based; provided, that any immaterial variance between the writ and former proceedings will not be fatal thereto. It shall require the defendant to show cause by a day named, why the liquor and other articles seized should not be declared a nuisance; but the burden of proof shall be upon the State to show by a preponderance of the evidence that the allegations of the complaint are substantially true.

Sec. 8. The property when not replevied shall remain in the custody of the officer seizing or in that of his successor in office until final judgment, subject to such orders for the preservation of same as the judge of the district court of said county may make, either in term time or vacation as shall appear to be to the best interest of all parties concerned; provided, that the defendant in said suit may replevy the property at any time prior to final trial.

Sec. 9. Should the State prevail in the suit, the court shall enter a judgment condemning the property seized to be destroyed and against the defendant for all costs, and shall issue a proper writ directing the sheriff or any constable of the county to execute the same. The said writ shall conform in all material respects to the writ of execution, except that it shall command said officer, in addition to making levy sufficient to collect the amount of costs, to destroy said property in the manner

most suited to its nature. If the property, prior to the entry of said judgment, has been replevied, then judgment shall be entered against the principal and the sureties on such bond for an amount equal to the reasonable cash market value of the property at the time the same was seized, including 15 per cent thereof as attorney's fees and 10 per cent fee to the sheriff or constable, and the judgment, when collected, less the costs, shall be paid in to the county treasurer, and shall become a part of the jury fund of the county. Should the defendant prevail, judgment shall be entered restoring said property seized, to the defendant or discharging the principal and sureties on the replevy bond, as the case may be.

Sec. 10. It shall be the duty of the county attorney to represent the State in said cases and in all counties where there is a district attorney he shall assist the county attorney in the prosecution of all such suits. In all cases where the State recovers judgment there shall be taxed against the defendant as costs the usual fees allowed in civil cases, in addition to 15 per cent of the value of the property for the county or district attorney's fees, and 10 per cent of the value thereof for the sheriff and constable, which fees and costs shall not be accounted for by said officers under any provisions of law relating to fees of office; provided, however, that the State shall in no event be liable for or be required to pay any costs. Where the county attorney represents the State he shall be entitled to the fee of 15 per cent above provided, and where he is assisted in said civil case by the district attorney said fee shall be equally divided between them.

Sec. 11. The actual, threatened or contemplated use of any place, room, premises, building or part thereof, in any county, justice precinct, town, city or subdivision of a county, as may be designated by the commissioners court of said county, in which the sale of intoxicating liquors has been prohibited under the laws of this State, for the purpose of selling intoxicating liquor in violation of law, or in which to keep, store or deposit any intoxicating liquor for the purpose of being sold in violation of law, or the possession of or having under control or management at any such place, or any intoxicating liquor for the purpose and with the intent to sell the same in violation of

law, shall be enjoined at the suit of the State or of any citizen thereof.

Sec. 12. Any person, company, corporation or association of persons who may so use, or be about to use, or who may aid or assist in any such actual or threatened use of such place, room, premises, building or part thereof, or any person who may have, possess or manage for any such purpose any intoxicating liquor, or who may aid or assist another in thus possessing, having or maintaining or managing intoxicating liquor for such purpose, may be made a party defendant to such suit.

Sec. 13. The Attorney General and the several district and county attorneys shall institute and prosecute all such injunction suits that the said Attorney General or district or county attorney may deem necessary; provided, that such suit may be brought and prosecuted by any one of said officers; and, provided further, that nothing contained herein shall prevent said injunction from issuing at the suit of any citizen of this State who may sue in his own name, and any such citizen shall not be required to show that he is personally injured by reason of the matters and things of which he complains.

Sec. 14. The procedure in all cases brought hereunder shall be the same as in other suits for injunction, or where injunction is sought as near as may be; provided, that where the suit is brought in the name of the State by any of the officers aforesaid, the petition therefor need not be verified, nor shall the State be required to pay or give security for costs or on appeal, and appeal by the State shall be perfected by giving notice thereof in open court, and all such cases shall have precedence on the docket of all courts where pending.

Sec. 15. In any proceeding under the provisions of this act, evidence of the general reputation of the house, place, building, premises or part thereof, or of the business, occupation or pursuit of the defendant involved, may be admitted in evidence as tending to prove the allegations of the complaint; provided, that in any investigation no person shall be exempt from giving testimony therein, but the testimony given by a witness shall not be used against him in any criminal action or proceeding nor shall any criminal action or proceeding be brought against such witness on account of any testimony so given by him.

Sec. 16. The insufficiency of the laws

of this State to prevent the violation of local option laws, and the fact that this session of the Legislature will end by law in a few days, create an emergency and an imperative public necessity demanding the suspension of the constitutional rule requiring bills to be read on three several days, and that this act take effect and be in force from and after its passage, and it is so enacted.

SIMPLE RESOLUTION.

By Senator Cofer:

Whereas, House bill No. 15, known as the day light bill, and which provides

for the closing of saloons from 7 o'clock p. m. to 7 o'clock a. m., passed the House of Representatives by almost a two-thirds vote and was read in the Senate and referred to Judiciary Committee No. 2; and

Whereas, Said Judiciary Committee No. 2 has refused to consider said House bill but has postponed consideration of same until 11:59 a. m. August 18, 1910, a time beyond adjournment of the present session of the Legislature; and

Whereas, Such action of said committee is tantamount to a refusal to permit the Senate to act upon said House bill and can have no other meaning but that these Senators and those standing with them on anti-saloon legislation are opposed to the day light bill and favor saloons remaining open at night; and

Whereas, It is nothing but fair and just to the other branches of the Legislature to have its bill on so important a subject reported out to the Senate for our respectful consideration and hearing and this bill should not be smothered to death in committee, especially as those taking this unseemingly action pretend to favor the night closing law; therefore, be it

Resolved by the Senate, That Judiciary Committee No. 2 be directed to forthwith report said House bill to the Senate by 12 o'clock m. August 16, 1910, so that the Senators of the Texas Senate may go upon record as favoring or opposing the night closing of saloons.

HOUSE BILL NO. 7.

The Chair laid before the Senate on second reading and pending business,

House bill No. 7, A bill to be entitled "An Act providing conditions upon which insurance companies writing contracts or policies of insurance against the hazard of fire may transact business in the State of Texas, and providing for the making, promulgation, regulation and control of schedules, rates and premiums and forms of policies; and to prevent discrimination therein, and to create a State Insurance Board, and prescribing the duties and authority of said board, and each member thereof; to appropriate money therefor, and to provide penalties for violation of this act, and repealing Chapter 18 of the General Laws of the State of Texas, passed by the First Called Session of the Thirty-first Legislature and all other laws and parts of laws in conflict therewith, and declaring an emergency."

There being an amendment and a substitute for the amendment pending, Senator Bryan withdrew the amendment and the substitute became the amendment.

Here Senator Holsey moved to take up House Concurrent Resolution No. 1, which was on the table subject to call.

(President Pro Tem. Alexander was called to the chair.)

Senator Watson moved to table the motion to take up House Concurrent Resolution No. 1.

Senator Holsey desired to speak to the motion and Senator Watson made a point of order that a motion to table was not debatable, and President Pro Tem. Alexander sustained the point of order.

Senator Holsey then desired to speak

to a question of personal privilege, and the Chair (President Pro Tem. Alexander) held that Senator Holsey would have a right to the floor after the vote on the motion to table had been taken.

Senator Terrell of Wise made a point of order that the resolution being on the table subject to call did not require a motion to call it up, but could be called up without a motion. The Chair stating that Senator Holsey had a right to make the motion he did if he so desired.

Action recurred on the motion to table the motion to take up House Concurrent Resolution No. 1, and the motion to table prevailed by the following vote:

Yeas—19.

Adams.	Peeler.
Alexander.	Perkins.
Harper.	Ratliff.
Hudspeth.	Real.
Hume.	Senter.
Kauffman.	Terrell of McLennan.

Paulus.	

Nays—10.

Brachfield.	Mayfield.
Bryan.	Sturgeon.
Cofer.	Terrell of Bowie.
Greer.	Terrell of Wise.
Holsey.	Ward.

Absent—Excused.

Veale.

Senator Holsey then called up House Concurrent Resolution No. 1, which was on the table subject to call.

Senator Watson made the point of order that the matter of taking up House Concurrent Resolution No. 1 had just been voted on, and rejected, and could not be under the rules of the Senate, considered again on this day, quoting Rule 42 of the Rules of the Senate.

The Chair (President Pro Tem. Alexander) held that the vote by which the motion to take up the resolution having been tabled, would preclude further action on same for today, therefore sustaining the point of order.

HOUSE BILL NO. 7.

Action recurred on the pending business, the question being on the amendment by Senator Hudspeth (see Journal of yesterday for amendment).

Senator Meachum moved the previous question on the amendment and Section

7 of the bill, which motion being duly seconded, and was so ordered.

The amendment by Senator Hudspeth was adopted by the following vote:

Yeas—19.

Adams.	Peeler.
Bryan.	Perkins.
Holsey.	Real.
Hudspeth.	Senter.
Hume.	Terrell of Bowie.
Kauffman.	Ward.
Kellie.	Watson.
Meachum.	Weinert.
Murray.	Willacy.
Paulus.	

Nays—10.

Alexander.	Mayfield.
Brachfield.	Ratliff.
Cofer.	Sturgeon.
Greer.	Terrell of McLennan.
Harper.	Terrell of Wise.

Absent—Excused.

Veale.

Consideration of Section 7 was passed.

Senator Hudspeth moved to rescind the action of the Senate on yesterday by which a motion was adopted to consider the bill by sections, and that the bill be considered as a whole.

The motion prevailed.

Here Senator Holsey arose to a question of personal privilege. Pending the discussion several points of order were made, contending that the Senator should confine himself to a question of personal privilege, etc.

REASONS FOR VOTE.

I vote "yea" on the motion to adopt the report of the Free Conference Committee on the part of the Senate, because a failure to adopt the report of the Free Conference Committee will, in all probability, defeat all legislation at this session of the Legislature, and might be grounds for the Governor to call another extra session of the Legislature for the purpose of passing legislation on this question, and this would entail a large expense upon the taxpayers of this State.

While I prefer the House bill to that of the Senate, I believe the Senate bill is a better law than the present insurance law, and I therefore am constrained

to vote for the adoption of the Free Conference Committee report.

MAYFIELD.

House bill No. 35. By Reedy et al.

A BILL

To Be Entitled

An Act to require persons and corporations, or receivers, engaged in repairing railroad cars or other railroad equipment, not including locomotives, to erect and maintain buildings for the protection from rain, wind, or other inclement weather, employes engaged in repairing railroad cars and other railroad equipment, and providing penalties for the violation of this act, and regulating penalties and repealing Chapter 53, Acts of the Thirty-first Legislature of the State of Texas, entitled "An Act to require all railroad companies doing business in this

State to provide suitable premises and shelter for the protection from the weather of their employes while engaged in labor in the service of said railroad companies, and declaring an emergency."

Be it enacted by the Legislature of the State of Texas:

Section 1. That every person, corporation or receiver engaged in repairing railroad cars or other railroad equipment, not including locomotives, shall erect and maintain a building at every station or other point where as many as five men are regularly employed on such repair work, the building to cover a sufficient portion of its track so as to provide that all men regularly employed in the construction and repair of cars, trucks or other railroad equipment, except locomotives, shall be sheltered from rain and fully protected from other inclement weather.

The provisions of this act shall not apply at points where less than five men are regularly employed in the repair service, nor at division terminals or other points where it is necessary to make light repairs only on cars, nor to cars loaded with time or perishable freight, nor to cars when trains are being held for the movement of said cars.

Sec. 2. Any person, corporation or receiver who shall violate the provisions of this act shall be liable to the State of Texas for a penalty in any sum not less than \$50.00 nor more than \$100.00, and each day of such failure or refusal to comply with the provisions of this act shall be considered a separate infraction authorizing the recovery of a separate penalty.

Suit for recovery of penalties hereunder shall be brought by the Attorney General of this State or by the county or district attorney of the county in which suit is brought, and the county or district attorney, as the case may be, shall receive a fee of ten (10) per cent upon each penalty recovered and collected by him in addition to the fees allowed him by law at this time, and said fee shall be over and above the fees allowed under the general fee act in force in this State.

Sec. 3. That Chapter 53 of the Acts of the Regular Session of the Thirty-first Legislature entitled "An Act to require all railroad companies doing business in this State to provide suitable premises and shelter for the protection from the weather of their employes

while engaged in labor in the service of said railroad company" be, and the same is hereby repealed; that this act shall take effect ninety days after the adjournment of this Special Session; but that all persons, corporations or receivers affected by this act shall have until June 1, 1911, within which to comply with the provisions thereof.

Sec. 4. The importance of the legislation proposed in this bill and the probable early adjournment of the present session of the Legislature, rendering it improbable that this bill can be read on three several days in each house creates an emergency and an imperative public necessity exists requiring the constitutional rule requiring bills to be read on three several days in each house be suspended, and said rule is hereby suspended, and it is so enacted.

Following is the bill in full:

An Act to amend Chapter 16 of the Acts of the Regular Session of the Thirty-first Legislature of the State of Texas, approved February 20, 1909, entitled "An Act authorizing any county in the State of Texas, having a population in excess of fifty thousand inhabitants by the last preceding United States census, to submit to the qualified voters the propriety of a bond issue for the construction and maintenance of causeways, via-

ducts, bridges and approaches across and rivers within the limits of such county, and to provide for the construction, maintenance and use of such causeways, viaducts, bridges and approaches, and declaring an emergency," by adding thereto Sections 9a and 9b, providing a method by which counties may acquire land upon which to construct and maintain said causeways, viaducts, bridges and approaches, by condemnation, and by grant from cities and counties of the right to use streets, alleys, public highways and public grounds, and to authorize counties to construct said causeways, viaducts, bridges and approaches across the lines of railway, telegraph and telephone corporations, and the method thereof, and declaring an emergency.

Section 1. Be it enacted by the Legislature of the State of Texas: That Chapter 16 of the Acts of the Regular Session of the Thirty-first Legislature of the State of Texas, approved February 20, 1909, be amended by adding thereto Sections 9a and 9b, which shall read as follows:

"Section 9a. Said county, acting through its commissioners court, shall have the power, and is hereby authorized to take and appropriate such lands and other property, situated within or without the limits of any city or town, as may be deemed necessary for the establishment, location, construction, maintenance, repair or security of said causeways, viaducts, bridges and approaches, and to define the area of land needed not to exceed two hundred feet in width, and to acquire, take, hold and enjoy the same, for the purposes aforesaid, and shall have the right to exercise the power of eminent domain, and to condemn lands for the uses and purposes aforesaid; said condemnation proceedings to be instituted in the name of the county, before the judge of the court having jurisdiction by law to act in condemnation proceedings for rights of way by railroad companies and all laws in reference to applications and proceedings for the condemnation of rights of way for railroad companies shall apply to condemnations under this act, the county occupying the position of the railroad company, except that in no case shall the county be required to give bond; provided, nevertheless, that said county acting through its commissioners court

shall be empowered to take the fee simple estate to the land condemned or acquired hereunder, whenever deemed necessary for the purposes of this act; provided further, that before exercising the power of eminent domain hereunder, said county commissioners court shall by order duly entered on its minutes define and describe the lands needed and determine whether an easement or fee simple estate in said land shall be taken. And the county commissioners court of any county, with the consent of any city, given by its duly authorized municipal authorities or the municipal authorities of any city, in which said causeway, viaduct, bridge and approaches are to be constructed and maintained, shall have power and are hereby authorized to grant the use of, and impose such additional uses upon all streets, alleys, public highways and other public grounds as they may deem necessary for the location, construction and maintenance of said causeways, viaducts, bridges and approaches, and may authorize the construction of same across or upon any such street, alley, public highway or public grounds.

"Section 9b. Said county, acting through its commissioners court, is authorized to enter upon any lands owned by any railway, telegraph or telephone corporation, in fee or in any less estate, whether acquired by purchase or condemnation or by virtue of any provision in the charter of such corporation, for the purposes of this act, and from time to time define and appropriate so much of said lands as may be necessary for the establishment, location, construction and maintenance of said causeways, viaducts, bridges and approaches, and shall have the right of access to construct and maintain said causeways, viaducts, bridges and approaches, and when constructed to repair the same, and may proceed to obtain the right of way, and to condemn lands for the use of the county in the manner provided by law in the case of railway corporations. Said county shall have the right to cross and intersect the line of any such railway, telegraph or telephone corporation, and in case any differences shall arise between the county and said railway, telegraph or telephone corporation as to the manner or mode of any crossing or intersection made by said causeway, viaduct, bridge and approaches, their differences shall be adjusted by the special commissioners ap-

pointed hereunder to assess damages for the land condemned.

Sec. 2. The fact that there is now no adequate law authorizing counties to condemn property for the construction and maintenance of viaducts across rivers in this State, creates an imperative public necessity that the constitutional rule requiring bills to be read on three several days be suspended, and the said rule is hereby suspended and this act shall take effect from and after its passage, and it is so enacted.

Very respectfully,

T. M. CAMPBELL,
Governor of Texas.

PROCLAMATION BY THE GOVERNOR.

Executive Office,
State of Texas.

I, T. M. Campbell, Governor of the State of Texas, by virtue of authority vested in me by the Constitution, do hereby call a Special Session of the Thirty-first Legislature to convene in the city of Austin, Texas, beginning at 8:30 o'clock a. m. ation of the railroad by the company or by any receiver thereof, and for loss of and damages to property sustained in the operation of the railroad by such company and by any receiver thereof, and for the current expenses of such operation, including labor, supplies and repairs, and such other legislation in respect to the subject here mentioned as may be appropriate and necessary in the premises.

2. Legislation providing for a Board of Prison Commissioners, Superintendent of Prisons and other officers and employes, and for the care, management, discipline and method of employment of convicts confined in the State penitentiaries; providing for the working of convicts on State account, and the passage of such further laws relating to the State's penitentiary system as the Legislature, in its wisdom, may enact.

3. The enactment of adequate laws defining "bills of lading" and defining the word "carriers." Providing that it shall be the duty of common carriers, and their officers and agents, to issue negotiable bills of lading and straight or non-negotiable bills of lading at the request of the shipper, between certain places to be prescribed in the law, and defining negotiable or order bills of lading and non-negotiable or straight bills of lading and prescribing the necessary requirements for all bills of lading; to make all negotiable bills of lading negotiable by indorsement and delivery in the same manner as bills of exchange and promissory notes and prohibiting the placing upon negotiable bills of lading any terms which would in any manner limit their negotiability; and providing for the division of bills of lading into such different series as may be appropriate and defining each series, prescribing how bills of lading shall be issued and prohibiting the issuing of negotiable bills of lading in part or parts, except as prescribed by law; prescribing the duties of general freight agents or persons authorized to act for them and the duties of local station agents of common carriers, and for such additional legislation on this subject as business conditions and the general welfare may demand.

road company or other common carrier unless the same is free from "spiders," exposed ends of bands or any exposed or any obtruding part of the ties, bands, buckles or splices used in tying or baling such bale of cotton, and to provide penalties and methods of enforcement of the laws enacted on this subject.

5. Legislation requiring the erection and maintenance of buildings for the protection from rain, wind and inclement weather of employes engaged in repairing railroad cars and other railroad equipment, and providing penalties for violations, and regulating suits for such penalties, and such further legislation upon this subject as may be appropriate and is necessary to provide proper protection to employes engaged in such work.

6. To enact a law repealing the law enacted by the Thirty-first Legislature at its First Called Session, known as Chapter 18, and entitled "An Act providing conditions upon which fire insurance companies shall transact business in this State, and providing for the regulation and control of rates of premium on fire insurance, and to prevent discrimination therein and to create a Fire Insurance Rating Board, and to provide penalties for violations of this act, and declaring an emergency," and to enact adequate laws regulating and fixing rates and preventing unjust discriminations by fire insurance companies and to prevent combinations between such companies to destroy competition in fire insurance rates in Texas, and to provide penalties therefor and to provide all necessary means for the enforcement of such laws.

COMMITTEE REPORTS.

Committee Room,
Austin, Texas, August 17, 1910.

Hon. A. B. Davidson, President of the Senate.

Sir: We, your Judiciary Committee No. 2, to whom was referred

House bill No. 23, A bill to be entitled "An Act to prevent the drinking of intoxicating liquors on premises owned, controlled or occupied by clubs, lodges or other associations of persons in counties, subdivisions of counties, cities and towns where the sale of intoxicating liquors has been or where the same may hereafter be legally prohibited under the laws of this State, and declaring an emergency,"

Have had same under consideration, and beg to report it back to the Senate with the recommendation that it do pass, with the following amendments, and be not printed:

Amend the bill, Section 1, by adding after the words, "If any member of any club, lodge or other association of persons," at the beginning of said section, the following: "Other than a fraternal or secret organization or association now in existence, and that now has a total membership in this State, including all affiliating or sub-

ordinate lodges or clubs, of not less than five thousand."

Amend Section 3 of the bill by adding at the end thereof the following: "Provided further, this act shall not apply to any club, lodge or association which does not keep intoxicating liquors stored on the premises and only permits such liquor to be brought upon its premises at bona fide entertainments, nor shall it prevent the use of such liquors for sacramental purposes."

HARPER, Chairman.

Committee Room,

Austin, Texas, August 17, 1910.

Hon. A. B. Davidson, President of the Senate.

Sir: Your Committee on Enrolled Bills have carefully examined and compared Senate bill No. 20, and find it correctly enrolled, and have this day, at 9 o'clock p. m., presented same to the Governor for his approval.

TERRELL of McLennan, Chairman.

Following is the bill in full:

Senate bill No. 20, "An Act making an appropriation for a deficiency in support of the State Government for the fiscal year ending August 31, 1910, being to pay for the services of a clerk employed by the Tax Commissioner of the State of Texas, and to pay a deficiency in support of the State Government, being to pay E. A. Bolmes, Commissioner of Pensions, the sum of \$438.90 for services from June 12, 1909, to August 31, 1909; for Secretary of State's office the sum of seventy-five (\$75.00) dollars, or so much thereof as may be necessary for the purpose of preparing for publication the laws passed by the Third Called Session of the Thirty-first Legislature; and sixty-one thousand, five hundred and eighty-two (\$61,582.50) and fifty one-hundredth dollars for the

purpose of paying the interest due and unpaid up to September 1, 1910, upon one million fifty-five thousand and seven hundred (\$1,055,700) dollars of bonds of the State of Texas reguanded by this Called Session of the Thirty-first Legislature, and declaring an emergency."

Be it enacted by the Legislature of the State of Texas:

Section 1. That the sum of two hundred dollars be and the same is hereby appropriated out of any money in the State Treasury not otherwise appropriated, to pay for the services of a clerk employed by the Tax Commissioner of the State of Texas for the months of May and June in the fiscal year ending August 31, 1910; to pay E. A. Bolmes, Commissioner of Pensions, salary from June 12, 1909, to August 31, 1909, the sum of \$438.90; for Secretary of State's office the sum of seventy-five (\$75) dollars, or so much thereof as may be necessary for the purpose of preparing for publication the laws passed by the Third Called Session of the Thirty-first Legislature; and sixty-one thousand five hundred and eighty-two (\$61,582.50) and fifty one-hundredth dollars for the purpose of paying the interest due and unpaid up to September 1, 1910, upon one million fifty-five thousand and seven hundred (\$1,055,700) dollars of bonds of the State of Texas refunded by this Called Session of the Thirty-first Legislature.

Sec. 2. Whereas, the fact that there is now no appropriation to pay said claims against the State herein provided for, which is an outstanding and legal claim against the State, creates an emergency and an imperative public necessity, which justifies the suspension of the constitutional rule requiring bills to be read on three several days in each house, and that this act take effect and be in force from and after its passage, and it is so enacted.

Executive Office,

Austin, August 17, 1910.

To the Legislature:

I have the honor to transmit herewith proclamation of the Governor of the State of Texas, convening the Legislature in Special Session, to meet in the city of Austin, Texas, beginning at eighty-three o'clock a. m., Thursday, August 18, A. D. 1910, for the purposes contained in said proclamation.

Very respectfully,
T. M. CAMPBELL,
Governor of Texas.

Executive Office,
State of Texas.

I, T. M. Campbell, Governor of the State of Texas, by virtue of authority vested in me by the Constitution, do hereby call a Special Session of the Thirty-first Legislature to convene in the city of Austin, Texas, beginning at 8:30 o'clock a. m. Thursday, August 18, A. D. 1910, for the following purposes and for legislation on the following subjects, to-wit:

1. Legislation amending Articles 4549 and 4950, of Chapter 11, Title 94, of the Revised Statutes of the State of Texas, and to prescribe the conditions

upon which the purchaser, or purchasers, and associates, if any, of the property and franchises of a railroad company may become owners of its charter or may organize a new corporation, and governing, regulating and limiting the stocks and bonds of such new corporation and of the old corporation after the sale of its property and franchises, and providing for the protection of holders of claims against the old corporation, including claims for death and for personal injuries sustained in the operation of the railroad by the company or by any receiver thereof, and for loss of and damages to property sustained in the operation of the railroad by such company and by any receiver thereof, and for the current expenses of such operation, including labor, supplies and repairs, and such other legislation in respect to the subject here mentioned as may be appropriate and necessary in the premises.

2. Legislation providing for a Board of Prison Commissioners, Superintendent of Prisons and other officers and employees, and for the care, management, discipline and method of employment of convicts confined in the State penitentiaries; providing for the working of convicts on State account, and the passage of such further laws relating to the State's penitentiary system as the Legislature, in its wisdom, may enact.

3. The enactment of adequate laws defining "bills of lading" and defining the word "carriers." Providing that it shall be the duty of common carriers, and their officers and agents, to issue negotiable bills of lading and straight or non-negotiable bills of lading at the request of the shipper, between certain places to be prescribed in the law, and defining negotiable or order bills of lading and non-negotiable or straight bills of lading and prescribing the necessary requirements for all bills of lading; to make all negotiable bills of lading negotiable by indorsement and delivery in the same manner as bills of exchange and promissory notes and prohibiting the placing upon negotiable bills of lading any terms which would in any manner limit their negotiability; and providing for the division of bills of lading into such different series as may be appropriate and defining each series, prescribing how bills of lading shall be issued and prohibiting the issuing of negotiable bills of lading in part or parts, except as prescribed by law; prescribing the duties of general freight agents or

persons authorized to act for them and the duties of local station agents of common carriers, and for such additional legislation on this subject as business conditions and the general welfare may demand.

4. Legislation requiring persons, firms, corporations and associations of persons engaged in compressing cotton in this State to so bind and tie all bales of cotton so that no bale of cotton by them compressed, recompressed, haled or rebaled, shall be delivered to any railroad company or other common carrier unless the same is free from "spiders." exposed ends of bands or any exposed or any obtruding part of the ties, bands, buckles or splices used in tying or baling such bale of cotton, and to provide penalties and methods of enforcement of the laws enacted on this subject.

5. Legislation requiring the erection and maintenance of buildings for the protection from rain, wind and inclement weather of employees engaged in repairing railroad cars and other railroad equipment, and providing penalties for violations, and regulating suits for such penalties, and such further legislation upon this subject as may be appropriate and is necessary to provide proper protection to employees engaged in such work.

6. To enact a law repealing the law enacted by the Thirty-first Legislature at its First Called Session, known as Chapter 18, and entitled "An Act providing conditions upon which fire insurance companies shall transact business in this State, and providing for the regulation and control of rates of premium on fire insurance, and to prevent discrimination therein and to create a Fire Insurance Rating Board, and to provide penalties for violations of this act, and declaring an emergency," and to enact adequate laws regulating and fixing rates and preventing unjust discriminations by fire insurance companies and to prevent combinations between such companies to destroy competition in fire insurance rates in Texas, and to provide penalties therefor and to provide all necessary means for the enforcement of such laws.

7. To consider and act upon such other matters as may hereafter be presented by me, pursuant to Section 40, Article 3, of the Constitution of the State of Texas.

In testimony whereof, I have set my hand and caused the seal of the State

of Texas to be affixed at Austin, Texas, this the 17th day of August, A. D. 1910.
(Seal.) T. M. CAMPBELL,
Governor of Texas.

posed of four Senators and five members of the House of Representatives, was appointed to visit the Huntsville and Rusk penitentiaries, and all other places as was necessary in their judgment and such committee was authorized to hold their meetings in the State at such places as they deemed advisable. The committee was, by said act of the Legislature, instructed "to make a thorough and complete examination of the financial conditions of the penitentiary system, employing such help as was deemed necessary, to the end that a full, fair, complete and exhaustive examination be made of the entire penitentiary system, covering a period from January 1, 1907, and prior to that time, if deemed necessary by the committee, to the present time." The committee was "further instructed to make an investigation of the Iron Industry at Rusk, and in its report make such recommendations as to the future operation of such Iron Industry as they believed, after such investigation, would best subserve the State's interests, and especially to recommend whether or not in their judgment such industry should be abandoned or its operation continued by the State." That said committee should "investigate the conditions of the said penitentiaries, and of all farms, camps and trains where convicts are worked or kept, as to the food, clothing, health and treatment of the convicts, and all matters pertaining to the discipline, safe-keeping and reformation." The committee was empowered to issue all necessary process, to summon witnesses in the name of the State, to appear before it under oath, to swear witnesses, summoned before it, and by a majority vote punish for contempt in like manner and to the same extent and under the same rules as a district court, and that a record should be kept of all testimony. The act further provided that the committee "shall perform its duties as soon after the adjournment of the Legislature as it may deem practicable, and when its labors have been performed, it shall make a written report to the Governor of the State, together with all the evidence taken during the investigation."

Pursuant to and in accordance with the provisions of said act, the committee was appointed by the presiding officers of the House and Senate, respectively; and, having performed the duties devolving upon the members thereof, the said committee filed the following reports and communications with the Gov-

error of the State, together with the evidence taken during the investigation:

1. A preliminary report, with recommendations, transmitted with a letter addressed to the Governor by Hon. C. E. Gilmore, Chairman, and dated November 24, 1909, which report is marked "No. 1, Preliminary Report."

2. Report on the Iron Industry, dated January 25, 1910, and marked "Report No. 2, Iron Industry," which report recommends the abandonment of the operation of the Iron Industry by the State, and is signed by Messrs. Paulus, Weinert, Stamps, Hudspeth, Moller and Lee.

3. The report of the Corporation Audit Company, a firm of accountants employed to audit the books and accounts of the penitentiary system for a period of eight years, prior to September 1, 1909, marked "Exhibit A." The journal of the proceedings of the committee, containing also a copy of the itemized accounts of all expenses incurred, marked "Exhibit C." And a copy of all testimony taken before the committee and various subcommittees, marked "Exhibits 1 to 6," inclusive.

4. Accounts and notes receivable dropped from the records of the system, marked "Exhibit A," and accounts receivable, Huntsville, August 31, 1909, also marked "Exhibit A."

5. The report of the subcommittee, dated February 14, 1910, appointed to prepare a report in compliance with the request of the Governor, made on November 16, 1909, that the committee "furnish to him the name of any officer, sergeant, guard or other person now in the employ of the penitentiary system who had been found guilty of any violation of the law, or of any mistreatment of convicts since January 15, 1907, the beginning of the present administration, the nature of the offense charged, the time and place, and the names of the witnesses in each case," together with letter from Hon. C. E. Gilmore, dated February 17, 1910, transmitting to the Governor the said report, marked "Exhibit D."

6. Letter from Hon. C. E. Gilmore, dated April 29, 1910, accompanying said exhibits.

7. Letter from Senator F. C. Weinert, member of the committee, protesting against the filing of the testimony taken by the committee until that portion denominated by him as illegal and not privileged, is eliminated, and marked "Exhibit F."

8. The final report of the committee,

dated February 17, 1910, marked "Final Report of Penitentiary Investigating Committee."

These several reports, exhibits and recommendations I now have the honor to lay before the Legislature for your information, and for such disposition as your honorable bodies may deem appropriate. The act of the Legislature providing for the investigation of the State penitentiaries originated in the Senate, and custom as well as propriety suggests that all proceedings thereunder should be submitted to that branch of the Legislature, but as the Senate is not now in session and will not be in session until tomorrow afternoon, the said reports, exhibits and recommendations will accompany the message to the House of Representatives.

Very respectfully,
T. M. CAMPBELL,
Governor of Texas.

Hoping that this Legislature will pass a carshed bill that will prove constitutional, I remain,

Following is the bill in full:

S. B. No. 6. By Senators Peeler, Harper, Kellie, Bryan and Cofer.

A BILL

To Be Entitled

An Act to amend Articles 4549 and 4550 of Chapter 11, Title 94 of the Revised Statutes of the State of Texas, and prescribe the conditions upon which the purchaser or purchasers, and associates, if any, of the property and franchises of a railroad company may become owners of its charter, or may organize a new corporation, and governing, regulating and limiting the stocks and bonds of the new corporation, and of the old corporation, after the sale of its property and franchises, and declaring an emergency.

Section 1. Be it enacted by the Legislature of the State of Texas: That Articles 4549 and 4550 of Chapter 11, Title 94 of the Revised Statutes of the State of Texas be so amended as to hereafter read as follows:

Article 4549. In case of the sale of the property and franchises of a railroad company, whether by virtue of an execution, order of sale, deed of trust, or any other power, or by a receiver acting under judgments, heretofore or to be hereafter rendered by any court of competent jurisdiction, the purchaser or purchasers at such sale, and associates, if any, shall acquire full title to such property and franchises, with full power to maintain and operate the railroad and other property incident to it, under the restrictions imposed by law; provided, however, that said purchaser or purchasers, and associates, if any, shall not be deemed and taken to be the owners of the charter of the railroad company and corporations under the same, nor vested with the powers, rights, privileges and benefits of such charter ownership, as if they were the original

corporators of said company, unless the purchaser or purchasers, and associates, if any, shall agree to take and hold said property and franchises, charged with, and subject to the payment of, all subsisting liabilities and claims, for death and for personal injuries sustained in the operation of the railroad, by the company and by any receiver thereof, and for loss of, and damage to property, sustained in the operation of the railroad by the company and by any receiver thereof, and for the current expenses of such operation, including labor, supplies and repairs, such agreement to be evidenced by an instrument in writing, signed and acknowledged by said purchaser or purchasers, and associates, if any, and filed in the office of the Secretary of State of the State of Texas; and, provided further, that such charter, together with the powers, rights, privileges and benefits thereof shall pass to said purchaser or purchasers, and associates, if any, subject to the terms, provisions, restrictions and limitations imposed and to be imposed by law; and, provided further, that the amount of stock and bonds which may be held against said property and franchises, after the sale thereof, as well as the manner of issuance of such stock and bonds shall be fixed, determined and regulated by the Railroad Commission of Texas, at its discretion, save that the total encumbrance secured by lien on said property and franchises shall not exceed the amount allowed by Article 4584b of the Revised Statutes of Texas of 1895.

Article 4550. In case of any sale heretofore or hereafter made of the property and franchises of a railroad company, within this State, the purchaser or purchasers thereof, and associates, if any, shall be entitled to form a corporation, under Chapter 1 of Title 94 of the Revised Statutes of Texas for the purpose of acquiring, owning, maintaining and operating the road so purchased, as if such road were the road intended to be constructed by the corporation, and when such charter has been filed the new corporation shall have the powers and privileges then con-

ferred by the laws of this State upon chartered railroads, including the power to construct and extend; provided that, notwithstanding such incorporation, the property and franchises so purchased shall be charged with and subject to the payment of all subsisting liabilities and claims, for death and personal injuries sustained in the operation of the railroad by the sold-out company and by any receiver thereof, and for loss of and damage to property, sustained in the operation of the railroad by the sold-out company and by any receiver thereof, and for the current expenses of such operation, including labor, supplies and repairs; and provided that, by such purchase and organization, no right shall be acquired in conflict with the present Constitution and laws, in any respect, nor shall the main track of any railroad once constructed and operated be abandoned or removed; and, provided further, that the amount of stock and bonds which may be issued by said new corporation, as well as the manner of their issuance, shall be fixed, determined and regulated by the Railroad Commission of Texas, at its discretion, save that the total encumbrance secured by lien on said property and franchises shall not exceed the amount allowed by Article 4584b of the Revised Statutes of Texas of 1895.

Sec. 2. That this act shall not be construed to in anywise repeal or impair the provisions of Chapter 14, Title 94 of the Revised Statutes of the State of Texas, except in so far as the same may be changed by the provisions of this act.

Sec. 3. Whereas, there is no provision in the laws of this State for any return from purchasers of railroad properties for valuable privileges and no adequate regulation of stocks and bonds against sold-out railroad properties, there exists an imperative public necessity and emergency for the suspension of the rule requiring bills to be read on three several days in each house, and said rule is hereby suspended, and this act shall take effect and be in force from and after its passage, and it is hereby so enacted.

Committee Room,
Austin, Texas, August 23, 1910.

Hon. A. B. Davidson, President of the Senate.

Sir: Your Committee on Enrolled Bills have carefully examined and compared Senate bill No. 1, and find it correctly enrolled, and have this day, at 10:40 o'clock a. m., presented same to the Governor for his approval.

TERRELL of McLennan, Chairman.

Following is the bill in full:

An Act appropriating the sum of \$50,000, or so much thereof as may be necessary, out of the public revenue, not otherwise appropriated, to pay per diem of members and per diem of officers and employes of the Fourth Called Session of the Thirty-first Legislature of Texas, and declaring an emergency.

Be it enacted by the Thirty-first Legislature of Texas:

Section 1. That the sum of \$50,000, or so much thereof as may be necessary, is hereby appropriated out of any public moneys, not otherwise appropriated, to pay per diem of members and per diem of officers and employes of the Fourth Called Session of the Thirty-first Legislature.

Sec. 2. The fact that there is no appropriation available for the payment of per diem of members and per diem of officers and employes, creates an emergency, and an imperative necessity that the constitutional rule requiring bills to be read on three several days be suspended, and that this act shall take effect and be in force from and after its passage, and it is so enacted.

PETITIONS AND MEMORIALS.

By Senator Meachum:

Whereas, The fire insurance companies of this State have just issued a schedule of rates applicable to the business and commercial risks of Huntsville, Texas; and

Whereas, Said rates show an extraordinary increase over those which have obtained in said city for years, said increase ranging from 50 to 75 per cent in many cases, and even more in some cases; and

Whereas, Said increased rates were formulated and issued by an arbitrary and autocratic committee, acting on be-

half of every insurance company in this State, without consultation with or explanation or notice to any of our individual insurers; and

Whereas, We believe that the action of said committee in so increasing our rates as aforesaid is arbitrary, unjust and uncalled for by any circumstances respecting the risks carried by insurance companies in said city; and

Whereas, We further believe that such action of said committee, or rating board, is contrary to the genius of our institutions and especially contradictory of and antagonistic to our State anti-trust laws and was never demanded by the voice of the people of this State; now, therefore, be it

Resolved by the Business League of the City of Huntsville, Texas, in called session assembled, that we unqualifiedly condemn the present Fire Rating Law as being detrimental to the best interests of our people, and especially do we oppose the recent innovation of the insurance companies whereunder they attach what is termed a co-insurance clause to all policies written upon business or commercial risks, which, we think, inequitable, unfair and unreasonable.

We earnestly request our Senator and Representatives in the Texas Legislature to vote for the repeal of the present Fire Rating Law and the enactment of a new law which shall attempt to establish a maximum rate only on all risks and leave the minimum rates to be determined by competition between the companies, firmly believing that the competitive system is always in line with American traditions and the best interest of the people. In this connection, we especially commend the bill as passed by the Texas Senate on the 22nd day of August, 1910.

We especially urge and petition the Fire Rating Board of this State to give to us all possible relief from the schedule of rates on business and commercial risks first referred to hereinbefore, which rates we declare to be outrageous, confiscatory and unreasonable in every respect.

The above resolutions were unanimously adopted on the 22nd day of August, 1910, by the Huntsville Business League, and its officers were instructed to furnish copies to the Senator and Representatives from this district in the Texas Legislature, and also the State Fire Rating Board.

H. B. No. 8. By Moller, Byrne, Adams and Harman.

A BILL

To Be Entitled

An Act to require persons, firms, corporations and associations of persons engaged in compressing cotton in this State to so bind and tie all bales of cotton so that no bale of cotton by them compressed, recompressed, baled or rebaled, shall be delivered to any railroad company or other common carrier unless the same is free from dangerously exposed ends of bands or any exposed or any obtruding dangerous part of ties, bands, buckles or splices used in tying or baling such bale of cotton; and to provide penalties therefor; and providing that persons, firms or corporations who shall receive for loading, storing or transportation any cotton, the condition of which shall be in violation of the provisions of this act, shall be liable in damages to the employees of such persons, firms or associations of persons or corporations for injuries sustained as the result of such improper and unlawful compressing of cotton; and prescribing the duties of the Commissioner of Labor, and making an appropriation for the Bureau of Labor Statistics, and providing for annual accounting by said Commissioner of Labor, and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. That every person, firm, corporation or association of persons,

owning or operating a compress in this State and their agents and employes are hereby required, in compressing, re-compressing, baling or rebaling cotton bales, to so bind and tie every bale of cotton by them compressed, recompressed, baled or rebaled so that no such bale shall be delivered to any railroad company or other common carrier by such person, firm, corporation or association of persons, their agents or employes, unless such bale of cotton shall be free from all or any dangerously exposed ends of bands or buckles, or any dangerously exposed or protruding part of the ties, bands, buckles or splices used in tying or binding such bale of cotton. And any such person, firm, corporation or association of persons, who shall fail to bind or tie any bale of cotton by them compressed, recompressed, baled or rebaled, in the manner above provided, and shall deliver or cause to be delivered any such bale of cotton to any railroad company or other common carrier, such person, firm, corporation or association of persons shall forfeit and pay to the State of Texas the sum of not less than fifty dollars (\$50), nor more than two hundred and fifty dollars (\$250), which may be recovered in a civil suit brought in the name of the State of Texas in a court of competent jurisdiction; provided, that any person, firm, corporation or association of persons receiving for storage, loading for transportation or transporting any such compressed bale or bales of cotton, in this State, containing any dangerously exposed ends of bands or buckles or any dangerously protruding part or parts of the ties, bands, buckles or splices used in tying or binding such bale or bales of cotton shall be liable in damages for injury to any person in the employ of such person, firm, corporation or association of persons, occasioned by reason of such dangerously exposed ends of bands or buckles or any dangerously exposed or protruding part or parts of the ties, bands, buckles or splices used in tying or binding such bale or bales of cotton while in the discharge of the duties of such employment. The duty of inspection of such bales of cotton shall be on the employer and not on the employe.

Sec. 2. It shall be especially the duty of the Commissioner of Labor and his deputies to see that the provisions of Section 1 hereof are observed and enforced and in pursuance thereof he shall

obtain and collect evidence of all violations of said provisions upon the part of persons, firms, corporations and associations of persons engaged in the business of compressing cotton, who shall fail to comply with the provisions of Section 1 hereof. It is further provided that the sum of five thousand dollars (\$5000), or as much thereof as may be necessary, is hereby appropriated out of any funds in the State Treasury, not already appropriated, for the use of the Bureau of Labor Statistics so as to enable its officers and deputies to perform their duties hereinbefore mentioned for the fiscal year ending August 31, 1911. The Commissioner of Labor shall file annual statement with the Governor showing in detail all expenses incurred by him in connection with his duties under this act.

Sec. 3. The fact that many persons are now being injured in handling dangerously compressed cotton, creates an emergency and an imperative public necessity requiring that the constitutional rule which provides that bills shall be read on three several days be suspended, and that this act take effect and be in force from and after its passage, and it is so enacted.

Committee Room,
Austin, Texas, August 24, 1910.

Hon. A. B. Davidson, President of the Senate.

Sir: Your Committee on Internal Improvements, to whom was referred Senate bill No. 4, have had same under consideration, and beg to report it back to the Senate with the recommendation that it do pass, with the following amendments:

Amend the bill, Section 1, by adding after the words "shall erect and maintain a building" the following words "or shed."

Also amend Section 1 by striking out the word "fully" in the sentence of said section reading in part as follows: "Shall be sheltered from rain and fully protected from other inclement weather."

Also amend Section 2 by substituting for the words "and each day of such failure" the following words: "And each ten days of such failure."

And that same be not printed, but printed in the Journal.

BRACHFIELD, Chairman.

Following is the bill in full:

S. B. No. 4. By Senators Senter and Brachfield.

A BILL

To Be Entitled

An Act to require persons and corporations, or receivers, engaged in repairing railroad cars or other railroad equipment, not including locomotives, to erect and maintain buildings for the protection from rain, wind or other inclement weather, employees engaged in repairing railroad cars and other railroad equipment, and providing penalties for the violation of this act, and regulating penalties and repealing Chapter 53, Acts of the Thirty-first Legislature of the State of Texas, entitled "An Act to require all railroad companies doing business in this State to provide suitable premises and shelter for the protection from the weather of their employees while engaged in labor in the service of said railroad companies, and declaring an emergency."

Be it enacted by the Legislature of the State of Texas:

Section 1. That every person, corporation or receiver engaged in repairing railroad cars or other railroad equipment, not including locomotives, shall erect and maintain a building at every station or other point where as many as five men are regularly employed on such repair work, the building to cover a sufficient portion of its track so as to provide that all men regularly employed in the construction and repair of cars, trucks, or other railroad equipment, except locomotives, shall be sheltered from rain and fully protected from other inclement weather.

The provisions of this act shall not apply at points where less than five men are regularly employed in the repair service, nor at division terminals or other points where it is necessary to make light repairs only, on cars nor to cars loaded with time or perishable freight, nor to cars when trains are being held for the movement of said cars.

Sec. 2. Any person, corporation or receiver who shall violate the provisions of this act shall be liable to the State of Texas for a penalty in any sum not less than \$50 nor more than \$100, and each day of such failure or refusal to comply with the provisions of this act

shall be considered a separate infraction authorizing the recovery of a separate penalty.

Suit for recovery of penalties hereunder shall be brought by the Attorney General of this State or by the county or district attorney of the county in which suit is brought, and the county or district attorney, as the case may be, shall receive a fee of ten per cent (10%) upon each penalty recovered and collected by him in addition to the fee allowed him by law at this time, and said fee shall be over and above the fee allowed him by law at this time, and said fee shall be over and above the fees allowed under the general fee act in force in this State.

Sec. 3. That Chapter 53 of the Acts of the Regular Session of the Thirty-first Legislature, entitled "An Act to require all railroad companies doing business in this State to provide suitable premises and shelter for the protection from the weather, of their employees while engaged in labor in the service of said railroad company," be and the same is hereby repealed; that this act shall take effect ninety days after the adjournment of this Special Session; but that all persons, corporations or receivers affected by this act shall have until June 1, 1911, within which to comply with the provisions thereof.

Sec. 4. The importance of the legislation proposed in this bill and the probable early adjournment of the present session of the Legislature, rendering it improbable that this bill can be read on three several days in each house, creates an emergency and an imperative public necessity exists requiring the constitutional rule requiring bills to be read on three several days in each house be suspended, and said rule is hereby suspended, and it is so enacted.

ADDITION TO STANDING COMMITTEE.

The Chair here announced the appointment of Senator Hudspeth as a member of the Committee on State Penitentiaries to take the place of Senator Stokes, deceased.

PERSONAL PRIVILEGE REMARKS.

Senator Brachfield here moved that the remarks of Senator Real, as a matter of personal privilege, delivered on yesterday, be printed in today's Journal.

The motion prevailed, and the following are the personal privilege remarks:

After reading the following quotations from the San Antonio Light, Senator Real said:

“(By MacMillan.)

“Special Dispatch.

“Austin, Texas, August 24.—It has been years since so many railroad attorneys and lobbyists have hovered over the Legislature. The threat of a 2-cent fare bill, and the present danger of two or three railroad ‘twisters’ already on the calendar have been enough to fill the air with big black birds.

“As usual, a pretense is made of fighting these ‘cinch bills’ in the open by the vocal power of the brass-lined human throat. But this music is used, like the fife and drum corps in a militia company, merely to keep ‘the boys’ in step.

The real work is done in a more effectual way.

“Apparently, the Senate is still true blue to the railroads as it was last session. But it is going to take a cast iron nerve for any Senator, no matter how accustomed he may be to be trusted, to stand up to fight against the I. & G. N. receivership bill.

“This railroad company is trying to get away with \$2,000.00 owing to citizens of Texas—business men, widows, orphans and laborers—this by a hocus pocus in high finance.”

Mr. President and Gentlemen of the Senate:

For the first time since I have been a member of this body, I rise to a point of personal privilege. I do so fully upon my own account, and because I believe an injustice has been done to each and every member of the Senate of Texas. The article above read appeared in the San Antonio Light, Wednesday, August 24th, and is supposed to have been written by one MacMillan. The San Antonio Light being a paper of State-wide circulation and bearing the reputation of being an honorable and truthful journal, and being published in my district, I desire to call its attention to the erroneous and absolute misstatements of the article above, and always having believed it to be a newspaper of fairness and truthfulness, I believe that it will correct the above gigantic misrepresentation, or come forth with the proof to sustain said charges.

Having been born almost under the dome of the Alamo, where Texans fought for Texas, and the name of the Alamo being loved and revered by every Texan whose red Caucasian blood flows through his veins, my life, both personal and political, is well known to the people of my district, and to those who do not know me, I court the most strenuous investigation. The above charges, by insinuation and innuendo, having been made by a Democratic press in my district, and being a candidate for re-election, I especially invite the closest scrutiny of every act of mine, personal or political on every vote cast by me since I have been a member of this Senate. If found to be correct, then, and only then, do I ask for re-election by the voters of my district; if found otherwise, then I ask that you vote for my opponent.

But to the issue: The San Antonio Light misrepresents by its special Austin correspondent, the Senate of Texas. As to what has happened here in the years

past, I do not know, because I have only been a member of the Thirty-first Legislature. I am one who believes that a newspaper or a man should know of what he speaks, or he should not speak. The foul slanderer and assassin of character can easily tear down, many times by insinuation and assumptions, and when called upon fail to make good.

While, as stated above, I ask the closest personal scrutiny of every act of mine since I have been a member of this Senate, I, as the public knows, being the only Republican member of the Senate, but I am one who believes a man can be honest and sincere and be of a different religious and political faith than myself. I know that every member of this Senate is an honest, clean, high-toned representative of the people who have sent him here, and any pretense or misrepresentation otherwise, without some direct, absolute charge, is an injustice, not only to every one individually, but to the Senate in its entirety and a slap at those who sent them here. It seems to me that the wholesale slandering of public officers of Texas by newspapers should cease at some time. I am absolutely in favor of going to the depths of all accusations of graft and corruption if to be found anywhere, by any of our officers, but I believe there is no such in the Senate of Texas, because for two years, by daily association with each and every Senator, I would have at some time or upon some occasion found it out.

I hereby challenge the San Antonio Light to make some direct charge against myself, or any member of the Senate of Texas, of wrong doing, not by insinuation or general innuendo, but specifically stating any fact or facts known by said newspaper or correspondent, or forever stand in the eyes of honest people and the free press of this State as assassins of character and libelous slanderers of the names of honest men.

Morning call concluded.

SENATE BILL NO. 6.

Action recurred on pending business. Senate bill No. 6, a bill to be entitled "An Act to amend Articles 4549 and 4550 of Chapter 11, Title 94, of the Revised Statutes of the State of Texas, and prescribe the conditions upon which the purchaser or purchasers, and associates, if any, of the property and franchises of a railroad company may become owners of its charter, or may organize a new corporation, and governing, regu-

lating and limiting the stocks and bonds of the new corporation, and of the old corporation, after the sale of its property and franchise, and declaring an emergency."

The question being on the following pending amendment by Senator Huds-peth:

Amend the bill by inserting the following as Section 3 and number old Section 3, Section 4:

"Section 3. The limitations and conditions imposed by this act upon the purchaser or purchasers of any such property and franchises, taking same at any such sale, subject to the payment by such purchaser or purchasers of all the subsisting liabilities, claims and demands of any such railway company, as provided in Article 4549 herein, and the provisions in Article 4550 herein, that the property and franchises so purchased shall be subject to the same liabilities claims and demands in the hands of the new corporation as in the hands of the sold out corporation, shall not apply to the sale of any railway property and franchises sold under foreclosure of a mortgage securing bonds, all of which bonds were authorized issued and registered, and which mortgage was executed and registered subsequent to the enactment of the 'Stock and Bond Law,' same being Chapter 14, of Title 94, of the Revised Statutes of the State of Texas of 1895."

Pending.

Pending discussion on the above amendment,

Senator Alexander offered the following amendment to the amendment:

Amend the amendment by adding the following: "Provided, that should the courts declare this section of this act unconstitutional or unauthorized by law, then such decision shall affect only this section and shall not affect any other section or part of this act."

Pending.

APPENDIX.

PETITIONS AND MEMORIALS.

By Senator Adams:

At a meeting of the citizens of Stephenville the following resolution and petition were adopted:

Resolved, That this petition be sent, a copy each to our Representatives in the House of Representatives and to the Senator for this district, with request that it be read in each house as an expression of the wishes and sentiments of this meeting.

J. J. BENNETT, Chairman.

G. W. JENKS, Secretary.

To the Legislature of Texas:

We, the citizens of Stephenville, Texas, respectfully petition that you provide some relief from the extortions and robberies of the insurance companies which now do and have done business in Texas.

We show that for the past ten (10) years the average insurance premiums paid by this city amount to twenty thousand dollars (\$20,000) per year, making a total of about two hundred thousand dollars (\$200,000), and that during that period the losses paid to insurers of this town do not exceed ten thousand dollars (\$10,000).

We show that, notwithstanding this enormous disproportion between premiums paid and losses paid at the rates then existing, that the insurance companies operating in this field have raised the rates of insurance many times what they were during the times stated.

We show that acting professedly under the laws as they now exist the insurance companies operating in this field have made rates for insurance which are so exorbitant that no legitimate business can possibly pay them and survive.

We further show that some of the rates demanded by said insurance companies are so wholly exorbitant that to demand is practically to provide that the property of the citizens of this city shall not be insured at all.

We further petition that such laws shall be enacted as shall enable the citizens of Texas to incorporate insurance companies within this State upon such terms and provisions as shall best facilitate that object, to the end that the enormous sums heretofore paid to insurance companies shall remain in Texas.

We further petition that the Legislature of Texas, in addition to such legislation as shall favor the incorporation of companies within this State, shall make the laws of Texas so burdensome to insurance companies incorporated without this State and which seek to extort unreasonable rates that they can not do business within this State, and that they shall be at once compelled to abandon this State as a field for robbery, or else make reasonable rates.

We believe that the State of Texas is able to provide for all the insurance companies that are needed, or that will ever be needed; and we believe it will be best for the State that its people do its own insurance, and that they cease to send out of this State the enormous sums heretofore paid in insurance premiums until reasonable and just rates of insurance are secured.

J. J. BENNETT, Chairman.

G. W. JENKS, Secretary.

SENATE BILL NO. 6.

Action then recurred on Senate bill No. 6, the question being on the amendment by Senator Alexander to the amendment by Senator Hudspeth.

Pending discussion,

Senator Senter offered the following substitute for the amendment and the amendment to the amendment and bill:

Strike out all after the enacting clause of the bill and substitute the following:

Section 1. That Article 4549 of the Revised Statutes of the State of Texas be so amended as to hereafter read as follows:

Article 4549. In case of the sale of the entire roadbed, track, franchise and chartered right of a railroad company, whether by virtue of an execution, order of sale, deed of trust or any other power, the purchaser or purchasers at such sale and their associates, shall be entitled to have and exercise all the powers, privileges and franchises granted to said company by its charter, or by virtue of the general laws; and the said purchaser or purchasers and their associates shall be deemed and taken to be the true owners of said charter and corporators under the same, and vested with all the powers, rights, privileges and benefits thereof, in the same manner and to the same extent as if they

were the original corporators of said company; and shall have power to construct, complete, equip and work the road upon the same terms and under the same conditions and restrictions as are imposed by their charter and the general laws.

Provided that in case of any sale under this article in the event there should exist any unpaid claims or debts of said sold-out corporation, it shall be the duty of the Railroad Commission of Texas, upon the application either of said reorganized corporation or any creditor, to revalue the properties and franchises acquired under said sale, regardless of any previous valuation thereof by said Railroad Commission, whereupon it shall be the duty of said reorganized corporation to issue bonds secured by mortgage, or mortgages, upon the properties and franchises thereof in accordance with the stock and bond law of this State as contained in Title 94, Chapter 14, of the Revised Statutes of the State of Texas, to sell said bonds at the fair market value thereof, to be approved by the Railroad Commission of Texas. The proceeds of sale of said bonds or so much thereof as may be necessary to be applied to the payment of all unpaid debts, in accordance with their respective priorities, and provided further, that any creditor shall have the right to accept stock or bonds in payment of his debts, such bond to have such priority of lien and payment as shall secure said debt in accordance with its legal classification and priority.

Sec. 2. That Article 4550 of the Revised Statutes of the State of Texas be so amended as to hereafter read as follows:

Article 4550. In case of any such sale heretofore or hereafter made of the roadbed, track, franchise or chartered right of a railway company or any part thereof, as mentioned in Article 4549, the purchaser or purchasers thereof and their associates shall be entitled to form a corporation under Chapter 1 of this title, for the purpose of acquiring, owning, maintaining and operating the portion of the road so purchased as if such road or portion of the road were the road intended to be constructed by the corporation, and when such charter has been filed the said new corporation shall have all the powers and privileges conferred by the laws of this State upon chartered railroads, including the power to construct and ex-

tend; provided, that notwithstanding such incorporation the portion of the road so purchased shall be subject to the same liabilities, claims and demands in the hands of the new corporation as in the hands of the purchaser or purchasers of the sold out corporation; provided, that by such purchase and organization no rights shall be acquired under any former charter or law in conflict with the provisions of the present Constitution in any respect, nor shall the main track of any railroad once constructed and operated be abandoned or removed.

Provided that in case of any sale under Article 4549, in the event there should exist any unpaid claims or debts of said sold-out corporation, it shall be the duty of the Railroad Commission of Texas, upon the application either of the successor corporation or any creditor, to revalue the properties and franchises acquired under said sale, regardless of any previous valuation thereof by said Railroad Commission, whereupon it shall be the duty of said successor corporation to issue bonds secured by mortgage, or mortgages, upon the properties and franchises thereof in accordance with the stock and bond law of this State as contained in Title 94, Chapter 14, of the Revised Statutes of the State of Texas, and to sell said bonds at the fair market value thereof, to be approved by the Railroad Commission of Texas. The proceeds of sale of said bonds to be applied to the payment of all unpaid debts of the sold-out corporation, in accordance with their respective priorities, and provided further, that any creditor shall have the right to accept stock or bonds in payment of his debts, such bond to have such priority of lien and payment as shall secure said debt in accordance with its legal classification and priority.

Senator Terrell of Bowie made a point of order on the substitute, contending that a substitute for the bill was not in order; that the amendment and the amendment to the amendment was before the Senate and would have to be disposed of first.

The Chair overruled the point of order.

(Senator Terrell of McLennan in the chair.)

The substitute was then read, and

Senator Hume moved that the Senate recess until 3 o'clock today.

The motion was lost by the following vote:

SENATE BILL NO. 6.

Action recurred on Senate bill No. 6, the question being on the substitute for the pending amendments and the bill.

Senator Hudspeth here offered the following telegram, which was read:

San Angelo, Texas, August 26, 1910.

Senator Claude Hudspeth, Austin:

The San Angelo Chamber of Commerce endorses your opposition to the I. & G. N. bill. It should at least be amended so as not to embarrass roads organized since enactment of stock and bond law and now being built and developing the West. If we interpret the bill correctly, it means cessation of railroad building in West, where such building is most needed.

SAN ANGELO CHAMBER OF COMMERCE.

Pending further discussion, Senator Harper moved the previous question on the substitute, the amendment, the amendment to the amendment and the engrossment of the bill. The motion for the previous question was seconded.

Senator Senter made the point of order that the previous question could not be ordered on all of the questions at the same time.

The Chair (Senator Alexander) overruled the point of order.

The motion for the previous question then prevailed.

Action then recurred on the substitute for the amendment, amendment to the amendment and the bill, and the same was lost by the following vote:

Senator Hume (present), who would vote "nay," with Senator Real (absent), who would vote "yea."

The Chair having declared the result, Senator Watson called for verification of the vote, which was granted and no errors found.

Senator Watson made the point of order that the pair recorded above should be counted in the total vote, Senator Hume, being present, would vote "nay,"

which would make six votes against the suspension of the constitutional rule, and as it requires a four-fifths vote to suspend the constitutional rule, the motion would therefore be lost.

The Chair (Senator Alexander) overruled the point of order and declared the motion prevailed.

Senator Watson made the further point of order that the rule required a four-fifths vote of the Senate, not a four-fifths of those present.

The Chair (Senator Alexander) overruled the point of order.

The question was then on the final passage of the bill.

Senator Peeler moved to reconsider the vote by which the constitutional rule was suspended.

Senator Brachfield made the point of order that the rule had already been suspended, and that question was on the final passage of the bill.

The Chair (Senator Alexander) overruled the point of order.

Action then recurred on the motion to reconsider the vote by which the constitutional rule had been suspended, and the same was lost by the following vote:

Senator Watson appealed from the ruling of the Chair.

The bill was read third time, and

Senator Hume offered the following amendment:

Amend Section 1, containing Article 4549, by striking out all of the words after the word "bond" in line —, page —, and in lieu thereof insert the following: "Shall be fixed and determined and regulated by the Railroad Commission of Texas in accordance with the terms and conditions of the present stock and bond law, as contained in Chapter 14, Title 94, Revised Statutes of Texas, 1895, independently of any valuation theretofore made, said reorganized company to have the right to issue bonds upon said property and franchises, not exceeding the amount allowed by Article 4584b of the Revised Statutes of Texas, 1895."

Senator Terrell of Bowie made a point of order that the amendment sought to give the Railroad Commission authority to re-value the property of the railroads and the same did not come in the purview of the proclamation of the Governor submitting this measure to the Legislature; and further, it is not germane to the bill.

The Chair (Senator Alexander) overruled the point of order.

Action then recurred on the amend-

S. B. No. 10. By Senators Weinert, Greer, Hudspeth, Paulus, Alexander, Murray and Senter.

A BILL

To Be Entitled

An Act to establish a prison system and declaring the policy of the State with reference thereto; to provide for the management and control of such prison system; to provide for the control, management and treatment of all prisoners sentenced to the penitentiary; to abolish the leasing and hiring of State prisoners; to provide rules and regulations for the government and conduct of such prison system; to abolish corporal punishment in the prison system; to provide for a Board of Prison Commissioners; to provide for their appointment and defining their powers, duties and authority; to provide for the purchase or sale of real estate by the Prison Commissioners; to vest title to all real estate owned by the prison system; to authorize the prison system to borrow money from the permanent school

fund; to provide for the appointment of an auditor and prescribe his duties; prescribing penalties for the violation of this act; repealing Chapters 1, 2, 3, 4, 5, 6, 7 and 8 of Title 79, of the Revised Statutes of 1895, and all laws and parts of laws in conflict with this act; making an appropriation to carry out the provisions of this act.

Be it enacted by the Legislature of the State of Texas:

Section 1. That it shall be the policy of this State in the operation of its prison system to so manage and conduct the same that those convicted of violating the law and sentenced to a term in the penitentiary may have humane treatment and may be given every opportunity and encouragement in the matter of reformation.

Sec. 2. The prison system of this State, as referred to in this act, shall include the State penitentiary at Huntsville, the State penitentiary at Rusk and such other penitentiaries as may hereafter be established, and all farms or camps where prisoners are kept or worked, together with all property of every character belonging thereto or connected therewith.

Sec. 3. It is hereby declared the policy of this State to work all prisoners within the walls and upon farms owned, but in no event shall the labor of a prisoner be sold to any contractor or lessee to work on farms or elsewhere, nor shall any prisoner be worked on any farm or otherwise upon shares, or upon any other farm or place other than that owned and controlled by the State of Texas after January 1, 1914; provided, that all existing contracts for prison labor in existence at the time this act takes effect shall terminate not later than January 1, 1914, and no contract for any prison labor shall be made which would extend beyond January 1, 1914. Provided further, that the Board of Prison Commissioners shall change from the system of leasing and hiring out prisoners at the earliest practicable moment.

Sec. 4. To better carry out such policy, the management and control of the prison system of the State of Texas shall be vested in a board to be known as the Board of Prison Commissioners, and for the purpose of this act shall be referred to as the Prison Commission. Said Board of Prison Commissioners shall be composed of three men to be appointed by

the Governor, with the advice and consent of the Senate, whose term of office shall be two years from date of appointment, except those first appointed under this act, who shall hold their offices, respectively, for eight, sixteen and twenty-four months from the date of their appointment and qualification. In the appointment of said Commissioners first to be appointed under this act, the Governor shall designate the term each one shall hold under such appointment; provided, however, that in the event of a change in the Constitution extending the term of office of the Prison Commissioners, then the members of said Board of Prison Commissioners then in office shall adjust their terms of office by lot or in conformance with the provisions of such constitutional amendment without the necessity of further legislative enactment.

Sec. 5. Each member of said Commission shall, within ten days after his appointment, execute a bond with two or more good and sufficient sureties, in the sum of \$75,000, payable to the Governor of this State and his successors in office, and conditioned for the faithful performance of his duties and the strict accounting to the State of all moneys coming into his hands as such Commissioner; the form of which bond shall be prepared by the Attorney General, and the sufficiency of the sureties thereon approved by, and the same shall be filed with, the Secretary of State. And before entering upon the duties of his office, each member of said board shall take and subscribe the oath of office prescribed by the Constitution of this State. And it shall be the duty of the Attorney General, upon notice of default or failure to perform the duties as contemplated by law by any member of said Prison Commission, to bring suit in any court of competent jurisdiction in Travis county for the forfeiture and collection of said bond.

Sec. 6. Each member of the Board of Prison Commissioners shall receive as compensation for his services the sum of \$300 per month, to be paid at the end of each month; and in addition thereto, he shall be allowed all reasonable and necessary traveling expenses actually incurred when traveling on business of the prison system, to be paid out of the funds of the prison system; all such expense accounts to be itemized and sworn to in duplicate and approved

by the chairman of the Board of Prison Commissioners, one copy to be kept with the records of the Board of Prison Commissioners and one copy filed with the Comptroller of Public Accounts; each member of said Board of Prison Commissioners shall reside at Huntsville, in Walker county, which is hereby designated as the headquarters of the prison system, and shall be permitted to occupy the residence houses belonging to the State at Huntsville.

Sec. 7. Each member of said Prison Commission shall devote his entire time to the discharge of the duties of said office and shall not engage in any other occupation or business during his term of office, nor shall either of the members of said board be directly or indirectly connected with or interested in any contract, sale or purchase of any property or thing whatsoever which may be made during his term of office and in which either the State or the prison system are interested; and any violation of any of the provisions of this section of this act shall be sufficient ground for his removal from office.

Sec. 8. That said Prison Commission shall be vested with the exclusive management and control of the prison system of this State and shall be held responsible for the proper care, treatment, feeding, clothing and management of the prisoners confined therein, and at all times for the faithful enforcement of the spirit, intent and purpose of the laws and rules governing said system: provided that the Prison Commission shall be held responsible for maltreatment of prisoners and if permitted it shall be grounds for removal from office.

Sec. 9. That the said Prison Commission shall have power to, and it shall be their duty, to appoint all necessary officers, all physicians, chaplains, teachers and all clerical help needed in conducting said prison system, including a secretary of the Prison Commission, who shall be a competent, practical accountant, and they shall require all appointees who, in discharging their duties, are charged with handling any funds of the system or State, to execute bond in such amount as may be fixed by the Prison Commission to be conditioned as required by law for the faithful performance of their duties.

Sec. 10. A majority of said Prison Commission shall constitute a quorum for the transaction of business. The

Commissioners shall select one member as chairman and shall designate one member to have supervision over the finances and financial transactions of the prison system; one who shall supervise the feeding, clothing, care and treatment of the prisoners, and one who shall supervise the work of all the officers and employes of the prison system, and who shall also be known and designated as the superintendent of parole, and shall direct the enforcement of any parole law or indeterminate sentence law which may be now or hereafter in force in this State, unless otherwise directed by law. Provided, that each member so designated shall report his actions to the Prison Commission. The provisions of this section are intended to facilitate the work of the Prison Commission and shall not be construed as relieving the full Board of Prison Commissioners of any authority or general responsibility for the management of the prison system. The Prison Commission shall keep, or cause to be kept, in a well-bound book, a minute of the proceedings of all meetings held by them.

Sec. 11. The Prison Commission shall have the authority at all times to discharge any officer or any employe of the prison system for failure to comply with the rules, regulations or laws governing the prison system, or for any dereliction in duty, or whenever they may deem it to be for the best interests of the service.

Sec. 12. The Prison Commission shall have the power to purchase or cause to be purchased with such funds as may be at their disposal any lands, buildings, machinery, tools and supplies for the benefit of said prison system and may establish such factories as in their judgment may be practicable and that will afford useful and proper employment to prisoners confined in the State prison, under such regulations, conditions and restrictions as may be deemed best for the welfare of the State and the prisoners, it being the purpose of this act to clothe said Board of Prison Commissioners with all power and authority necessary for the proper management of the prison system of this State.

Sec. 13. The Prison Commission shall have power to purchase such land as may, in their judgment, be necessary in the operation of said system and the employment of prisoners confined in said prison, and in the purchase thereof they

may pay such sum in cash as may be agreed upon with the vendor, and for the unpaid purchase money to become due upon said land they shall execute to the vendor notes payable in such sum and at such time as may be agreed upon between the parties, and the payment of which shall be secured by a deed of trust upon such land in the usual form, and containing such covenants as may be agreed upon between the parties; and may pledge a sufficient amount of the net revenues of the property so purchased to pay the deferred installments of purchase money thereon; and it shall be expressly provided in the conveyance to said land, the notes executed for the unpaid purchase money and the deed of trust, that the vendor relies alone upon the lien created by the deed of trust upon said land and the net revenues so pledged and that no personal liability against the Prison Commission or the State of Texas shall arise out of said transaction beyond said liens; and the purchase money paid originally as well as the installments paid upon the deferred payments, may be paid out of any funds belonging to said prison system. The title to all lands purchased by the Prison Commission under the terms of this act shall be examined, passed upon and approved as good and sufficient, by the Attorney General, and all conveyances, notes, and trust deeds and other instruments executed under the provisions of this act shall be prepared, passed upon and approved by the Attorney General. The title to all lands so purchased shall vest in the Prison Commission and their successors in office, as trustees for the State.

Sec. 14. The Prison Commission shall buy annually as many acres of land as will, in four years, or sooner if practicable, from the taking effect of this act, enable all the prisoners hired out, or employed on share or contract farms and who are not otherwise employed by the State to be employed directly on farms belonging to the prison system.

Sec. 15. The Comptroller may, by and with the approval of the Board of Education of this State, loan to the Board of Prison Commissioners, and they shall have the right to borrow from the permanent school fund of this State funds necessary and to be used in the erection of such prison houses and improvements upon the lands now owned and hereafter to be purchased by the Prison Commission for the peniten-

tiaries as they may deem necessary; said loans to be in such sums and at such times as may be necessary, not to exceed, however, in the aggregate, the sum of one million dollars, which loans shall be evidenced by the notes of the Board of Prison Commissioners, and shall bear interest not to exceed five per cent per annum, which interest, with five per cent of the principal of any amount borrowed, shall be repaid annually. The payment of the money so borrowed shall be secured by liens to be fixed upon the properties of the prison system, and the Prison Commission is hereby authorized to execute such instruments as will properly fix such liens. The forms of all notes, bonds and obligations executed under the provisions of this section of this act shall be prepared by, and the execution thereof, approved by the Attorney General.

Sec. 16. The Prison Commission is authorized and it shall be its duty to cause to be constructed upon land now belonging to the prison system, and upon such land as may be bought hereafter, all necessary modern fireproof, well ventilated prison buildings, providing a separate cell or room for each prisoner, with proper bathing facilities and all necessary sanitary water closets and other sanitary arrangements within such buildings; also sanitary kitchens, dining rooms, hospitals, school rooms and chapels, and other necessary conveniences for the benefit of the prisoners. The provisions of this section shall be carried out as rapidly as practicable so that the same shall be completed in the entire prison system within six years from the taking effect of this act.

Sec. 17. The Prison Commission shall have power to sell and dispose of all farm products and the products of all factories connected with the prison system, and all personal and movable property, at such prices and on such terms as may be deemed best by them, and they may, with the approval of the Governor, sell or lease any real estate or other property and appurtenances belonging thereto upon such terms as to them seem best, and upon the sale thereof they shall have power to execute proper conveyances to the title thereto, which instruments of conveyance shall be prepared and approved by the Attorney General. The Prison Commission shall, in the purchase or sale of all real estate, or in the purchase or sale

of any machinery or equipment for the prison system exceeding in value the sum of \$5,000, advertise, in the manner prescribed by the Prison Commission, for bids for such property in at least three daily papers in this State having a general circulation, and shall give all such bids received to the public press at least 30 days before any such contract is let.

Sec. 18. On Monday of each week the Prison Commission shall remit to the State Treasurer all moneys received by them as such from whatever source during the preceding week and belonging to the system. The Treasurer shall hold such fund as bailee for the Prison Commission, which fund shall be known as the Prison Commission account, and he shall give to the Prison Commission a deposit receipt for same, and shall pay out same on draft drawn by the officer designated by Section 23 of this act. The Prison Commission is hereby authorized to draw from the Prison Commission account in the State Treasury any and all sums of money necessary for the business transactions of the prison system. The Prison Commission is authorized to draw upon the Prison Commission account with the State Treasurer such sum or sums of money and at such time or times as in their judgment may be necessary for the transaction of the business of the system; provided, they shall not draw for a sum that will give them in hand and in bank subject to disbursement a sum in excess of twenty-five thousand dollars; and provided further, the account of the prison system with the State Treasurer shall in no event be overdrawn and in no event shall the State Treasurer ever permit an overdraft against the Prison Commission account to be paid. On December 1 of each year the State Treasurer shall ascertain the interest earned by the fund belonging to the prison system from the State depositories, and place said sum to the credit of the Prison Commission account and send deposit receipt to the Prison Commission.

Sec. 19. The Prison Commission may, at any time, issue such orders and prescribe such rules and regulations for the government of the prison system of this State, not inconsistent with the law, as it may deem proper, in order to supply any defect in the general laws of this State, or to provide such details not embraced herein, and for such con-

tingencies as may, at any time, arise concerning the management of the prison system or its proper and effective operation, and such rules and regulations shall be made with a view of carrying out the general principles on which the penal laws are founded, and for which the prison system is established, and shall be binding on all underofficers, employes and all persons whomsoever in any way connected with the State prison or its management, or its prisoners within and without the walls. The Prison Commission shall have all laws, rules and regulations of the prison system printed in pamphlet form for the information and guidance of all connected with the management of the prison system, and such parts of said rules as relate to the duties of subordinate officers and prisoners shall be printed in suitable form and posted in conspicuous places about the prison, or wherever prisoners may be confined, for the information of all concerned. All officers, employes and guards having supervision of prisoners shall be furnished with a copy of the law, rules and regulations governing the prison system, and shall give a receipt therefor, and the prison system shall, from time to time, require examination of such officers, employes and guards as will ascertain their knowledge of such law, rules and regulations, and any such officer, employe or guard who shall fail to familiarize himself with the law, rules and regulations of the prison system shall be dismissed from the service.

Sec. 20. It shall be the duty of some member or members of the Prison Commission, or some person designated by the Prison Commission, to spend at least one whole day each month at each prison, camp or farm where prisoners are kept or worked, and to carefully inspect same with reference to the food, clothing and treatment of the prisoners, the general sanitary conditions existing at such prisons, camps or farms, reporting upon such conditions, the efforts at reformation, the general conduct of all officers and employes connected therewith, and punishment administered for the enforcement of prison discipline, making such reports to the full Board of Prison Commissioners; provided, that the various prisons, camps and farms where prisoners are kept, may be divided for the purpose of this inspection between two or more members of the Prison Commission or

such other person as may be designated by the Prison Commission.

Sec. 21. It shall be the duty of the Prison Commission to make suitable provision and regulation for the safe and speedy transportation of prisoners from counties where sentenced to the penitentiaries. Said transportation shall be on State account, and in no instance shall the prisoners be carried direct from the county jails to the State farms, but shall first be carried to the penitentiary at Huntsville, where the character of labor which each prisoner may reasonably perform shall be determined.

Sec. 22. The Prison Commission shall cause to be made annually, on the first day of December, a full and complete inventory of all lands, buildings, machinery, tools, live stock, and all other property of every description, belonging to the prison system, and shall cause to be set opposite each item the book value of the same so as to afford an easy comparison with the previous annual statement. And the Prison Commission shall cause to be kept, in the accounting department of the prison system, a system of books showing a separate account with each industry and farm, and for the system as a whole, showing the losses, profits and net earnings of each industry and farm connected with the system, and shall make a report of the same annually on the first day of December, to the Governor, which report shall be published by the Governor in a sufficient number of copies to give general publicity to such report.

Sec. 23. The member of the Prison Commission designated by the Board to have supervision over the finances and financial transactions of the prison system shall keep, or cause to be kept, correct and accurate accounts of each and every financial transaction of the prison system, including all receipts and disbursements of every character. He shall receive and receipt for all money paid to the Prison Commission from every source whatsoever, and shall sign all vouchers and warrants authorizing the payment or disbursement of any sum or sums on account of the prison system, and no money shall be paid out on any account of the prison system except upon a warrant or voucher signed by him. He shall keep full and correct accounts with each industry, department and farm, and with all firms, persons or corporations having financial transactions with the prison system.

He shall have power to require all necessary reports from any department, officer or employe at stated intervals. All deposits or prison funds with banks shall be kept in the name of the officer in his official capacity, and all funds of the prison system shall be kept separate from private funds. Such accountants and clerical assistance as may be necessary to carry out the provisions of this section shall be provided by the Prison Commission in order that a full, complete and correct account may be kept of all financial transactions of the prison system. In the absence of such officer, one of the other Prison Commissioners may sign such receipts, warrants or vouchers.

Sec. 24. On the taking effect of this act, and annually thereafter, there shall be appointed by the Comptroller of Public Accounts, the Attorney General and Secretary of State, a permanent auditor for the prison system, who shall hold his office for a term of one year, subject to discharge at any time as hereinafter provided. It shall be the duty of such auditor to audit all accounts, vouchers, pay rolls and all other business transactions of the prison system, and to check all property, material and supplies received and disposed of by or distributed within the prison system, and he shall make a full report thereof to the Governor on the first day of December of each year. Such auditor shall be subject to discharge at any time by the Comptroller of Public Accounts, Attorney General and Secretary of State, for any incompetency, neglect, failure or refusal to discharge the duties of his office or for any wrongful conduct that in the judgment of the Comptroller of Public Accounts, Attorney General and Secretary of State renders him unfitted for said office, and in case of the discharge or resignation of any auditor another shall be appointed. During the term of his service such accountant shall be paid a monthly salary of two hundred dollars per month, and all actual and necessary traveling expenses, to be paid at the end of each month out of any moneys belonging to the prison system, such traveling expenses to be evidenced by an itemized sworn statement by the auditor, filed with the board.

Sec. 25. Each member of the Board of Prison Commissioners in the discharge of his duties is authorized to administer oaths, to summon and examine witnesses, and take such other steps

as he deems necessary to ascertain the truth of any matter about which he may have the right to inquire.

Sec. 26. Within a reasonable time, and not later than six months after the taking effect of this act, the Prison Commission shall abolish striped or checked clothes for prisoners, except as a mode of punishment for the violation of prison discipline, substituting therefor some suitable uniform.

Sec. 27. The Prison Commission shall, as soon as practicable, provide at each prison, farm and camp where prisoners are kept or worked, schools for instruction of prisoners in elementary branches of the English language and industrial education and such other instruction as they may prescribe, and they shall employ such number of competent teachers to instruct the prisoners in the same as, in the judgment of the Prison Commission, may seem necessary and the Prison Commission shall make reasonable rules and regulations whereby the prisoners may attend such school. The Prison Commission shall prescribe and furnish to the prisoners suitable books and other reading matter, and to this end may establish and operate among the prisoners a circulating library, and may adopt such other means of distributing among the prisoners good and wholesome literature as in the judgment of the Prison Commission will best enable the prisoners to avail themselves of the same.

Sec. 28. The Prison Commission shall provide for religious services at prisons, farms and camps where prisoners are kept or worked. They shall employ such chaplains as may be necessary to afford all prisoners an opportunity to attend at least two religious services each month, said chaplains to devote their entire time to the religious and moral training and education of the prisoners under their care, teaching them the principles and practice of every Christian and moral duty. Provided, that chaplains may also be teachers, as provided for in this act.

Sec. 29. If any member of the Board of Prison Commissioners shall be guilty of malfeasance or non-feasance in office or shall become incapable or unfit to discharge his official duties or shall willfully fail, refuse or neglect to discharge the duties of his office, such member shall be subject to removal from office by quo warranto proceedings, to be instituted by the Attorney General in the proper court of Travis county under the provi-

sions of Title 93 of the Revised Civil Statutes of 1895.

Sec. 30. The Prison Commission shall, except as provided in this act, fix the salaries of all officers and employes of the prison system upon such basis as the labor and ability of the officer or employe entitles him to such salaries, to be paid monthly at the end of each month. They shall pay to those employed as guards of the convicts a salary of not less than thirty-five dollars per month; provided, that for meritorious service and adaptability to the work, the Prison Commission may increase the pay of any guard to an amount not to exceed fifty dollars per month. They shall issue discharges to such prisoners as are entitled thereto, by expiration of sentence or otherwise.

Sec. 34. That persons confined in the State prisons of this State may have every opportunity and encouragement for moral reform, it shall be the duty of the Prison Commission, in addition to the requirements of this act, to provide every reasonable and practicable means for the encouragement of such reforms. To this end, the Prison Commission shall provide for the classification of all prisoners, separating them into the following classes: In the first class shall be included young men, first offenders, those appearing to be corrigible, or less vicious than the others, and likely to observe the laws and to maintain themselves by honest industry after their discharge. In the second class shall be included those appearing to be less corrigible, or more vicious, but content to work and reasonably obedient to prison discipline as not to seriously interfere with the productiveness of their labor, or with the labor or conduct of those with whom they may be employed. In the third class shall be included those appearing to be incorrigible, or so insubordinate or so vicious in their nature as to seriously interfere with the labor and moral development of those with whom they must come in contact. Any prisoner upon entering the prison system shall be assigned to one of its institutions according to his class, as hereinbefore provided, and shall be entered in said institution in a neutral grade which shall be known as Grade No. 2, and in which he shall be furnished with a suitable uniform designated for that grade. same time to require of them a due attention to their various duties and a strict observance of the discipline, rules and regulations of the prison.

Sec. 43. In order to encourage prison discipline a distinction may be made in the treatment of prisoners so as to extend to all such as are orderly, industrious and obedient, comforts and privileges according to their deserts. No action taken by the State Fire Marshal shall affect the rights of any policyholder or any company in respect to a loss by reason of any fire so investigated; nor shall the result of any such investigation be given in evidence upon the trial of any civil action upon such policy, nor shall any statement made by any insurance company, its officers, agents or adjusters, nor by any policyholder or anyone representing him, made with reference to the origin, cause or supposed origin or cause, of a fire to the Fire Marshal or to any one acting for him or under his directions, be admitted in evidence or made the basis for any action for civil damages.

Sec. 11. The said board is authorized and empowered to require sworn statements from any insurance company affected by this act and from any of its officers, directors, representatives, gen-

eral agents, State agents, special agents and local agents of the rates and premiums collected for the fire insurance, on each class of risks, on all property in this State during any or all years for the five years next preceding the first day of January, 1910, and of the causes of fires, if such be known, if they are in possession of such data and information, or can obtain it at a reasonable expense; and said board is empowered to require such statements for any period after the first day of January, 1910; and said board is empowered to require such statements showing all necessary facts and information to enable said board to make, amend and maintain the general basis schedules provided for in this act, and the rules and regulations for applying same and to determine reasonable and proper specific rates and to enforce and assist in the enforcement of the provisions of this act. The said board shall also have the right, at its discretion, either personally or by some one duly authorized by it to visit the offices, whether general, local or otherwise, of any insurance company doing business in this State, and the home office of said company outside of this State, if there be such, and the office of any officers, directors, general agents, State agents, local agents or representatives of such company, and there require such company, its officers, agents or representatives to produce for inspection by said board or by its duly authorized representatives, all books, records and papers of such company or such agents and representatives; and the said board or its duly authorized agents or representatives shall have the right to examine such books, records and papers and make or cause to be made copies thereof; and shall have the right to take testimony under oath with reference thereto, and to compel the attendance of witnesses for such purpose; and any company, its officers, agents or representatives failing to make such statements and reports herein referred to and failing or refusing to permit the examination of books, papers and records as herein required when so called upon, or declining or failing to comply with any provision of this section shall be subject to the penalties provided for in Section 24 of this act.

Sec. 12. Immediately upon the taking effect of this act, or as soon thereafter as practicable, said board is empowered, and it is hereby made its duty, to prepare a system of general basis schedules, together with rules for ap-

plying the same, for determining fire insurance rates on property in this State; the said general basis schedules and the rules for applying the same to be at all times reasonable; the said board may employ and use any facts and information now in the possession of or in the records of the present State Fire Rating Board, as well as all facts obtainable from and concerning fire insurance companies transacting business in this State, showing the experience of said companies, and charges for premium on fire insurance, and generally as to the transaction of their said business during the years named in Section 11 of this act or during any other period of time, in order to devise and fix reasonable general basis schedules and rules for applying the same for determining rates. The said board in preparing such general basis schedules showing the rates on all classes of risks insurable by any company in this State, shall show all charges, credits, terms, privileges and conditions which in anywise affect such rates or the application of such rates to specific risks or the cost of insurance; provided, that such schedules and the rules for applying same shall be furnished by said board to any and all insurance companies affected by this act applying therefor; and the same shall be furnished to any citizen of this State applying therefor upon the payment of the actual cost thereof; that such general basis schedules and the rules prescribed with reference thereto shall not take effect until said board shall have entered an order or orders fixing the same and shall have given notice to all insurance companies affected by this act, authorized to transact business in this State.

Sec. 13. It is further provided that after the adoption and promulgation of the general basis schedules and the rules and regulations for applying the same, as herein provided for by the board, every insurance company writing fire insurance policies within this State shall, within a reasonable time, file with the State Insurance Board its application of said general basis schedules to the specific risks of the State, and the specific rates obtained thereby in accordance with the several provisions of this act; and, provided further, that any one or more insurance companies may employ, for the application of such general basis schedules and the making of such specific rates, the service of such experts as they may deem advisable for such purpose, but the contract or contracts of employment of such experts

shall first be submitted to the State Insurance Board for its approval; provided further, that the State Insurance Board shall have authority, and it shall be the duty of said board, personally or by its agents, to inspect and supervise the work of said experts in the application of said general basis schedules in the determination of specific rates; provided further, that said company or companies shall file with the board copies of all maps and copies of the analysis of all applications of said general basis schedules to the specific risks of this State, if required to do so by the board. And it shall be the duty of the expert or experts representing the insurance companies, or any insurance company in this State, to furnish at the date of the inspection to the owners of all risks inspected for the purpose of applying the general basis schedules provided for in this act, a copy of such inspection report, showing all defects that operate as charges to increase the insurance rate.

It is further provided that the specific rates so made by a company or companies for any city, town, village or locality, shall not take effect, and such company or companies shall not write insurance thereunder until such specific rates shall have been approved by the board; the board shall have authority to reject said specific rates so made or any part thereof, or to alter, amend, modify or change the same; or to permit such specific rates to become effective for a limited time, or any modification or change thereof for a limited time, in its discretion; provided, however, that the said board shall have authority in its discretion to permit the said company or companies to apply the said schedules of basis rates to risks other than mercantile and special hazards without having first submitted the specific rates so made to said board for approval. But such rates that the board may permit any company or companies to apply without the board's approval shall always be subject to review by the board and by the proper showing of any policyholder or holders may be reduced. It is further provided that all changes made by any company in the specific rates made by it in applying the general basis schedules shall be subject to the review of the board for its approval or disapproval, and shall be reported to the board in such manner and form as may be prescribed by the board. Provided further, that any insurance company or companies affected by this act shall have the right at any time to petition the board for an order changing or mod-

ifying the general basis schedules, or the application of the general basis schedules to the specific risks; and the board shall consider such petition as provided in this act and enter such order as the board may deem just and equitable to such company or companies, to competing companies and to the public. Provided further, also, that any company affected by this act shall have the right to apply to the board for an order permitting such company to reduce the specific rates of insurance on property within this State, and the board shall consider such application and enter such order with reference thereto as it may deem just and equitable to such company, to competing companies and to the public; but in no event shall discriminating be permitted between persons or between different classes of risks.

The board shall also have the power and authority to give each city, town, village or locality credit for each and every hazard they may reduce or entirely remove, also for all added fire fighting equipment, increased police protection or any other equipment or improvement that has a tendency to reduce the fire hazard of any such city, town, village or locality. The board shall also have the power and authority to compel any company to give any and all policyholders credit for any and all hazards that said policyholder or holders may reduce or remove. Said credit shall be in proportion to such reduction or removal of such hazard, and said company or companies shall return to such policyholder or holders such proportional part of unearned premiums charged for such hazards that may be reduced or removed.

Sec. 14. It is provided that after the approval by the board of the specific rates made by the insurance companies hereunder, that thereafter when a policy of insurance is written that the policyholder shall be furnished by the company with a copy of the analysis of his specific rate showing the items of charge and credit which determine the rate, unless such policyholder has theretofore been furnished with such analysis of his rate; it is also further provided that the general basis schedules and all specific rates and local tariffs filed in accordance with the provisions of this act shall be open to the inspection of the public, and each local agent shall have and exhibit to the public copies thereof relative to all risks upon which he is authorized to write insurance.

Sec. 15. It is further provided that

until the general basis schedules herein provided for shall have been promulgated by the board and the specific rates thereunder made by the companies and approved by the board, that the board shall designate at what rates and under what rules and regulations insurance may be written within this State, and such rates, rules and regulations so designated shall govern all companies writing contracts or policies of fire insurance under the provisions of this act.

Sec. 16. The said board shall have authority, upon reasonable notice, not exceeding thirty days, of its intention to do so, to alter, amend or revise said general basis schedules promulgated by it, or the specific rates approved or ordered by it, as herein provided, and to give reasonable notice of such alteration, amendment or revisions to the public or to any company or companies affected thereby. Such altered, amended or revised schedules or rates shall be the schedules or rates to be thereafter charged for insurance by any company in this State; provided, that the board may order changes to be made to meet unusual conditions in any particular locality, should such conditions exist or arise, by giving similar notice to the public or to any company affected thereby. Provided, the changes or amendments made to the general basis schedules shall apply only to policies of insurance written after the order of the board making such changes or amendments becomes effective. Provided further, that no policy existing prior to the taking effect of such changes or amendments to the general basis schedules shall be affected by such changes or amendments unless there shall be a change in the hazard of the risk necessitating a change in the rate applicable to such risk, in which event such policy shall be subject to the new rates applicable under the changed or amended general basis schedules.

Sec. 17. It shall be the duty of the State Insurance Board to make, promulgate and establish uniform policies of insurance applicable to the various risks of this State, copies of which uniform policies shall be furnished each company doing business in this State or which may hereafter do business in this State. That after such uniform policies shall have been established and promulgated and furnished the respective companies doing business in this State, such companies shall, within sixty days after the receipt of such forms of policies, adopt and use said form or forms and

no other; and all companies which may commence business in this State after the adoption and promulgation of such forms of policies, shall adopt and use the same and no other form of policies. The said Insurance Board shall also prescribe all standard forms, clauses and endorsements used on or in connection with insurance policies. All other forms, clauses and endorsements placed upon insurance policies shall be placed thereon subject to the disapproval of the board. Provided, no endorsement clause or rider so attached to or placed upon any such policy of insurance shall avoid or in any way affect such policy or any provision thereof until same shall have first been approved by said board. The board shall also have authority in its discretion to change, alter or amend such form or forms of policy or policies, and such clauses and endorsements used in connection therewith upon giving notice and proceeding in accordance with Section 19 of this act.

Sec. 18. It is provided that any citizen or number of citizens of this State, or any policyholder or policyholders, or any insurance company affected by this act, or any board of trade, chamber of commerce or other civic organization, or the civil authorities of any town, city or village, shall have the right to file a petition with the Insurance Board setting forth any cause of complaint that they may have as to any order made by this board, or any schedule promulgated by this board, or as to any specific rate approved by this board, and that they shall have the right to offer evidence in support of the allegations of such petition by witnesses, or by depositions or by affidavits; that upon the filing of such petition the party complained of, if other than the board, shall be notified by the board of the filing of such petition and a copy thereof furnished the party or parties, company or companies, of whom complaint is made, and the said petition shall be set down for a hearing at a time not exceeding thirty days after the filing of such petition, and the board shall hear and determine said petition; but it shall not be necessary for the petitioners or any one for them to be present to present the cause to the board, but they shall consider the testimony of all witnesses, whether such witnesses testify in person, or by deposition, or by affidavits, and if it be found that the complaint made in such petition is a just one, then the matters

complained of shall be corrected or required to be corrected by said board.

Sec. 19. The State Insurance Board shall give the public and all insurance companies to be affected by its orders or decisions, reasonable notice thereof, not exceeding thirty days, and an opportunity to appear and be heard with respect to the same; which notice to the public shall be published in one or more daily papers of the State and such notice to the insurance company or companies to be affected thereby shall be by letter deposited in the postoffice, addressed to the State or general agent of such company or companies, if the address of such State or general agent be known to the board, or, if not known, then such letter shall be addressed to some local agent of such company or companies, or, if the address of a local agent be unknown to the board, then by publication in one or more of the daily papers of the State, and the board shall hear all protests or complaints from any insurance company or any citizen, or any city, town or village, or any commercial or civic organization as to the inadequacy or unreasonableness of any rates fixed by it or approved by it, or as to the inadequacy or unreasonableness of any general basis schedules promulgated by it or the injustice of any order or decision by it; and if any insurance company, or other person, or commercial or civic organization, or any city, town or village, which shall be interested in any such order or decision, shall be dissatisfied with any regulation, schedule or rate adopted by such board, such company or person, commercial or civic organization, city, town or village shall have the right, within thirty days after the making of such regulation or order, or rate, or schedule, to bring an action against said board in the district court of Travis county to have such regulation, or order, or schedule, or rate vacated or modified; and shall set forth in a petition therefor the principal ground or grounds of objection to any or all of such regulations, schedules, rates or orders; in any such suit, the issue shall be formed and the controversy tried and determined as in other civil cases, and the court may set aside and vacate or annul any one or more or any part of any of the regulations, schedules, orders or rates promulgated or adopted by said board, which shall be found by the court to be unreasonable, unjust, excessive or inade-

quate, without disturbing others. No injunction, interlocutory order or decree suspending or restraining directly or indirectly the enforcement of any schedule, rate, order or regulation of said board shall be granted.

Provided, that in such suit the court, by interlocutory order, may authorize the writing and acceptance of fire insurance policies at any rate which in the judgment of the court is fair and reasonable during the pending of such suit, upon condition that the party to such suit in whose favor the said interlocutory order of said court may be, shall execute and file with the Commissioner of Insurance and Banking a good and sufficient bond to be first approved by said court, conditioned that the party giving said bond will abide the final judgment of said court and will pay to Commissioner of Insurance and Banking whatever difference in the rate of insurance it may be finally determined to exist between the rate as fixed by said board complained of in such suit, and the rate finally determined to be fair and reasonable by the courts in said suit; and the said Commissioner of Insurance and Banking, when he receives such difference in money, shall transmit the same to the parties entitled thereto.

Whenever any action shall be brought by any company under the provisions of this section within said period of thirty days, no penalties nor forfeitures shall attach or accrue on account of the failure of the plaintiff to comply with the orders, schedules, rates or regulations sought to be vacated or modified in such action until the final determination of the same.

Either party to any such action, if dissatisfied with the judgment or decree of said court, may appeal therefrom as in other civil cases. No action shall be brought in any court of the United States to set aside any orders, rates, schedules or regulations made by said board under the provisions of this act until all the remedies provided herein shall have been exhausted by the party complaining.

If any insurance company affected by the provisions of this act shall violate any of the provisions of this section, the Commissioner of Insurance shall, by and with the consent of the Attorney General, cancel its certificate of authority to transact business in this State.

Sec. 20. No company shall engage or

participate in the insuring or reinsuring of any property in this State against loss or damage by fire, except in compliance with the provisions of this act; nor shall any such company knowingly write insurance at any rate from the rates provided for in this act, or refund, or remit, in any manner, or by any device, any portion of the rates so established, or extend to any insured or other person any privilege, advantage, favor or inducement except such as is specified in the general basis schedule prepared and established by said board; and pending the fixing and establishment of said schedules and rates by said board no such company shall refund or remit in any manner or by any device any portion of the rates promulgated by the board under this act, or extend to any insured or other person any privileges, advantages, favors or inducement not authorized by the orders of the board under this act.

It shall be unlawful for any insurance company authorized under the terms of this act to transact business in this State to directly or indirectly, by any special rate, tariff, rebate, drawback or other device, charge, demand, collect or receive from any person or persons a greater or less or different compensation for the insuring of any property in this State than it charges, demands, collects or receives from any other person or persons for like insurance on risks of like kind and hazard under similar circumstances and conditions; nor shall any company, or its officers, directors, general agents, State agents, special agents, local agents, or its representatives, grant or contract for any special favor or advantage in the dividends or other profits to accrue thereon, or in commissions or division of commissions, or any position, or any valuable consideration, or any inducement not specified in the policy contract of insurance; nor shall such company give, sell or purchase, offer to give, sell or purchase, directly or indirectly, as an inducement to insure or in connection therewith, any stocks, bonds or other securities of any insurance company or other corporation, partnership or individual, or any dividends or profits accrued or to accrue thereon or anything of value whatsoever not specified in the policy; but nothing in this section or in this act shall be construed to prohibit the company from sharing its profits with its policyholders; provided, that such agreement as to profit-sharing shall be placed on or in the face of the pol-

icy, and such profit-sharing shall be uniform and shall not discriminate between individuals or between classes; provided, however, that no part of the profit shall be paid until the expiration of the policy.

Any company, or any of its officers, directors, general agents, State agents, special agents, local agents or its representatives, doing any of the acts in this section prohibited, shall be deemed guilty of unjust discrimination; provided, the board, for good cause shown, may allow risks of like kind and hazard situated in any locality to be written temporarily at a different rate from such risks similarly situated in other localities without subjecting the company so writing to the penalties herein after prescribed for discrimination.

Provided, however, that if any agent or company shall issue a policy without authority, and any policyholder holding such policy shall sustain a loss or damage thereunder, said company or companies shall be liable to the policyholder thereunder, in the same manner and to the same extent as if said company had been authorized to issue said policy, although the company issued said policy in violation of the provisions of this act. But this shall not be construed to give any company the right to issue any contract or policy of insurance other than as provided in this act.

Sec. 21. No person shall knowingly receive or accept from any insurance company or from any of its agents, sub-agents, brokers, solicitors, employees, intermediaries or representatives, or any other person, any rebate of premium payable on the policy, or any special favor or advantage in the dividends or other financial profits accrued or to accrue thereon or any valuable consideration, position or inducement not specified in the policy of insurance, and any person so doing shall be guilty of a violation of the provisions of this section, and shall be punished by a fine of not exceeding one hundred dollars, or by imprisonment in the county jail for not exceeding ninety days, or by both such fine and imprisonment.

Sec. 22. The provisions of this law shall not deal with the collection of premiums, but each company shall be permitted to make such rules and regulations as it may deem just between the company, its agents and its policyholders; and no bona fide extension of credit shall be construed as a discrimination, or in violation of the provisions of this act.

Sec. 23. The Commissioner of Insurance, upon ascertaining that any insurance company or officer, agent or representative thereof, has violated any of the provisions of this act, may, at his discretion, and with the consent and approval of the Attorney General, revoke the certificate of authority of such company, officer, agent or representative; but such revocation of any certificate shall in no manner affect the liability of such company, officer, agent or representative to the infliction of any other penalty provided by this act, and provided that any action, decision or determination of the Commissioner of Insurance and Banking and the Attorney General in such cases shall be subject to the review of the courts of this State as herein provided.

Sec. 24. Any insurance company affected by this act, or any officer or director thereof, or any agent or person acting for or employed by any insurance company, who, alone or in conjunction with any corporation, company or person, who shall willfully do or cause to be done, or shall willfully suffer or permit to be done, any act, matter or thing prohibited or declared to be unlawful by this act, or who shall willfully omit or fail to do any act, matter or thing required to be done by this act, or shall cause or willfully suffer or permit any act, matter or thing directed by this act not to be done, or who shall be guilty of any willful infraction of this act, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than three hundred dollars nor more than one thousand dollars for each offense; provided, that if the offense for which any person shall be convicted, as aforesaid shall be an unlawful discrimination, such person shall be punished by a fine not less than three hundred dollars, nor more than one thousand dollars or by imprisonment in the county jail for a period not exceeding ninety days, or by both such fine and imprisonment for each offense; provided, that the punishment of imprisonment shall not apply to artificial persons: provided, however, that the obeying of any order of said board shall not be construed to be a discrimination, and a company, officer, director, agent or employee thereof shall not be guilty of discrimination for obeying any order of said board.

Sec. 25. No person shall be excused from giving testimony or producing evidence when legally called upon to do so at the trial of any other person or com-

pany charged with violating any of the provisions of this act on the ground that it may incriminate him under the laws of this State; but no person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may testify or produce evidence under this act, except for perjury in so testifying.

Sec. 26. This act shall not apply to purely mutual or to purely profit-sharing fire insurance companies incorporated or unincorporated under the laws of this State and carried on by the members thereof solely for the protection of their property and not for profit; nor to purely co-operative, interinsurance and reciprocal exchanges carried on by the members thereof solely for the protection of their property and not for profit.

Sec. 26a. This act shall go into effect and become operative from and after the first day of September, 1910, and not before.

Sec. 27. Chapter 18 of the General Laws of the Thirty-first Legislature, passed by its First Called Session and approved April 19, 1909, entitled "An Act providing the conditions upon which fire insurance companies shall transact business in this State: and providing for the regulation and control of rates of premiums on fire insurance, and to prevent discrimination therein; and to create a Fire Insurance Rating Board: and to provide penalties for violation of this act, and declaring an emergency," and all other laws and parts of laws in conflict with this act are hereby repealed.

Sec. 28. The fact that there is now no sufficient law in this State prohibiting unjust discriminations in the collection of fire insurance rates as between citizens of this State; nor protecting citizens in securing reasonable rates, constitutes an emergency and an imperative public necessity requiring that the constitutional rule requiring bills to be read on three several days be suspended and that his act take effect and be in force from and after its passage, and it is so enacted.

(2)

Amend Senate bill No. 7 by striking out all before the enacting clause and inserting in lieu thereof the following:

A bill to be entitled "An Act providing conditions upon which insurance companies writing contracts or policies of insurance against the hazard of fire

may transact business in the State of Texas, and providing for the making, promulgation, regulation and control of general basis schedules, rates and premiums, and forms and policies; and to prevent discrimination therein, and to create a State Insurance Board and prescribing the duties and authority of said board and each member thereof, and fixing the salaries of the members thereof; providing certain duties for, and giving certain authority to the Commissioner of Insurance and Banking; appropriating money necessary to carry out the provisions of this act; and providing penalties for violations of this act, and repealing Chapter 18 of the General Laws of the State of Texas, passed by the First Called Session of the Thirty-first Legislature, and all other laws and parts of laws in conflict therewith, and declaring an emergency."

years: such agreement to be evidenced by an instrument in writing, signed and acknowledged by said purchaser or purchasers, and associates, if any, and filed in the office of the Secretary of State of the State of Texas"; and by striking out the following words in Article 4550, to-wit:

REASONS FOR VOTING.

I vote against this amendment because, in my judgment, the amendment will make the bill unconstitutional.

TERRELL of Bowie.

I asked to be marked present and not voting on the amendment sent up by the Senator from Rusk for the reason that it is a very lengthy amendment, covering two pages of typewritten matter, and has not been before the Senate for free and open discussion. This amendment being one of vast importance, I moved that the same be postponed for consideration until the following morning at 10 o'clock, and the same be printed in the Journal, so that in the meantime we could have an opportunity to read the amendment and see what its effect would be; but there seemed to be a disposition on the part of the Senate to rush the amendment through, and, not having read the amendment or had an opportunity to do so, and not knowing what it contains, I am not in position to know what I am voting on, and, therefore, desire to be marked present and not voting.

MAYFIELD.

The bill was read third time, and passed by the following vote:

Corpus Christi, Tex., Aug. 29, 1910.

My Dear Davidson: I wish to acknowledge receipt of a very generous telegram, signed by yourself and the entire membership of the Senate.

I wish I knew how to tell you just how I appreciate the kindly sentiment interwoven with it.

It tells me that my poor efforts in the public service have not been entirely in vain, for the esteem of my colleagues is of value beyond measure.

I wish to thank you and through you the Senate, of which it is an honor to be a member, for the kindly thoughts of me at this time.

I had hoped to be able to return in a few days, but it now looks as though I may not get back during this session. I am acting upon your collective advice, and shall go to Waukesha or Excelsior Springs. Mrs. Willacy will accompany me, which means that I shall be well

taken care of and soon on my feet again.

With kindest regards and best wishes for all, I am,

Sincerely your friend and theirs,

JOHN G. WILLACY,
Per Mrs. Willacy.

APPENDIX.

REASONS FOR VOTING.

The amendment offered to Senate bill No. 6 on yesterday is proposed avowedly for the purpose of excluding a particular claim which would otherwise be included for payment under the terms of the bill as heretofore passed. The proponents of the amendment have declared this purpose on the floor of the Senate. It glaringly emphasizes the fact that the measure was conceived in the design to single out and favor particular debts relating to a particular transaction. It is shown by the declarations of the authors of this measure that in its origin it takes no cognizance of its probable effect upon the general welfare of the State, but that its sole design is to make provision by law to give preference to certain unsecured

debts over certain secured debts in the administration of the assets of a particular railroad company. The amendment makes plain this purpose, and we therefore vote for it. We believe the bill to be inequitable, unconstitutional and a menace to the prosperity and progress of the State. We therefore vote against it.

Be it enacted by the Thirty-first Legislature of Texas:

Section 1. That the sum of seven thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of any public moneys not otherwise appropriated, to pay the contingent expenses of the Fourth Called Session of the Thirty-first Legislature of Texas, and that the approval of the chairman of the Committee on Contingent Expenses of either house, and countersigned by the President of the Senate, or the Speaker of the House of Representatives, as the case may be, shall be sufficient authority to authorize the Comptroller to issue his warrant on the State Treasurer for the payment of any account so drawn against said fund.

Sec. 2. The fact that there is no appropriation available for the payment of the contingent expenses of the Fourth Called Session of the Thirty-first Legislature of Texas, creates an emergency and an imperative necessity that the constitutional rule requiring bills to be read on three several days be suspended, and that this act shall take effect and be in force from and after its passage, and it is so enacted.

Committee Room,

Austin, Texas, September 1, 1910.

Hon. A. B. Davidson, President of the Senate.

Sir: Your Committee on Enrolled Bills have carefully examined and compared Senate bill No. 6, and find it correctly enrolled, and have this day, at 11:52 o'clock a. m., presented same to the Governor for his approval.

TERRELL of McLennan, Chairman.

Following is the bill in full:

An Act to amend Articles 4549 and 4550 of Chapter 11, Title 94 of the Revised Statutes of the State of Texas, and prescribe the conditions upon which the purchaser or purchasers, and associates, if any, of the property and franchises of a railroad company may become owners of its charter, or may organize a new corporation, and governing, regulating and limiting the stocks and bonds of the new corporation, and of the old corporation, after the sale of its property and franchises, and declaring an emergency.

Section 1. Be it enacted by the Legislature of the State of Texas: That Articles 4549 and 4550 of Chapter 11, Title 94 of the Revised Statutes of the

State of Texas be so amended as to hereafter read as follows:

Article 4549. In case of the sale of the property and franchises of a railroad company, whether by virtue of an execution, order of sale, deed of trust, or any other power, or by a receiver acting under judgments, heretofore or to be hereafter rendered by any court of competent jurisdiction, the purchaser or purchasers at such sale, and associates, if any, shall acquire full title to such property and franchises, with full power to maintain and operate the railroad and other property incident to it, under the restrictions imposed by law; provided, however, that said purchaser or purchasers, and associates, if any, shall not be deemed and taken to be the owners of the charter of the railroad company and corporations under the same, nor vested with the powers, rights, privileges and benefits of such charter ownership, as if they were the original corporators of said company, unless the purchaser or purchasers, and associates, if any, shall agree to take and hold said property and franchises, charged with, and subject to the payment of, all subsisting liabilities and claims, for death and for personal injuries sustained in the operation of the railroad, by the company and by any receiver thereof, and for loss of, and damage to property, sustained in the operation of the railroad by the company and by any receiver thereof, and for the current expenses of such operation, including labor, supplies and repairs; provided, that all such subsisting claims and liabilities shall have accrued within two years prior to the beginning of the receivership resulting in the sale of said property and franchises, or within two years prior to the sale, if said property and franchises be sold otherwise than under receivership proceedings, unless suit was pending on such claims and liabilities when the receiver was appointed or when the sale was made, in which event claims and liabilities on which suits were so pending shall be protected hereby as though accruing within the two years; such agreement to be evidenced by an instrument in writing, signed and acknowledged by said purchaser or purchasers, and associates, if any, and filed in the office of the Secretary of State of the State of Texas; and, provided further, that such charter, together with the powers, rights, privileges and benefits thereof shall pass to said purchaser or purchasers, and associates, if any, subject to

the terms, provisions, restrictions and limitations imposed and to be imposed by law; and, provided further, that the amount of stock and bonds which may be held against said property and franchises, after the sale thereof, as well as the manner of issuance of such stock and bonds shall be fixed, determined and regulated by the Railroad Commission of Texas, at its discretion, save that the total encumbrance secured by lien on said property and franchises shall not exceed the amount allowed by Article 4584b of the Revised Statutes of Texas of 1895.

Article 4550. In case of any sale heretofore or hereafter made of the property and franchises of a railroad company, within this State, the purchaser or purchasers thereof, and associates, if any, shall be entitled to form a corporation, under Chapter 1 of Title 94 of the Revised Statutes of Texas for the purpose of acquiring, owning, maintaining and operating the road so purchased, as if such road were the road intended to be constructed by the corporation, and when such charter has been filed the new corporation shall have the powers and privileges then conferred by the laws of this State upon chartered railroads, including the power to construct and extend; provided that, notwithstanding such incorporation, the property and franchises so purchased shall be charged with and subject to the payment of all subsisting liabilities and claims, for death and personal injuries sustained in the operation of the railroad by the sold-out company and by any receiver thereof, and for loss of and damage to property, sustained in the operation of the railroad by the sold-out company and by any receiver thereof, and for the current expenses of such operation, including labor, supplies and repairs; provided, that all such subsisting claims and liabilities shall have accrued within two years prior to the beginning of the receivership resulting in the sale of such property and franchises, or within two years prior to the sale if said property and franchises be sold otherwise than under receivership proceedings, unless suit was pending on such claims and liabilities when the receiver was appointed or when the sale was made, in which event claims and liabilities on which suits were so pending shall be protected hereby as though accruing within the two years; and provided that, by such purchase and organization, no right shall be acquired in conflict with the present

Constitution and laws, in any respect, nor shall the main track of any railroad once constructed and operated be abandoned or removed; and, provided further, that the amount of stock and bonds which may be issued by said new corporation, as well as the manner of their issuance, shall be fixed, determined and regulated by the Railroad Commission of Texas, at its discretion, save that the total encumbrance secured by lien on said property and franchises shall not exceed the amount allowed by Article 4584b of the Revised Statutes of Texas of 1895.

Sec. 2. That this act shall not be construed to in anywise repeal or impair the provisions of Chapter 14, Title 94 of the Revised Statutes of the State of Texas, except in so far as the same may be changed by the provisions of this act.

Sec. 3. Whereas, there is no provision in the laws of this State for any return from purchasers of railroad properties for valuable privileges and no adequate regulation of stocks and bonds against sold-out railroad properties, there exists an imperative public necessity and emergency for the suspension of the rule requiring bills to be read on three several days in each house, and said rule is hereby suspended, and this act shall take effect and be in force from and after its passage, and it is hereby so enacted.

Committee Room,

Austin, Texas, September 1, 1910.

Hon. A. B. Davidson, President of the Senate.

Sir: Your Committee on Enrolled Bills have carefully examined and compared Senate bill No. 4, and find it correctly enrolled, and have this day, at 5:10 o'clock p. m., presented same to the Governor for his approval.

TERRELL of McLennan, Chairman.

Following is the bill in full:

An Act to require persons, corporations, or receivers, engaged in constructing or repairing railroad cars, trucks or other railroad equipment to erect and maintain buildings or sheds for the protection from rain, wind or other inclement weather employees engaged in constructing or repairing railroad cars, trucks and other railroad equipment, and providing penalties for the violation of this act, and regulating penalties, and repealing Chapter 53, Acts of the Thirty-first Legislature of the State of Texas, entitled

"An Act to require all railroad companies doing business in this State to provide suitable premises and shelter for the protection from the weather of their employes while engaged in labor in the service of said railroad companies," and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. That every person, corporation or receiver engaged in constructing or repairing railroad cars, trucks or other railroad equipment shall erect and maintain a building or shed at every station or other point where as many as five men are regularly employed on such repair work, the building or shed to cover a sufficient portion of its track so as to provide that all men regularly employed in the construction and repair of cars, trucks, or other railroad equipment, shall be sheltered from rain and protected from other inclement weather.

The provisions of this act shall not apply at points where less than five men are regularly employed in the repair service, nor at division terminals or other points where it is necessary to make light repairs only on cars, nor to cars loaded with time or perishable freight, nor to cars when trains are being held for the movement of said cars.

Sec. 2. Any person, corporation or receiver who shall violate the provisions of this act shall be liable to the State of Texas for a penalty in any sum not less than \$50 nor more than \$100, and each ten days of such failure or refusal to comply with the provisions of this act shall be considered a separate infraction authorizing the recovery of a separate penalty.

Suit for recovery of penalties hereunder shall be brought by the Attorney General of this State or by the county or district attorney of the county in which suit is brought, and the county or district attorney, as the case may be, shall receive a fee of ten per cent (10%) upon each penalty recovered and collected by him in addition to the fee allowed him by law at this time, and said fee shall be over and above the fee allowed him by law at this time, and said fee shall be over and above the fees allowed under the general fee act in force in this State.

Sec. 3. That Chapter 53 of the Acts of the Regular Session of the Thirty-first Legislature, entitled "An Act to require all railroad companies doing business in this State to provide suit-

able premises and shelter for the protection from the weather of their employes while engaged in labor in the service of said railroad companies," be and the same is hereby repealed; that this act shall take effect ninety days after the adjournment of this Special Session; but that all persons, corporations or receivers affected by this act shall have until June 1, 1911, within which to comply with the provisions thereof.

Sec. 4. The importance of the legislation proposed in this bill and the probable early adjournment of the present session of the Legislature, rendering it improbable that this bill can be read on three several days in each house, creates an emergency and an imperative public necessity exists requiring the constitutional rule requiring bills to be read on three several days in each house be suspended, and said rule is hereby suspended, and it is so enacted.

SIMPLE RESOLUTION.

By Senator Terrell of McLennan:

Whereas, The Second Called Session of the Thirty-first Legislature passed an act providing for the completion of the State Railroad from Rusk to Palestine, authorizing the Penitentiary Board to issue bonds in the sum of \$200,000, said bonds to be purchased by the State Board of Education out of the permanent school fund of this State; and

Whereas, Said act made it the duty of the Penitentiary Board to make an effort to sell said road upon its completion into the city of Palestine as shown by the following language contained in Section 4 of the bill, to wit:

"When said railroad shall be completed to the town of Palestine it shall be the duty of the Penitentiary Board to endeavor to make a sale of the same whenever said sale can be made without detriment to the interest of the State and the several industries operated as a part of the penitentiary system. Said board shall be authorized, at its discretion, to make application to the Railroad Commission of the State of Texas to value said railroad property; together with all of its equipments, rolling stock, right of way, depot buildings and all appurtenances of whatsoever kind and character, and in no event shall said road be sold for less than such valuation fixed upon the same by said Railroad Commission"; and

Whereas, From newspaper reports we are advised that said road was completed about August the 15th, 1909; therefore be it

Resolved by the Senate of Texas, That the Penitentiary Board be requested to notify this body whether or not any effort has been made toward carrying out this provision of the law, which makes it their duty to sell this road upon completion, and whether or not any request has ever been made upon the Railroad Commission to have this property valued by said Commission, and if so report all the facts.

SIMPLE RESOLUTION.

By Senator Hudspeth:

Whereas, It has been the time-honored custom of the Democratic party to allow and permit each Governor of this State to make all appointments under his administration; and

Whereas, The Governor of this State is, in the mind of the public, held responsible for the success or failure of each department of the government, and the present Governor and all his predecessors have been allowed and permitted to name all appointive officers serving during their term of office;

It is, therefore, the sense of this Senate that the Free Conference Committee on the part of the Senate be instructed to stand for this principle of government, and permit the present Governor to exercise the appointive power without restriction during his term of office, and the law be so framed as to allow the incoming Governor to make all appointments authorized when he shall be inducted into office for which his administration will be held responsible by the people of Texas.

The above was read and Senator Alexander offered the following substitute:

Whereas, The members of the present

insurance board under the existing law would hold their positions until September 20, 1911, and no appointment could be made until that date; therefore, be it

REASONS FOR VOTING.

We vote "no" on this bill because it has been amended so as to permit all felons to testify in all cases, both civil and criminal. This should be permitted in all cases where offenses have been committed on prisoners and no further. An amendment has also been adopted allowing all convicts who have served fifteen years and have a good prison record may be released on their parole, except in certain cases, thereby repealing many provisions of our criminal statutes.

We are in favor of prison reform, and we are of the opinion that these reforms should be made, but we do not want to be placed on record to make a summer

resort out of our penitentiaries or to vote to destroy all the penalty provisions of our criminal statutes.

There are other reasons why this bill as amended should not become a law, but we deem these sufficient for this record.

**BRACHFIELD.
STURGEON.**

We voted for the engrossment and final passage of the penitentiary bill because we believe that the penitentiary system should be reformed and that the abuses now in existence should be done away with. There are a number of amendments which have been adopted, which we are opposed to and which we think are very dangerous and should not have been adopted, but we voted for the passage of this penitentiary bill, feeling sure that the House of Representatives would eliminate some of the objectionable amendments which have been adopted and with the hope that a Free Conference Committee would get together and adopt a bill that should be adopted, with the elimination of the objectionable amendments. We could not afford to vote "no" and thus by our vote assist in destroying the hope of all penitentiary reform.

**MAYFIELD.
HOLSEY.**

I vote "no" on the engrossment and final passage of the penitentiary bill, because it has been loaded down with so many dangerous amendments as in my judgment more than offset any benefits from the proposed legislation. Chief among my objections is the amendment which makes convicts competent witnesses in civil and criminal cases, and thus wipes out the rule of evidence, as old as the centuries, forbidding felons from giving evidence. I can not consent to so sweeping a change in the administration of public justice. While I favor the just and humane treatment of convicts, yet it is carrying the sentiment entirely too far when so radical a suggestion is made as that of making competent witnesses of the convicted and unpardoned criminals and felons of the State without restriction. The spectacle of the notary public invading the walls of the penitentiary or the convict farms armed with commissions to take depositions of criminals would be most unseemly, and even more so would be that of the convicted murderer, thief or even perjurer called back to the witness

stands in our courthouses to testify in the causes of honest people.

I also object to the so-called parole amendment, because it practically abolishes life imprisonment terms for even desperate prisoners.

It is a maudlin sentiment which proposes to make it almost as honorable to be in the penitentiary as out of it.

COFER.

I vote "yea" on the passage to engrossment of Senate bill No. 10, known as the penitentiary reform bill, not because I endorse all the provisions of the bill, but because it is the best bill, in my opinion, that can be enacted by this Legislature.

The conditions found to exist on the contract and share farms of the State, as reported by the Investigating Committee, are of such a shocking nature as to cause every humane man in Texas to hang his head in shame and justifies the Legislature in the expenditure of a large sum of money to bring about reform in the care and treatment of our unfortunate criminals, and it is this reason alone that governs my vote upon this question.

With the policy of the bill, as outlined in Section 3, "to work all prisoners within the walls, and upon farms owned by the State," I am compelled to dissent. Under this bill the State is committed to a policy of farming, the raising of corn and cotton, in competition with the farmers of the State, which, in my opinion, should never be done. The State now has 26,000 acres of sugar land in the Brazos bottom, which is sufficient for all purposes. In my opinion, provisions should be made for working a large number of short-term men upon the public roads of the State, and others might be profitably employed within the walls in the manufacture of articles controlled wholly or in part by trusts.

Knowing, however, that it is impossible to incorporate such ideas in this bill, and with the hope of bringing about more humane treatment of these poor unfortunate criminals, I shall support this bill.

TERRELL of McLennan.

I vote "no" on the engrossment and final passage of Senate bill No. 10, and assign for such vote the following reasons, among others:

1. I can not subscribe to that section of the bill allowing convicts in the penitentiary to testify in the courts of

the country without any qualification whatever. Hundreds of them are there now for the crime of perjury, and the effect of this bill is to again allow them to testify in the same case.

2. While I am in hearty sympathy with the "parole" features of this bill and similar legislation, I can not consent to a law compelling the prison authorities to parole (practically turn loose prisoners serving a long term or life sentence), because they have had good records.

Senator Cofer offered the following amendment:

Amend the pending House bill No. 9, by striking out all after the enacting clause and inserting in lieu thereof the following:

"Section 1. That Title XIV of the Revised Statutes of the State of Texas, 1895, be amended so as to add another chapter to said title to be known as Chapter 4, which shall include Articles 331c, 331d, 331e and 331f, and to read as follows:

"CHAPTER 4.

"Negotiable and Non-Negotiable Bills of Lading and How They May Be Authenticated.

"Article 331c, Section 1. It shall be the duty of the local freight agent or ship agent of every carrier in this State to issue to a shipper either a negotiable or non-negotiable bill of lading, as the shipper may request.

"Sec. 2. A bill of lading in which it is stated that the goods are consigned or destined to a specific person, is a 'non-negotiable' or 'straight' bill of lading, and all such bills of lading shall have printed across the face thereof in large letters the words, 'non-negotiable.'

"Sec. 3. A bill of lading in which it is stated that the goods are consigned to the order of any person named in such bill of lading, is a negotiable bill of lading, or 'order' bill of lading, and shall have printed across the face thereof in large letters, the words 'negotiable' and such bill of lading shall be and the same is hereby made negotiable by written endorsement thereon, and de-

livery in the same manner as bills of exchange or promissory notes. Such bills of lading shall not have placed thereon the words 'non-negotiable' or words of similar import, and no printed or written conditions, clauses or provisions inserted in or attached to any such bill of lading shall in any way limit the negotiability or affect the negotiation thereof, nor in any manner impair the rights and duties of all parties thereto, or persons interested therein, and if such conditions, clause or provisions, purporting to limit or affect the rights or liabilities created and declared by this act, shall be inserted in such bill of lading, same shall be void and of no effect. Provided that no legal subsisting and unsatisfied lien existing on, against or upon any property embraced or covered by negotiable bills of lading at the time such negotiable bill of lading is issued, shall be affected by the issuance of such negotiable bill of lading.

"Sec. 4. Negotiable bills of lading shall not be issued in parts or sets. If so issued the carrier issuing them shall be liable for failure to deliver the goods described therein to any one who purchases a part for value in good faith, even though the purchase be after the delivery of the goods by the carrier to a holder of one of the other parts.

"Sec. 5. When more than one negotiable bill is issued, the word 'duplicate' or some other word or words indicating that the document is not an original bill shall be placed plainly upon the face of every such bill, except the one first issued. A carrier shall be liable for the damages caused by his failure so to do to any one who has purchased the bill for value in good faith as an original, even though the purchase be after the delivery of the goods by the carrier to the holder of the original bill.

"Article 331d, Section 1. It shall be the duty of the local freight agent or ship agent of every carrier in this State, coming within the provisions of this act, if requested by the shipper, when issuing a bill of lading to sign such bill of lading and make affidavit thereto before some officer duly authorized to administer oaths under the laws of this State, the form of which affidavit shall be substantially as follows:

"State of Texas,
County of

Before me, the undersigned authority, on this day personally appeared....., known to me to be the person whose

name is subscribed to the foregoing instrument, and who by me being duly sworn upon oath depose and says:

That he is the duly authorized agent of..... and that acting in such capacity he signed this bill of lading and that the matters and things therein stated are true and correct.

.....
Agent for.....

Sworn to and subscribed before me at.....this..day of....., A. D.,....

.....in and for.....County, Texas.

"Said affidavit shall be subscribed and sworn to by the agent making same before the officer taking such an affidavit, and such officer shall certify thereto under his hand and official seal, giving the date and place of such affidavit, which said affidavit shall be written or printed at the bottom of or on the reverse side of the bill of lading, and the officer taking such affidavit shall keep a record of same, which shall show the name of the carrier issuing such bill of lading, the number of same, the name of the agent signing same, the name of the shipper and the consignee, the date of such bill of lading and a brief description of the goods shipped, which record shall be open to inspection and shall be preserved as required by law for notary public records. The officer taking such affidavit shall be entitled to a fee of twenty-five cents for each affidavit which shall be paid by the shipper.

"Article 33le. All carriers referred to in this act, issuing bills of lading, as herein provided, shall be responsible to the consignee named in a straight bill of lading and to the holder of an order or negotiable bill of lading, who has given value in good faith therefor, relying upon the description of the property, whether or not such property was received by the carrier or its agent at the time of the issuance of such bill of lading, and whether or not the goods received by the carrier or its agent were correctly described in the said bill of lading; and the carrier shall be estopped to deny the receipt of the goods or to vary the description of the goods, as contained in said bill of lading. If, however, the goods are described in a bill merely by a statement of marks or labels upon them or upon packages containing them, or by a statement that the goods are said to be goods of a certain kind or quantity, or in a certain condition, or it is stated in the bill that the packages are said to contain goods

of a certain kind or quantity or in a certain condition, or that the contents or condition of the contents of packages are unknown, or words of like purport are contained in the bill, such statement, if true, shall not make liable the carrier issuing the bill, although the goods are not of the kind or quantity or in the condition which the marks or labels upon them indicate, or the kind or quantity or in the condition they were said to be by the consignor.

"Article 33lf, Section 1. Any officer, agent or servant of a carrier who shall knowingly issue or aid in issuing, or who shall knowingly allow a bill of lading to issue when any part of the goods for which said bill of lading is issued, have not been received by such carrier or by an agent of such carrier, or by a connecting carrier, or are not under the carrier's control at the time of the issuance of such bill of lading, shall be guilty of a misdemeanor and upon conviction shall be punished for such offense by a fine of not exceeding five thousand dollars (\$5000) or by imprisonment in the county jail for a term of not exceeding two years, or by both such fine and imprisonment.

"Section 2. Any person who negotiates or transfers for value a bill of lading knowing that any or all of the goods which by the terms of such bill of lading appear to have been received for transportation by the carrier which issued the bills of lading, are not in the physical possession and control of the carrier, or the connecting carrier, without disclosing this fact shall be guilty of a felony, and upon conviction of such an offense shall be punished by confinement in the State penitentiary for a term of not exceeding five years.

"Section 3. Any person who secures the issuance of a bill of lading knowing that at the time of such issuance any or all of the goods described in such bill of lading, as received for transportation, have not been received by such carrier, or are not in the physical possession and control of such carrier, by inducing an officer, agent or servant of such carrier, to falsely believe that such goods have been received by such carrier, or are under its control, shall be guilty of a felony, and upon conviction shall be punished for such offense by confinement in the State penitentiary for a term not exceeding five years.

"Sec. 2. The fact that the shipping season is near at hand and that there is a universal demand that the commercial community be furnished with

staple documents and particularly with reference to bills of lading in the movement of this year's cotton crop creates an emergency and an imperative public necessity, authorizing the suspension of the constitutional rule requiring that bills be read on three several days and that this act take effect and be in force from and after its passage, and it is so enacted; provided, however, that the carriers and other persons affected by the provisions of this act shall have until the 15th day of October, A. D. 1910, in which to prepare and begin operations hereunder before the penalty provided for by this act shall be assessed against them or any of them."

COFER,
MAYFIELD.

Pending.

Pending the reading of the above amendment, on motion of Senator Watson the same was dispensed with, and that the bill be made a special order for tomorrow morning.

Senator Cofer then asked to have the following proposed amendment printed in the Journal:

Amend the pending House bill No. 9 by striking out all after the words "To be entitled" and before the enacting clause and insert in lieu thereof the following: "An Act to be entitled an act to amend Title 14 of the Revised Statutes of the State of Texas, 1895, so as to add another chapter to said title to be known as Chapter 4, which shall include Articles 331c, 331d, 331e and 331f, defining negotiable and non-negotiable bills of lading and their essential terms, the rights and liabilities of the parties thereto, providing for the authentication of bills of lading, defining crimes and offenses in connection with the issuing of bills of lading, fixing penalties and punishments for such offenses, and declaring an emergency."

COFER,
MAYFIELD.

DOORKEEPER—ELECTION OF.

Senator Meachum here moved that the Senate proceed to the election of a Doorkeeper to succeed Mr. J. R. Waties, resigned.

The motion prevailed.

Senator Meachum placed in nomination for Doorkeeper, Mr. W. T. Neblett, Jr., of Grimes county.

There were no other nominations.

Senators Terrell of Wise, Ratliff and Mayfield were appointed as tellers.

Mr. Neblett received 27 votes, and the Chair declared him duly and constitutionally elected Doorkeeper.

The Chair appointed Senators Meachum and Kauffman to escort Mr. Neblett to the bar of the Senate, whereupon the constitutional oath of office was administered him.

SENATE BILL NO. 12.

The Chair laid before the Senate, on second reading,

Senate bill No. 12, A bill to be entitled "An Act to authorize the working of short-term felony convicts on the public roads by the counties of Texas; defining who are short-term convicts, and providing rules and regulations under which said convicts can be so worked."

Senator Terrell of McLennan moved that the bill be laid on the table subject to call.

EXCUSED.

On motion of Senator Alexander, Senator Willacy was excused for non-attendance upon the Senate for this week, on account of sickness.

REASONS FOR VOTING.

On yesterday when the Senate voted on the amendment to the penitentiary bill, appropriating \$500,000 out of the general revenue of the State, I refused to vote on the amendment for the following reasons, to wit:

I find from the Comptroller's report for the fiscal year ending August 31, 1909, on page 4 of said report, the Treasury balance reported as being on August 31, 1908, \$888,985.61. After this date the Attorney General turned into the State Treasury money collected from the Waters-Pierce Oil Company a net amount of \$1,770,212.55. These two items gave to the State \$2,659,198.16 in cash, over and above all revenue collected by the State for the two fiscal years ending August 31, 1910. I find from the statement issued by the Treasurer of the State at the request of Senator Hudspeth that there was a balance in the Treasury on the 31st of August, 1910, of \$1,258,000.

From the above, it is quite clear that the State has expended \$1,401,198.16, over and above all the revenues collected by the State during the entire two fiscal years just past.

To my mind, it is quite clear that it

has cost the State \$1,401,198.16, over and above the total income of the State, to pay the current expenses of the State for the past two fiscal years, and that under an economical administration. It would be a violent assumption to assume that it would be possible for the State to pay current expenses for the next two fiscal years (with \$1,401,198.16 less than amount spent during the past two years), it matters not how wise and economical it might be.

With a deficit in sight, I can not afford to vote to increase this deficit by one-half million dollars.

MURRAY.

ADJOURNMENT.

On motion of Senator Hume, the Senate, at 5:15 o'clock p. m., adjourned until 10 o'clock tomorrow morning.

A BILL

To Be Entitled

An Act providing conditions upon which insurance companies writing contracts or policies of insurance against the hazard of fire, may transact business in the State of Texas and providing for the making, promulgation, regulation and control of general basis schedules, insurance rates and premiums and forms of insurance policies; providing certain conditions and limitations on insurance contracts or policies; providing for maximum insurance rates and how companies

may write contracts of insurance at rates lower than the maximum rates and the filing of statements of reduced rates with the State Insurance Board and certified copies thereof with city secretaries and county clerks and fixing the fees of said last two officers for such service; to prevent discrimination in insurance rates or premiums except as provided in this act; to create a State Insurance Board and prescribing the duties and authority of said board and each member thereof and fixing the salaries of the members thereof and providing for their appointment and removal; providing certain duties for and to give certain authority to the Commissioner of Insurance and Banking; appropriating money necessary to carry out the provisions of this act; providing penalties for the violation of certain provisions of this act; fixing the time when this act shall go into effect and repealing Chapter 18, of the General Laws of the State of Texas, passed by the First Called Session of the Thirty-first Legislature and all other laws and parts of laws in conflict therewith and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. Every fire insurance company, every marine insurance company, every fire and marine insurance company, every fire and tornado insurance company, and each and every insurance company of every kind and name issuing a contract or policy of insurance, or contracts or policies of insurance against loss by fire on property within this State, whether such property be fixed or movable, stationary or in transit, or whether such property is consigned or billed for shipment within or beyond the boundary of this State or to some foreign country, whether such company is organized under the laws of this State or under the laws of any other State, Territory or possession of the United States, or foreign country, or by authority of the Federal government, now holding a certificate of authority to transact business in this State, or hereafter granted authority to transact business in this State, shall be deemed to have accepted such certificate and to transact business thereunder, upon condition that it consents to the terms and provisions of this act and that it agrees to transact business in this State subject there-

to; it being intended that every contract or policy of insurance against the hazard of fire shall be issued in accordance with the terms and provisions of this act, and the company issuing the same governed thereby, regardless of the kind and character of such property and whether the same is fixed or movable, stationary or in transit, including the shore end of all marine risks insured against loss by fire.

Sec. 2. That there may be reasonable and just insurance rates in Texas, there is hereby created a board to be known as the "State Insurance Board," which shall be composed of the Commissioner of Insurance and Banking, who shall be chairman thereof, and two members who shall be appointed by the Governor by and with the consent of the Senate, subject to removal as provided for removal of State officers by Article 3528, of the Revised Statutes of Texas; the members of said board other than the Commissioner of Insurance and Banking shall be appointed as herein provided within ten days after this act takes effect; one of said members to be so appointed shall be appointed for a term ending February 1, 1911, and biennially thereafter; the other of said members of said board shall be appointed for a term ending February 1, 1912, and biennially thereafter, and the Governor in making his first appointments to fill these respective offices shall designate which of said officers shall fill the term expiring February 1, 1911, and which of said officers shall fill the term expiring February 1, 1912. The Commissioner of Insurance and Banking, for the purpose of this act, may be referred to as the Commissioner of Insurance.

Sec. 3. The members of said board other than the Commissioner of Insurance and Banking, shall each receive as compensation for their services the sum of twenty-five hundred dollars per annum; and the Commissioner of Insurance and Banking shall receive as compensation or salary for his services under this act, the sum of five hundred dollars per annum in addition to his compensation as now fixed by law. Such salaries of the said two appointed members of said board and the said five hundred dollars salary of the Commissioner of Insurance and Banking, together with the necessary compensation of experts, the clerical force, and other persons employed by said board, and all necessary traveling expenses, and such other ex-

penses as may be necessary, incurred in carrying out the provisions of this act, shall be paid by warrants drawn by the Comptroller upon the State Treasurer upon the order of said board; provided, that the total amount of all salaries and said other expenses shall not exceed the sum of twenty-five thousand dollars annually; and for the purpose of carrying out the provisions of this act there is hereby appropriated out of any money in the State Treasury not otherwise appropriated the sum of twenty-five thousand dollars, or so much thereof as may be necessary, for the fiscal year beginning September 1, 1910, and ending August 31, 1911.

Sec. 4. The State Insurance Board shall have the power and authority and it shall be its duty to prescribe, fix, control and regulate rates of fire insurance, as provided in this act. It shall make and prescribe general basis schedules, together with rules and regulations for determining maximum specific rates therefrom, and furnish each insurance company now doing business in this State, or which may hereafter be granted a certificate of authority to do business in this State, a copy of such general basis schedules; and the said board shall also have authority to alter or amend such general basis schedule in accordance with the provisions of this act. Said board shall also supervise, control and regulate rates of insurance, and shall have authority to alter and revise and to raise and lower such rates, and to alter and revise, raise and lower such general basis schedules or any part thereof, and decide all questions required, authorized or permitted to be passed upon by said board under the provisions of this act. Said board shall also have authority to employ clerical help, experts, inspectors, and such other assistants, and to incur such other expenses as may be necessary in carrying out the provisions of this act not to exceed the sum of \$25,000 per annum, including salaries of the members of the board and all other expenses to be paid out of the State Treasury.

It shall be the duty of said board to ascertain as soon as practicable the annual fire loss in this State; to obtain, to make and maintain a record thereof and collect such data and information with respect thereto as will enable said board to classify the fire losses of this State, the causes thereof and the amount of premiums collected therefor for each class of risks and the amount

paid thereon, in such manner as will be of assistance in determining equitable insurance rates, methods of reducing such fire losses, and reducing the insurance rates of the State.

Sec. 5. For the purpose of facilitating the work of said board, one of the appointed members thereof shall be selected by the board as its secretary, who shall perform the duties which shall appertain to that position, and whose official title shall be "Secretary of the State Insurance Board;" the other of said appointed members thereof shall be selected by said board as fire marshal of the State Insurance Board and his official title shall be "Fire Marshal of the State Insurance Board;" but the said members so selected as secretary and fire marshal as aforesaid, shall receive no compensation for filling their respective positions other than their salaries as members of the State Insurance Board, and shall perform the duties of these respective positions at the will of the board but their expenses incurred in performing the duties of these positions shall be paid as provided in this act.

Sec. 6. It shall be the duty of the fire marshal of the State Insurance Board, who, for the purpose of this act, may be referred to as the State Fire Marshal, at the discretion of the board, and upon the request of the mayor of any city or village, or the chief of a fire department of any city or village; or any fire marshal where a fire occurs within such city or village; or of a county or district judge; or of the sheriff or county attorney of any county, where a fire occurs within the district or county of the officer making such request; or of any fire insurance company, or its general, State or special agent, interested in a loss; or of a policyholder sustaining a loss; or upon the direction of the State Insurance Board to forthwith investigate at the place of such fire, the origin, cause and circumstances of any fire occurring within this State, whereby property has been destroyed or damaged, and shall ascertain if possible whether the same was the result of an accident, carelessness or design, and shall make a written report thereof to the State Insurance Board; and shall also furnish in writing to the county or district attorney of the county in which such fire occurred all the information and evidence obtained by him, including a copy of all the pertinent testimony taken in the case.

Sec. 7. The State Fire Marshal shall have the power to administer oaths, take

testimony, compel the attendance of witnesses and the production of documents, and to enter at any reasonable time, any buildings or premises where a fire has occurred or is in progress, or any place contiguous thereto for the purpose of investigating the cause, origin and circumstances of such fire. And he may enter and examine at any reasonable time any building, structure or place for the purpose of ascertaining the fire hazard, and may remove or require the owner or occupant to remove or safely store combustible material, dangerously exposed or improperly placed therein, and to remove any unnecessary exposure to fire hazard found therein; the said State Fire Marshal is hereby authorized, when necessary, to apply to a court of competent jurisdiction for the necessary writs or orders to enforce the provisions of this section, and in such case he shall not be required to give bond.

Sec. 8. If for any reason the State Fire Marshal is unable to make any required investigation in person he may designate the fire marshal of such city or town, or some other suitable person to act for him; and such person so designated shall have the same authority as is herein given the State Fire Marshal with reference to the particular matter to be investigated by him, and shall receive such compensation for his services as may be allowed by the State Insurance Board. If the investigation of a fire is made at the request of an insurance company or at the request of a policy holder sustaining loss, or at the request of the mayor, town clerk or chief of the fire department of any city, village or town in which the fire occurred, then the expenses of the Fire Marshal, clerical expenses, witnesses and officers' fees incident and necessary to such investigation shall be paid by such insurance company, or such policy holder or such city or town as the case may be; otherwise the expenses of such investigation are to be paid as part of the expenses of the State Insurance Board. Provided, the party or parties, company or companies requesting such investigation shall before such investigation is commenced deposit with the State Insurance Board an amount of money in the judgment of said board sufficient to defray the expenses of said Fire Marshal in conducting such investigation.

Sec. 9. No action taken by the State

Fire Marshal shall effect the rights of any policy holder or any company in respect to a loss by reason of any fire so investigated; nor shall the result of any such investigation be given in evidence upon the trial of any civil action upon such policy, nor shall any statement made by any insurance company, its officers, agents or adjusters, nor by any policy holder or any one representing him, made with reference to the origin, cause or supposed origin or cause, of a fire, to the Fire Marshal or to any one acting for him or under his directions, be admitted in evidence or made the basis for any civil action for damages.

Sec. 10. The said board is authorized and empowered to require sworn statements from any insurance company affected by this act and from any of its officers, directors, representatives, general agents, State agents, special agents and local agents of the rates and premiums collected for fire insurance on each class of risks, on all property in this State during any or all years for the five years next preceding the 1st day of January, 1910, and of the causes of fires, if such be known, if they are in possession of such data and information, or can obtain it at a reasonable expense; and said board is empowered to require such statements for any period of time after the 1st day of January, 1910; and said board is empowered to require such statements showing all necessary facts and information to enable said board to make, amend and maintain the general basis schedules provided for in this act, and the rules and regulations for applying same and to determine reasonable and proper maximum specific rates and to determine and assist in the enforcement of the provisions of this act. The said board shall also have the right, at its discretion, either personally or by some one duly authorized by it to visit the offices whether general, local or otherwise, of any insurance company doing business in this State, and the home office of said company outside of this State, if there be such, and the office of any officers, directors, general agents, State agents, local agents or representatives of such company, and there require such company, its officers, agents or representatives to produce for inspection by said board or any of its duly authorized representatives, all books, records and papers of such company or such agents and representatives; and the said board or its duly authorized

agents or representatives shall have the right to examine such books and papers and make or cause to be made copies thereof; and shall have the right to take testimony under oath with reference thereto, and to compel the attendance of witnesses for such purpose; and any company, its officers, agents or representatives failing to make such statements and reports herein referred to and failing or refusing to permit the examination of books, papers and records as herein required when so called upon, or declining or failing to comply with any provision of this section shall be subject to the penalties provided for in Section 25 of this act.

Sec. 11. Immediately upon the taking effect of this act, or as soon thereafter as practicable, said board is empowered and it is hereby made its duty, to prepare a system of general basis schedules, together with rules for applying the same, for determining fire insurance rates on property in this State; the said general basis schedules and the rules for applying the same to be at all times reasonable; the said board may employ and use any facts and information now in the possession of or in the records of the present State Fire Rating Board, as well as all facts obtainable from and concerning fire insurance companies transacting business in this State, showing the experience of said companies, and charges for premiums on fire insurance, and generally as to the transaction of their said business during the years named in Section 10 of this act or during any other period of time, in order to devise and fix reasonable general basis schedules and rules for applying the same for determining the maximum specific rates. The said board in preparing such general basis schedules showing the rates on all classes or risks insurable by any company in this State, shall show all charges, credits, terms, privileges and conditions which in any wise affect such rates or the application of such rates to specific risks or the cost of insurance; provided, that such schedules and the rules for applying the same shall be furnished by said board to any and all insurance companies affected by this act applying therefor; and the same shall be furnished to any citizen of this State applying therefor upon the payment of the actual cost thereof; that such general basis schedules, and the rules prescribed with reference thereto shall not take effect until said board

shall have entered an order or orders fixing the same, and shall have given notice to all insurance companies affected by this act, authorized to transact business in this State.

Sec. 12. It is further provided that after the adoption and promulgation of the general basis schedules and the rules and regulations for applying the same, as herein provided for by the board, every insurance company writing fire insurance policies within this State shall, within a reasonable time, file with the State Insurance Board its application of said general basis schedules to the specific risks of the State, and the specific rates obtained thereby in accordance with the several provisions of this act; and provided further, that any one or more insurance companies may employ for the application of such general basis schedules and the making of such specific rates, the service of such experts as they may deem advisable for such purpose, but the contract or contracts of employment of such experts shall first be submitted to the State Insurance Board for its approval; provided, further, that the State Insurance Board shall have authority, and it shall be the duty of said board, personally or by its agents, to inspect and supervise the work of said experts in the application of said general basis schedules in the determination of specific rates; which rates shall be the maximum insurance rates that may be charged for insurance in this State; provided, further, that any company may write insurance at a lower rate than the maximum on any risk or class of risks in any particular locality; and provided, further, that any company making any such reduction shall forthwith file with the State Insurance Board a statement of such reduction, showing the maximum rate and the reduced rate thereon, such statement to be on forms prescribed by the board and signed by the State or general agent of such company, which statement when so filed, shall be subject to the inspection of the public. The State Insurance Board, upon the filing of such statement, shall file a certified copy thereof with the city secretary of any city, town, or village of such locality, if there be such, or if there be no such officer, then the board shall file a certified copy thereof with the county clerk of the county of such locality which said statement when so filed, shall be subject to public inspection. The county clerk or city secretary

aforesaid shall receive as compensation the sum of ten cents for each such statement filed by him, which shall be paid to him by the State Insurance Board out of funds which shall be deposited with the State Insurance Board for such purpose by any such company; provided further, that said company or companies shall file with the board copies of all maps and copies of the analysis of all applications of said general basis schedules to the specific risks of this State, if required to do so by the board. And it shall be the duty of the expert or experts representing the insurance companies, or any insurance company in this State to furnish at the date of the inspection to the owners of all risks inspected for the purpose of applying the general basis schedules provided for in this act, a copy of such inspection report showing all defects that operate as charges to increase the insurance rate.

It is further provided that the maximum specific rates so made by a company or companies for any city, town, village or locality, shall not take effect, and such company or companies shall not write insurance thereunder until such maximum specific rates shall have been approved by the board; the board shall have the authority to reject said maximum specific rates so made or any part thereof, or to alter, amend, modify or change the same; or to permit such maximum specific rates to become effective for a limited time, or any modification or change thereof for a limited time in its discretion; provided, however, that the said board shall have authority in its discretion to permit the said company or companies to apply the said schedules of basis rates to risks other than mercantile and special hazards without having first submitted the maximum specific rates so made to said board for approval. But such rates that the board may permit any company or companies to apply without the board's approval shall always be subject to review by the board and by the proper showing of any policyholder or holders may be reduced. It is further provided that all changes made by any company in the maximum specific rates made by it in applying the general basis schedules shall be subject to the review of the board for its approval or disapproval, and shall be reported to the board in

such manner and form as may be prescribed by the board. Provided, further, that any insurance company or companies affected by this act shall have the right at any time to petition the board for an order changing or modifying the general basis schedules, or the application of the general basis schedules to the specific risks; and the board shall consider such petition as provided in this act, and enter such order as the board may deem just and equitable to such company or companies, to competing companies and to the public. Provided, further also, that any company or any policyholder affected by this act shall have the right to apply to the board for an order reducing the maximum specific rates of insurance on property within this State, and the board shall consider such application and enter such order with reference thereto as it may deem just and equitable to such company, to competing companies and to the public.

The board shall also have the power and authority to give each city, town, village, or locality credit for each and every hazard they may reduce or entirely remove, also for all added fire fighting equipment, increased police protection, or any other equipment or improvement that has a tendency to reduce the fire hazard of any such city, town, village or locality and also to give credit for a good fire record of each city, town, village or locality. The board shall also have the power and authority to compel any company to give any and all policyholders credit for any and all hazards that said policyholder or holders may reduce or remove. Said credit shall be in proportion to such reduction or removal of such hazard, and said company or companies shall return to such policyholder or holders such proportional part of unearned premiums charged for such hazards that may be reduced or removed.

Sec. 13. It is provided that after the approval by the board of the maximum specific rates made by the insurance companies hereunder, that thereafter when a policy of insurance is written that the policyholder shall be furnished by the company with a copy of the analysis of his maximum specific rate showing the items of charge and credit which determine the rate unless such policyholder has heretofore been furnished with such analysis of his rate; it is also further provided that the general basis

schedules and all maximum specific rates and local tariffs filed in accordance with the provisions of this act shall be open to the inspection of the public, and each local agent shall have and exhibit to the public copies thereof relative to all risks upon which he is authorized to write insurance.

Sec. 14. It is further provided that until the general basis schedules herein provided for shall have been promulgated by the board, and the maximum specific rates thereunder determined, all companies subject to the provisions of this act shall write insurance at the rates now in force in this State, including the reductions heretofore ordered by the State Fire Rating Board in localities where such specific rates have been determined and filed with the board; provided, the general basis schedules from which such specific rates have been made, and such specific rates shall be subject to the authority of the board under this act. Provided further, however, that wherever such specific rates have not been determined then the board shall designate at what rate the company shall write insurance; provided, however, that all rates under this section shall be maximum rates, and the companies shall have the right to write insurance below such rates by complying with the terms and conditions of Section 12 of this act.

Sec. 15. The said board shall have authority, upon reasonable notice, not exceeding thirty days, of its intention to do so, to alter, amend or revise said general basis schedules promulgated by it, or the specific maximum rates approved or ordered by it, as herein provided, and to give reasonable notice of such alteration, amendment or revisions to the public or to any company or companies affected thereby. Such altered, amended or revised schedules or maximum rates shall be the schedules or maximum rates to be thereafter charged for insurance by any company in this State; provided, that the board may order changes to be made to meet unusual conditions in any particular locality, should such conditions exist or arise, by giving similar notice to the public or to any company affected thereby. Provided, the changes or amendments made to the general basis schedules shall apply only to policies of insurance written after the order of the board making such changes or amendments becomes effective. Provided further, that no policy existing prior to the taking effect of such changes or amendments to the gen-

eral basis schedules shall be affected by such changes or amendments unless there shall be a change in the hazard of the risk necessitating a change in the rate applicable to such risk, in which event such policy shall be affected by such changes or amendments unless there shall be a change in the hazard of the risk necessitating a change in the rate applicable to such risk, in which event such policy shall be subject to the new rates applicable under the changed or amended general basis schedules.

Sec. 16. It shall be the duty of the State Insurance Board to make, promulgate and establish uniform policies of insurance applicable to the various risks of this State, copies of which uniform policies shall be furnished each company doing business in this State, or which may hereafter do business in this State. That after such uniform policies shall have been established and promulgated and furnished the respective companies doing business in this State, such companies shall, within sixty days after the receipt of such forms of policies, adopt and use said form or forms and no other; and all companies which may commence business in this State after the adoption and promulgation of such forms of policies, shall adopt and use the same and no other forms of policies. The said Insurance Board shall also prescribe all standard forms, clauses and indorsements used on or in connection with insurance policies. All other forms, clauses and indorsements placed upon insurance policies shall be placed there on subject to the approval of the board. The board shall also have authority in its discretion to change, alter or amend such form or forms of policy or policies, and such clauses and indorsements used in connection therewith upon giving notice and proceeding in accordance with Section 20 of this act.

Sec. 17. Any provision in any policy of insurance issued by any company subject to the provisions of this act to the effect that if said property is incumbered by a lien of any character or shall after the issuance of such policy become incumbered by a lien of any character, that such incumbrance shall render such policy void, shall be of no force and effect, and any such provision within or placed upon any such policy shall be absolutely null and void.

Sec. 18. No company subject to the provisions of this act may issue any policy or contract of insurance covering property in this State, which shall contain any clause or provision requiring

the assured to take out or maintain a larger amount of insurance than that expressed in such policy, nor in any way providing that the assured shall be liable as coinsurer with the company issuing the policy for any part of the loss or damage which may be caused by fire to the property described in such policy, and any such clause or provision shall be null and void and of no effect; provided, that it may be optional with the assured to accept a policy or contract of insurance containing a coinsurance clause or provision when a reduction in the rate of insurance on the property described in such policy is the consideration named in such clause, and when so accepted the coinsurance clause or provision shall be binding on the assured.

Sec. 19. It is provided that any citizen or number of citizens of this State, or any policyholder or policyholders, or any insurance company affected by this act, or any board of trade, chamber of commerce or other civic organization, or the civil authorities of any town, city or village, shall have the right to file a petition with the Insurance Board setting forth any cause of complaint that they may have as to any order made by this board, or any schedule promulgated by this board, or as to any specific rate approved by this board, and that they shall have the right to offer evidence in support of the allegations of such petition by witnesses, or by depositions or by affidavits; that upon the filing of such petition, the party complained of, if other than the board, shall be notified by the board of the filing of such petition and a copy thereof furnished the party or parties, company or companies, of whom complaint is made, and the said petition shall be set down for a hearing at a time not exceeding thirty days after the filing of such petition and the board shall hear and determine said petition; but it shall not be necessary for the petitioners or any one for them to be present to present the cause to the board, but they shall consider the testimony of all witnesses, whether such witnesses testify in person, or by deposition, or by affidavits, and if it be found that the complaint made in such petition is a just one, then the matters complained of shall be corrected or required to be corrected by said board.

Sec. 20. The State Insurance Board shall give the public and all insurance companies, to be affected by its orders or decisions, reasonable notice thereof, not exceeding thirty days, and an op-

portunity to appear and be heard with respect to the same; which notice to the public shall be published in one or more daily papers of the State, and such notice to the insurance company or companies to be affected thereby shall be by letter deposited in the postoffice, addressed to the State or general agent of such company or companies, if the address of such State or general agent be known to the board, or, if not known, then such letter shall be addressed to some local agent of such company or companies, or, if the address of a local agent be unknown to the board, then by publication in one or more of the daily papers of the State, and the board shall hear all protests or complaints from any insurance company or any citizen, or any city, town or village, or any commercial or civic organization as to the inadequacy or unreasonableness of any rates fixed by it or approved by it, or as to the inadequacy or unreasonableness of any general basis schedules promulgated by it or the injustice of any order or decision by it; and if any insurance company, or other person, or commercial or civic organization, or any city, town or village, which shall be interested in any such order or decision, shall be dissatisfied with any regulation, schedule or rate adopted by such board, such company or person, commercial or civic organization, city, town or village shall have the right, within thirty days after the making of such regulation or order, or rate, or schedule, or within thirty days after the hearing above provided for, to bring an action against said board in the district court of Travis county to have such regulation or order or schedule or rate vacated or modified; and shall set forth in a petition therefor the principal ground or grounds of objection to any or all of such regulations, schedules, rates or orders; in any such suit, the issue shall be formed and the controversy tried and determined as in other civil cases, and the court may set aside and vacate or annul any one or more or any part of any of the regulations, schedules, orders or rates promulgated or adopted by said board, which shall be found by the court to be unreasonable, unjust, excessive or inadequate, without disturbing others. No injunction, interlocutory order or decree suspending or restraining directly or indirectly the enforcement of any schedule, rate, order or regulation of said board shall be granted.

Provided, that in such suit, the court, by interlocutory order, may authorize the writing and acceptance of fire insurance policies at any rate, which in the judgment of the court is fair and reasonable during the pending of such suit, upon condition that the party to such suit in whose favor the said interlocutory order of said court may be, shall execute and file with the Commissioner of Insurance and Banking a good and sufficient bond to be first approved by said court, conditioned that the party giving said bond will abide the final judgment of said court and will pay to the Commissioner of Insurance and Banking whatever difference in the rate of insurance it may be finally determined to exist between the rate as fixed by said board complained of in such suit, and the rate finally determined to be fair and reasonable by the court in said suit; and the said Commissioner of Insurance and Banking, when he receives such difference in money, shall transmit the same to the parties entitled thereto.

Whenever any action shall be brought by any company under the provisions of this section within said period of thirty days, no penalties nor forfeitures shall attach or accrue on account of the failure of the plaintiff to comply with the orders, schedules, rates or regulations sought to be vacated in such action until the final determination of the same.

Either party to any such action, if dissatisfied with the judgment or decree of said court, may appeal therefrom as in other civil cases. No action shall be brought in any court of the United States to set aside any orders, rates, schedules or regulations made by said board under the provisions of this act until all of the remedies provided herein shall have been exhausted by the party complaining.

If any insurance company affected by the provisions of this act shall violate any of the provisions of this act, the Commissioner of Insurance shall, by and with the consent of the Attorney General, cancel its certificate of authority to transact business in this State.

Sec. 21. No company shall engage or participate in the insuring or reinsuring of any property in this State against loss or damage by fire except in compliance with the terms and provisions of this act; nor shall any such company knowingly write insurance at any rate higher than the maximum rates herein provided for and it shall be unlawful

for any company so to do. And it shall be unlawful for any company, or its officers, directors, general agents, State agents, special agents, local agents, or its representatives, to grant or contract for any special favor or advantage in the dividends or other profits to accrue thereon, or in commissions or division of commissions, or any position, or any valuable consideration, or any inducement not specified in the policy contract of insurance; nor shall such company give, sell or purchase, offer to give, sell or purchase, directly or indirectly, as an inducement to insure or in connection therewith, any stocks, bonds or other securities of any insurance company or other corporation, partnership, or individual, or any dividends or profits accrued or to accrue thereon or anything of value whatsoever, not specified in the policy; but nothing in this section or in this act shall be construed to prohibit a company from sharing its profits with its policyholders; provided, that such agreement as to profit sharing shall be placed on or in the face of the policy, and such profit sharing shall be uniform and shall not discriminate between individuals or between classes; provided, however, that no part of the profit shall be paid until the expiration of the policy.

Any company, or any of its officers, directors, general agents, State agents, special agents, local agents or its representatives, doing any of the acts in this section prohibited, shall be deemed guilty of unjust discrimination; provided, however, that if any agent or company shall issue a policy without authority, and any policyholder holding such policy shall sustain a loss or damage thereunder, said company or companies shall be liable to the policyholder thereunder, in the same manner and to the same extent as if said company had been authorized to issue said policy, although the company issued said policy in violation of the provisions of this act. But this shall not be construed to give any company the right to issue any contract or policy of insurance other than as provided in this act.

Sec. 22. No person shall knowingly receive or accept from any insurance company or from any of its agents, sub-agents, brokers, solicitors, employes, intermediaries or representatives, or any other person, any rebate of premium payable on the policy, or any special favor or advantage in the dividends or

other financial profits accrued or to accrue thereon or any valuable consideration, position or inducement not specified in the policy of insurance, and any person so doing shall be guilty of a violation of the provisions of this section, and shall be punished by a fine of not exceeding one hundred dollars, or by imprisonment in the county jail for not exceeding ninety days, or by both such fine and imprisonment.

Sec. 23. The provisions of this law shall not deal with the collection of premiums, but each company shall be permitted to make such rules and regulations as it may deem just between the company, its agents, and its policyholders; and no bona fide extension of credit shall be construed as a discrimination, or in violation of the provisions of this act.

All policies heretofore issued or which shall hereafter be issued by any insurance company prior to the taking effect of this act, which provide that said policies shall be void for non-payment of premiums at a certain specified time shall be and the same are in full force and effect, provided, that the company or any of its agents have accepted the premium on said policies after the expiration of the dates named in said provision fixing the date of payment.

Sec. 24. The Commissioner of Insurance, upon ascertaining that any insurance company or officer, agent or representative thereof, has violated any of the provisions of this act, may, at his discretion, and with the consent and approval of the Attorney General, revoke the certificate of authority of such company, officer, agent or representative; but such revocation of any certificate shall in no manner affect the liability of such company, officer, agent or representative to the infliction of any other penalty provided by this act, and provided that any action, decision or determination of the Commissioner of Insurance and Banking and the Attorney General in such cases shall be subject to the review of the courts of this State as herein provided.

Sec. 25. Any insurance company affected by this act, or any officer or director thereof, or any agent or person acting for or employed by any insurance company, who, alone or in conjunction with any corporation, company, or person, who shall willfully do or cause to be done, or shall willfully suffer or permit to be done any act

matter or thing prohibited or declared to be unlawful by this act, or who shall willfully omit or fail to do any act, matter or thing required to be done by this act, or shall cause or willfully suffer or permit any act, matter or thing directed not to be done, or who shall be guilty of any willful infraction of this act, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than three hundred dollars nor more than one thousand dollars for each offense.

Sec. 26. No person shall be excused from giving testimony or producing evidence when legally called upon to do so at the trial of any other person or company charged with violating any of the provisions of this act on the ground that it may incriminate him under the laws of this State; but no person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may testify or produce evidence under this act, except for perjury in so testifying.

Sec. 27. This act shall not apply to purely mutual or to purely profit-sharing fire insurance companies incorporated or unincorporated under the laws of this State and carried on by the members thereof solely for the protection of their property and not for profit; nor to purely co-operative, inter-insurance and reciprocal exchanges carried on by the members thereof solely for the protection of their property and not for profit.

Sec. 28. Not later than March 15th, after this act shall take effect, and annually thereafter, it shall be the duty of the Commissioner of Insurance for the purpose of reimbursing the State for the amount to be so expended during the current year in carrying out the provisions of this act, to collect from each insurance company affected by this act, which transacted business in this State during the preceding calendar year, or any portion thereof, the proportion of said \$25,000 which the gross premiums collected by said company during such year from persons or upon property located in this State bears to the aggregate amount of gross premiums so collected during such year by all insurance companies affected by this act transacting business in this State; provided, that in computing such gross premium receipts there shall be deducted

therefrom the amount paid out for reinsurance and for return premiums on canceled policies. If, at the end of any year after this act shall take effect it shall be found that the aggregate amount expended in carrying out the provisions of this act during such year has been less than \$25,000, the amount remaining unexpended shall be applied in the reduction of the amount to be collected from said companies for the succeeding year. The amount due under the provisions of this section by each company shall be certified by the Commissioner of Insurance to such company and he shall revoke the certificate of authority of any company which shall fail to pay the same within thirty days after the receipt of such certificate; provided, that the collections from insurance companies provided for in this section shall not be made for any year during which any such company shall be liable under the laws of this State to the payment of an occupation tax at a rate of two and one-half per cent or more of the gross premiums received, less deductions for reinsurance and return premiums on canceled policies.

Sec. 29. If any part of this act be for any reason held unconstitutional it shall not affect any other portion or part of this act.

Sec. 30. Chapter 18 of the General Laws of the Thirty-first Legislature passed by its First Called Session and approved April 19, 1909, entitled, "An Act providing the conditions upon which fire insurance companies shall transact business in this State; and providing for the regulation and control of rates of premiums on fire insurance and to prevent discrimination therein; and to create a fire insurance rating board; and to provide penalties for violation of this act, and declaring an emergency," and all other laws and parts of laws in conflict with this act are hereby repealed.

Sec. 31. The fact that there is now no sufficient law in this State prohibiting unjust discriminations in the collection of fire insurance rates as between citizens of this State; nor protecting citizens in securing reasonable rates, constitutes an emergency and an imperative public necessity requiring that the constitutional rule requiring bills to be read on three several days to be suspended and that this act take effect and be in force from and after its passage, and it is so enacted.

(Senator Ratliff in the chair.)

The above report was read in full, and Senator Senter moved that the report be printed in the Journal and that it be made a special order for Monday morning at the conclusion of the morning call.

Senator Watson offered the following substitute motion for the above motion:

Senator Hudspeth moved to reconsider the vote by which the report was adopted, and lay that motion on the table.

The motion to table prevailed.

REASONS FOR VOTING.

I vote "yea" for the Free Conference Committee report on the insurance bill because it surely is a better law than the one now in existence.

TERRELL of Wise.

The proper function of the legislative branch of the government is to enact wise laws. No enactment is to be justified upon the mere ground of "transacting business." It may be safely assumed that no law is wise that is unnecessary. And the supreme test of the merit of a specific enactment is that its passage is a real benefit to the people.

The doubt in this respect should always be resolved against a particular legislative proposal. A proposition "harmless" or "just as good" as existing law, is not entitled to approval of the lawmaking body. There should be at least a demonstrated preponderance of good to be expected from any measure urged for passage. Legislation is at least a serious business; notwithstanding the fact that those engaged in making laws are not infrequently taken as a joke.

That people is most wisely and safely governed that is least hampered in its normal activities by unwise laws. There are many adjustments in human affairs effected without the intervention of the law as such, and interference by statute is not always salutary.

Believing the present insurance bill is dangerous and not based upon sound principles of trade and government, and fearing that the measure is the product of anxiety to escape another Called Session rather than the embodiment of a demonstrated benefit to the people of this State, and believing that it is not the proper function of the State to reach out into the insurance business to the extent authorized under this bill, I have concluded that it was to the best interest of the State that the bill be

not passed, and I have accordingly voted against the measure.

HUME.

In our judgment, the wisest legislation on the subject of insurance would be to encourage, as far as possible by statute, the removal of the causes of fire waste, repeal the present law providing for a Fire Rating Board, give free play to all competitive forces, and rigidly prohibit combinations to fix rates. It is well known that the House will not pass the Senate bill repealing the present law on the subject without the creation of another rating board. The Free Conference Committee report now pending seems to be in some respects an improvement on the existing law, although it contains new elements of trouble. Forced to a choice between two evils, we vote for the one of latest pattern, hoping that it may prove to be the best.

SENTER,
WATSON.

I vote "yea" on this bill solely for the purpose of giving the people in my district, and especially the people of El Paso, some relief from the oppressive burden placed upon them by the present fire insurance law, which, in plain words, is a legalized trust.

This bill that I have just voted for does not meet my ideas in every particular, for my idea was embodied in the original Senate bill permitting a low maximum rate fixed by the board and free competition thereunder. I would have much preferred to have repealed the present obnoxious law without enacting any other to take its place, but after passing a bill to that effect twice through the Senate and same failing of passage both times in the House, I voted for this bill for the reason stated above.

HUDSPETH.

HOUSE BILL NO. 9.

Action then recurred on House bill No. 9. (See former proceedings of today for caption of.)

WARD, Chairman.

SENATE BILL NO. 10.

Following is the penitentiary bill as passed by the Senate, and is printed in this Journal by order of the Senate:

A BILL

To Be Entitled

An Act to establish a prison system and declaring the policy of the State with reference thereto; to provide for the management and control of such prison system; to provide for the control, management and treatment of all prisoners sentenced to the penitentiary; to abolish the leasing and hiring of State prisoners; to provide rules and regulations for the government and conduct of such prison system; to abolish corporal punishment in the prison system; to provide for a Board of Prison Commissioners; to provide for their appointment and defining their powers, duties and authority; to provide for the purchase or sale of real estate by the Prison Commission; to vest title of all real estate owned by the prison system; to provide for the appointment of an auditor and prescribing his duties; prescribing penalties for the violation of this act; repealing Chapters 1, 2, 3, 4, 5, 6, 7 and 8 of Title 79 of the Revised Statutes of 1895, and all laws and parts of laws in conflict with this act; making an appropriation to carry out the provisions of this act, and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. That it shall be the policy of this State in the operation of its prison system to so manage and conduct the same that those convicted of violating the law and sentenced to a term in the penitentiary shall have humane treatment and shall be given opportunity, encouragement and training in the matter of reformation.

Sec. 2. The prison system of this State, as referred to in this act, shall include the State penitentiary at Huntsville, the State penitentiary at Rusk, and such other penitentiaries as may hereafter be established, and all farms or camps where State prisoners are or may be kept or worked, together with all property of every character belonging thereto or connected therewith.

Sec. 3 It is hereby declared the policy of this State to work all prisoners within the prison walls, and upon farms owned by the State, and in no event shall

the labor of a prisoner be sold to any contractor or lessee to work on farms or elsewhere, nor shall any prisoner be worked on any farm or otherwise upon shares, or upon any other farm or place other than that owned and controlled by the State of Texas, after January 1, 1914; provided, that all existing contracts for prison labor in existence at the time this act takes effect shall terminate not later than January 1, 1914, and no contract for any prison labor shall be made which would extend beyond January 1, 1914; provided further, that the Board of Prison Commissioners shall change from the system of leasing and hiring out of prisoners at the earliest practicable time.

Sec. 4. To better carry out such policy, the management and control of the prison system of the State of Texas shall be vested in a board to be known as the Board of Prison Commissioners, and for the purpose of this act shall be referred to as the Prison Commission. Said Board of Prison Commissioners shall be composed of three men, to be appointed by the Governor, with the advice and consent of the Senate, whose term of office shall be two years from date of appointment, except those first appointed under this act, whose term of office shall expire on the 20th day of January, 1911; provided, however, that in the event of a change in the Constitution extending the term of office of the Prison Commissioners, the members of said Board of Prison Commissioners then in office shall adjust their terms of office by lot, or in conformance with the provisions of such constitutional amendment without the necessity of further legislative enactment.

Sec. 5. Each member of said Commission shall, within ten days after his appointment, execute a bond with two or more good and sufficient sureties, in the sum of seventy-five thousand dollars, payable to the Governor of this State and his successors in office, and conditioned for the faithful performance of his duties and the strict accounting to the State of all moneys coming into his hands as such Commissioner, the form of which bond shall be prepared by the Attorney General, and the sufficiency of the sureties thereon approved by and the same shall be filed with the Secretary of State. And before entering upon the duties of his office each member of said board shall take and subscribe the oath of office prescribed by the Constitution of this State. And it shall be the duty of the

Attorney General, upon notice of default or failure to perform the duties as contemplated by law by any member of said Prison Commission, to bring suit in any court of competent jurisdiction in Travis county for the forfeiture and collection of said bond.

Sec. 6. Each member of the Board of Prison Commissioners shall receive as compensation for his services the sum of three hundred dollars per month, to be paid at the end of each month; and in addition thereto he shall be allowed all reasonable and necessary traveling expenses actually incurred when traveling on business of the prison system, to be paid together with said salary out of the funds of the prison system; all such expense accounts to be itemized and sworn to in duplicate and approved by the Chairman of the Board of Prison Commissioners, one copy to be kept with the records of the Board of Prison Commissioners and one copy filed with the Comptroller of Public Accounts. Each member of said Board of Prison Commissioners shall reside at Huntsville, in Walker county, which is hereby designated as the headquarters of the prison system, and shall be permitted to occupy the residence houses belonging to the State at Huntsville.

Sec. 7. Each member of said Prison Commission shall devote his entire time to the discharge of the duties of said office, and shall not engage in any other occupation or business during his term of office, nor shall either of the members of said board be directly or indirectly connected with or interested in any contract, sale or purchase of any property or thing whatsoever which may be made during his term of office and in which either the State or the prison system are interested. And any violation of any of the provisions of this section of this act shall be sufficient ground for his removal from office.

Sec. 8. That said Prison Commission shall be vested with the exclusive management and control of the prison system of this State, and shall be held responsible for the proper care, treatment, feeding, clothing and management of the prisoners confined therein, and at all times for the faithful enforcement of the spirit, intent and purpose of the laws and rules governing said system; provided that the Prison Commission shall be held responsible for maltreatment of prisoners, and, if permitted, it shall be grounds for removal from office.

Sec. 9. That the said Prison Commission shall have power to and it shall

be their duty to appoint all necessary officers, all physicians, chaplains, teachers, and all clerical help needed in conducting said prison system, including a secretary of the Prison Commission, and they shall require all appointees, who, in discharging their duties, are charged with handling any funds of the system or State, to execute bond in such amount as may be fixed by the Prison Commission, to be conditioned as required by law for the faithful performance of their duties.

Sec. 10. A majority of said Prison Commission shall constitute a quorum for the transaction of business. The Commissioners shall select one member as chairman and shall designate one member to have supervision over the finances and financial transactions of the prison system, one who shall supervise the feeding, clothing, care and treatment of the prisoners, and one who shall supervise the work of all the officers and employes of the prison system, and who shall also be known and designated as the superintendent of parole, and shall direct the enforcement of any parole law or indeterminate sentence law which may be now or hereafter in force in this State, unless otherwise directed by law. Provided, that each member so designated shall report his actions to the Prison Commission. The provisions of this section are intended to facilitate the work of the Prison Commission and shall not be construed as releasing the full board of the Prison Commissioners any authority or general responsibility for the management of the prison system. The Prison Commission shall keep or cause to be kept in a well bound book a minute of the proceedings of all meetings held by them.

Sec. 11. The Prison Commission shall have the authority at all times to discharge any officer or any employe of the prison system for failure to comply with the rules, regulations or laws governing the prison system, or for any dereliction in duty, or whenever they may deem it to be for the best interests of the service.

Sec. 12. The Prison Commission shall have the power to purchase or cause to be purchased with such funds as may be at their disposal, any lands, buildings, machinery, tools and supplies for the benefit of said prison system, and may establish such factories as in their judgment may be practicable and that will afford useful and proper employment to prisoners confined in the State prison, under such regulations, conditions and

restrictions as may be deemed best for the welfare of the State and the prisoners, it being the purpose of this act to clothe said Board of Prison Commissioners with all power and authority necessary for the proper management of the prison system of this State.

Sec. 13. The Prison Commission shall have power with the approval of the Governor to purchase such land as may, in their judgment, be necessary in the operation of said system, and the employment of prisoners confined in said prison, and in the purchase thereof, they may pay such sum in cash as may be agreed upon with the vendor, and for the unpaid purchase money to become due upon said land, they shall execute to the vendor notes payable in such sum and at such time as may be agreed upon between the parties, and the payment of which shall be secured by a deed of trust upon such land in the usual form, and containing such covenants as may be agreed upon between the parties, and may pledge a sufficient amount of the net revenues of the property so purchased to pay the deferred installments of purchase money thereon, and it shall be expressly provided in the conveyance to said land, the notes executed for the unpaid purchase money and the deed of trust, that the vendor relies alone upon the lien created by the deed of trust upon said land and the net revenues so pledged, and that no personal liability against the Prison Commission or the State of Texas, shall arise out of said transaction beyond said liens; and the purchase money paid originally as well as the installments paid upon the deferred payments, may be paid out of any funds belonging to said prison system. The title to all lands purchased by the Prison Commission under the terms of this act shall be examined, passed upon and approved as good and sufficient by the Attorney General, and all conveyances, notes and trust deeds and other instruments executed under the provisions of this act shall be prepared, passed upon and approved by the Attorney General. The title to all lands so purchased shall rest in the Prison Commission and their successors in office, as trustees for the State.

Sec. 14. The Prison Commission shall buy annually so many acres of land as will in four years, or sooner if practicable (from the taking effect of this act), enable all the prisoners hired out or employed on share or contract farms, and who are not otherwise employed by

the State, to be employed directly on farms belonging to the prison system.

Sec. 15. There is hereby appropriated out of any funds in the State Treasury, not otherwise appropriated, the sum of five hundred thousand dollars, or so much thereof as may be necessary, for the fiscal year beginning September 1, 1910, for the purpose of carrying out the provisions of this act. Such sum hereby appropriated shall be under control and at the disposal of the Prison Commission, as provided in this act: provided, that not more than \$200,000 of the amount herein appropriated shall be expended prior to February 1, 1911. And the remaining three hundred thousand dollars shall not be expended until after said date, nor shall the Board of Prison Commissioners holding office prior to February 1, 1911, incur any obligations to be paid out of said sum of three hundred thousand dollars.

Sec. 16. The Prison Commission is authorized and it shall be its duty to cause to be constructed upon land now belonging to the prison system, and upon such land as may be bought hereafter, all necessary modern fireproof, well ventilated prison buildings, providing a separate cell or room for each prisoner, as far as conditions and the welfare of the prisoner demands, with proper bathing facilities and all necessary sanitary water closets and other sanitary arrangements within such buildings; also sanitary kitchens, dining room, hospitals, school rooms and chapels, and other necessary conveniences for the benefit of the prisoners. The provisions of this section shall be carried out to completion as rapidly as is practicable so that the same shall be completed in the entire prison system within six years from the taking effect of this act.

Sec. 17. The Prison Commission shall have power to sell and dispose of all farm products and the products of all factories connected with the prison system, and all personal and movable property, at such prices and on such terms as may be deemed best by them, and they may, with the approval of the Governor, sell or lease any real estate or other fixed property and appurtenances belonging thereto upon such terms as to them seem best, and upon the sale thereof they shall have power to execute proper conveyances to the title thereto, which instruments of conveyance shall be prepared and approved by the Attorney General. The Prison Commission

shall in the purchase or sale of all real estate, or in the purchase or sale of any machinery or equipment for the prison system exceeding in value the sum of \$5000, advertise in the manner prescribed by the Prison Commission, for bids for such property in at least three daily papers in this State having a general circulation and shall give all such bids received to the public press at least 30 days before any such contract is let.

Sec. 18. On Monday of each week the Prison Commission shall remit to the State Treasurer all moneys received by them as such from whatever source during the preceding week and belonging to the system. The Treasurer shall hold such fund as bailee for the Prison Commission, which fund shall be known as the Prison Commission Account, and he shall give to the Prison Commission a deposit receipt for same, and shall pay out same on draft drawn by the officer designated by Section 23 of this act. The Prison Commission is hereby authorized to draw from the Prison Commission Account in the State Treasury any and all sums of money necessary for the business transactions of the prison system. The Prison Commission is authorized to draw upon the Prison Commission Account with the State Treasurer, such sum or sums of money and at such time, or times, as in their judgment may be necessary for the transaction of the business of the system; provided, they shall not draw for a sum that will give them in hand and in bank subject to disbursement a sum in excess of twenty-five thousand dollars, and provided further, the account of the prison system with the State Treasurer shall in no event be overdrawn and in no event shall the State Treasurer ever permit an overdraft against the Prison Commission Account to be paid. On December 1st of each year the State Treasurer shall ascertain the interest earned by the fund belonging to the prison system from the State depositories, and place said sum to the credit of the Prison Commission Account and send deposit receipt to the Prison Commission.

Sec. 19. The Prison Commission may at any time issue such orders and prescribe such rules and regulations for the government of the prison system of this State, not inconsistent with the law, as it may deem proper, or to provide such details not embraced herein, and for such contingencies as may at any time

arise concerning the management of the prison system or its proper and effective operation, and such rules and regulations shall be made with a view of carrying out the general principles on which the penal laws are founded, and for which the prison system is established, and shall be binding on all underofficers, employes, and all persons whomsoever in any way connected with the State prisons or its management, or its prisoners within and without the walls. The Prison Commission shall have all laws, rules, and regulations of the prison system printed in pamphlet form for the information and guidance of all connected with the management of the prison system, and such parts of said rules as relate to the duties of subordinate officers and prisoners shall be printed in suitable form and posted in conspicuous places about the prison, or wherever prisoners may be confined, for the information of all concerned. All officers, employes and guards having supervision of prisoners shall be furnished with a copy of the law, rules and regulations governing the prison system and shall give a receipt therefor, and the Prison Commission shall from time to time require examination of such officers, employes and guards as will ascertain the knowledge of such law, rules and regulations, and any such officer, employe or guard, who shall fail to familiarize himself with the law, rules and regulations of the prison system shall be dismissed from the service.

Sec. 20. It shall be the duty of some member or members of the Prison Commission to spend at least one whole day each month at each prison, camp or farm where prisoners are kept or worked, and to carefully inspect same with reference to the food, clothing and treatment of the prisoners, the general sanitary conditions existing at such prisons, camps or farms, reporting upon such conditions, the efforts at reformation, the general conduct of all officers and employes connected therewith, and punishment administered for the enforcement of prison discipline, making such reports to the full Board of Prison Commissioners; provided, that the various prisons, camps and farms where prisoners are kept, may be divided for the purpose of this inspection between two or more members of the Prison Commission, or such other person as may be designated by the Prison Commission.

Sec. 21. It shall be the duty of the Prison Commission to make suitable provision and regulation for the safe and speedy transportation of prisoners from counties where sentenced to the penitentiaries at Huntsville by the sheriffs of such respective counties if such sheriffs are willing to perform such services as cheaply as said Commission can have it done otherwise. Said transportation shall be on State account and in no instance shall the prisoners be carried direct from the county jails to the State farms, but shall first be carried to the penitentiary at Huntsville where the character of labor which each prisoner may reasonably perform shall be determined.

Sec. 22. The Prison Commission shall cause to be made annually, on the 1st day of December, a full and complete inventory of all lands, buildings, machinery, tools, live stock, and all other property of every description, belonging to the prison system, and shall cause to be set opposite each item, the book value of the same so as to afford an easy comparison with the previous annual statement. And the Prison Commission shall cause to be kept in the accounting department of the prison system, a system of books showing a separate account with each industry and farm and for the system as a whole, showing the losses, profits, and net earnings of each industry and farm connected with the system and shall make a report of the same annually on the 1st day of December, to the Governor, which report shall be published by the Governor in a sufficient number of copies to give general publicity to such report; such report to include the rules and regulations in force for the management of said system and the methods of dealing with the convicts thereof.

Sec. 23. The member of the Prison Commission designated by the board to have supervision over the finances and financial transactions of the prison system shall keep, or cause to be kept, correct and accurate accounts of each and every financial transaction of the prison system, including all receipts and disbursements of every character. He shall receive and receipt for all money paid to the Prison Commission for every source whatsoever, and shall sign all vouchers or warrants authorizing the payment or disbursement of any sum or sums on account of the prison system, and no money shall be paid out on any

account of the prison system except upon a warrant or voucher signed by him. He shall keep full and correct accounts with each industry, department and farm, and with all firms, persons or corporations having financial transactions with the prison system. He shall have power to require all necessary reports from any department, officer or employe at stated intervals. All deposits of prison funds with banks shall be kept in the name of the officer in his official capacity, and all funds of the prison system shall be kept separate from private funds. Such accounts and clerical assistance as may be necessary to carry out the provisions of this section shall be provided by the Prison Commission, in order that a full, complete and correct account may be kept of all financial transactions of the prison system. In the absence of such officer, one of the Prison Commissioners may sign such receipts, warrants or vouchers.

Sec. 24. On the taking effect of this act, and annually thereafter, there shall be appointed by the Comptroller of Public Accounts, the Attorney General and Secretary of State, a permanent auditor for the prison system, who shall hold his office for a term of one year, subject to discharge at any time as hereinafter provided. It shall be the duty of such auditor to audit all accounts, vouchers, pay rolls and all other business transactions of the prison system, and to check all property, material and supplies received and disposed of by or distributed within the prison system, and he shall make a full report thereof to the Governor on the 1st day of December of each year. Such auditor shall be subject to discharge at any time by the Comptroller of Public Accounts, Attorney General and Secretary of State, for any incompetency, neglect, failure or refusal to discharge the duties of his office or for any wrongful conduct that in the judgment of the Comptroller of Public Accounts, Attorney General and Secretary of State renders him unfitted for said office, and in case of the discharge or resignation of any auditor another shall be appointed. During the term of his service such accountant shall be paid a monthly salary of two hundred dollars per month and all actual and necessary traveling expenses, to be paid at the end of each month out of any moneys belonging to the prison system, such traveling expenses to be evidenced by an itemized sworn statement by the auditor, filed with the board.

The Prison Commission shall prescribe and furnish to the prisoners suitable books and other reading matter, and to this end may establish and operate among the prisoners a circulating library and may adopt such other means of distributing among the prisoners good and wholesome literature as in the judgment of the Prison Commission will best enable the prisoners to avail themselves of the same.

They shall employ such chaplains as may be necessary to afford all prisoners an opportunity to attend at least two religious services each month, said chaplains to devote their entire time to religious and moral learning and education of the prisoners under their care, teaching them the principles and practice of every Christian and moral duty; providing that chaplains may also be teachers as provided for in this act.

Sec. 29. If any member of the Board of Prison Commissioners shall be guilty of malfeasance or nonfeasance in office or shall become incapable or unfit to discharge his official duties, or shall willfully fail, refuse or neglect to discharge

the duties of his office, such member shall be subject to removal from office as provided by Article 3528, Revised Statutes of 1895.

Sec. 30. The Prison Commission shall, except as provided in this act, fix the salaries of all officers and employees of the prison system upon such basis as the labor and ability of the officer or employee entitles him to, such salary to be paid monthly at the end of each month. They shall pay to those employed as guards of the convicts a salary of not less than thirty-five dollars per month; provided, that for meritorious service and adaptability to the work, the Prison Commission may increase the pay of any guard to an amount not to exceed fifty dollars per month. No person shall be employed as a guard to guard convicts who is not of good moral character and who is not able to read and write and has not a fair knowledge of the English language, and the Prison Commission may provide such other qualifications as they may deem expedient; provided, that no person shall be employed as a guard who is in any way addicted to the use of alcoholic or intoxicating liquors, and the Prison Commission shall require all officers and employees connected with the prison system to familiarize themselves with and conform to the rules and regulations and laws governing the prison system of this State; provided, the Prison Commission shall require all officers and employees connected with the prison system of this State to take and subscribe to the oath of office prescribed by the Constitution.

Sec. 31. The Prison Commission shall see that all State prisoners are fed good and wholesome food, properly prepared, under wholesome, sanitary conditions and in sufficient quantity and reasonable variety, and they shall hold all underofficers performing this work strictly to account for any failure to carry out this provision. That the food may be properly prepared, the Prison Commission shall provide for the training of prisoners as cooks.

Sec. 32. The Prison Commission shall require at the end of each month reports showing fully the condition and treatment of the prisoners and the changes in the prison population during the month, including itemized statements of all different items of food, clothing and utensils used and on hand in each of the units of the prison sys-

tem, and such other matters as they may require.

Sec. 33. The Prison Commission shall keep a register of all prisoners belonging to the prison system, showing the number of each prisoner, giving the aliases, name, age, height, color of hair, color of eyes, complexion, marks on person, sex, nativity, residence, county where convicted, offense of which convicted, date of sentence, date of receipt, previous occupation and habits, if known, and may adopt such other means of identification as they may deem proper and necessary. They shall issue discharges to such prisoners as are entitled thereto by expiration of sentence or otherwise.

Sec. 34. That persons confined in the State prisons of this State may have every opportunity and encouragement for moral reform, it shall be the duty of the Prison Commission in addition to the requirements of this act, to provide every reasonable and practicable means for the encouragement of such reform. To this end, the Prison Commission shall provide for the classification of all prisoners, separating them into the following classes: In the first class shall be included young men, first offenders, those appearing to be corrigible, or less vicious than the others, and likely to observe the laws and to maintain themselves by honest industry after their discharge. In the second class shall be included those appearing to be less corrigible, or more vicious, but content to work and reasonably obedient to prison discipline as not to seriously interfere with the productiveness of their labor, or with the labor or conduct of those with whom they may be employed. In the third class shall be included those appearing to be incorrigible, or so insubordinate or so vicious in their nature as to seriously interfere with the labor and moral development of those with whom they must come in contact. The Prison Commission shall make rules and regulations for the promotion and reduction of the prisoners from one class to another and shall transfer them from one class to another

from time to time as they may seem to merit promotion or reduction.

The prisoners in each of the classes hereinbefore named shall be kept in or upon different or separate prisons or farms. Any prisoner upon entering the prison system shall be assigned to one of its institutions according to his class, as hereinbefore provided, and shall be entered in said institution in a neutral grade which shall be known as grade No. 2, and in which he shall be furnished with a suitable uniform designated for that grade. The Prison Commission shall adopt rules for a higher grade which shall be known as grade No. 1, as a reward for obedience to prison discipline and good conduct, and shall provide a suitable uniform for this grade; and they shall provide for a lower grade as a punishment for misconduct and violation of prison discipline, which grade shall be known as No. 3, and in which the prisoner shall be clothed in stripes. The uniforms for grades Nos. 1 and 2 shall not be stripes. The Prison Commission shall provide rules for promotion of prisoners from any grade to another for good conduct and obedience to prison discipline and for demotion of prisoners for misconduct and violation of prison discipline. The Prison Commission shall provide specifically for the extension or denial of privileges for the various grades herein provided.

That prison discipline may be enforced the Prison Commission may adopt such modes of punishment as may be necessary, such punishment being always humane, but whipping and placing prisoners in stocks shall be prohibited. When not at work, white and negro prisoners shall be kept separate.

Sec. 35. All female prisoners shall be kept separate and apart from the male prisoners. Where practicable the Prison Commissioner shall keep the female prisoners upon a separate farm or at a separate prison from the male prisoners and shall provide reasonable rules and regulations for the government of the same.

Sec. 36. The Prison Commission shall provide such labor for said female prisoners as in their judgment they can reasonably perform, but the matron over such female prisoners shall at any time have the authority to say whether the physical condition of said female prisoner is such that they can perform physical labor. The matron or matrons so employed to look after the welfare of the female prisoners shall reside at

the place where female prisoners are kept.

Sec. 37. The Prison Commission shall also keep the white female prisoners separate and apart from the negro female prisoners, and shall select and place over said female prisoners a matron or matrons, whose duty it shall be to give her personal attention to the welfare of such female prisoners.

Sec. 28. At the place where female prisoners are kept, none but married men shall be employed as guards and the houses for such guards and their families shall be provided by the State in which the families of the guards shall live, said houses not to be situated further than 100 yards from the main prison building where such female prisoners are kept.

Sec. 39. If a female prisoner be received with an infant, or if any child be born in the penitentiary, the child shall be permitted to remain with its mother until three to six years of age, in the discretion of and as prescribed by the Prison Commission.

Sec. 40. Every prisoner who shall become entitled to a diminution of his term of sentence by good conduct shall receive compensation from the earnings of the State prison to the amount of 10 cents per day for the time said prisoner is confined in prison; provided, that whenever any prisoner shall forfeit any part of his good time for misconduct or violation of the rules or regulations of the prison, he shall forfeit out of the compensation allowed under this section 25 cents per day for each day of such good time so forfeited; provided, that when such prisoner has a family or relatives within the second degree by consanguinity or affinity, dependent upon him, such saving shall be paid semi-annually to such of them as may be designated by the prisoner, but if he have no such dependent relatives, then said saving shall be paid to him upon his discharge from prison.

Sec. 41. No prisoner shall be worked on Sunday except in cases of extreme necessity, and all prisoners so required to work on Sunday shall be paid out of the funds of the prison system the sum of \$1 per day for each Sunday so worked.

Sec. 42. The various provisions of this act are designed to secure to the prisoners humane treatment, suitable moral instruction, to provide for their health, and to extend to them such comforts and privileges as may be consistent with their situation, and at the

same time to require of them a due attention to their various duties and a strict observance of the discipline, rules and regulations of the prison.

Sec. 43. In order to encourage prison discipline a distinction may be made in the treatment of prisoners so as to extend to all such as are orderly, industrious and obedient comforts and privileges according to their deserts. The rewards to be bestowed on prisoners for good conduct shall consist of such relaxation of strict prison rules and extension of social privileges as may not be inconsistent with proper discipline. Commutation of time for good conduct shall be granted by the Prison Commission, and the following deductions shall be made from the term or terms of sentences when no charge of misconduct has been sustained against a prisoner, viz.: Two days per month off the first year of sentence; three days per month off the second year of sentence; four days per month off the third year of sentence; five days per month off the fourth year of sentence; six days per month off the fifth year of sentence; seven days per month off the sixth year of sentence; eight days per month off the seventh year of sentence; nine days per month off the eighth year of sentence; ten days per month off the ninth year of sentence; fifteen days per month off the tenth year, and all succeeding years of sentence. A prisoner under two or more cumulative sentences shall be allowed commutation as if they were all one sentence. For each sustained charge of misconduct in violation of any rule known to the prisoner in any year of the term the commutation allowed for one month of such year may be forfeited, for any sustained charge of escape or attempt to escape, mutinous conduct or other serious misconduct, all the commutation which shall have accrued in favor of the prisoner up to that day shall be forfeited, unless in case of escape, the prisoner voluntarily returns without expense to the State, such forfeiture may be set aside by the Prison Commission. For extra meritorious conduct on the part of any prisoner, he shall be recommended to the favorable consideration of the Governor for increased commutation or pardon, and in the case of any prisoner who shall have escaped and been captured, part or all of his good time thereby forfeited may be restored by the Prison Commission, if in their judgment his subsequent conduct entitles him thereto.

Sec. 44. Hereafter life or long-term

prisoners who have actually served fifteen years and have no sustained charge of misconduct and have a good prison record, and who shall be favorably recommended to the Governor, may receive at the hands of the Governor a reasonable commutation of sentence, and if a life sentence is commuted to a term of years, then such convict shall have the benefit of the ordinary commutation as if originally sentenced for a term of years, except the Governor shall otherwise direct; provided, however, that all convicts in this State, who had prior to September 1, 1910, been convicted and confined in the penitentiary of this State for a term of fifteen years or more, and are now so confined shall, upon the taking effect of this act, be paroled by the Board of Prison Commissioners, and shall be allowed to go upon parole outside the buildings and jurisdiction of the penitentiary authorities; provided, however, that the provisions of this act shall apply to all convicts except those convicted of rape or assault on rape, those convicts who have heretofore been convicted of a felony in this State more than twice; and provided further, that should any convict paroled under this act be hereafter convicted in the courts of this State of any felony and sentenced to the penitentiary of this State, that said convict shall forfeit all of the rights of said convict as herein provided for, and shall hereafter be treated as an escaped convict, owing service to the State, and shall be liable, when so convicted, to serve out the unexpired period of time of his sentence originally entered against him, and the time from the date of his parole to the date of his subsequent conviction shall not be counted as any part or portion of the time served.

years, and each transaction shall constitute a separate offense.

lading, and prescribing penalties therefor, and declaring an emergency."

The question being on a pending amendment and an amendment thereto,

Senator Senter offered the following substitute for the amendment and the amendment to the amendment:

Substitute for amendment and amendment to the amendment offered by the Senator from Cooke:

Amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

"Section 1. It shall be the duty of the Railroad Commission to adopt and prescribe forms, terms and conditions for the certification or validation, or both, of bills of lading, by common carriers of freight and to regulate and control the method and manner of their issuance, and to take all such steps as it may be necessary to give effect to the provisions of this act.

"Sec. 2. Each and every bill of lading issued by the authorized agent of any railroad company, or receiver thereof, or by the authorized agent of any person, firm or corporation, or a receiver thereof, engaged in the business of a common carrier of freight, shall be deemed and held to be the act and deed of such person, firm, corporation or receiver, and the principal shall be liable thereon for the articles, goods or chattels or other property described therein.

"Sec. 3. Any officer, agent or servant of any railroad or transportation company, or receiver thereof, who shall fail or refuse to issue a bill of lading in accordance with the regulations and orders of the Railroad Commission when the same is rightfully demanded shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding two hundred dollars or by imprisonment in the county jail not exceeding six months or by both such fine and imprisonment.

"Sec. 4. Any officer, agent or servant of a railroad or other transportation company or receiver thereof who shall wrongfully issue a bill of lading with the intent to defraud any person, or who shall knowingly misdescribe any goods, articles or other property, or the quantity or amount thereof, described in any bill of lading, or who shall knowingly issue a bill of lading without authority so to do with the intent to defraud any person, shall be deemed guilty of a felony, and upon conviction thereof shall be punished by imprisonment in the

State penitentiary for a term not less than two years and not exceeding ten years.

"Sec. 5. Any person who shall forge the name of any agent of a railroad or other transportation company to a bill of lading, or who shall forge the name of any person to any certificate attached to a bill with the intent to defraud, shall be deemed guilty of a felony and upon conviction thereof shall be punished by imprisonment in the State penitentiary for a term not less than five years and not exceeding fifteen years.

"Sec. 6. The fact that there is no law in force in this State which adequately controls and regulates the issuance of bills of lading, and that the season for the movement of cotton and other crops is now at hand, creates an emergency and imperative public necessity authorizing the suspension of the constitutional rule requiring that bills shall be read on three several days, and that this act shall take effect and be in force from and after its passage, and it is so enacted."

Amend Senate bill No. 10 by striking out all after the enacting clause and insert in lieu thereof the following:

Section 1. That it shall be the policy of this State in the operation of its prison system to so manage and conduct the same that those convicted of violating the law and sentenced to a term in the penitentiary shall have humane treatment and shall be given every opportunity and encouragement in the matter of reformation.

Sec. 2. The prison system of this State, as referred to in this act, shall include the State penitentiary at Huntsville, the State penitentiary at Rusk, and such other penitentiaries as may hereafter be established and all farms or camps where prisoners are kept or worked, together with all property of every character belonging thereto or connected therewith.

Sec. 3. It is hereby declared the policy of this State to work all prisoners within the prison walls and upon farms

owned by the State, but in no event shall the labor of a prisoner be sold to any contractor or lessee to work on farms or elsewhere, nor shall any prisoner be worked on any farms or otherwise, or upon any other farm or place other than that owned and controlled by the State of Texas after January 1, 1914; provided, that nothing in this act shall be so construed as to prohibit working convicts on the public roads of the counties of this State under the provisions of any law now in force or that may be hereafter adopted, and under such rules and regulations as may be prescribed therefor by the Board of Prison Commissioners in pursuance with such law; provided, that all existing contracts for the labor of any prisoners in existence at the time this act takes effect shall terminate not later than January 1, 1914, and no contract for the labor of any prisoners shall be made which would extend beyond January 1, 1914; provided further, that the Board of Prison Commissioners shall change from the system of leasing and hiring out prisoners at the earliest practical time. Prison Commissioners, then the members of said Board of Prison Commissioners then in office shall adjust their terms of office by lot or in conformance with the provisions of such constitutional amendment without the necessity of further legislative enactment.

Sec. 5. In the second class shall be included those appearing to be less corrigible, or more vicious, but content to work and reasonably obedient to prison discipline as not to seriously interfere with the productiveness of the labor, or with the labor or conduct of those with whom they may be employed. In the third class shall be included those appearing to be incorrigible, or so insubordinate or so vicious in their nature as to seriously interfere with the labor and moral development of those with whom they must come in contact. The Prison Commission shall make such rules and regulations for the promotion and reduction of the prisoners from one class to another and shall transfer them from one class to another from time to time as they may seem to merit promotion or reduction. The prisoners in each of the classes hereinbefore named shall be kept in or upon different or separate prisons or farms. Any prisoner upon entering the prison system shall be assigned to one of its institutions according to his class, as hereinbefore provided, and shall be entered in said institution in a neutral grade which shall be known as grade No. 2, and in which he shall be furnished with a suitable uniform designated for that grade. In all cases where whipping is deemed necessary an order must be procured from such authorities to be designated by the Board of Prison Commissioners, application for order must state the nature of the offense, and what corrective measures have been used, and must be administered by the sergeant in charge in the presence of and under the control of the prison physician. The strap to be used must be of leather not over two and one-half inches wide and twenty-four inches long, attached to a wooden handle. The utmost care must be used not to break the skin, and any person guilty of whipping a prisoner other than provided above, or striking a prisoner, except in self-defense, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not less than \$25 nor more than \$250, and by imprisonment in the county jail not less than thirty days nor more than six months. Sec. 43. In order to encourage prison discipline a distinction may be made in the treatment of prisoners so as to extend to all such as are orderly, industrious and obedient, comforts and privileges according to their deserts. To Be Entitled

An Act to establish a prison system and declaring the policy of the State with reference thereto; to provide for the management and control of such prison system; to provide for the control, management and treatment of all prisoners sentenced to the penitentiary; to abolish the leasing and hiring of State prisoners; to provide rules and regulations for the government and conduct of such prison system; to abolish corporal punishment in the prison system; to provide for a Board of Prison Commissioners; to provide for their appointment and defining their powers, duties and authority; to provide for the purchase or sale of real estate by the Prison Commission; to vest title of all real estate owned by the prison system; to provide for the appointment of an auditor and prescribing his duties; prescribing penalties for the violation of this act; repealing Chapters 1, 2, 3, 4, 5, 6, 7 and 8 of Title 79 of the Revised Statutes of 1895, and all laws and parts of laws in conflict with this act; making an appropriation to carry out the provisions of this act, and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. That it shall be the policy of this State in the operation of its prison system to so manage and conduct the same that those convicted of violating the law and sentenced to a term in the penitentiary shall have humane treatment and shall be given opportunity, encouragement and training in the matter of reformation.

Sec. 2. The prison system of this State, as referred to in this act, shall include the State penitentiary at Huntsville, the State penitentiary at Rusk, and such other penitentiaries as may hereafter be established, and all farms or camps where State prisoners are or may be kept or worked, together with

all property of every character belonging thereto or connected therewith.

Sec. 3 It is hereby declared the policy of this State to work all prisoners within the prison walls, and upon farms owned by the State, and in no event shall the labor of a prisoner be sold to any contractor or lessee to work on farms or elsewhere, nor shall any prisoner be worked on any farm or otherwise upon shares, or upon any other farm or place other than that owned and controlled by the State of Texas, after January 1, 1914; provided, that all existing contracts for prison labor in existence at the time this act takes effect shall terminate not later than January 1, 1914, and no contract for any prison labor shall be made which would extend beyond January 1, 1914; provided further, that the Board of Prison Commissioners shall change from the system of leasing and hiring out of prisoners at the earliest practicable time.

Sec. 4. To better carry out such policy, the management and control of the prison system of the State of Texas shall be vested in a board to be known as the Board of Prison Commissioners, and for the purpose of this act shall be referred to as the Prison Commission. Said Board of Prison Commissioners shall be composed of three men, to be appointed by the Governor, with the advice and consent of the Senate, whose term of office shall be two years from date of appointment, except those first appointed under this act, whose term of office shall expire on the 20th day of January, 1911; provided, however, that in the event of a change in the Constitution extending the term of office of the Prison Commissioners, the members of said Board of Prison Commissioners then in office shall adjust their terms of office by lot, or in conformance with the provisions of such constitutional amendment without the necessity of further legislative enactment.

Sec. 5. Each member of said Commission shall, within ten days after his appointment, execute a bond with two or more good and sufficient sureties, in the sum of seventy-five thousand dollars, payable to the Governor of this State and his successors in office, and conditioned for the faithful performance of his duties and the strict accounting to the State of all moneys coming into his hands as such Commissioner, the form of which bond shall be prepared by the Attorney General, and the sufficiency of the sureties thereon

approved by and the same shall be filed with the Secretary of State. And before entering upon the duties of his office each member of said board shall take and subscribe the oath of office prescribed by the Constitution of this State. And it shall be the duty of the Attorney General, upon notice of default or failure to perform the duties as contemplated by law by any member of said Prison Commission, to bring suit in any court of competent jurisdiction in Travis county for the forfeiture and collection of said bond.

Sec. 6. Each member of the Board of Prison Commissioners shall receive as compensation for his services the sum of three hundred dollars per month, to be paid at the end of each month; and in addition thereto he shall be allowed all reasonable and necessary traveling expenses actually incurred when traveling on business of the prison system, to be paid together with said salary out of the funds of the prison system, all such expense accounts to be itemized and sworn to in duplicate and approved by the Chairman of the Board of Prison Commissioners, one copy to be kept with the records of the Board of Prison Commissioners and one copy filed with the Comptroller of Public Accounts. Each member of said Board of Prison Commissioners shall reside at Huntsville, in Walker county, which is hereby designated as the headquarters of the prison system, and shall be permitted to occupy the residence houses belonging to the State at Huntsville.

Sec. 7. Each member of said Prison Commission shall devote his entire time to the discharge of the duties of said office, and shall not engage in any other occupation or business during his term of office, nor shall either of the members of said board be directly or indirectly connected with or interested in any contract, sale or purchase of any property or thing whatsoever which may be made during his term of office and in which either the State or the prison system are interested. And any violation of any of the provisions of this section of this act shall be sufficient ground for his removal from office.

Sec. 8. That said Prison Commission shall be vested with the exclusive management and control of the prison system of this State, and shall be held responsible for the proper care, treatment, feeding, clothing and management of the prisoners confined therein, and at all times for the faithful enforcement of the

spirit, intent and purpose of the laws and rules governing said system; provided that the Prison Commission shall be held responsible for maltreatment of prisoners, and, if permitted, it shall be grounds for removal from office.

Sec. 9. That the said Prison Commission shall have power to and it shall be their duty to appoint all necessary officers, all physicians, chaplains, teachers, and all clerical help needed in conducting said prison system, including a secretary of the Prison Commission, and they shall require all appointees, who, in discharging their duties, are charged with handling any funds of the system or State, to execute bond in such amount as may be fixed by the Prison Commission, to be conditioned as required by law for the faithful performance of their duties.

Sec. 10. A majority of said Prison Commission shall constitute a quorum for the transaction of business. The Commissioners shall select one member as chairman and shall designate one member to have supervision over the finances and financial transactions of the prison system, one who shall supervise the feeding, clothing, care and treatment of the prisoners, and one who shall supervise the work of all the officers and employes of the prison system, and who shall also be known and designated as the superintendent of parole, and shall direct the enforcement of any parole law or indeterminate sentence law which may be now or hereafter in force in this State, unless otherwise directed by law. Provided, that each member so designated shall report his actions to the Prison Commission. The provisions of this section are intended to facilitate the work of the Prison Commission and shall not be construed as releasing the full board of the Prison Commissioners any authority or general responsibility for the management of the prison system. The Prison Commission shall keep or cause to be kept in a well bound book a minute of the proceedings of all meetings held by them.

Sec. 11. The Prison Commission shall have the authority at all times to discharge any officer or any employe of the prison system for failure to comply with the rules, regulations or laws governing the prison system, or for any dereliction in duty, or whenever they may deem it to be for the best interests of the service.

Sec. 12. The Prison Commission shall have the power to purchase or cause to

be purchased with such funds as may be at their disposal, any lands, buildings, machinery, tools and supplies for the benefit of said prison system, and may establish such factories as in their judgment may be practicable and that will afford useful and proper employment to prisoners confined in the State prison, under such regulations, conditions and restrictions as may be deemed best for the welfare of the State and the prisoners, it being the purpose of this act to clothe said Board of Prison Commissioners with all power and authority necessary for the proper management of the prison system of this State.

Sec. 13. The Prison Commission shall have power with the approval of the Governor to purchase such land as may, in their judgment, be necessary in the operation of said system, and the employment of prisoners confined in said prison, and in the purchase thereof, they may pay such sum in cash as may be agreed upon with the vendor, and for the unpaid purchase money to become due upon said land, they shall execute to the vendor notes payable in such sum and at such time as may be agreed upon between the parties, and the payment of which shall be secured by a deed of trust upon such land in the usual form, and containing such covenants as may be agreed upon between the parties, and may pledge a sufficient amount of the net revenues of the property so purchased to pay the deferred installments of purchase money thereon, and it shall be expressly provided in the conveyance to said land, the notes executed for the unpaid purchase money and the deed of trust, that the vendor relies alone upon the lien created by the deed of trust upon said land and the net revenues so pledged, and that no personal liability against the Prison Commission or the State of Texas, shall arise out of said transaction beyond said liens; and the purchase money paid originally as well as the installments paid upon the deferred payments, may be paid out of any funds belonging to said prison system. The title to all lands purchased by the Prison Commission under the terms of this act shall be examined, passed upon and approved as good and sufficient by the Attorney General, and all conveyances, notes and trust deeds and other instruments executed under the provisions of this act shall be prepared, passed upon and approved by the Attorney General. The title to all lands so purchased shall rest in the

Prison Commission and their successors in office, as trustees for the State.

Sec. 14. The Prison Commission shall buy annually so many acres of land as will in four years, or sooner if practicable (from the taking effect of this act), enable all the prisoners hired out or employed on share or contract farms, and who are not otherwise employed by the State, to be employed directly on farms belonging to the prison system.

Sec. 15. There is hereby appropriated out of any funds in the State Treasury, not otherwise appropriated, the sum of five hundred thousand dollars, or so much thereof as may be necessary, for the fiscal year beginning September 1, 1910, for the purpose of carrying out the provisions of this act. Such sum hereby appropriated shall be under control and at the disposal of the Prison Commission, as provided in this act; provided, that not more than \$200,000 of the amount herein appropriated shall be expended prior to February 1, 1911. And the remaining three hundred thousand dollars shall not be expended until after said date, nor shall the Board of Prison Commissioners holding office prior to February 1, 1911, incur any obligations to be paid out of said sum of three hundred thousand dollars.

Sec. 16. The Prison Commission is authorized and it shall be its duty to cause to be constructed upon land now belonging to the prison system, and upon such land as may be bought hereafter, all necessary modern fireproof, well ventilated prison buildings, providing a separate cell or room for each prisoner, as far as conditions and the welfare of the prisoner demands, with proper bathing facilities and all necessary sanitary water closets and other sanitary arrangements within such buildings; also sanitary kitchens, dining room, hospitals, school rooms and chapels, and other necessary conveniences for the benefit of the prisoners. The provisions of this section shall be carried out to completion as rapidly as is practicable so that the same shall be completed in the entire prison system within six years from the taking effect of this act.

Sec. 17. The Prison Commission shall have power to sell and dispose of all farm products and the products of all factories connected with the prison system, and all personal and movable property, at such prices and on such terms as may be deemed best by them, and they may, with the approval of the

Governor, sell or lease any real estate or other fixed property and appurtenances belonging thereto upon such terms as to them seem best, and upon the sale thereof they shall have power to execute proper conveyances to the title thereto, which instruments of conveyance shall be prepared and approved by the Attorney General. The Prison Commission shall in the purchase or sale of all real estate, or in the purchase or sale of any machinery or equipment for the prison system exceeding in value the sum of \$5000, advertise in the manner prescribed by the Prison Commission, for bids for such property in at least three daily papers in this State having a general circulation and shall give all such bids received to the public press at least 30 days before any such contract is let.

Sec. 18. On Monday of each week the Prison Commission shall remit to the State Treasurer all moneys received by them as such from whatever source during the preceding week and belonging to the system. The Treasurer shall hold such fund as bailee for the Prison Commission, which fund shall be known as the Prison Commission Account, and he shall give to the Prison Commission a deposit receipt for same, and shall pay out same on draft drawn by the officer designated by Section 23 of this act. The Prison Commission is hereby authorized to draw from the Prison Commission Account in the State Treasury any and all sums of money necessary for the business transactions of the prison system. The Prison Commission is authorized to draw upon the Prison Commission Account with the State Treasurer, such sum or sums of money and at such time, or times, as in their judgment may be necessary for the transaction of the business of the system; provided, they shall not draw for a sum that will give them in hand and in bank subject to disbursement a sum in excess of twenty-five thousand dollars, and provided further, the account of the prison system with the State Treasurer shall in no event be overdrawn and in no event shall the State Treasurer ever permit an overdraft against the Prison Commission Account to be paid. On December 1st of each year the State Treasurer shall ascertain the interest earned by the fund belonging to the prison system from the State depositories, and place said sum to the credit of the Prison Commission Account and

send deposit receipt to the Prison Commission.

Sec. 19. The Prison Commission may at any time issue such orders and prescribe such rules and regulations for the government of the prison system of this State, not inconsistent with the law, as it may deem proper, or to provide such details not embraced herein, and for such contingencies as may at any time arise concerning the management of the prison system or its proper and effective operation, and such rules and regulations shall be made with a view of carrying out the general principles on which the penal laws are founded, and for which the prison system is established, and shall be binding on all underofficers, employes, and all persons whomsoever in any way connected with the State prisons or its management, or its prisoners within and without the walls. The Prison Commission shall have all laws, rules, and regulations of the prison system printed in pamphlet form for the information and guidance of all connected with the management of the prison system, and such parts of said rules as relate to the duties of subordinate officers and prisoners shall be printed in suitable form and posted in conspicuous places about the prison, or wherever prisoners may be confined, for the information of all concerned. All officers, employes and guards having supervision of prisoners shall be furnished with a copy of the law, rules and regulations governing the prison system and shall give a receipt therefor, and the Prison Commission shall from time to time require examination of such officers, employes and guards as will ascertain the knowledge of such law, rules and regulations, and any such officer, employe or guard, who shall fail to familiarize himself with the law, rules and regulations of the prison system shall be dismissed from the service.

Sec. 20. It shall be the duty of some member or members of the Prison Commission to spend at least one whole day each month at each prison, camp or farm where prisoners are kept or worked, and to carefully inspect same with reference to the food, clothing and treatment of the prisoners, the general sanitary conditions existing at such prisons, camps or farms, reporting upon such conditions, the efforts at reformation, the general conduct of all officers and employes connected therewith, and

punishment administered for the enforcement of prison discipline, making such reports to the full Board of Prison Commissioners; provided, that the various prisons, camps and farms where prisoners are kept, may be divided for the purpose of this inspection between two or more members of the Prison Commission, or such other person as may be designated by the Prison Commission.

Sec. 21. It shall be the duty of the Prison Commission to make suitable provision and regulation for the safe and speedy transportation of prisoners from counties where sentenced to the penitentiaries at Huntsville by the sheriffs of such respective counties if such sheriffs are willing to perform such services as cheaply as said Commission can have it done otherwise. Said transportation shall be on State account and in no instance shall the prisoners be carried direct from the county jails to the State farms, but shall first be carried to the penitentiary at Huntsville where the character of labor which each prisoner may reasonably perform shall be determined.

Sec. 22. The Prison Commission shall cause to be made annually, on the 1st day of December, a full and complete inventory of all lands, buildings, machinery, tools, live stock, and all other property of every description, belonging to the prison system, and shall cause to be set opposite each item, the book value of the same so as to afford an easy comparison with the previous annual statement. And the Prison Commission shall cause to be kept in the accounting department of the prison system, a system of books showing a separate account with each industry and farm and for the system as a whole, showing the losses, profits, and net earnings of each industry and farm connected with the system and shall make a report of the same annually on the 1st day of December, to the Governor, which report shall be published by the Governor in a sufficient number of copies to give general publicity to such report; such report to include the rules and regulations in force for the management of said system and the methods of dealing with the convicts thereof.

Sec. 23. The member of the Prison Commission designated by the board to have supervision over the finances and financial transactions of the prison system shall keep, or cause to be kept, cor-

rect and accurate accounts of each and every financial transaction of the prison system, including all receipts and disbursements of every character. He shall receive and receipt for all money paid to the Prison Commission for every source whatsoever, and shall sign all vouchers or warrants authorizing the payment or disbursement of any sum or sums on account of the prison system, and no money shall be paid out on any account of the prison system except upon a warrant or voucher signed by him. He shall keep full and correct accounts with each industry, department and farm, and with all firms, persons or corporations having financial transactions with the prison system. He shall have power to require all necessary reports from any department, officer or employe at stated intervals. All deposits of prison funds with banks shall be kept in the name of the officer in his official capacity, and all funds of the prison system shall be kept separate from private funds. Such accounts and clerical assistance as may be necessary to carry out the provisions of this section shall be provided by the Prison Commission, in order that a full, complete and correct account may be kept of all financial transactions of the prison system. In the absence of such officer, one of the Prison Commissioners may sign such receipts, warrants or vouchers.

Sec. 24. On the taking effect of this act, and annually thereafter, there shall be appointed by the Comptroller of Public Accounts, the Attorney General and Secretary of State, a permanent auditor for the prison system, who shall hold his office for a term of one year, subject to discharge at any time as hereinafter provided. It shall be the duty of such auditor to audit all accounts, vouchers, pay rolls and all other business transactions of the prison system, and to check all property, material and supplies received and disposed of by or distributed within the prison system, and he shall make a full report thereof to the Governor on the 1st day of December of each year. Such auditor shall be subject to discharge at any time by the Comptroller of Public Accounts, Attorney General and Secretary of State, for any incompetency, neglect, failure or refusal to discharge the duties of his office or for any wrongful conduct that in the judgment of the Comptroller of Public Accounts, Attorney General and Secretary of State renders him unfitted for said office, and in case of the dis-

charge or resignation of any auditor another shall be appointed. During the term of his service such accountant shall be paid a monthly salary of two hundred dollars per month and all actual and necessary traveling expenses, to be paid at the end of each month out of any moneys belonging to the prison system, such traveling expenses to be evidenced by an itemized sworn statement by the auditor, filed with the board.

Sec. 25. Each member of the Board of Prison Commissioners in the discharge of his duties is authorized to administer oaths, to summon and examine witnesses, and take such other steps as he deems necessary to ascertain the truth of any matter about which he may have the right to inquire.

Sec. 26. Within a reasonable time, and not later than six months after the taking effect of this act, the Prison Commission shall abolish striped or checked clothes for prisoners, except as a mode of punishment for the violation of prison discipline, substituting therefor some suitable uniform.

Sec. 27. The Prison Commission shall, as soon as practicable, provide at each prison, farm and camp where prisoners are kept or worked, schools for instruction of prisoners in elementary branches of the English language and industrial education, music and such other instruction as they may prescribe, and they shall employ such number of competent teachers to instruct the prisoners in the same as in the judgment of the Commission may seem necessary, and the Prison Commission shall make reasonable rules and regulations whereby the prisoners may attend such school. The Prison Commission shall prescribe and furnish to the prisoners suitable books and other reading matter, and to this end may establish and operate among the prisoners a circulating library and may adopt such other means of distributing among the prisoners good and wholesome literature as in the judgment of the Prison Commission will best enable the prisoners to avail themselves of the same.

Sec. 28. The Prison Commission shall provide for religious services at prisons, farms and camps where prisoners are kept or worked. They shall employ such chaplains as may be necessary to afford all prisoners an opportunity to attend at least two religious services each month, said chaplains to devote their entire time to religious and moral learning and education of the prisoners under

their care, teaching them the principles and practice of every Christian and moral duty; providing that chaplains may also be teachers as provided for in this act.

Sec. 29. If any member of the Board of Prison Commissioners shall be guilty of malfeasance or nonfeasance in office or shall become incapable or unfit to discharge his official duties, or shall willfully fail, refuse or neglect to discharge the duties of his office, such member shall be subject to removal from office as provided by Article 3528, Revised Statutes of 1895.

Sec. 30. The Prison Commission shall, except as provided in this act, fix the salaries of all officers and employes of the prison system upon such basis as the labor and ability of the officer or employe entitles him to, such salary to be paid monthly at the end of each month. They shall pay to those employed as guards of the convicts a salary of not less than thirty-five dollars per month; provided, that for meritorious service and adaptability to the work, the Prison Commission may increase the pay of any guard to an amount not to exceed fifty dollars per month. No person shall be employed as a guard to guard convicts who is not of good moral character and who is not able to read and write and has not a fair knowledge of the English language, and the Prison Commission may provide such other qualifications as they may deem expedient; provided, that no person shall be employed as a guard who is in any way addicted to the use of alcoholic or intoxicating liquors, and the Prison Commission shall require all officers and employes connected with the prison system to familiarize themselves with and conform to the rules and regulations and laws governing the prison system of this State; provided, the Prison Commission shall require all officers and employes connected with the prison system of this State to take and subscribe to the oath of office prescribed by the Constitution.

Sec. 31. The Prison Commission shall see that all State prisoners are fed good and wholesome food, properly prepared, under wholesome, sanitary conditions and in sufficient quantity and reasonable variety, and they shall hold all underofficers performing this work strictly to account for any failure to carry out this provision. That the food may be properly prepared, the Prison

Commission shall provide for the training of prisoners as cooks.

Sec. 32. The Prison Commission shall require at the end of each month reports showing fully the condition and treatment of the prisoners and the changes in the prison population during the month, including itemized statements of all different items of food, clothing and utensils used and on hand in each of the units of the prison system, and such other matters as they may require.

Sec. 33. The Prison Commission shall keep a register of all prisoners belonging to the prison system, showing the number of each prisoner, giving the aliases, name, age, height, color of hair, color of eyes, complexion, marks on person, sex, nativity, residence, county where convicted, offense of which convicted, date of sentence, date of receipt, previous occupation and habits, if known, and may adopt such other means of identification as they may deem proper and necessary. They shall keep a record of the general conditions and conduct of each prisoner, noting all punishments, forfeitures, bad conduct, changes and incidents of importance that may occur during his confinement, and to the end that complete records may be kept, they may require from all underofficers such monthly and other reports as they may deem proper. They shall issue discharges to such prisoners as are entitled thereto by expiration of sentence or otherwise.

Sec. 34. That persons confined in the State prisons of this State may have every opportunity and encouragement for moral reform, it shall be the duty of the Prison Commission in addition to the requirements of this act, to provide every reasonable and practicable means for the encouragement of such reform. To this end, the Prison Commission shall provide for the classification of all prisoners, separating them into the following classes: In the first class shall be included young men, first offenders, those appearing to be corrigible, or less vicious than the others, and likely to observe the laws and to maintain themselves by honest industry after their discharge. In the second class shall be included those appearing to be less corrigible, or more vicious, but content to work and reasonably obedient to prison discipline as not to seriously interfere with the productiveness of their labor, or with the labor or conduct of those with whom they may be

employed. In the third class shall be included those appearing to be incorrigible, or so insubordinate or so vicious in their nature as to seriously interfere with the labor and moral development of those with whom they must come in contact. The Prison Commission shall make rules and regulations for the promotion and reduction of the prisoners from one class to another and shall transfer them from one class to another from time to time as they may seem to merit promotion or reduction.

The prisoners in each of the classes hereinbefore named shall be kept in or upon different or separate prisons or farms. Any prisoner upon entering the prison system shall be assigned to one of its institutions according to his class, as hereinbefore provided, and shall be entered in said institution in a neutral grade which shall be known as grade No. 2, and in which he shall be furnished with a suitable uniform designated for that grade. The Prison Commission shall adopt rules for a higher grade which shall be known as grade No. 1, as a reward for obedience to prison discipline and good conduct, and shall provide a suitable uniform for this grade; and they shall provide for a lower grade as a punishment for misconduct and violation of prison discipline, which grade shall be known as No. 3, and in which the prisoner shall be clothed in stripes. The uniforms for grades Nos. 1 and 2 shall not be stripes. The Prison Commission shall provide rules for promotion of prisoners from any grade to another for good conduct and obedience to prison discipline and for demotion of prisoners for misconduct and violation of prison discipline. The Prison Commission shall provide specifically for the extension or denial of privileges for the various grades herein provided.

That prison discipline may be enforced the Prison Commission may adopt such modes of punishment as may be necessary, such punishment being always humane, but whipping and placing prisoners in stocks shall be prohibited. When not at work, white and negro prisoners shall be kept separate.

Sec. 35. All female prisoners shall be kept separate and apart from the male prisoners. Where practicable the Prison Commissioner shall keep the female prisoners upon a separate farm or at a separate prison from the male prisoners and shall provide reasonable rules and regulations for the government of the same.

Sec. 36. The Prison Commission shall provide such labor for said female prisoners as in their judgment they can reasonably perform, but the matron over such female prisoners shall at any time have the authority to say whether the physical condition of said female prisoner is such they they can perform physical labor. The matron or matrons so employed to look after the welfare of the female prisoners shall reside at the place where female prisoners are kept.

Sec. 37. The Prison Commission shall also keep the white female prisoners separate and apart from the negro female prisoners, and shall select and place over said female prisoners a matron or matrons, whose duty it shall be to give her personal attention to the welfare of such female prisoners.

Sec. 28. one duly authorized by it to visit the offices whether general, local or otherwise, of any insurance company doing business in this State, and the home office of said company outside of this State, if there be such, and the office of any officers, directors, general agents, State agents, local agents or representatives of such company, and there require such company, its officers, agents or representatives to produce for inspection by said board or any of its duly authorized representatives, all books, records and papers of such company or such agents and representatives; and the said board or its duly authorized agents or representatives shall have the right to examine such books and papers and make or cause to be made copies thereof; and shall have the right to take testimony under oath with reference thereto, and to compel the attendance of witnesses for such purpose; and any company, its officers, agents or representatives failing to make such statements and reports herein referred to and failing or refusing to permit the examination of books, papers and records as herein required when so called upon, or declining or failing to comply with any provision of this section shall be subject to the penalties provided for in Section 25 of this act.

Sec. 11. Immediately upon the taking effect of this act, or as soon thereafter as practicable, said board is empowered and it is hereby made its duty, to prepare a system of general basis schedules, together with rules for applying the same, for determining fire insurance rates on property in this State; the said general basis schedules and the rules for applying the same to be at all times reasonable; the said board may employ and use any facts and information now in the possession of or in the records of the present State Fire Rating Board, as well as all facts obtainable from and concerning fire insurance companies transacting business in this State, showing the experience of said companies, and charges for premiums on fire insurance, and generally as to the transaction of their said business during the years named in Section 10 of this act or during any other period of time, in order to devise and fix reasonable general basis schedules and rules for applying the same for determining the maximum specific rates. The said board in preparing such general basis schedules showing the rates on

all classes or risks insurable by any company in this State, shall show all charges, credits, terms, privileges and conditions which in any wise affect such rates or the application of such rates to specific risks or the cost of insurance; provided, that such schedules and the rules for applying the same shall be furnished by said board to any and all insurance companies affected by this act applying therefor; and the same shall be furnished to any citizen of this State applying therefor upon the payment of the actual cost thereof; that such general basis schedules, and the rules prescribed with reference thereto shall not take effect until said board shall have entered an order or orders fixing the same, and shall have given notice to all insurance companies affected by this act, authorized to transact business in this State.

Sec. 12. It is further provided that after the adoption and promulgation of the general basis schedules and the rules and regulations for applying the same, as herein provided for by the board, every insurance company writing fire insurance policies within this State shall, within a reasonable time, file with the State Insurance Board its application of said general basis schedules to the specific risks of the State, and the specific rates obtained thereby in accordance with the several provisions of this act; and provided further, that any one or more insurance companies may employ for the application of such general basis schedules and the making of such specific rates, the service of such experts as they may deem advisable for such purpose, but the contract or contracts of employment of such experts shall first be submitted to the State Insurance Board for its approval; provided, further, that the State Insurance Board shall have authority, and it shall be the duty of said board, personally or by its agents, to inspect and supervise the work of said experts in the application of said general basis schedules in the determination of specific rates; which rates shall be the maximum insurance rates that may be charged for insurance in this State; provided, further, that any company may write insurance at a lower rate than the maximum on any risk or class of risks in any particular locality; and provided, further, that any company making any such reduction shall forthwith file with the State Insurance Board a statement of such reduction, showing

the maximum rate and the reduced rate thereon, such statement to be on forms prescribed by the board and signed by the State or general agent of such company, which statement when so filed, shall be subject to the inspection of the public. The State Insurance Board, upon the filing of such statement, shall file a certified copy thereof with the city secretary of any city, town, or village of such locality, if there be such, or if there be no such officer, then the board shall file a certified copy thereof with the county clerk of the county of such locality which said statement when so filed, shall be subject to public inspection. The county clerk or city secretary aforesaid shall receive as compensation the sum of ten cents for each such statement filed by him, which shall be paid to him by the State Insurance Board out of funds which shall be deposited with the State Insurance Board for such purpose by any such company; provided further, that said company or companies shall file with the board copies of all maps and copies of the analysis of all applications of said general basis schedules to the specific risks of this State, if required to do so by the board. And it shall be the duty of the expert or experts representing the insurance companies, or any insurance company in this State to furnish at the date of the inspection to the owners of all risks inspected for the purpose of applying the general basis schedules provided for in this act, a copy of such inspection report showing all defects that operate as charges to increase the insurance rate.

It is further provided that the maximum specific rates so made by a company or companies for any city, town, village or locality, shall not take effect, and such company or companies shall not write insurance thereunder until such maximum specific rates shall have been approved by the board; the board shall have the authority to reject said maximum specific rates so made or any part thereof, or to alter, amend, modify or change the same; or to permit such maximum specific rates to become effective for a limited time, or any modification or change thereof for a limited time in its discretion; provided, however, that the said board shall have authority in its discretion to permit the said company or companies to apply the said schedules of basis rates to risks other than

mercantile and special hazards without having first submitted the maximum specific rates so made to said board for approval. But such rates that the board may permit any company or companies to apply without the board's approval shall always be subject to review by the board and by the proper showing of any policyholder or holders may be reduced. It is further provided that all changes made by any company in the maximum specific rates made by it in applying the general basis schedules shall be subject to the review of the board for its approval or disapproval, and shall be reported to the board in such manner and form as may be prescribed by the board. Provided, further, that any insurance company or companies affected by this act shall have the right at any time to petition the board for an order changing or modifying the general basis schedules, or the application of the general basis schedules to the specific risks; and the board shall consider such petition as provided in this act, and enter such order as the board may deem just and equitable to such company or companies, to competing companies and to the public. Provided, further also, that any company or any policyholder affected by this act shall have the right to apply to the board for an order reducing the maximum specific rates of insurance on property within this State, and the board shall consider such application and enter such order with reference thereto as it may deem just and equitable to such company, to competing companies and to the public.

The board shall also have the power and authority to give each city, town, village, or locality credit for each and every hazard they may reduce or entirely remove, also for all added fire fighting equipment, increased police protection, or any other equipment or improvement that has a tendency to reduce the fire hazard of any such city, town, village or locality and also to give credit for a good fire record of each city, town, village or locality. The board shall also have the power and authority to compel any company to give any and all policyholders credit for any and all hazards that said policyholder or holders may reduce or remove. Said credit shall be in proportion to such reduction or removal of such hazard, and said company or companies

shall return to such policyholder or holders such proportional part of unearned premiums charged for such hazards that may be reduced or removed.

Sec. 13. It is provided that after the approval by the board of the maximum specific rates made by the insurance companies hereunder, that thereafter when a policy of insurance is written that the policyholder shall be furnished by the company with a copy of the analysis of his maximum specific rate showing the items of charge and credit which determine the rate unless such policyholder has heretofore been furnished with such analysis of his rate; it is also further provided that the general basis schedules and all maximum specific rates and local tariffs filed in accordance with the provisions of this act shall be open to the inspection of the public, and each local agent shall have and exhibit to the public copies thereof relative to all risks upon which he is authorized to write insurance.

Sec. 14. It is further provided that until the general basis schedules herein provided for shall have been promulgated by the board, and the maximum specific rates thereunder determined, all companies subject to the provisions of this act shall write insurance at the rates now in force in this State, including the reductions heretofore ordered by the State Fire Rating Board in localities where such specific rates have been determined and filed with the board; provided, the general basis schedules from which such specific rates have been made, and such specific rates shall be subject to the authority of the board under this act. Provided further, however, that wherever such specific rates have not been determined then the board shall designate at what rate the company shall write insurance; provided, however, that all rates under this section shall be maximum rates, and the companies shall have the right to write insurance below such rates by complying with the terms and conditions of Section 12 of this act.

Sec. 15. The said board shall have authority, upon reasonable notice, not exceeding thirty days, of its intention to do so, to alter, amend or revise said general basis schedules promulgated by it, or the specific maximum rates approved or ordered by it, as herein provided, and to give reasonable notice of such alteration, amendment or revisions to the public or to any company or companies affected thereby. Such altered,

amended or revised schedules or maximum rates shall be the schedules or maximum rates to be thereafter charged for insurance by any company in this State; provided, that the board may order changes to be made to meet unusual conditions in any particular locality, should such conditions exist or arise, by giving similar notice to the public or to any company affected thereby. Provided, the changes or amendments made to the general basis schedules shall apply only to policies of insurance written after the order of the board making such changes or amendments becomes effective. Provided further, that no policy existing prior to the taking effect of such changes or amendments to the general basis schedules shall be affected by such changes or amendments unless there shall be a change in the hazard of the risk necessitating a change in the rate applicable to such risk, in which event such policy shall be affected by such changes or amendments unless there shall be a change in the hazard of the risk necessitating a change in the rate applicable to such risk, in which event such policy shall be subject to the new rates applicable under the changed or amended general basis schedules.

Sec. 16. It shall be the duty of the State Insurance Board to make, promulgate and establish uniform policies of insurance applicable to the various risks of this State, copies of which uniform policies shall be furnished each company doing business in this State, or which may hereafter do business in this State. That after such uniform policies shall have been established and promulgated and furnished the respective companies doing business in this State, such companies shall, within sixty days after the receipt of such forms of policies, adopt and use said form or forms and no other; and all companies which may commence business in this State after the adoption and promulgation of such forms of policies, shall adopt and use the same and no other forms of policies. The said Insurance Board shall also prescribe all standard forms, clauses and indorsements used on or in connection with insurance policies. All other forms, clauses and indorsements placed upon insurance policies shall be placed thereon subject to the approval of the board. The board shall also have authority in its discretion to change, alter or amend such form or forms of policy or policies, and such clauses and indorsements used in connection therewith upon giving

notice and proceeding in accordance with Section 20 of this act.

Sec. 17. Any provision in any policy of insurance issued by any company subject to the provisions of this act to the effect that if said property is incumbered by a lien of any character or shall after the issuance of such policy become incumbered by a lien of any character, that such incumbrance shall render such policy void, shall be of no force and effect, and any such provision within or placed upon any such policy shall be absolutely null and void.

Sec. 18. No company subject to the provisions of this act may issue any policy or contract of insurance covering property in this State, which shall contain any clause or provision requiring the assured to take out or maintain a larger amount of insurance than that expressed in such policy, nor in any way providing that the assured shall be liable as coinsurer with the company issuing the policy for any part of the loss or damage which may be caused by fire to the property described in such policy, and any such clause or provision shall be null and void and of no effect; provided, that it may be optional with the assured to accept a policy or contract of insurance containing a coinsurance clause or provision when a reduction in the rate of insurance on the property described in such policy is the consideration named in such clause, and when so accepted the coinsurance clause or provision shall be binding on the assured.

Sec. 19. It is provided that any citizen or number of citizens of this State, or any policyholder or policyholders, or any insurance company affected by this act, or any board of trade, chamber of commerce or other civic organization, or the civil authorities of any town, city or village, shall have the right to file a petition with the Insurance Board setting forth any cause of complaint that they may have as to any order made by this board, or any schedule promulgated by this board, or as to any specific rate approved by this board, and that they shall have the right to offer evidence in support of the allegations of such petition by witnesses, or by depositions or by affidavits; that upon the filing of such petition, the party complained of, if other than the board, shall be notified by the board of the filing of such petition and a copy thereof furnished the party or parties, company or companies, of whom complaint is made, and the said petition shall be set down for

a hearing at a time not exceeding thirty days after the filing of such petition and the board shall hear and determine said petition; but it shall not be necessary for the petitioners or any one for them to be present to present the cause to the board, but they shall consider the testimony of all witnesses, whether such witnesses testify in person, or by deposition, or by affidavits, and if it be found that the complaint made in such petition is a just one, then the matters complained of shall be corrected or required to be corrected by said board.

Sec. 20. The State Insurance Board shall give the public and all insurance companies, to be affected by its orders or decisions, reasonable notice thereof, not exceeding thirty days, and an opportunity to appear and be heard with respect to the same; which notice to the public shall be published in one or more daily papers of the State, and such notice to the insurance company or companies to be affected thereby shall be by letter deposited in the postoffice, addressed to the State or general agent of such company or companies, if the address of such State or general agent be known to the board, or, if not known, then such letter shall be addressed to some local agent of such company or companies, or, if the address of a local agent be unknown to the board, then by publication in one or more of the daily papers of the State, and the board shall hear all protests or complaints from any insurance company or any citizen, or any city, town or village, or any commercial or civic organization as to the inadequacy or unreasonableness of any rates fixed by it or approved by it, or as to the inadequacy or unreasonableness of any general basis schedules promulgated by it or the injustice of any order or decision by it; and if any insurance company, or other person, or commercial or civic organization, or any city, town or village, which shall be interested in any such order or decision, shall be dissatisfied with any regulation, schedule or rate adopted by such board, such company or person, commercial or civic organization, city, town or village shall have the right, within thirty days after the making of such regulation or order, or rate, or schedule, or within thirty days after the hearing above provided for, to bring an action against said board in the district court of Travis county to have such regulation or order or schedule or rate vacated or modified; and shall set forth in a petition

therefor the principal ground or grounds of objection to any or all of such regulations, schedules, rates or orders; in any such suit, the issue shall be formed and the controversy tried and determined as in other civil cases, and the court may set aside and vacate or annul any one or more or any part of any of the regulations, schedules, orders or rates promulgated or adopted by said board, which shall be found by the court to be unreasonable, unjust, excessive or inadequate, without disturbing others. No injunction, interlocutory order or decree suspending or restraining directly or indirectly the enforcement of any schedule, rate, order or regulation of said board shall be granted.

Provided, that in such suit, the court, by interlocutory order, may authorize the writing and acceptance of fire insurance policies at any rate, which in the judgment of the court is fair and reasonable during the pending of such suit, upon condition that the party to such suit in whose favor the said interlocutory order of said court may be, shall execute and file with the Commissioner of Insurance and Banking a good and sufficient bond to be first approved by said court, conditioned that the party giving said bond will abide the final judgment of said court and will pay to the Commissioner of Insurance and Banking whatever difference in the rate of insurance it may be finally determined to exist between the rate as fixed by said board complained of in such suit, and the rate finally determined to be fair and reasonable by the court in said suit; and the said Commissioner of Insurance and Banking, when he receives such difference in money, shall transmit the same to the parties entitled thereto.

Whenever any action shall be brought by any company under the provisions of this section within said period of thirty days, no penalties nor forfeitures shall attach or accrue on account of the failure of the plaintiff to comply with the orders, schedules, rates or regulations sought to be vacated in such action until the final determination of the same.

Either party to any such action, if dissatisfied with the judgment or decree of said court, may appeal therefrom as in other civil cases. No action shall be brought in any court of the United States to set aside any orders, rates, schedules or regulations made by said board under the provisions of this

act until all of the remedies provided herein shall have been exhausted by the party complaining.

If any insurance company affected by the provisions of this act shall violate any of the provisions of this act, the Commissioner of Insurance shall, by and with the consent of the Attorney General, cancel its certificate of authority to transact business in this State.

Sec. 21. No company shall engage or participate in the insuring or reinsuring of any property in this State against loss or damage by fire except in compliance with the terms and provisions of this act; nor shall any such company knowingly write insurance at any rate higher than the maximum rates herein provided for and it shall be unlawful for any company so to do. And it shall be unlawful for any company, or its officers, directors, general agents, State agents, special agents, local agents, or its representatives, to grant or contract for any special favor or advantage in the dividends or other profits to accrue thereon, or in commissions or division of commissions, or any position, or any valuable consideration, or any inducement not specified in the policy contract of insurance; nor shall such company give, sell or purchase, offer to give, sell or purchase, directly or indirectly, as an inducement to insure or in connection therewith, any stocks, bonds or other securities of any insurance company or other corporation, partnership, or individual, or any dividends or profits accrued or to accrue thereon or anything of value whatsoever, not specified in the policy; but nothing in this section or in this act shall be construed to prohibit a company from sharing its profits with its policyholders; provided, that such agreement as to profit sharing shall be placed on or in the face of the policy, and such profit sharing shall be uniform and shall not discriminate between individuals or between classes; provided, however, that no part of the profit shall be paid until the expiration of the policy.

Any company, or any of its officers, directors, general agents, State agents, special agents, local agents or its representatives, doing any of the acts in this section prohibited, shall be deemed guilty of unjust discrimination; provided, however, that if any agent or company shall issue a policy without authority, and any policyholder holding such policy shall sustain a loss or dam-

age thereunder, said company or companies shall be liable to the policyholder thereunder, in the same manner and to the same extent as if said company had been authorized to issue said policy, although the company issued said policy in violation of the provisions of this act. But this shall not be construed to give any company the right to issue any contract or policy of insurance other than as provided in this act.

Sec. 22. No person shall knowingly receive or accept from any insurance company or from any of its agents, sub-agents, brokers, solicitors, employees, intermediaries or representatives, or any other person, any rebate of premium payable on the policy, or any special favor or advantage in the dividends or other financial profits accrued or to accrue thereon or any valuable consideration, position or inducement not specified in the policy of insurance, and any person so doing shall be guilty of a violation of the provisions of this section, and shall be punished by a fine of not exceeding one hundred dollars, or by imprisonment in the county jail for not exceeding ninety days, or by both such fine and imprisonment.

Sec. 23. The provisions of this law shall not deal with the collection of premiums, but each company shall be permitted to make such rules and regulations as it may deem just between the company, its agents, and its policyholders; and no bona fide extension of credit shall be construed as a discrimination, or in violation of the provisions of this act.

All policies heretofore issued or which shall hereafter be issued by any insurance company prior to the taking effect of this act, which provide that said policies shall be void for non-payment of premiums at a certain specified time shall be and the same are in full force and effect, provided, that the company or any of its agents have accepted the premium on said policies after the expiration of the dates named in said provision fixing the date of payment.

Sec. 24. The Commissioner of Insurance, upon ascertaining that any insurance company or officer, agent or representative thereof, has violated any of the provisions of this act, may, at his discretion, and with the consent and approval of the Attorney General, revoke the certificate of authority of such company, officer, agent or representative; but such revocation of any

certificate shall in no manner affect the liability of such company, officer, agent or representative to the infliction of any other penalty provided by this act, and provided that any action, decision or determination of the Commissioner of Insurance and Banking and the Attorney General in such cases shall be subject to the review of the courts of this State as herein provided.

Sec. 25. Any insurance company affected by this act, or any officer or director thereof, or any agent or person acting for or employed by any insurance company, who, alone or in conjunction with any corporation, company, or person, who shall willfully do or cause to be done, or shall willfully suffer or permit to be done any act, matter or thing prohibited or declared to be unlawful by this act, or who shall willfully omit or fail to do any act, matter or thing required to be done by this act, or shall cause or willfully suffer or permit any act, matter or thing directed not to be done, or who shall be guilty of any willful infraction of this act, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than three hundred dollars nor more than one thousand dollars for each offense.

Sec. 26. No person shall be excused from giving testimony or producing evidence when legally called upon to do so at the trial of any other person or company charged with violating any of the provisions of this act on the ground that it may incriminate him under the laws of this State; but no person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may testify or produce evidence under this act, except for perjury in so testifying.

Sec. 27. This act shall not apply to purely mutual or to purely profit-sharing fire insurance companies incorporated or unincorporated under the laws of this State and carried on by the members thereof solely for the protection of their property and not for profit; nor to purely co-operative, inter-insurance and reciprocal exchanges carried on by the members thereof solely for the protection of their property and not for profit.

Sec. 28. Not later than March 15th, after this act shall take effect, and annually thereafter, it shall be the duty

of the Commissioner of Insurance for the purpose of reimbursing the State for the amount to be so expended during the current year in carrying out the provisions of this act, to collect from each insurance company affected by this act, which transacted business in this State during the preceding calendar year, or any portion thereof, the proportion of said \$25,000 which the gross premiums collected by said company during such year from persons or upon property located in this State bears to the aggregate amount of gross premiums so collected during such year by all insurance companies affected by this act transacting business in this State; provided, that in computing such gross premium receipts there shall be deducted therefrom the amount paid out for reinsurance and for return premiums on canceled policies. If, at the end of any year after this act shall take effect it shall be found that the aggregate amount expended in carrying out the provisions of this act during such year has been less than \$25,000, the amount remaining unexpended shall be applied in the reduction of the amount to be collected from said companies for the succeeding year. The amount due under the provisions of this section by each company shall be certified by the Commissioner of Insurance to such company and he shall revoke the certificate of authority of any company which shall fail to pay the same within thirty days after the receipt of such certificate; provided, that the collections from insurance companies provided for in this section shall not be made for any year during which any such company shall be liable under the laws of this State to the payment of an occupation tax at a rate of two and one-half per cent or more of the gross premiums received, less deductions for reinsurance and return premiums on canceled policies.

Sec. 29. If any part of this act be for any reason held unconstitutional it shall not affect any other portion or part of this act.

Sec. 30. Chapter 18 of the General Laws of the Thirty-first Legislature passed by its First Called Session and approved April 19, 1909, entitled, "An Act providing the conditions upon which fire insurance companies shall transact business in this State; and providing for the regulation and control of rates of premiums on fire insurance and to prevent discrimination therein; and to cre-

ate a fire insurance rating board; and to provide penalties for violation of this act, and declaring an emergency," and all other laws and parts of laws in conflict with this act are hereby repealed.

Sec. 31. The fact that there is now no sufficient law in this State prohibiting unjust discriminations in the collection of fire insurance rates as between citizens of this State; nor protecting citizens in securing reasonable rates, constitutes an emergency and an imperative public necessity requiring that the constitutional rule requiring bills to be read on three several days to be suspended and that this act take effect and be in force from and after its passage, and it is so enacted.

Free Conference Committee Substitute
for House bill No. 9:

A BILL

To Be Entitled

An Act requiring all railroads and steamship companies, and other common carriers, or receivers thereof, except express companies and pipe line companies, upon receipt of freight, to issue bills of lading, and to authenticate, validate or certify such bills of lading under the provisions of this act; prescribing certain requirements for bills of lading, and defining straight and order bills of lading; prohibiting the issuance of order bills of lading in sets or in duplicate; making it the duty of the Railroad Commission to adopt and prescribe forms, terms and conditions for the authentication, validation or certification of bills of lading, and prescribing the duties of the Railroad Commission in reference thereto; providing that all carriers affected by this act shall keep posted in certain places a written instrument authorizing the agent of such carrier to sign bills of lading; prescribing the duties of carriers affected by this act, and their liability for failure to take up and cancel order bills of lading when the goods or a part thereof have been delivered; prescribing that a court of competent jurisdiction may order goods delivered when order bills of lading have been lost by the giving of a bond by the holder of the lost bill of lading, under certain conditions; prescribing certain duties of local station agents of carriers; prescribing and defining certain duties and liabilities of carriers affected by this act with reference to and under a bill of lading, and providing that a bill of lading validated, authenticated or cer-

tified in accordance with the provisions of this act in the hands of an innocent holder shall be incontestable concerning the matters therein set forth in the bill; providing conditions when the carrier shall not be liable under the provisions of this act; creating and defining certain criminal offenses for the violation of the provisions of this act, and with reference to the issuance, negotiation or transfer of bills of lading, and prescribing penalties therefor, and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. It shall be the duty of all railroad companies, steamship companies and other common carriers, or receivers thereof, except express companies and pipe line companies, upon the receipt of freight for transportation, to issue bills of lading therefor, and to authenticate, validate or certify such bills of lading, when the same shall be demanded by the shipper, in accordance with the provisions of this act.

Sec. 2. Each bill of lading issued by a common carrier to which the provisions of this act apply for an intrastate shipment, shall contain, and each bill of lading issued by such carrier for interstate or foreign shipment may contain, within the written or printed terms, in addition to the other requirements of this act, the following:

- (a) The date of its issuance;
- (b) The name of the person from whom the goods have been received;
- (c) The place where the goods have been received;
- (d) The place to which the goods are to be transported;
- (e) A statement of whether the goods will be delivered to a specific person or the order of a specific person;
- (f) A description of the goods or the packages containing them, which may, however, be in terms such as may be approved by the Railroad Commission;
- (g) The signature of the carrier or the duly authorized agent of the carrier; said bill of lading shall be signed with pen and ink, and the person signing the same shall attach his signature below all written, printed or stamped matter contained in said bill of lading, except the words, "Authorized Agent of" (stating the name of his principal), which shall appear below his signature;
- (h) The carrier may insert in a bill of lading issued by him any other terms

and conditions; provided, such terms and conditions shall not be contrary to law or public policy or the orders promulgated by the Railroad Commission; and, provided, further, that no language shall be inserted in any bill of lading having the effect of limiting or avoiding any of the provisions of this act;

(i) Provided, that when any form of bill of lading has been approved by the Interstate Commerce Commission, and has been adopted by any carrier and made a part of its tariff, then such bill of lading, as to interstate and foreign shipments, shall be a sufficient compliance with the provisions of this section of this act.

Sec. 3. A bill of lading in which it is stated that the goods are consigned or destined to a specific person is a "straight" bill of lading, and a bill of lading in which it is stated that the goods are consigned to the order of any person named in such bill of lading is an "order" bill of lading. "Order" bills of lading shall not be issued in sets or in duplicate, but copies thereof may be issued; provided, such copy has written or printed across the face thereof: "Copy—Not Negotiable."

Sec. 4. It shall be the duty of the Railroad Commission of Texas to adopt and prescribe forms, terms and conditions for the authentication, certification and validation of all bills of lading issued by common carriers referred to in Section 1 hereof, and to regulate the method and manner of their issuance, and to take all such steps as it may deem necessary to carry into effect the provisions of this act.

Sec. 5. It shall be the duty of the carriers affected by this act to keep posted for public inspection in some conspicuous place in the station or place where freight is received an instrument of writing authorizing the agent of such carrier, or person authorized to act for such carrier, selected for such purpose, to execute, sign and issue bill of lading, and the agent or person so authorized to act for said carrier, so selected, shall attach his signature to such instrument in the same manner that he signs bills of lading.

Sec. 6. Each and every bill of lading issued by the authorized agent of any carrier or receiver thereof, affected by the provisions of this act, shall be deemed and held to be the act and deed of such carrier or receiver thereof, and the principal shall be liable thereon in

accordance with the terms thereof. When any such bill of lading shall be validated, authenticated or certified in accordance with the rules, and regulations herein provided for, and as may be prescribed by the Railroad Commission in accordance with the provisions of this act, and in the hands of an innocent holder for value, it shall be incontestable as to the matters and things therein set forth.

Sec. 7. If the carrier shall deliver goods for which an order bill of lading has been issued, the negotiation of which would transfer the right to the possession of the goods, and fails to take up and cancel said bill of lading, such carrier shall be liable for the failure to deliver the goods to any one who, for value, in good faith, purchases such bill of lading whether the purchaser acquired title to the bill of lading before or after the delivery of the goods by the carrier and notwithstanding such delivery was made to the person entitled thereto; except when goods are sold to satisfy the carrier's lien, and except when compelled to do so by legal process.

Sec. 8. If a carrier delivers a part of the goods for which an order bill of lading has been issued, and fails to take up and cancel the bill of lading, or to place plainly upon the bill of lading that a portion of the goods had been delivered, with a description which may be in general terms, either of the goods or packages that had been so delivered, or of the goods or packages which still remain in the carrier's possession, he shall be liable for the failure to deliver all of the goods specified in the bill of lading to any one, who for value, and in good faith, purchases it. whether such purchaser acquires title to the bill of lading before or after the delivery of any portion of the goods by the carrier, and notwithstanding such delivery was made to the person entitled thereto; except when goods are sold to satisfy the carrier's lien, and except when compelled to do so by legal process.

Sec. 9. Where an order bill of lading shall have been lost or destroyed, a court of competent jurisdiction, in term time or in vacation, may order the delivery of the goods upon satisfactory proof of such loss or destruction, and upon the giving of a bond, with good and sufficient sureties, to be approved by the court, to protect the carrier or any person injured by such delivery

from any liability or loss incurred by reason of the original bill of lading remaining outstanding. The court may also, in its discretion, order the payment of the carrier's reasonable costs and counsel fees; but the delivery of the goods under an order of the court, as provided for in this section, shall not relieve the carrier from liability to a person to whom the order bill of lading has been or shall be negotiated for value, and without notice of the proceedings or the delivery of the goods. Provided, that nothing herein shall prevent the carrier from delivering the property covered by such lost bill of lading to any party claiming the same, on such terms as such party and the carrier may agree upon.

Sec. 10. The carrier shall not be liable under the provisions of this act where the property has been replevied or levied upon or taken from the possession of the carrier by other legal process, or has been lawfully sold to satisfy the carrier's lien, or in case of the sale or disposition of perishable, hazardous or unclaimed goods, in accordance with law.

Sec. 11. Any officer, agent or servant of any carrier, railroad or transportation company, or receiver thereof affected by this act, who shall fail or refuse to issue a bill of lading in accordance with this act and the regulations and orders of the Railroad Commission, when the same is rightfully demanded, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding two hundred (\$200) dollars or by imprisonment in the county jail not exceeding six months or by both such fine and imprisonment.

Sec. 12. Any officer, agent or servant of a carrier, railroad or other transportation company, or receiver thereof affected by this act, who shall wrongfully issue a bill of lading with the intent to defraud any person, or who shall with intent to defraud, knowingly misdescribe any goods, articles or other property, or the quantity or amount thereof, described in any bill of lading, or who shall knowingly issue a bill of lading without authority so to do with the intent to defraud any person shall be deemed guilty of a felony, and upon conviction thereof, shall be punished by confinement in the State penitentiary for a term not less than two years and not exceeding ten years.

Sec. 13. Any person who shall forge the name of any agent of a railroad company or other common carrier to a bill of lading with the intent to defraud, or who shall forge the name of any person to any certificate attached to a bill of lading issued by such carrier with the intent to defraud, or who shall knowingly utter or attempt to utter any such forged instrument with intent to defraud, shall be deemed guilty of a felony and upon conviction thereof shall be punished by confinement in the State penitentiary for a term of not less than five years and not exceeding fifteen years.

Sec. 14. Any officer, agent or servant of a common carrier who knowingly issues or aids in issuing or knowingly permits to be issued in parts or sets, or in duplicate, an order bill of lading shall be guilty of a felony, and upon conviction shall be punished for such offense by a fine not exceeding five thousand dollars and by confinement in the State penitentiary for a term not exceeding five years.

Sec. 15. Any person who knowingly, and with the intent to defraud, negotiates or transfers a bill of lading issued in violation of the provisions of this act, or who knowingly and with the intent to defraud, negotiates or transfers a bill of lading which contains any statement of fact that is untrue, and which statement relates to a material matter, shall be guilty of a felony and upon conviction of such offense shall be punished by a fine not exceeding five thousand dollars and by imprisonment in the State penitentiary for a term not exceeding ten years.

Sec. 16. Any person who shall knowingly and fraudulently procure and cause the agent of any common carrier to make and set forth in any bill of lading issued by him on behalf of such carrier any statements or representations which are false and which materially misrepresent the number, amount or quantity of the goods, chattels or other articles therein described, or who shall procure or cause any agent of a common carrier to issue to him a bill of lading with the intent to defraud, shall be deemed guilty of a felony and shall be punished by confinement in the penitentiary not less than two years nor more than five years.

Sec. 17. It shall be the duty of the Railroad Commission to adopt and prescribe forms, terms and conditions for

the authentication, certification or validation of bills of lading, and the manner and method of their issuance, and to take such steps as it may deem necessary to carry into effect the provisions of this act, and to give due notice to all carriers affected by the provisions of this act, and to the public as soon as practicable, and to designate the time when such regulations shall take effect, which shall not be later than October 31, A. D. 1910; and it shall have authority to amend, alter and modify from time to time, as may seem to it expedient, any regulations which may be adopted by it in accordance with the provisions hereof, after giving due notice thereof to all carriers interested and to the public.

Sec. 18. The fact that the shipping season is near at hand, and that there is a universal demand that the commercial community be furnished with staple documents, and particularly with reference to bills of lading, in the movement of this year's cotton crop, creates an emergency and an imperative public necessity, authorizing the suspension of the constitutional rule requiring that bills be read on three several days, and that this act take effect and be in force from and after its passage, and it is so enacted; provided, however, that the carriers and other persons affected by the provisions of this act shall have until the first day of November, A. D. 1910, in which to prepare and begin operations hereunder before the penalties provided by this act shall be assessed against them, or any of them.

Pending the reading of the above report, Senator Terrell of Bowie moved that the further reading of same be dispensed with, and the motion was adopted, but later the reading of same was called for, and the report was read.

After the reading of the report, the same was, on motion of Senator Harper, adopted by the following vote:

Senator Senter moved to reconsider the vote by which the report was adopted, and lay that motion on the table. The motion to table prevailed.

REASONS FOR VOTING.

The Farmers' Union caused to be presented to the Legislature the bill of lading measure offered by us in order to relieve the fears of the banks in the handling of cotton bills of lading, and to enable bills to be readily negotiated and discounted, with drafts attached, when offered for sale by the small shipper, as well as the large. The measure easily passed the House of Representatives, and after numerous conferences in committee with the representatives of the Farmers' Union, the carriers and others interested, and the expenditure of much time and attention, we amended our measure until it met the views of all concerned, and was satisfactory. When our measure was reached in the Senate, for some reason, the majority threw down this measure of the Farmers' Union and adopted, over our protest, the Senter substitute, which was useless so far as the present emergency in Texas is concerned, and ran away with our bill, and threw the matter into conference, where we were unable further to assist in giving form to the measure. However, the Conference Committee has wisely receded from the action of the Senate and embraced in the conference bill the essential features of our original measure. We congratulate the committee on this action, and so vote "aye" for the report. The same result could have been more directly reached by passing the House measure as we offered to amend it. We would then have had a better, simpler and less complicated bill of lading law. There are some provisions in this conference bill which we struck out of our bill, and for these we do not stand, but vote for the bill as the only act we can now get.

COFER.
MAYFIELD.

ADJOURNMENT.

Senator Hume moved that the Senate adjourn until 9 o'clock tomorrow morning.

The motion prevailed.

FIRST HOUSE MESSAGE.

Hall of the House of Representatives,
Austin, Texas, September 9, 1910.

Hon. A. B. Davidson, President of the Senate.

Sir: I am directed by the House to inform the Senate that the House has adopted the Free Conference Committee report on House bill No. 9 by the following vote: Yeas, 92; nays, 5.

Respectfully,

BOB BARKER,

Chief Clerk, House of Representatives.

INSTRUCTIONS TO FREE CONFERENCE COMMITTEE ON SENATE BILL NO. 10.

Senator Senter, a member of the Free Conference Committee on the peniten-

tiary bill, asked the Senate to instruct him as to the action with reference to that part of the bill relating to the retention of the strap, whereupon,

Senator Meachum offered the following resolution:

Resolved, That the Free Conference Committee of the Senate on the penitentiary bill be requested to stand in the retention of the strap on third-grade prisoners, in accord with the judgment of the House of Representatives and as decided by a majority vote of the House of Representatives, with a further provision providing substantially as follows:

That no convict shall be whipped until same has been authorized by at least two members of the Penitentiary Commissioners, upon their written order, and such order so issued shall be executed only in the presence of a prison physician, and a sworn report shall be made by the officer executing such order to the Penitentiary Commissioners, who shall keep a record of all such reports in a well-bound book to be kept for that purpose, which shall be at all times open to public inspection; and such report so to be made by such officer executing the order of the Penitentiary Commissioners shall state the name of the convict whipped, the number of strokes administered, the size of the strap used, the time and place thereof, in whose presence same was done, and the cause thereof. It shall further be the duty of the Penitentiary Commission to make semi-annual report of the whipping of convicts to the district judge of the county where such whipping occurred, who shall report same to the grand jury, which is hereby authorized to make investigation thereof, if they deem same advisable; and said Free Conference Committee is requested to provide offenses and suitable penalties for unlawful whipping of convicts, and to provide that in all such cases each and every convict and ex-convict shall be a competent witness.

Senator Alexander made a point of order on the above resolution, that the Free Conference Committee on the above bill had already agreed on this part of the bill, and that the Senate members of the committee had not asked for instructions on the matter and could not do so except when same was asked for as a committee, and that only one member of the committee had asked for the instruction.

The Chair (Lieutenant Governor Davidson) overruled the point of order.

Pending discussion on the above, Senator Meachum moved the previous question on same, which was duly seconded.

REASONS FOR VOTING.

We vote against the resolution offered by the Senator from Grimes (Meachum) et al. to instruct the Free Conference Committee of the Senate to insert a clause in its report authorizing the whipping of convicts confined in the penitentiary, and desire to record our solemn protest in the Journal of the Senate.

After full discussion on a former day of this session this Senate, by a vote of nearly two to one, declared that whipping should not be allowed, and now, in the closing hours of the session, when six members of the Senate are absent on account of sickness or important business, it is not a fair expression of the whole Senate's attitude on the question.

The Conference Committee having been appointed without instructions, and as a committee not having asked instructions, and the two committees having passed this section without disagreement, there is no parliamentary warrant or authority to now instruct them, and it sets a dangerous precedent of the future.

The use of the bat, strap or lash in the past has been so fruitful of abuse that the details are revolting to a civilized people. In 1874 an investigation showed the unmerciful whipping of convicts. The indignation of the people of Texas was aroused, but the law was not changed, and the abuses went on. In 1902 another investigation disclosed the same shameful state of affairs. More indignation, but no change in the law. The report of the committee, appointed at a former session of this Legislature, shows that the abuse of the law allowing the lash goes right on, and that cruel and ruthless punishment is frequent. On the publication of this report by the daily press, indignation meetings were held in many sections of the State, and the demand made for the abolition of the

strap. Although the law and the rules required the use of the strap only on written order of a superior officer in aggravated cases, from this report we find that prisoners were whipped and beaten unmercifully without any order. The straps used were of heavy sole leather, four or five inches wide and five or six feet long, with heavy handles. Many prisoners were beaten into insensibility, and some beaten to death. Others, white men, were stripped, placed face downward, with burly negroes seated upon head and feet while the inhuman guard plied the lash until the blood from the lacerated body of the helpless prisoner ran the full length of the room. This report shows that an examination of a squad of sixty-five men disclosed the fact that thirty-five of them bore the bruises and scars from these whippings. This abuse has continued and will continue so long as whipping is allowed.

The great majority of penologists who have given a life study to the question declare against it. All the States of the Union, save six or seven, have abolished it, and conduct their prisons more successfully than Texas has with it. The Federal prisons do not allow it. Even Hawaii and the Philippine Islands has discarded it. Why, then, should Texas, in inaugurating a great reform, hold on to this relic of barbarism?

Who ever heard of a man being whipped into good citizenship? Statistics show that for the last fifty years the lessening of the severity of punishment, where tried, has reduced offenses 40 per cent.

Russia uses the knout, and Spain the bastinado, and it is now sought by law to put Texas in a class with these countries.

Statistics and experience show that corporal punishment has never reformed, but has invariably hardened the offender.

If we authorize physical torture by law, we are but returning to the barbarous punishment of the Middle Ages, and instead of bringing about a reformation of the prisoner, we raise in him a revolt against those who beat and whip him, against society and the government itself.

Instead of obeying the plain mandate to reform the criminal, expressly declared to be one of the fundamental purposes of punishment by our Penal Code, we brutalize the prisoner and

drive him into deeper degradation and teach him that abuse and vengeance is all he may expect at the hands of the State.

Let us have discipline according to modern civilized methods, and not remain on a plane with Russia and Spain.

ALEXANDER.
MAYFIELD.

SIMPLE RESOLUTION.

By Senator Meachum:

Whereas, The Hon. M. Y. Randolph of Madisonville, Texas, a former distinguished member of this body, is now in attendance upon the Senate; therefore, be it

Resolved, That he be invited to address the Senate at this time, and that he be extended the courtesies and privileges of the floor.

The above resolution was read and adopted, and the Chair appointed Senators Meachum, Terrell of Wise and Kellie to escort ex-Senator Randolph to the President's chair.

Ex-Senator Randolph was introduced to the Senate, and made a short address.

HOUSE BILL NO. 17.

The Chair laid before the Senate, as regular order,

INVITATION FROM HOUSE TO ATTEND SPEAKING.

A committee of three members of the House of Representatives here appeared at the bar of the Senate, and extended an invitation to the Senate to sit in joint session on account of the address of Governor Campbell to the Legislature today.

Senator Terrell of Bowie moved that the Senate accept the invitation, and that a committee of three be appointed to notify the house of the acceptance.

The motion was adopted, and the Chair appointed Senators Terrell of Bowie, Holsey and Alexander as the committee.

A BILL

To Be Entitled

An Act to establish a prison system, and declaring the policy of the State with reference thereto: to provide for the management and control of such prison system; to provide for the control, management and treatment of all prisoners sentenced to the penitentiary; to provide that prisoners and ex-prisoners, as herein defined, shall be permitted to testify in certain cases; to abolish the leasing and hiring of State prisoners; to provide rules and regulations for the government and conduct of such prison system; to provide for a Board of Prison Commissioners; to provide for their appointment, and defining their powers, duties and authority; to provide for the purchase or sale of real estate by the Prison Commission; to vest title of all real estate owned by the prison system; to provide for the appointment of an auditor, and prescribing his duties; prescribing pen-

alties for the violation of this act; repealing Chapters 1, 2, 3, 4, 5, 6, 7 and 8, of Title 79, of the Revised Statutes of 1895, and all laws and parts of laws in conflict with this act.

Be it enacted by the Legislature of the State of Texas:

Section 1. That it shall be the policy of this State in the operation of its prison system to so manage and conduct the same that those convicted of violating the law and sentenced to a term in the penitentiary shall have humane treatment, and shall be given opportunity, encouragement and training in the matter of reformation.

Sec. 2. The prison system of this State, as referred to in this act, shall include the State penitentiary at Huntsville, the State penitentiary at Rusk, and such other penitentiaries as may hereafter be established, and all farms or camps where State prisoners are, or may be kept or worked, together with all property of every character belonging thereto or connected therewith.

Sec. 3. It is hereby declared the policy of this State to work all prisoners within the prison walls and upon farms owned by the State, and in no event shall the labor of a prisoner be sold to any contractor or lessee to work on farms or elsewhere, nor shall any prisoner be worked on any farm or otherwise upon shares, or upon any other farm or place other than that owned or controlled by the State of Texas after January 1, 1914; provided, that all contracts for prison labor in existence at the time this act takes effect shall terminate not later than January 1, 1914, and no contract for any prison labor shall be made which would extend beyond January 1, 1914; provided further, that the Board of Prison Commissioners shall change from the system of leasing and hiring out of prisoners at the earliest practicable time.

Sec. 4. To better carry out such policy, the management and control of the prison system of the State of Texas shall be vested in a board to be known as the Board of Prison Commissioners, and for the purposes of this act shall be referred to as the Prison Commission. Said Board of Prison Commissioners shall be composed of three men to be appointed by the Governor, with the advice and consent of the Senate, whose term of office shall be two years from date of appointment, except those first appointed under this act, who shall

hold their offices respectively for eight, sixteen and twenty-four months from the date of their appointment and qualification. In the appointment of said Commissioners first to be appointed under this act, the Governor shall designate the term each one shall hold under such appointment; provided, however, that in the event of a change in the Constitution, extending the term of office of the Prison Commissioners, then the members of said Board of Prison Commissioners then in office shall adjust their terms of office by lot or in conformance with the provisions of such constitutional amendment without the necessity of further legislative enactment.

Sec. 5. Each member of said Commission shall, within ten days after his appointment, execute a bond, payable to the Governor of this State and his successors in office for the use of the State, in the sum of \$50,000, and conditioned that he will faithfully execute the duties of his office, which said bond shall be executed with two or more good and sufficient sureties, or with some indemnity fidelity or bonding companies authorized to do business in Texas, the form of which bond shall be prepared by the Attorney General and the sufficiency of the sureties thereon approved by, and the same shall be filed with, the Secretary of State, which said bond shall not be void on the first recovery of part, or of the whole of the penalty, but shall thereafter continue in force for the whole amount of the penalty thereof, and may be sued on from time to time, and shall be deemed to extend to the faithful performance of the duties of his trust, until his successor shall be duly qualified and shall have entered upon the duties of his office. And it shall be the duty of the Attorney General, upon notice of default or failure to perform the duties as contemplated by law by any member of said Prison Commission, to bring suit in any court of competent jurisdiction in Travis county, Texas, for the forfeiture and collection of said bond; and before entering upon the duties of his office, each member of said board shall take and subscribe the oath of office prescribed by the Constitution of this State.

Sec. 6. Each member of the Board of Prison Commissioners shall receive as compensation for his services the sum of three hundred dollars per month, to be paid at the end of each month, and in addition thereto he shall be allowed all reasonable and necessary traveling ex-

penses actually incurred when traveling on business of the prison system, to be paid together with said salary out of the funds of the prison system, all such expense accounts to be itemized and sworn to in duplicate and approved by the Board of Prison Commissioners, or a majority of said board, one copy to be kept with the records of the Board of Prison Commissioners and one copy to be filed with the Comptroller of Public Accounts. Each member of said Board of Prison Commissioners shall reside at Huntsville, in Walker county, Texas, which is hereby designated as the headquarters of the prison system, and shall be permitted to occupy free of rent the residence houses belonging to the State at Huntsville.

Sec. 7. Each member of said Prison Commission shall devote his entire time to the discharge of the duties of said office, and shall not engage in any other occupation or business during his term of office, nor shall either of the members of said board be directly or indirectly connected with or interested in any contract, sale or purchase of any property or thing whatsoever which may be made during his term of office and in which either the State or the prison system are interested. And any violation of any of the provisions of this section of this act shall be sufficient ground for his removal from office.

Sec. 8. That said Prison Commission shall be vested with the exclusive management and control of the prison system of this State, and shall be held responsible for the proper care, treatment, feeding, clothing and management of the prisoners confined therein, and at all times for the faithful enforcement of the spirit, intent and purpose of the laws and rules governing said system; provided, that the Prison Commission shall be held responsible for maltreatment of prisoners, and, if permitted, it shall be grounds for removal from office.

Sec. 9. That the said Prison Commission shall have the power to and it shall be their duty to appoint all necessary officers, all physicians, chaplains, teachers and all clerical help needed in conducting said prison system, including a secretary of the Prison Commission, and they shall require all appointees, who, in discharging their duties, are charged with handling any funds of the system or State, to execute bond in such amount as may be fixed by the Prison Commission, payable to the Prison Commission for the use and benefit of the State, to

be conditioned for the faithful performance of their duties.

Sec. 10. A majority of said Prison Commission shall constitute a quorum for the transaction of business. The Commissioners shall select one of their number as chairman. They shall designate one member to have supervision over the finances and financial transactions of the prison system, one who shall supervise the feeding, clothing, care and treatment of the prisoners, and one who shall supervise the work of all the officers and employes of the prison system, and who shall also be known and designated as the Superintendent of Parole, and shall direct the enforcement of any parole law or indeterminate sentence law which may now or hereafter be in force in this State, unless otherwise directed by law. Provided, that the work of each member so designated shall be under the general supervision of and he shall report his actions to the Prison Commission. The provisions of this section are intended to facilitate the work of the Prison Commission and shall not be construed as relieving the full Board of the Prison Commissioners of any authority or general responsibility for the management of the prison system. The Prison Commission shall keep or cause to be kept in a well-bound book a minute of the proceedings of all meetings held by them.

Sec. 11. The Prison Commission shall have the authority at all times to discharge any officer or any employe of the prison system for failure to comply with the rules, regulations or laws governing the prison system, or for any dereliction in duty, or whenever they may deem it to be for the best interests of the service.

Sec. 12. The Prison Commission shall have the power to purchase or cause to be purchased with such funds as may be at their disposal, any lands, buildings, machinery, tools or supplies for the benefit of said prison system, and may establish such factories as in their judgment may be practicable and that will afford useful and proper employment to prisoners confined in the State prison, under such regulations, conditions and restrictions as may be deemed best for the welfare of the State and the prisoners, it being the purpose of this act to clothe said Board of Prison Commissioners with all power and authority necessary for the proper management of the prison system of this State.

Sec. 13. The Prison Commission shall have power, with the approval of the

Governor, to purchase such land as may, in their judgment, be necessary in the operation of said system, and the employment of prisoners confined in said prison, and in the purchase thereof they may pay such sum in cash as may be agreed upon with the vendor and for the unpaid purchase money to become due upon said land they shall execute to the vendor notes payable in such sum and at such time as may be agreed upon between the parties, and the payment of which shall be secured by a deed of trust upon such land in the usual form, and containing such covenants as may be agreed upon between the parties, and may pledge a sufficient amount of the net revenues of the property so purchased to pay the deferred installments of purchase money thereon, and it shall be expressly provided in the conveyance to said land, the notes executed for the unpaid purchase money and the deed of trust, that the vendor relies alone upon the lien created by the deed of trust upon said land and the net revenues so pledged, and that no personal liability against the Prison Commission or the State of Texas shall arise out of said transaction beyond said liens; and the purchase money paid originally, as well as the installments paid upon the deferred payments, may be paid out of any funds belonging to said prison system. The title to all lands purchased by the Prison Commission under the terms of this act shall be examined, passed upon and approved as good and sufficient by the Attorney General, and all conveyances, notes and trust deeds and other instruments executed under the provisions of this act shall be prepared, passed upon and approved by the Attorney General. The title to all lands so purchased shall vest in the Prison Commission, and their successors in office, as trustees for the State.

Sec. 14. The Prison Commission may buy annually so many acres of land as will, not later than January 1, 1914, or sooner, if practicable, enable all prisoners hired out or employed on share or contract farms, and who are not otherwise employed by the State, to be employed directly on farms belonging to the prison system.

Sec. 15. The Prison Commission is authorized, and it shall be its duty, to cause to be constructed upon land now belonging to the prison system, and upon such land as may be bought hereafter, all necessary modern fire-proof, well-ventilated prison buildings, providing a

separate cell or room for each prisoner, as far as conditions and the welfare of the prisoners demand, with proper bathing facilities and all necessary sanitary water closets and other sanitary arrangements within such buildings; also sanitary kitchens, dining rooms, hospitals, school rooms and chapels, and other necessary conveniences for the benefit of the prisoners. The provisions of this section shall be carried out to completion as rapidly as is practicable, so that the same shall be completed in the entire system within six years from the taking effect of this act.

Sec. 16. The Prison Commission shall have power to sell and dispose of all farm products and the products of all factories connected with the prison system, and all personal and movable property at such price and on such terms as may be deemed best by them, and they may, with the approval of the Governor, sell or lease any real estate or other fixed property and appurtenances belonging thereto upon such terms as to them seem best, and upon the sale thereof they shall have power to execute proper conveyances to the title thereto, which instruments of conveyance shall be prepared and approved by the Attorney General. The Prison Commission shall, in the purchase or sale of all real estate, or in the purchase or sale of any machinery or equipment for the prison system exceeding in value the sum of \$5000, advertise in the manner prescribed by the Prison Commission for bids for such property in at least three daily papers in this State having a general circulation, and shall give all such bids received to the public press at least thirty days before any such contract is let.

Sec. 17. On Monday of each week the Prison Commission shall remit to the State Treasurer all moneys received by them as such from whatever source during the preceding week and belonging to the system. The Treasurer shall hold such fund as bailee for the Prison Commission, which fund shall be known as the Prison Commission Account, and he shall give to the Prison Commission a deposit receipt for same, and shall pay out same on draft drawn by the officer designated by Section 22 of this act. The Prison Commission is authorized to draw upon the Prison Commission Account with the State Treasurer, such sum or sums of money and at such time or times, as in their judgment may be necessary for the transaction of the business of the system; provided, they

shall not draw for a sum that will give them in hand and in bank subject to disbursement a sum in excess of twenty-five thousand dollars; and, provided further, the account of the prison system with the State Treasurer shall in no event be overdrawn and in no event shall the State Treasurer ever permit an overdraft against the Prison Commission Account to be paid. On December 1st of each year the State Treasurer shall ascertain the interest earned by the fund belonging to the prison system from the State depositories, and place said sum to the credit of the Prison Commission Account and send deposit receipt to the Prison Commission.

Sec. 18. The Prison Commission may at any time issue such orders and prescribe such rules and regulations for the government of the prison system of this State, not inconsistent with the law, as it may deem proper, or to provide such details not embraced herein, and for such contingencies as may at any time arise concerning the management of the prison system, or its proper and effective operation, and such rules and regulations shall be made with a view of carrying out the general principles on which the penal laws are founded, and for which the prison system is established, and shall be binding on all underofficers, employees and all persons whomsoever in any way connected with the State prisons or its management, or its prisoners within and without the walls. The Prison Commission shall have all laws, rules and regulations of the prison system printed in pamphlet form for the information and guidance of all connected with the management of the prison system, and such parts of said rules as relate to the duties of subordinate officers and prisoners shall be printed in suitable form and posted in conspicuous places about the prison, or wherever prisoners may be confined, for the information of all concerned. All officers, employees and guards having supervision of prisoners shall be furnished with a copy of the law, rules and regulations governing the prison system, and shall give a receipt therefor, and the Prison Commission shall from time to time require examination of such officers, employees and guards as will ascertain their knowledge of such law, rules and regulations, and any such officer, employee or guard who shall fail to familiarize himself with the law, rules and regulations of the prison system shall be dismissed from the service.

Sec. 19. It shall be the duty of some member or members of the Prison Commission to spend at least one whole day each month, without notice, at each prison, camp or farm where prisoners are kept or worked, and to carefully inspect same with reference to the food, clothing and treatment of the prisoners, the general sanitary conditions existing at such prisons, camps or farms, reporting upon such conditions, the efforts at reformation, the general conduct of all officers and employees connected therewith, and punishment administered for the enforcement of prison discipline, making such reports to the full Board of Prison Commissioners; provided, that the various prisons, camps and farms where prisoners are kept, may be divided for the purpose of this inspection between two or more members of the Prison Commission, or such other person as may be designated by the Prison Commission.

Sec. 20. It shall be the duty of the Prison Commission to make suitable provision and regulation for the safe and speedy transportation of prisoners from counties where sentenced to the penitentiaries at Huntsville by the sheriffs of such respective counties, if such sheriffs are willing to perform such services as cheaply as said Commission can have it done otherwise. Said transportation shall be on State account, and in no instance shall the prisoners be carried direct from the county jails to the State farms, but shall first be carried to the penitentiary at Huntsville, where the character of labor which each prisoner may reasonably perform shall be determined. Upon the arrival of each prisoner at the penitentiary at Huntsville the Prison Commission shall cause a statement to be made by the prisoner, giving a brief history of his life, and showing where he has resided, the names and post-office addresses of his immediate relatives, and such other facts as will tend to show his past habits and character; and the Prison Commission shall, by correspondence or otherwise, verify or disprove such statements, if practicable, and shall preserve the record and information so obtained for future reference.

Sec. 21. The Prison Commission shall cause to be made annually on the 1st day of January, a full and complete inventory of all lands, buildings, machinery, tools, live stock, and all other property of every description belonging to the prison system, and shall cause to

be set opposite each item the book value, and also the actual value of the same, so as to afford an easy comparison with the previous annual statement. And the Prison Commission shall cause to be kept in the accounting department of the prison system a system of books, showing a separate account with each industry and farm and for the system as a whole, showing the losses, profits and net earnings of each industry and farm connected with the system, and shall make a report of the same annually on the 1st day of January to the Governor, which report shall be published by the Governor in a sufficient number of copies to give general publicity to such report; such report to include the rules and regulations in force for the management of said system and the methods of dealing with the convicts thereof.

Sec. 22. The member of the Prison Commission designated by the board to have supervision over the finances and financial transactions of the prison system shall keep, or cause to be kept, correct and accurate accounts of each and every financial transaction of the prison system, including all receipts and disbursements of every character. He shall receive and receipt for all money paid to the Prison Commission from every source whatsoever, and shall sign all vouchers or warrants authorizing the payment or disbursement of any sum or sums on account of the prison system, and no money shall be paid out on any account of the prison system except upon a warrant or voucher signed by him. He shall keep full and correct accounts with each industry, department and farm, and with all firms, persons or corporations having financial transactions with the prison system. He shall have power to require all necessary reports from any department, officer or employe at stated intervals. All deposits of prison funds with banks shall be kept in the name of the officer in his official capacity, and all funds of the prison system shall be kept separate from private funds. Such accountants and clerical assistance as may be necessary to carry out the provisions of this section shall be provided by the Prison Commission, in order that a full, complete and correct account may be kept of all financial transactions of the prison system. In the absence of such officer, one of the other Prison Commissioners may sign such receipts, warrants or vouchers.

Sec. 23. On the taking effect of this

act, and annually thereafter, there shall be appointed by the Comptroller of Public Accounts, the Attorney General and the State Treasurer a permanent auditor for the prison system, who shall hold his office for a term of one year, subject to discharge at any time as hereinafter provided. It shall be the duty of such auditor to audit all accounts, vouchers, pay rolls and all other business transactions of the prison system, and to check all property, material and supplies received and disposed of by or distributed within the prison system, and he shall make a full report thereof to the Governor on the 1st day of January of each year. Such auditor shall be subject to discharge at any time by the Comptroller of Public Accounts, Attorney General and State Treasurer, or by a majority of said officers, for any incompetency, neglect, failure or refusal to discharge the duties of his office, or for any wrongful conduct that in the judgment of the Comptroller of Public Accounts, Attorney General and State Treasurer renders him unfit for said office, and in the case of the discharge or resignation of any auditor, another shall be appointed by said officers or a majority of said officers. During the term of his services such accountant shall be paid monthly a salary of two hundred dollars per month and all actual and necessary traveling expenses, to be paid at the end of each month out of any moneys belonging to the prison system, such traveling expenses to be evidenced by an itemized sworn statement by the auditor, filed with the board.

Sec. 24. Each member of the Board of Prison Commissioners in the discharge of his duties is authorized to administer oaths, to summon and examine witnesses, and take such other steps as he deems necessary to ascertain the truth of any matter about which he may have the right to inquire.

Sec. 25. Except for third-class prisoners, within a reasonable time and not later than six months after the taking effect of this act, the Prison Commission shall abolish striped or checked clothes for prisoners, except as a mode of punishment for the violation of prison discipline, substituting therefor some suitable uniform.

Sec. 26. The Prison Commission shall, as soon as practicable, provide each prison, farm and camp where prisoners are kept or worked, schools for instruction of prisoners in elementary branches of the English language and industrial

education, and such other instruction as they may prescribe, and shall provide suitable recreation for the prisoners at reasonable hours, including music, and they shall employ such number of competent teachers to instruct the prisoners in the same as in the judgment of the Prison Commission may seem necessary, and the Prison Commission shall make reasonable rules and regulations whereby the prisoners may attend such schools. The Prison Commission shall prescribe and furnish to the prisoners suitable books and other reading matter, and to this end may establish and operate among the prisoners a circulating library, and may adopt such other means of distributing among the prisoners good and wholesome literature, as in the judgment of the Prison Commission will best enable the prisoners to avail themselves of the same; provided, that all teachers herein provided for shall, as far as practicable, be taken from the convicts, and such teachers may be excused from further labors. The chaplain shall be ex-officio librarian of the penitentiary, passing upon all library books, and direct such other work as may be prescribed for such library management.

Sec. 27. The Prison Commission shall provide for religious services at prisons, farms and camps where prisoners are kept or worked. They shall employ such chaplains as may be necessary to afford all prisoners an opportunity to attend at least two religious services each month, said chaplains to devote their entire time to religious and moral training and education of the prisoners under their care, teaching them the principles and practice of every Christian and moral duty; provided, that chaplains may also be teachers, as provided for in this act.

Sec. 28. If any member of the Board of Prison Commissioners shall be guilty of malfeasance or nonfeasance in office or shall become incapable or unfit to discharge his official duties, or shall wilfully fail, refuse or neglect to discharge the duties of his office, such member shall be subject to removal from office as provided by Article 3528, Revised Statutes of 1895.

Sec. 29. The Prison Commission shall, except as provided in this act, fix the salaries of all officers and employees of the prison system upon such basis as the labor and ability of the officer or employee entitles him to, such salary to be paid monthly at the end of each month. They shall pay to those em-

ployed as guards of the convicts a salary of not less than thirty-five dollars per month and furnish them board and lodging free; provided, that for meritorious service and adaptability to the work, the Prison Commission may increase the pay of any guard to an amount not to exceed forty dollars per month. No person shall be employed as a guard to guard convicts who is not at least 21 years of age, of good moral character, and who is not able to read and write, and has not a fair knowledge of the English language, and the Prison Commission may provide such other qualifications as they may deem expedient; provided, that no person shall be employed as a guard who is in any way addicted to the use of alcoholic or intoxicating liquors, and the Prison Commission shall require all officers and employees connected with the prison system to familiarize themselves with and conform to the rules and regulations and laws governing the prison system of this State; provided, the Prison Commission shall require all officers and employees connected with the prison system of this State to take and subscribe to the oath of office prescribed by the Constitution.

Sec. 30. The Prison Commission shall see that all State prisoners are fed good and wholesome food, properly prepared, under wholesome sanitary conditions and in sufficient quantity and reasonable variety, and they shall hold all underofficers performing this work strictly to account for any failure to carry out this provision. That the food may be properly prepared, the Prison Commission shall provide for the training of prisoners as cooks.

Sec. 31. The Prison Commission shall require at the end of each month reports showing fully the condition and treatment of the prisoners and the changes in the prison population during the month, including itemized statements of all different items of food, clothing and utensils used and on hand in each of the units of the prison system, and such other matters as they may require.

Sec. 32. The Prison Commission shall keep a register of all prisoners belonging to the prison system, showing the number of each prisoner, giving the aliases, name, age, height, color of hair, color of eyes, complexion, marks on person, sex, nativity, residence, county where convicted, offense of which convicted, date of sentence, date of receipt, previous occupation and habits, if known,

and may adopt such other means of identification as they may deem proper and necessary. They shall keep a record of the general conditions and conduct of each prisoner, noting all punishments, forfeitures, bad conduct, changes and incidents of importance that may occur during his confinement, and to the end that complete records may be kept, they may require from all underofficers such monthly and other reports as they may deem proper. They shall issue discharges to such prisoners as are entitled thereto by expiration of sentence or otherwise.

Sec. 33. That persons confined in the State prisons of this State may have every opportunity and encouragement for moral reform, it shall be the duty of the Prison Commission, in addition to the requirements of this act, to provide every reasonable and practicable means for the encouragement of such reform. To this end, the Prison Commission shall provide for the classification of all prisoners, separating them into the following classes: In the first class shall be included young men, first offenders, those appearing to be corrigible, or less vicious than others, and likely to observe the laws, and to maintain themselves by honest industry after their discharge. In the second class shall be included those appearing to be less corrigible, or more vicious, but content to work, and reasonably obedient to prison discipline as not to seriously interfere with the productiveness of their labor, or with the labor or conduct of those with whom they may be employed. In the third class shall be included those appearing to be incorrigible, or so insubordinate, or so vicious in their nature as to seriously interfere with the labor and moral development of those with whom they must come in contact. The Prison Commission shall make rules and regulations for the promotion and reduction of the prisoners from one class to another, and shall transfer them from one class to another from time to time, as they may seem to merit promotion or reduction. The prisoners in each of the classes hereinbefore named shall be kept in or upon different or separate prisons or farms. Any prisoner, upon entering the prison system, shall be assigned to one of its institutions according to his class, as hereinbefore provided, and shall be entered in said institution in a neutral grade, which shall be known as grade No. 2, and in which he shall be furnished with a suitable

uniform designated for that grade. The Prison Commission shall adopt rules for a higher grade, which shall be known as grade No. 1, as a reward for obedience to prison discipline and good conduct, and shall provide a suitable uniform for this grade; and they shall provide for a lower grade as a punishment for misconduct and violation of prison discipline, which grade shall be known as No. 3, and in which the prisoner shall be clothed in stripes. The uniforms for grades Nos. 1 and 2 shall not be stripes. The Prison Commission shall provide rules for promotion of prisoners from any grade to another for good conduct and obedience to prison discipline and for demotion of prisoners for misconduct and violation of prison discipline. The Prison Commission shall provide specifically for the extension or denial of privileges for the various grades herein provided. In order that prison discipline may be enforced, the Prison Commission may adopt such modes of punishment as may be necessary, such punishment being always humane, and placing prisoners in stocks shall be prohibited. Whipping, with not exceeding twenty lashes on the bare rump and thighs may be resorted to with prisoners of the third class, who can not be made to observe the rules by milder methods of punishment. The strap to be used must be of leather, not over two and one-half inches wide, and twenty-four inches long, attached to a wooden handle; no convict shall be whipped until same has been authorized by at least two members of the Prison Commission upon their written order, and such order so issued shall be executed only in the presence of a prison physician, and a sworn report shall be made by the officer executing such order to the Penitentiary Commission, who shall keep a record of all such report in a well-bound book, to be kept for that purpose, which shall be at all times open to public inspection; and such report so to be made by such officer executing the order of the Penitentiary Commission, shall state the name of the convict whipped, the number of strokes administered, the size of the strap used, the time and place thereof, in whose presence same was done, and the cause thereof. It shall further be the duty of the Penitentiary Commission to make a semi-annual report of the whipping of convicts to the district judge of the county where such whippings occurred, who shall report same to the grand jury, which is hereby

authorized to make investigation thereof, if they deem same advisable. The utmost care must be used by the officer executing the order of the Commission not to break the skin of the prisoner whipped, and any person guilty of whipping a prisoner more lashes or other than as provided herein, or striking a prisoner, except in self-defense, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than \$25 nor more than \$250, and imprisoned in the county jail not less than thirty days nor more than six months. White and negro prisoners shall not be worked together when it can be avoided, and shall be kept separate when not at work.

Sec. 34. All female prisoners shall be kept separate and apart from the male prisoners. Where practicable, the Prison Commission shall keep the female prisoners upon a separate farm or at a separate prison from the male prisoners, and shall provide reasonable rules and regulations for the government of the same.

Sec. 35. The Prison Commission shall provide such labor for said female prisoners as in their judgment they can reasonably perform, but the prison physician for such female prisoners shall at any time have the authority to say whether the physical condition of said female prisoners is such that they can perform any physical labor; provided, that in the absence of the physician the matron shall pass upon the physical condition of said female prisoners.

Sec. 36. The Prison Commission shall keep the white female prisoners separate and apart from the negro female prisoners, and shall select and place over said female prisoners a matron or matrons, whose duty it shall be to give her personal attention to the welfare of such female prisoners. The matron or matrons so employed to look after the welfare of the female prisoners shall reside at the place where female prisoners are kept.

Sec. 37. At the place where female prisoners are kept none but married men shall be employed as guards, and the houses for such guards and their families shall be provided by the State, in which the families of the guards shall live. And said guards shall be allowed \$10 per month in addition to his salary in lieu of his board, said houses not to be situated further than one hundred yards from the main prison building where such female prisoners are kept.

Sec. 38. If a female prisoner be received with an infant, or if any child be born in the penitentiary, the child shall be permitted to remain with its mother until three to six years of age, in the discretion of and as prescribed by the Prison Commission.

Sec. 39. Every prisoner who shall become entitled to a diminution of his term of sentence by good conduct shall receive compensation from the earnings of the State prison to the amount of 10 cents per day for the time said prisoner is confined in prison; provided, that whenever any prisoner shall forfeit any part of his good time for misconduct or violation of the rules or regulations of the prison, he shall forfeit out of the compensation allowed under this section 25 cents per day for each day of such good time so forfeited; provided, that when such prisoner has a family or relatives within the second degree by consanguinity or affinity, dependent upon him, such saving shall be paid semi-annually to such of them as may be designated by the prisoner, but if he have no such dependent relatives then said saving shall be paid to him upon his discharge from prison. And if he be a life-term prisoner such saving may be paid as directed by him, with the approval of the Prison Commission. But if he should die in prison without such dependent relations such saving shall revert to the State.

Sec. 40. No prisoner shall be worked on Sunday except in cases of extreme necessity, and all prisoners so required to work on Sunday shall be paid out of the funds of the prison system the sum of \$1 per day for each Sunday so worked.

Sec. 41. The various provisions of this act are designed to secure to the prisoners humane treatment, suitable moral instruction, to provide for their health, and to extend to them such comforts and privileges as may be consistent with their situation, and at the same time to require of them a due attention to their various duties and a strict observance of the discipline, rules and regulations of the prison.

Sec. 42. In order to encourage prison discipline, a distinction may be made in the treatment of prisoners so as to extend to all such as are orderly, industrious and obedient comforts and privileges according to their deserts. The rewards to be bestowed on prisoners for good conduct shall consist of such relaxation of strict prison rules and extension of social privileges as may not

be inconsistent with proper discipline. Commutation of time for good conduct shall be granted by the Prison Commission, and the following deductions shall be made from the term or terms of sentences when no charge of misconduct has been sustained against a prisoner, viz.: Two days per month off the first year of sentence; three days per month off the second year of sentence; four days per month off the third year of sentence; five days per month off the fourth year of sentence; six days per month off the fifth year of sentence; seven days per month off the sixth year of sentence; eight days per month off the seventh year of sentence; nine days per month off the eighth year of sentence; ten days per month off the ninth year of sentence; fifteen days per month off the tenth year, and all succeeding years of sentence. A prisoner under two or more cumulative sentences shall be allowed commutation as if they were all one sentence. For each sustained charge of misconduct in violation of any rule known to the prisoner in any year of the term, the commutation allowed for one month of such year may be forfeited, for any sustained charge of escape or attempt to escape, mutinous conduct or other serious misconduct, all the commutation which shall have accrued in favor of the prisoner up to that day shall be forfeited, unless in case of escape, the prisoner voluntarily returns without expense to the State, such forfeiture may be set aside by the Prison Commission. For extra meritorious conduct on the part of any prisoner, he shall be recommended to the favorable consideration of the Governor for increased commutation or pardon, and in the case of any prisoner who shall have escaped and been captured, part or all of his good time thereby forfeited may be restored by the Prison Commission, if in their judgment his subsequent conduct entitles him thereto.

Sec. 43. Hereafter, life or long-term prisoners who have actually served fifteen years and have no sustained charges of misconduct and have a good prison record, and who shall be favorably recommended to the Governor, may receive at the hands of the Governor a reasonable commutation of sentence, and if a life sentence is commuted to a term of years, then such convict shall have the benefit of the ordinary commutation, as if originally sentenced for a term of years, except the Governor shall otherwise direct.

Sec. 44. Suitable clothing of substantial material, uniform make and reasonable fit, and such footwear as will be substantial and comfortable shall be furnished the prisoners, and no prisoner shall be allowed to wear other clothing than that furnished by the prison authorities, except in case of extra meritorious conduct only the Prison Commission may allow the prisoner to wear citizen underwear. Sufficient food of wholesome quality and variety and wholesomely prepared shall be furnished to all, and such provisions shall be made for serving the food to prisoners as will tend to encourage and elevate them. It shall be the duty of every officer charged with the preparation and serving of food to the prisoners to post in the dining room each Monday morning for the coming week the bill of fare for that week, and the rules promulgated by the Prison Commission shall prescribe the quality, kind and variety of food to be furnished. Prisoners shall not be allowed spirituous, vinous or malt liquors, except upon the prescription of the physician.

Sec. 45. Prisoners shall be kept at work under such rules and regulations as may be adopted by the Prison Commission; provided, that no prisoner shall be required to work more than ten hours per day, except in case of an extreme and unavoidable emergency, which time shall include the time spent in going to and returning from their work, but not to include the intermission for dinner, which shall not be less than one hour. And in case of such extreme and unavoidable emergency said prisoner shall receive out of the funds of the prison system the sum of 10 cents per hour for such work so performed more than ten hours per day. In going to and returning from work prisoners shall not be required to travel faster than a walk. No greater amount of labor shall be required of any prisoner than his physical health and strength will reasonably permit, nor shall any prisoner be placed at such labor as the prison physician may pronounce him unable to perform. No prisoner upon his admission to the prison shall be assigned to any labor until first having been examined by the prison physician. Any officer or employe violating any provision of this section shall be dismissed from the service.

Sec. 46. Prisoners who have been reported by the physician or other officer in charge as in a condition of health which requires their removal to some other place shall be accordingly removed.

Sec. 47. Prisoners when received into the penitentiary shall be carefully searched. If money be found on the person of the prisoner, or received by him at any time, it shall be taken in charge by the Prison Commission and placed to the prisoner's credit, and expended for the prisoner's benefit on his written order, and under such restrictions as may be prescribed by law or the rules. Any officer or employe having charge of a prisoner's money who misappropriates the same, or any part thereof, shall be deemed guilty of a felony and upon conviction thereof shall be confined in the penitentiary for a term of not more than five years.

Sec. 48. If any prisoner shall die while in prison, the officer in charge of the prisoner at the time of his death shall immediately report the same to the Prison Commission, and, if he knows the address or place of residence of any relative within the third degree, either by consanguinity or affinity, shall also notify by wire said relative of the death of such prisoner, and if the relative of such prisoner claim the body or will take charge of same, then the body of such prisoner shall be turned over to such relative, and the expense of shipping the body to where it is to be buried, provided it is within this State, shall be paid by the Prison Commission out of any available penitentiary funds on hand upon the request of such relative. If the residence and address of the relative of such prisoner is unknown, such prisoner shall be decently buried in citizen's clothes, and the grave marked by a stone with the name of said prisoner, date of death, and age, if known, inscribed thereon. If the body of such prisoner is not claimed by the relatives, the Prison Commission shall at once notify the county judge of the county from which the prisoner was sentenced of his death, the date and cause of death and place of burial. The Prison Commission shall cause to be made and kept a record of the deaths of prisoners and certified copies of same made by the custodian thereof shall be admissible in evidence under the rules of law applying to official records. Any officer or employe of the prison system of whom any duties are required by this section, who shall fail to discharge such duties, shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding five hundred dollars.

Sec. 49. The Prison Commission, or other person in charge of prisoners, upon

the death of any prisoner under their care and control shall at once notify the nearest justice of the peace of the county in which said prisoner died of the death of said prisoner, and it shall be the duty of such justice of the peace, when so notified of the death of such prisoner, to go in person and make a personal examination of the body of such prisoner, and inquire into the cause of the death of such prisoner, and said justice of the peace shall reduce to writing the evidence taken during such inquest and shall furnish a copy of the same to the Prison Commission and a copy of the same to the district judge of the county in which said prisoner died, and the copy so furnished to said district judge shall be turned over by the district judge to the succeeding grand jury, and the said judge shall charge the grand jury if there should be any suspicion of wrongdoing shown by the inquest papers to thoroughly investigate the cause of such death. Any officer or employe of the prison system having charge of any prisoner at the time of the death of such prisoner, who shall fail to immediately notify a justice of the peace of the death of such prisoner, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not less than one hundred dollars nor more than five hundred dollars, and by confinement in the county jail not less than sixty days nor more than one year; provided, that the justice of the peace making such examination shall be paid a fee as is now provided by law for holding inquests, said fee to be on sworn account therefor, approved by the Prison Commission.

Sec. 50. The Prison Commission shall provide for competent medical attention for all prisoners, and shall establish rules whereby all physicians shall be required to keep a record of all cases of sickness, accident or injury which they treat. The physicians so employed shall be reputable practicing physicians of not less than two years of experience in practice. Each physician employed in the prison system shall at the end of each month file with the Prison Commission a report in writing, subscribed and sworn to by him, which report shall state the names, race and sex of each prisoner treated, or examined by him during said month, the malady or disease with which each was afflicted, and if any shall be suffering with wounds or injuries inflicted by accident or some individual he shall state the nature and

extent of said injuries, by whom and by what means inflicted, or how the same occurred, and all such other information concerning said matters, and the condition of each prisoner treated or examined by him during said months as he may possess; provided further, that for a failure to make such a report or any false statement knowingly made by any such physician in any such reports he shall be prosecuted for the offense of perjury or false swearing, as provided by law.

Sec. 51. The Prison Commission shall also provide a competent dentist or dentists whose duty it shall be to care for the teeth of the prisoners; such dentist or dentists shall at the direction of the Prison Commission visit the various places where prisoners are kept or worked at such intervals as may be prescribed.

Sec. 52. When a prisoner is entitled to a discharge from prison he shall be furnished with a written or printed discharge from the Prison Commission, with seal affixed, signed by the Chairman of the Board of Prison Commissioners, giving the prisoner's name, date of sentence, from what county sentenced, amount of commutation received, if any, the trade he has learned, if any, his proficiency in same, and such other description as may be practicable. He shall be furnished with a decent outfit of citizen's clothing of good quality and fit, two suits of underwear, five dollars in money in addition to any money held to his credit and unredeemable and non-transferable railroad transportation to the nearest depot from whence sentenced, but, if such prisoner prefers, he may receive such transportation to any point in this State designated by him.

Sec. 53. The Governor, and all other members of the executive and judicial departments of the State, and members of the Legislature, shall be admitted into the prisons, camps and other places where prisoners are kept or worked, at all proper hours, for the purpose of observing the conduct thereof, and may hold conversation with the convicts, apart from all prison officers. Other persons may visit the penitentiary under such rules and regulations as may be established.

Sec. 54. The Prison Commission, with the Governor's approval, may offer such reward for the apprehension of an escaped prisoner as may be fixed by the Prison Commission, and to be paid as directed by the Prison Commission.

Sec. 55. Any officer or employe of the prison system who shall fraudulently convert to his own use and benefit any food, clothing or other property belonging to or under control of the prison system shall be guilty of theft, and upon conviction be punished as prescribed by law.

Sec. 56. Any officer, agent or employe in any capacity connected with the prison system of this State who shall be financially interested, either directly or indirectly, in any contract for the furnishing of supplies or property to the prison system, of the purchase of supplies or property for the prison system, or who shall be financially interested in any contract to which said prison system is a party, or who shall knowingly and fraudulently sell or dispose of any property belonging to said prison system below its reasonable market value, or who shall be financially interested in any other transaction connected with the prison system, shall be guilty of a felony, and upon conviction thereof shall be punished by confinement in the State penitentiary for a term of not less than two years nor more than five years, and each transaction shall constitute a separate offense.

Sec. 57. Any sergeant, guard or other officer or employe of the prison system of this State who shall inflict any punishment upon a prisoner not authorized by the rules of the prison system shall be guilty of an assault, and upon conviction thereof shall be punished as prescribed by law, and it shall be the duty of the Prison Commission to make complaint before the proper officer of any county in which such assault was committed upon such prisoner; provided, that in all cases where any person is charged by complaint or indictment with an offense against a prisoner, prisoners and ex-prisoners shall be permitted to testify.

Sec. 58. No gambling shall be permitted at any prison, farm or camp where prisoners are kept or worked. Any officer or employe engaging in or knowingly permitting gambling at any such prison, farm or camp shall be immediately dismissed from the service.

Sec. 59. The Prison Commission shall provide a seal whereon shall be engraved in the center a star of five points and the words "Board of Prison Commissioners of Texas" around the margin, which seal shall be used to attest all official acts.

Sec. 60. The Prison Commission, by

and with the consent of the Governor, shall have the power to work convicts on public works, when they can not employ them on the State farms or within the walls by reason of some unforeseen calamity, such as failure of crops, or the destruction of crops by wind or flood. When convicts are worked on public works owned by the State or a subdivision of the State, the humane provisions of this act shall be strictly complied with.

Sec. 61. Chapters 1, 2, 3, 4, 5, 6, 7 and 8, Title 79, of the Revised Statutes of 1895, relating to penitentiaries and their management, and all laws and parts of laws in conflict herewith, are hereby repealed.

Sec. 62. In view of the fact that the terms of office of the Superintendent, the Assistant Superintendent and the Financial Agent of the penitentiary system do not expire until about January 20, 1911, and the further fact that the penitentiary system is a large business enterprise, and to make the changes in the management thereof provided in this act will require some time, and the further fact that the crops grown upon the State farms are now being harvested, and the harvesting thereof will not be completed before January next, it is deemed expedient that this act shall take effect January 20, 1911, and not before, and it is so enacted.

Sec. 63. If any provision, or provisions, of this act shall be held invalid, the remaining provisions shall not be affected thereby, but the same shall be given full force and effect.

RECESS.

Pending the reading of the above report, on motion of Senator Murray, the Senate recessed until 2 o'clock today.

AFTER RECESS.

The Senate was called to order by Lieutenant Governor Davidson.

FREE CONFERENCE COMMITTEE ON SENATE BILL NO. 10.

Action recurred on the Free Conference Committee on Senate bill No. 10.

Pending discussion on the above, Senator Senter asked to have the following letter read, and asked unanimous consent to be printed in the Journal.

Following is the letter:

Seattle, Wash., September 1, 1910.

Hon. E. G. Senter, Senate Chamber, Austin, Texas.

My Dear Senter: Your favor of August 24 has just reached me, being delayed by my absence at my summer home on Orcas island.

I have never undertaken to formulate my ideas in opposition to the indeterminate sentence laws of this and some other States, but my most solemn and emphatic conviction is that they are unsound in principle, unjust in operation, and wholly unwarranted by any existing defect in laws such as have obtained in Texas since she became a State.

No doubt there is room and necessity for reform in the methods of penitentiary management and discipline, for the brutality and sordidness of modern prison methods in most countries are too well known to require exposure; but that does not require nor justify a wholesale revolution in our whole system of penal laws, much less a radical and ruinous departure from the well-settled principles and rules of criminal jurisprudence. This fad for reform and reorganization in our plain and practical institutions of criminal legislation is simply one of the prevailing crazes that have taken hold of the public mind in late days in the United States, born of a hysterical philanthropy that would obliterate all fundamental ideas of crime and punishments. It is part of the theoretical philosophy of life that has found its chief exponents among weak-minded men, preachers and meddlesome women. Oliver Wendell Holmes a long time ago said that "The desire to better the conditions of their fellow-men and to reconstruct society upon a Utopian basis leads many men and most women along the border line of insanity," and never was the truth of this statement more thoroughly demonstrated than in the numerous plans for making nice boys out of vicious weaklings in the juvenile court, and coddling desperate criminals on a diet of moral mush and milk doled out by prison parsons and gospel cranks, aided by those social pests—the modern female evangelists, who are in a perpetual spiritual sweat to manage somebody else's affairs and the country in general. All of this agitation along the lines of prison reform and a revolution in our system of penal laws and procedure emanates from that school of pestiferous marplots,

which had its birth in New England and has reached its maturity in Kansas and Colorado. Texas should have none of it.

Every thoughtful lawyer at all familiar with the criminal laws and procedures of this country knows that the Texas Code of Penal Law and Procedure is more nearly perfect in its conception of human rights and public protection and more nearly effective and just in its practical operation than that of any American State. The Supreme Court of the United States so stated in a well-considered opinion many years ago, and I myself know that your system is so far superior to anything that exists in this section that a man would be a fool to change it for the recently adopted code of Washington.

Now, as to indeterminate sentences:

They are fundamentally wrong and incompatible with the idea of certainty and accuracy in the administration of criminal justice. The wisest provision in the Texas code is the one that declares that no offense shall be punishable that is not accurately and definitely defined, and the exact punishment affixed thereto. To adopt the indeterminate sentence would be to abolish this most salutary and effective safeguard of human rights and liberties, a safeguard that has met the approval of your own courts for more than half a century and has challenged the admiration of all other courts in the country.

Again, to inaugurate the indeterminate sentence system is to take away from criminals that equality before the law that even convicts are entitled to demand, and it will inevitably beget a sense of helplessness, injustice and sullen resentment in the bosoms of the majority of the convicts that will be worse than any imaginary incentive to good behavior can overcome. Under the system as it prevails here and elsewhere that it has been adopted, the shortening of the sentence depends upon the convict's prison record as reported to the Board of Pardons or some other tribunal of that kind. That makes his term of service dependent upon personal favoritism among the prison officials, and personal, professional or political "pull" by his lawyer with the pardoning power. If he happens to have no influential friends to help him out, and is of a disposition not to curry favor or ingratiate himself with the officials in the penitentiary, he will serve out his full time and feel that he has been the victim of gross injustice, than which I

know of no more deadening and exasperating emotion in the human heart. Read a story that ran in the "Saturday Evening Post" some two years ago, being a fairly correct account of the experiences of the celebrated outlaw Tracy in the Oregon penitentiary. It was called "Number 10001," or some such title, and it shows only too plainly the abuses that grow out of permitting or encouraging a system of rewards and favors inside the penitentiary after a man has been convicted and sentenced by a court of justice. The true and just theory and practice should be to arraign a man on a definite and well-defined charge for which the punishment has been accurately and certainly fixed in advance, and upon conviction he should be doomed to a definite and exact punishment, the infliction of which he should stand in like case and upon strict equality with every other convict of the same class, instead of being subject to the capricious favoritism or disfavor of prison officials or fellow-prisoners. If any concession or commutation is to come to him, let it come as a gift of mercy, gratuitously and voluntarily bestowed, and not as the result of political lobbying and personal influence among outsiders or insiders. In no other way can the convict receive equal and exact justice or the law be sanely and safely satisfied. That is my judgment, based on reason, experience and considerable study of the subject.

Another disastrous result of a wholesale and radical change in your criminal laws and procedures will be the complete confusion and uncertainty that will be produced in the whole criminal jurisprudence of the State. The Texas criminal decisions, extending over a period of nearly three-quarters of a century, are justly considered among the soundest and wisest in the whole literature of the law, both in this country and abroad. Our people and the lawyers and courts know them and respect them, and to brush them all away by a bill to revolutionize the criminal code of the State would be not merely folly; it would be nothing less than a crime in itself.

This State was foolish enough to adopt a new code of criminal law and procedure outright at the last Legislature, and we are now suffering the consequences in the disordered and bewildered condition of our courts and trials. Nobody knows how much of it is unconstitutional or what most of it means, and

it will take ten years to clear away the wreck that has been wrought by such ill-timed and unnecessary legislation. A State's system of laws, derived from its statutes and decisions, is a part of its civilization and social fabric. It has grown up with the State's necessities and intelligence; it is bone of the bone and blood of the blood of the commonwealth itself, and no newly imported and ready made system, however perfect and desirable theoretically, can take its place and serve its purpose.

I have dashed off the above views hurriedly, and for what they are worth you can take them or reject them. I am sure that they are sound and defensible from all points of view, and I do hope you can defeat this new move to destroy the ancient landmarks that our fathers set up in the old times before us. Those men were wise in their own generation, and they builded for posterity with a patriotic prevision and prophetic ken that it is wanton wickedness to ignore, in search of some new-light phantom of reform bred from the maw of modern socialism.

Yours very truly,
DUDLEY G. WOOTEN.

The resolution was read and adopted.

By Senator Peeler:

Be it resolved, That the thanks of this Senate be tendered to Mr. O. D. Parker, local agent of the Western Union Telegraph Company, for the daily weather reports furnished the Senate.

The resolution was read and adopted.

By Senator Terrell of Bowie (by unanimous consent):

The press of Texas having for years advocated reform in our penal institutions, and this agency together with efforts of certain public officials having brought about such a public demand for reform in these institutions as has resulted in the present reform measure now being passed in the Legislature of the State of Texas; therefore, be it

Resolved, first, That the thanks of this Senate be tendered to the press of the State; second, that the thanks of the Senate are especially tendered to those special correspondents of the great daily papers of the State who have made such an exhaustive study of the penal system and gave it to the public through their respective papers as to have resulted in the great reform measures that are now being passed through our bodies.

The resolution was read and adopted.

SIMPLE RESOLUTION.

(By Unanimous Consent.)

By Senators Meachum, Alexander, Terrell of McLennan and Holsey:

Whereas, The Senate of Texas has received a telegram from our esteemed fellow Senator, John G. Willacy, as follows:

Corpus Christi, Texas, Sept. 5, 1910.

Senator McDonald Meachum, Senate Chamber, Austin, Texas.

My Dear Senator: Let me thank you for your letter of 3d instant, and especially for the generous expression of sympathy and friendship from yourself and our colleagues. Am pleased to say I am improving nicely, but regret my absence during the closing hours of the Senate. The esteem of its members has been my best physician, as their confidence is my most valued treasure. No life is wasted if in the end it can command the esteem of those who know us best, nor is there any higher encomium than an acknowledgment that public services have been useful. I shall not say "Good-bye." Let it be "Good night," or "Good day," in the hope that our footsteps may be guided toward each other frequently and our lives more and more interwoven with each advancing year.

Do not fail to remember me to our fearless, upright Lieutenant Governor.

Wishing each member and assistant God's richest blessing in prosperity and happiness, I am,

Sincerely and thankfully,
JOHN G. WILLACY.

And, whereas, Information that Senator Willacy is improving has been received, to the sincere gratification of the members of this body, and indications are that through the beneficence of a kindly Providence this able, useful and honorable public servant will be spared for further service; and

Whereas, By his upright conduct, his patriotic devotion to the public service, his genial disposition and manly deportment Senator Willacy has endeared himself to his colleagues of this body, who deeply sympathize with him in his illness, and wish for his speedy and permanent recovery to health; therefore, be it

Resolved, That in the closing hours of this Fourth Called Session of the Thirty-first Legislature we convey to Senator Willacy this message of our love

and esteem and our assurance that though he is unable to be with us in person, being stricken by illness, the memory of his genial spirit is ever present with us and he is not and shall not be forgotten. May He who guides and directs the destiny of all nations and people's spare our beloved friend for yet greater service and reward.

Resolved, further, That this resolution be printed in the Journal and that a copy hereof be forwarded by the Secretary of the Senate to Senator Willacy at his home in Corpus Christi, Texas.

Senator Weinert moved to reconsider the vote by which the report was adopted, and lay that motion on the table.

The motion to table prevailed.

REASONS FOR VOTING.

Believing that an all-wise Creator will in time inspire in the hearts of the Legislators such a repulsive sentiment against corporal punishment in the prison system, and further believing that the proposed law, with the exception of the clause permitting the use of the "strap or bat" to be a great improvement over the laws on our statute books today, and that the public conscience is just beginning to awaken to the horrible condition prevailing in our prison system, to the end that still better legislation than this will be enacted, I vote "aye" on the Free Conference report to Senate bill No. 10, the penitentiary bill. We are living in a civilized age, barbarities such as the "Bull Durham," the drunken guard, with his trained dogs and bull whips, like all other relics of barbarism, must go. I believe that under this law such a high order of men will be selected to manage our prison system that, although against my wishes the "bat" was retained, still its use is hedged about with so many "safeguards" that the many brutalities of the past will be greatly diminished. The proponents of the bat cry against the opponents of the bat "sickly sentiment." Well, I may err, and have many times in my legislative career, but God being my witness, I sincerely trust that when I do err, it will always be on the side of humanity.

HUDSPETH.

The penitentiary bill in its present completed form as it comes from the Conference Committee eliminates the features of the Senate bill, which we considered objectionable, in that the half million dollar appropriation is cut out, the proposal to allow convicts to testify in all cases, civil and criminal, is eliminated and substituted by a proper provision to allow such evidence only when the charge involves mistreatment of a convict, and a just parole proposition has been placed in the bill in lieu of the Senate provision; therefore, we vote for the measure in the interest of prison reform, which we favor. Among the many wise reforms in the bill are Section 58, proscribing all forms of gambling in the penitentiary on the part of convicts, guards and all others, and Section 20, forbidding the appointment of any guard who is in any way addicted to the use of intoxicating liquors. The leaders of this great reform have at last, for once, voted to suspend the

"personal liberty" of the individual and to establish at least a few absolutely dry spots in Texas.

JOINT SESSION.

In accordance with former action today, the Senate, at 3:50 o'clock p. m., repaired to the Hall of the House of Representatives, there to attend the address of Governor Campbell, the Senate having agreed, by motion, to recess until 8 o'clock tonight, when it returned from the House.

RECEPTION TO GOVERNOR T. M. CAMPBELL.

At 3:50 o'clock p. m. the Honorable Senate of Texas was announced at the bar of the House, and, accompanied by Sergeant-at-Arms Hornbuckle, Secretary Clyde D. Smith and Journal Clerk R. M. Gilmore, the Senators advanced into the Hall and occupied seats already prepared for them.

Hon. A. B. Davidson, President of the Senate, was invited to a seat on the rostrum by the Speaker.

At 3:55 o'clock p. m. Governor Campbell, under the escort of Messrs. Elliott, Spradley and Bartlett, the committee heretofore appointed, appeared at the bar of the House, and approached the Speaker's stand.

Governor Campbell was then presented to the Joint Session of the Legislature and the assemblage by Speaker Marshall, who said:

Senators, Gentlemen of the House, Ladies and Gentlemen:

In this, the closing hours of the Thirty-first Legislature, it is fitting, and we are delighted to "pay him honor to whom honor is due." His courage, his wisdom, his executive ability and the strength of his character will leave its impress, and his name will be forever and indelibly written in the pages of the history of our great State.

I present to you the friend of the people—our Governor. (Long applause.)

Governor Campbell then spoke as follows:

Mr. Speaker, Mr. President, Gentlemen of the Legislature, Ladies and Gentlemen:

I thank you very much for the cordial reception you give me. It is probably

not fitting, nor do I suppose that I am expected to speak at any great length. And yet, it would not be courteous to you nor in keeping with my own inclination were I not to make some response to your generous invitation. Your resolution inviting me to address you at this time does me a great honor, and I am grateful for the complimentary introduction accorded me by my more than partial friend, Hon. John Marshall.

The record of this House made in the Third and Fourth Called Sessions is creditable, and I congratulate you and the people of Texas upon the work done. (Applause.) Indeed, this great representative body has so borne itself at all times as to merit the commendation of honest men everywhere. (Renewed applause.) It is an honor to any man to address the membership of this House upon its invitation. It has upheld my hands at every turn, and I thank those who have co-operated with me. I wish also to thank both houses of this Legislature for the co-operation in those things tending to promote the welfare of the people and the honor of our State.

A brief review of legislation and of the policies enforced during the present administration is probably expected, and is deemed appropriate on this occasion. Four years ago I received from the Democracy of this State the nomination for Governor. With the nomination went a platform of principles and policies which not only met my approval, but which represented the heart and conscience of the great toiling and producing masses of our people. I had made my campaign on living issues of vital moment. Questions of commanding importance were discussed before the people throughout that campaign. My candidacy had nothing either secretive or furtive about it. I was ambitious to attain the Governorship, not for the honor alone, but also for the good that I hoped to achieve. I was elected at the general election in November, 1906, and with me was elected a Legislature that will, for its useful service and its fidelity to the people, ever be memorable in the history of this great commonwealth. (Applause.) Sustained by that great representative body and backed by the loyal Democrats of the State, practically every pledge made by the Democratic party to the people was redeemed. We gave a practical demonstration of the fact that the people can rule when they will, and of the untruth of the

statement that platforms were only made to get into office on. In a second campaign upon the record already made and upon issues involving other needed legislation, I was again nominated, and was re-elected in November, 1908, upon a platform made and endorsed by the people, and every pledge contained in that platform that could be redeemed by legislative enactment and administrative policies was redeemed in letter and spirit. (Applause.) In carrying the people's will into laws, obstacles were encountered at every step. The subsidized newspapers and that miserable brood of hired politicians then infesting this capital opposed the enactment of all good laws, and afterwards sought, and still seek, by malignant misrepresentation, to mislead the masses of the people in whose interest they were passed. The platform demand for the submission of a constitutional amendment providing for Statewide prohibition to a vote of the people was defeated in the Regular Session. Having been defeated in Regular Session, it was lost, as a Called Session of the Legislature can not submit constitutional amendments. I have never agreed that it was proper for the Legislature to refuse to submit this question as the platform of the State Democracy demanded, but I have never found it in my heart to condemn those legislators who had agreed to abide by the result of the election in their respective districts and who had become candidates, pledging themselves to obey the instructions of their districts. I believe, however, that they made a mistake. I believe that on general questions involving State policies that the action of the State Democracy and the demands of the State platform should control the Governor and the Legislature. In matters purely local the county or district can with propriety direct its representatives, but in matters pertaining to the State as a unit and in State primary elections and conventions in which the county and district participate, they all become bound by the general policy enunciated by the State platform, and, as Democrats and patriots bind themselves, they should remain bound for the good of the State and of all the people. (Applause.) Much has been said and much has been written tending to reflect upon the integrity of members of this Legislature. Charges have been made that money and other undue influences were employed to defeat the submission of the

prohibition amendment and to otherwise corrupt the Legislature. In my heart I do not believe that a single dollar has ever been used to corrupt the membership of this Legislature. (Applause.) I do believe, however, that if money was sent to the agents of special interests here in Austin to corrupt the legislators and to influence legislation that the scoundrels who received it put it in their own pockets, and at the same time induced the contributors to believe that they were using the money to corrupt the people's representatives. (Applause.) I believe, further, that if there ever was a law needed, it was the measure introduced under a subject given to the Third Called Session of this Legislature prohibiting saloons and breweries from contributing to political campaign funds. (Applause.) It is needed not only for the protection of the ballot in its purity, but also for the protection of the breweries and saloons from the exactions of this brood of hired grafters and politicians who are using the liquor question as a pretext for robbing and plundering them. (Laughter and applause.) The breweries and saloons are licensed by law, and as long as their business is legalized, there is, on the part of the State, an implied promise of protection under the law, and I, for one, favor such protection by adequate laws. And again, I believe that the bill introduced in the Third Called Session prohibiting the sale of liquor within ten miles of our great State University should have been passed. (Prolonged cheering and applause.) The bright young manhood of Texas, the flower of this State, who come to the University for their education and who will some day be charged with the duty and responsibility of guiding Texas in her growth and to her higher and brighter destiny and who will participate in guiding the old ship of state, should be protected from the nefarious influences of the saloon. This is a proposition that has found a response in the great heart of the people of Texas. It will not down, and you and I will live to see the day when there will not be a saloon nor a dive within ten miles of our State University. (Applause.) I also proposed a law under which saloons would be closed at nightfall and remain closed during the darkness of night. That bill was defeated. Most of the crime attributable to the saloon and its evil influences occurs under the shadows of night. These are not prohibition meas-

ures. They are regulatory. The opponents of such restrictions always claim that while they oppose prohibition they favor regulation, but it is a noticeable fact that they only favor regulations and regulatory measures when they can't help themselves. (Much applause.) You enacted some good laws strengthening local option during the Third Called Session, which I am sure the people will appreciate. You may depend upon it that the patriotic men of Texas will attend to this other business later on. (Applause.)

We have had four called sessions of this Legislature, and all for the good of Texas. Those who complain at called sessions of the Legislature should look at the results and should consult the laws of the two called sessions of the Thirtieth Legislature and of the four called sessions of this Legislature. I do not regret any extra session of my administration, because we have gotten something good for the people of our State out of each call that I have made. In these battles for the masses of the people, I have tried to be patient, and, gentlemen of the Legislature, no one knows better than you, that I have been patient. (Laughter and applause.) The ends sought justified patience, and the victories won for the people are ample rewards for me and for those co-operating in the good work. (Applause.)

Let any man call the roll of the splendid legislative achievements entered to the credit of the Democratic party during my administration, and who is not proud to belong to a party with such a record? We drove the professional lobbyist from our legislative halls; yes, at least, from our legislative halls. We prohibited insolvent corporations from doing business in Texas. We prohibited by an effective law the free pass evil, destroyed its power for harm and paved the way in some future time for reduced passenger and freight rates. These three propositions embodied the remaining reforms, the unfinished work of the immortal, the sainted Governor Hogg. (Applause.) We drove the bucket shop gambler from the borders of our State. (Applause.) An evil that was breaking more lives, blighting more homes and destroying more fortunes than all the gambling devices in Christendom. We put a stop to the practice of nepotism, a practice that was impairing the efficiency of the public service everywhere. We put the gambler out of business and put out, let it be

hoped forever, the lights in his palace of hell. (Applause.) Race track gambling is now prohibited. Bootlegging was made a felony. A law making the occupation of selling liquor in local option territory a felony put the blind tigers out of business. (Applause.) We established with proper safeguards and checks a new system of accounting in the departments of the State Treasury, Comptroller and General Land Office in lieu of the crude and inadequate system heretofore obtaining, and we now have an up-to-date accounting system. The reorganization of these departments under the new laws will not only add to their efficiency, but will result in an annual saving of thousands of dollars to the taxpayers of Texas. We established a fair system of uniform and just rendition of property for taxation, by which an unjust burden was lifted from the shoulders of the honest man with moderate means and the tax dodgers and corporations made to pay some fair share of taxation. To lighten the burdens unjustly borne by the masses of the people, it became necessary to explore new fields for revenue and to tax by other than ad valorem methods those interests and those corporations that were receiving the protection of the government and not contributing their just share of the expenses. The corporation tax laws enacted include the gross receipts tax law, intangible tax law, franchise tax law, charter fees, permit fee law, and then the increased occupation tax on the liquor business, while the occupation tax on all useful occupations was abolished. The property taxpayer and home-owners, who had theretofore paid more than their share of the taxes, are the beneficiaries. To illustrate, the man with a home worth \$2500 paid \$5 State ad valorem taxes in 1906, and this year he will pay only \$1 for the support of the State government on the same \$2500 home. (Applause.) The tax on the home for State purposes is almost wiped out and on the small home it should be, so that the people will be encouraged to acquire homes. Rivet the man to a home and he will love his country more. I have never said that the small home should be exempted from taxation for school, county and local purposes, but that an exemption of the home to the extent of \$2000 or \$2500 for State purposes is practicable, and to the end that the lightest possible burden should be laid upon the home this should be done.

The State ad valorem taxes collected

in 1906 were \$2,450,000. And so well has the new system worked that we have to collect only about \$940,000 State ad valorem taxes this year. The great reduction in taxation against the property of the masses of the people here shown has been made notwithstanding the fact that the appropriations to be provided for the current fiscal year for the support of the State government exceeded those of 1906, the year before the new system was enacted, by about \$500,000, counting the deficiencies that were paid for that period. The values have increased, of course, but the tax rate was reduced under the operation of the new automatic tax law from 20 cents in 1906 to 12½ cents in 1907, to 6½ cents in 1908, to 5 cents in 1909, and further reduced to 4 cents on the \$100 in 1910. (Applause.) The State school rate reduced to 16½ cents and the average county rate reduced from 56 cents to 43 cents. A record without parallel, as I believe, in the American Union. (Applause.) Confronted as we were on the date of my induction into the office of Governor with an estimated deficiency of \$300,000, taxes have been reduced, less money has been taken from the people in proportion to property owned for the support of their State government than ever before, and we have \$1,311,788.29 in the State Treasury to the credit of general revenue today. An unparalleled impetus has been given to all public improvements and the financial condition of the counties of Texas are in a healthier state than ever before.

The appropriations to meet the State's requirements which must be provided for the present fiscal year amounts to approximately \$3,700,000, only \$940,000 of which must be collected on the tax rolls of the State, and under the new intangible tax law more than \$175,000,000 of intangible values of railroads go upon the tax rolls this year, by virtue of the new intangible tax law, to assist the people in paying that comparatively small sum. The balance of \$2,760,000 comes from other sources not heretofore yielding their just share of the expense of the State government, and largely as a result of the new laws. These intangible values of railroads now yield about \$900,000 in county taxes and thus aid in reducing the rate, and consequently the tax burden upon the people in the counties, and they swell the State's available school fund about \$300,000 an-

nually, and the general revenue more than \$80,000.

My critics are continually promising a deficiency and a depleted State Treasury, notwithstanding the healthy condition of our State Treasury, as now shown. The deficiency refuses to materialize and they are, of course, disconcerted and disappointed. Under the new automatic tax law a deficiency need not occur, as a method is prescribed by which the tax rate is fixed to meet the necessities of the government after the taxable values of each year have been ascertained. They deride and question the wisdom of the present low tax rate. I have always believed that it was a crime to take one single dollar from the people in the way of taxes that is not needed in an honest and economical administration of our government. (Applause.) Under the new automatic tax law the low rate of 4 cents this year will yield revenue sufficient to meet the State's necessities, and that rate was accordingly fixed. In view of the State's prosperity and of the splendid condition of all of our State institutions, I can imagine no excuse for increasing appropriations in the near future. (Applause.) Appropriate economy in the administration of our State government and the rigid enforcement of our corporation tax laws will obviate the necessity for increasing the tax rate and the tax burdens on the people. Extravagance in government and failure to enforce the law has never been and will never be accepted as a justification for unduly burdening the people with taxes. (Applause.)

We have been able, too, within this time, by means of these and other wise tax measures, for the first time in our history, to insure an average school term of more than six months throughout the State. (Applause.) This year the State apportions \$1,998,180 more money than was ever furnished by the State to free schools during any year prior to this administration. An average increase of more than \$12 per month is being paid the teachers in the public schools, and a higher order of efficiency thereby secured. Over \$5,000,000 have been expended in building new schoolhouses in the last three years.

An Agricultural Department, along the lines advocated by me in the campaign of 1906, was established, and in its general usefulness and commanding importance that department is not sur-

passed by any department in the State government. (Applause.)

During my time, labor has indeed come into her own. A Labor Bureau, destined under wise management to be of incalculable benefit to all the people of Texas, has been established. About twenty-eight laws, all fair and just, have been enacted at the request of organized labor, and that law recently enacted and now known as the I. & G. N. claim bill, and which in reality was an amendment to the stock and bond law, is of general interest to all the people and is probably of more importance to labor than any measure heretofore enacted. This measure alone is worth to Texas the expense of forty called sessions of the Legislature. (Applause.) An effective mine inspection law has been passed, also a law against blacklisting. The laws strengthening our anti-trust laws, and providing for their enforcement, have already borne good fruit.

Laws better regulating the liquor traffic and other laws making more effective and making more certain the enforcement of the local option laws. Our life insurance laws have been overhauled and that admirable achievement in useful legislation, the Robertson insurance law, holds millions of dollars in Texas annually to enrich our own people, that was formerly taken from Texas and Texas people under a system of laws and of business wholly indefensible. We have, in obedience to the platform and against much opposition, placed on the statute books of Texas a law guaranteeing deposits in State banks, and I hazard nothing in saying that Texas now has the best bank guaranty law ever devised or enacted. All this and more has during my administration been accomplished.

Recognizing the inequalities and unjust discriminations in the matter of fire insurance rates applied on property insured by the companies doing business in Texas, this Legislature at a former called session enacted a law having for its object the regulation of fire insurance premium rates and to adjust such premium rates upon a more equitable basis. The small insurer and small property owner and the small town were paying a higher rate of fire insurance premium than the large insurer and a higher average rate than those in some of the favored cities or localities. The law as enacted was based upon sound business principles, but was defectively constructed, and further legislation was

demanding for the protection of the insuring public against the unusual exactions of the insurance companies. This Legislature has undertaken, and I believe has succeeded, in enacting a workable law, and, under its terms, I feel safe in assuring you and the general public that at least 90 per cent of the people who carry fire insurance will have reduced rates, and that the other 10 per cent of the people will be protected against unjust rates and against unjust discriminations. The law is not just as I would have framed it, but if experience should show that it is not sufficiently effective to meet the objects sought, such amendments can be made by future legislation as may be necessary and such defects as experience may disclose can be cured. The principle of regulating fire insurance rates by law is, in my judgment, sound and should be maintained as a fixed policy of the State.

At the beginning of this administration there were more than four hundred insane patients confined in the county jails for want of accommodations at the State asylums for the insane. Room was provided and the jails were cleared in 1908 of all the unfortunate insane, for the first time in many years, and today there are accommodations for about one hundred and fifty additional white patients. (Applause.) If there is an insane white man or white woman in a jail in Texas, it is the fault of the local authorities. There are less than seventy-five negro insane in the county jails at this time, and they have been provided for at the present Called Session of the Legislature.

The Confederate Soldiers' Home at Austin is today more perfect in all its appointments than ever before. There are about three hundred and eighty soldiers residing at the Home; about sixty more than under any former administration, and there is room for every applicant now. There is for the first time in many years not one on the waiting list. Every applicant has been admitted and at this beautiful rest for the Confederate soldier everybody seems contented and happy. It is, indeed, a happy home. (Applause.)

The State's educational institutions, including our State University, the A. and M. College, the three State Normals, the Prairie View Normal for Colored Youths, the Deaf and Dumb Institute, the Blind Institute, and the Deaf, Dumb and Blind Institute for

Colored Youths, and the Girls' Industrial School at Denton, have each been provided with additional buildings, and more general improvements and equipment than in any like period in their history, and by an act of this Legislature another Normal School has been established at Canyon City, provided with buildings and equipment unsurpassed by any educational institution of its kind in the United States. The eleemosynary institutions, including the Orphan Home, have had every requirement met and every obligation of the State in this regard discharged, and each and all of them, as I believe, have been and are being efficiently managed.

During my first campaign I discussed the necessity for reform in our penitentiary system. In referring to the expressions of dissatisfaction with our prison system covering a period of many years, I pledged myself to needed reforms in that regard. Upon my induction into office of Governor, I made known to the penitentiary management the lines along which reforms should be inaugurated, and good results have been secured. Prior to the assembling of the Thirty-first Legislature, there was a renewal of the agitation for further reforms and, in sympathy as I was with any suggestion for the correction for all time of any abuses in the system and in the betterment of conditions, I recommended that the Legislature provide for a thorough investigation of prison affairs. That this investigation might be more effective, I participated in drafting the bill, suggesting amendments giving to the committee to be appointed more power and to the law a broader sweep, so that the work when completed would be of value to the Legislature in dealing with such permanent reforms as should be enacted into law. I see before me the author of the bill, and I call upon him to verify that statement. (Senator Meachum answered that the statement was correct.) The law was enacted and the committee appointed thereunder performed its duty in a most creditable manner. In submitting this subject to this Called Session, I transmitted the reports of the committee and all the evidence taken. I am pleased to state that the Investigating Committee recognized the reforms put into effect during this administration. The investigation covered a period of many years, during which time intolerable abuses were disclosed, but every member of the committee assured me personally that

from their personal inspection and from all the evidence taken they found that the present administration had made greater progress in intelligent reform than ever before, and that in the methods of employment and in the matter of treatment and care of convicts, in their clothing, feeding, housing and general management and humane discipline, greater improvement had been made along humanitarian lines than in any fifteen years before. (Noting the presence of the members of the Penitentiary Investigating Committee, the Governor asked them if his statement was correct, whereupon Senators Hudspeth and Weinert and other members of the Investigating Committee answered that it was.) The death rate is a fair index to the manner of life and living as well as to the care and treatment of the inmates of prisons. In the year 1908 there were 52 deaths from all causes out of a prison population averaging nearly 3600. In 1909 there were 50 deaths, and up to this time this year there have been only 18 deaths from all causes. A lower death rate according to population than can be shown by any town or city in the country according to the assurance given to me by the State Health Department. (Applause.)

Notwithstanding the tremendous expense incident to the improvement of the prison buildings and the facilities for the better care of convicts, the report of the Investigating Committee, transmitted to you, show a greater net profit from operation during the first three years of this administration, which was covered by their investigation, than could be shown during the entire history of the State penitentiaries. The members of the committee are before me now, and if the statement is not correct, I ask them to correct me.

The outlook for the present year is hopeful, and there is every reason to expect a good showing financially and otherwise.

I have not had an opportunity to see the bill you have passed, and only know in a general way its contents. I hope we have a good law. These reforms must go on, and whether you have a good law or not, these reforms and improvements and the humane treatment of convicts will be continued while I occupy the Governor's office. (Applause.) And right here I will say that it is my deliberate opinion that the State Railroad should not be sold. It should be

extended and operated in the interest of the people.

And let it always be remembered that during all this time, notwithstanding the widespread panic in the fall of 1907, and the unprecedented drouth in some sections of the State, there has never been a loss of a single dollar to a depositor in a State bank of this State, and there has never been for one moment any failure to meet every obligation of the State.

I have protected the State's honor and the State's credit, which I have regarded almost as sacred as my own. To do this it became necessary to secure the submission of two constitutional amendments, validating certain of her school district bonds and obligations running into millions. And let it be remembered, further, that during all this time, notwithstanding the opposition and misrepresentations encountered, some of which came from certain of our well-meaning but misled people, we have grown and prospered as never before in any like period, and without a parallel in any land or country. (Applause.) Immigration has poured into our State in an unbroken stream. Our State has grown in wealth, and new capital has taken residence among us, and every dollar of it has been provided with ample safeguards and protection. And let it never be forgotten, a fact which too many of our people seem to forget, that during these years that more capital has been invested in railways and more miles of railroad have been built than during any four years in the last twenty-five years, and there is at this time under construction and being projected for the current year a still greater railroad mileage. There has been during the last three years a growth and development in commercial, agricultural and manufacturing enterprises without parallel in any like period in our State's history. (Applause.)

On May 2, 1907, and just before any of the new laws took effect, we had 233 State banks, with a total capital and surplus of about \$8,000,000, and individual deposits amounting to \$16,317,395.97. On June 31 of this year we had 531 State banks, with a total capital and surplus of over \$16,000,000, and carrying deposits amounting to more than \$52,000,000, and there are more than 600 State banks in Texas today and every dollar on deposit with them is secured by a good law. (Applause.)

Our taxable values have increased

from \$1,225,000,000 in 1906 to over \$2.-360,000,000 in 1910. It is worth something to have been Governor of Texas during such an era and to have had some part in accomplishing so much for the good of our people and the glory of our State. I have been assailed and misrepresented probably more than any man who ever held a public office in Texas. The subsidized newspaper, the grafter, the lobbyist, the political hirelings, the agents of special interests, have all delighted to libel me, and I have delighted in their opposition. (Applause.) However, since I came into the office of Governor, no one has been Governor except T. M. Campbell. (Great applause.) The interests nor their "fixers" have been Governor, and will not be while I occupy that exalted station. I have not performed one single official act that I would not perform again, and during my time I have not recommended the enactment of a law that I would not recommend again. (Applause.) But my work will soon be finished, and my term is soon to close. My day's work will soon have been done, and my public service may be at an end. (Voices, "no, no.") Now, whatever may betide you and me, I beg you to know and believe that though we may at times have differed, in every hour of every day since I have been Governor and in every official act during that time, I have had in mind and on my heart only the good of the people who have twice, by generous majorities, made me their Chief Executive. To be Governor of this great State is indeed a great honor. Great as is the honor, the responsibilities are yet greater. Knowing something of these burdens, I bespeak not only for myself, but for him who is to succeed me, in all that makes for good, the cordial approval and patriotic support of the liberty-loving people of Texas. (Applause.)

Gentlemen of the Thirty-first Legislature, in bidding you adieu, I wish to assure you of my esteem for you and to thank those of you who have aided me in our battles for the people for your generous co-operation. I thank you. (Cheers and applause.)

SENATE RETIRES.

At the conclusion of Governor Campbell's address, Lieutenant Governor Davidson stated that the Senate would retire to its Chamber, whereupon the Honorable Senate retired from the Hall.

REASON FOR VOTE ON PENITENTIARY BILL.

I am opposed to the use of the strap, and think the bill does not provide fully

enough for convicts testifying on trials of parties who are charged with offenses against prisoners, and have other objections to the bill, but as it provides for great reforms in our penal institutions, and is the best I can get, I vote for the bill.

TERRELL of Bowie.

APPENDIX.

LETTER FROM SUPERINTENDENT HERRING.

The following is printed here by order of the Senate:

Huntsville, Texas, September 4, 1910.

Hon. McDonald Meachum, Austin, Texas.

My Dear Senator: I see from the

papers that there is some probability of the penitentiary bill passing both houses. I wish to say that, in my opinion, should the Senate bill become a law in which the use of the strap is strictly prohibited, a very grave mistake will have been made, and one that will be very demoralizing to the entire prison system, as well as to the convicts themselves. A majority of the convicts who have a clear record in prison today would vote to retain the strap, inasmuch as they know their safety depends upon discipline being maintained among the bad and unruly class of convicts, especially among the more hardened negroes and Mexicans. Whenever this latter class of convicts know that they will not under any circumstances be punished with the strap, mutinies and various other kinds of disturbances will be of common occurrence; therefore, I hope that you will think seriously about this matter. However, as far as I am concerned, it does not seriously affect me, as I have but little more than four months yet to serve; but I want to be fair to the incoming administration, and do not want to see any measure passed that will cripple or hamper them in any way; and I know that if you pass this bill to eliminate the strap you will have dealt them a hard blow.

I do not believe that anyone who knows me thinks I would advocate or allow convicts to be abused; and, therefore, I recommend that every possible safeguard be placed around the using of the strap. Make the law strict, and provide that it be used only in extraordinary or very extreme cases, but I hope that you will not make the mistake of eliminating it entirely.

Only last Friday my office was in receipt of the following telegram, dated September 2, 1910:

"Come at once. Thirty-six men mutiny at Cisco landing." (Signed) J. L. Brooks, Sergeant.

In cases of this kind, what are we to do? I was not at my office when the telegram was received, but the inspector had just left Huntsville for that place. I am unable to hear this morning what the situation is, and merely mention this incident so that you may see what we are up against. The public is not familiar with this side of the case, but the man or men who undertake to run the penitentiaries of this State with the class of prison population we have will soon get familiar with it; and if you entirely eliminate the

strap, you will have them badly handicapped to begin with.

I hope that you can see your way clear to help retain the use of the strap in its extreme cases. I have written you fully and frankly in this matter, as I feel a deep interest in the future welfare of the penitentiary and hope to see it a success.

With kindest personal regards, I am sincerely your friend,

(Signed) J. A. HERRING.

COMMITTEE REPORT.

Committee Room,
Austin, Texas, September 10, 1910.

Hon. A. B. Davidson, President of the Senate.

Sir: Your Committee on Enrolled Bills have carefully examined and compared

Free Conference Committee substitute for Senate bill No. 10, "An Act to establish a prison system, and declaring the policy of the State with reference thereto; to provide for the management and control of such prison system; to provide for the control, management and treatment of all prisoners sentenced to the penitentiary; to provide that prisoners and ex-prisoners, as herein defined, shall be permitted to testify in certain cases; to abolish the leases and hiring of State prisoners; to provide rules and regulations for the government and conduct of such prison system; to provide for a Board of Prison Commissioners; to provide for their appointment, and defining their powers, duties and authority; to provide for the purchase or sale of real estate by the Prison Commission; to vest title of all real estate owned by the prison system; to provide for the appointment of an auditor, and prescribing his duties; prescribing penalty for the violation of this act; repealing Chapters 1, 2, 3, 4, 5, 6, 7 and 8, of Title 79, of the Revised Statutes of 1895, and all laws and parts of laws in conflict with this act,"

And find it correctly enrolled, and have this day, at 9:50 o'clock a. m., presented same to the Governor for his approval.

TERRELL of McLennan, Chairman.

Following is the bill:

A BILL

To Be Entitled

An Act to establish a prison system, and declaring the policy of the State with reference thereto; to provide for the management and control of such prison system; to provide for the control, management and treatment of all prisoners sentenced to the penitentiary; to provide that prisoners and ex-prisoners, as herein defined, shall be permitted to testify in certain cases; to abolish the leasing and hiring of State prisoners; to provide rules and regulations for the government and conduct of such prison system; to provide for a Board of Prison Commissioners; to provide for their appointment, and defining their powers, duties and authority; to provide for the purchase or sale of real estate by the Prison Commission; to vest title of all real estate owned by the prison system; to provide for the appointment of an auditor, and prescribing his duties; prescribing penalties for the violation of this act; repealing Chapters 1, 2, 3, 4, 5, 6, 7 and 8, of Title 79, of the Revised Statutes of 1895, and all laws and parts of laws in conflict with this act.

Be it enacted by the Legislature of the State of Texas:

Section 1. That it shall be the policy of this State in the operation of its prison system to so manage and conduct the same that those convicted of violating the law and sentenced to a term in the penitentiary shall have humane treatment, and shall be given opportunity, encouragement and training in the matter of reformation.

Sec. 2. The prison system of this State, as referred to in this act, shall include the State penitentiary at Huntsville, the State penitentiary at Rusk, and such other penitentiaries as may hereafter be established, and all farms or camps where State prisoners are, or may be kept or worked, together with all property of every character belonging thereto or connected therewith.

Sec. 3. It is hereby declared the policy of this State to work all prisoners within the prison walls and upon farms owned by the State, and in no event shall the labor of a prisoner be sold to any contractor or lessee to work on farms or elsewhere, nor shall any prisoner be worked on any farm or otherwise upon

shares, or upon any other farm or place other than that owned or controlled by the State of Texas after January 1, 1914; provided, that all contracts for prison labor in existence at the time this act takes effect shall terminate not later than January 1, 1914, and no contract for any prison labor shall be made which would extend beyond January 1, 1914; provided further, that the Board of Prison Commissioners shall change from the system of leasing and hiring out of prisoners at the earliest practicable time.

Sec. 4. To better carry out such policy, the management and control of the prison system of the State of Texas shall be vested in a board to be known as the Board of Prison Commissioners, and for the purposes of this act shall be referred to as the Prison Commission. Said Board of Prison Commissioners shall be composed of three men to be appointed by the Governor, with the advice and consent of the Senate, whose term of office shall be two years from date of appointment, except those first appointed under this act, who shall hold their offices respectively for eight, sixteen and twenty-four months from the date of their appointment and qualification. In the appointment of said Commissioners first to be appointed under this act, the Governor shall designate the term each one shall hold under such appointment; provided, however, that in the event of a change in the Constitution, extending the term of office of the Prison Commissioners, then the members of said Board of Prison Commissioners then in office shall adjust their terms of office by lot or in conformance with the provisions of such constitutional amendment without the necessity of further legislative enactment.

Sec. 5. Each member of said Commission shall, within ten days after his appointment, execute a bond, payable to the Governor of this State and his successors in office for the use of the State, in the sum of \$50,000, and conditioned that he will faithfully execute the duties of his office, which said bond shall be executed with two or more good and sufficient sureties, or with some indemnity fidelity or bonding companies authorized to do business in Texas, the form of which bond shall be prepared by the Attorney General and the sufficiency of the sureties thereon approved by, and the same shall be filed with, the Secretary of State, which said bond shall not be

void on the first recovery of part, or of the whole of the penalty, but shall thereafter continue in force for the whole amount of the penalty thereof, and may be sued on from time to time, and shall be deemed to extend to the faithful performance of the duties of his trust, until his successor shall be duly qualified and shall have entered upon the duties of his office. And it shall be the duty of the Attorney General, upon notice of default or failure to perform the duties as contemplated by law by any member of said Prison Commission, to bring suit in any court of competent jurisdiction in Travis county, Texas, for the forfeiture and collection of said bond; and before entering upon the duties of his office, each member of said board shall take and subscribe the oath of office prescribed by the Constitution of this State.

Sec. 6. Each member of the Board of Prison Commissioners shall receive as compensation for his services the sum of three hundred dollars per month, to be paid at the end of each month, and in addition thereto he shall be allowed all reasonable and necessary traveling expenses actually incurred when traveling on business of the prison system, to be paid together with said salary out of the funds of the prison system, all such expense accounts to be itemized and sworn to in duplicate and approved by the Board of Prison Commissioners, or a majority of said board, one copy to be kept with the records of the Board of Prison Commissioners and one copy to be filed with the Comptroller of Public Accounts. Each member of said Board of Prison Commissioners shall reside at Huntsville, in Walker county, Texas, which is hereby designated as the headquarters of the prison system, and shall be permitted to occupy free of rent the residence houses belonging to the State at Huntsville.

Sec. 7. Each member of said Prison Commission shall devote his entire time to the discharge of the duties of said office, and shall not engage in any other occupation or business during his term of office, nor shall either of the members of said board be directly or indirectly connected with or interested in any contract, sale or purchase of any property or thing whatsoever which may be made during his term of office and in which either the State or the prison system are interested. And any violation of any of the provisions of this section of this act shall be sufficient ground for his removal from office.

Sec. 8. That said Prison Commission

shall be vested with the exclusive management and control of the prison system of this State, and shall be held responsible for the proper care, treatment, feeding, clothing and management of the prisoners confined therein, and at all times for the faithful enforcement of the spirit, intent and purpose of the laws and rules governing said system; provided, that the Prison Commission shall be held responsible for maltreatment of prisoners, and, if permitted, it shall be grounds for removal from office.

Sec. 9. That the said Prison Commission shall have the power to and it shall be their duty to appoint all necessary officers, all physicians, chaplains, teachers and all clerical help needed in conducting said prison system, including a secretary of the Prison Commission, and they shall require all appointees, who, in discharging their duties, are charged with handling any funds of the system or State, to execute bond in such amount as may be fixed by the Prison Commission, payable to the Prison Commission for the use and benefit of the State, to be conditioned for the faithful performance of their duties.

Sec. 10. A majority of said Prison Commission shall constitute a quorum for the transaction of business. The Commissioners shall select one of their number as chairman. They shall designate one member to have supervision over the finances and financial transactions of the prison system, one who shall supervise the feeding, clothing, care and treatment of the prisoners, and one who shall supervise the work of all the officers and employes of the prison system, and who shall also be known and designated as the Superintendent of Parole, and shall direct the enforcement of any parole law or indeterminate sentence law which may now or hereafter be in force in this State, unless otherwise directed by law. Provided, that the work of each member so designated shall be under the general supervision of and he shall report his actions to the Prison Commission. The provisions of this section are intended to facilitate the work of the Prison Commission and shall not be construed as relieving the full Board of the Prison Commissioners of any authority or general responsibility for the management of the prison system. The Prison Commission shall keep or cause to be kept in a well-bound book a minute of the proceedings of all meetings held by them.

Sec. 11. The Prison Commission shall have the authority at all times to dis-

charge any officer or any employe of the prison system for failure to comply with the rules, regulations or laws governing the prison system, or for any dereliction in duty, or whenever they may deem it to be for the best interests of the service.

Sec. 12. The Prison Commission shall have the power to purchase or cause to be purchased with such funds as may be at their disposal, any lands, buildings, machinery, tools or supplies for the benefit of said prison system, and may establish such factories as in their judgment may be practicable and that will afford useful and proper employment to prisoners confined in the State prison, under such regulations, conditions and restrictions as may be deemed best for the welfare of the State and the prisoners, it being the purpose of this act to clothe said Board of Prison Commissioners with all power and authority necessary for the proper management of the prison system of this State.

Sec. 13. The Prison Commission shall have power, with the approval of the Governor, to purchase such land as may, in their judgment, be necessary in the operation of said system, and the employment of prisoners confined in said prison, and in the purchase thereof they may pay such sum in cash as may be agreed upon with the vendor and for the unpaid purchase money to become due upon said land they shall execute to the vendor notes payable in such sum and at such time as may be agreed upon between the parties, and the payment of which shall be secured by a deed of trust upon such land in the usual form, and containing such covenants as may be agreed upon between the parties, and may pledge a sufficient amount of the net revenues of the property so purchased to pay the deferred installments of purchase money thereon, and it shall be expressly provided in the conveyance to said land, the notes executed for the unpaid purchase money and the deed of trust, that the vendor relies alone upon the lien created by the deed of trust upon said land and the net revenues so pledged, and that no personal liability against the Prison Commission or the State of Texas shall arise out of said transaction beyond said liens; and the purchase money paid originally, as well as the installments paid upon the deferred payments, may be paid out of any funds belonging to said prison system. The title to all lands purchased by the Prison Commission under the terms of this act shall be examined, passed

upon and approved as good and sufficient by the Attorney General, and all conveyances, notes and trust deeds and other instruments executed under the provisions of this act shall be prepared, passed upon and approved by the Attorney General. The title to all lands so purchased shall vest in the Prison Commission, and their successors in office, as trustees for the State.

Sec. 14. The Prison Commission may buy annually so many acres of land as will, not later than January 1, 1914, or sooner, if practicable, enable all prisoners hired out or employed on share or contract farms, and who are not otherwise employed by the State, to be employed directly on farms belonging to the prison system.

Sec. 15. Sec. 18. The Prison Commission may at any time issue such orders and prescribe such rules and regulations for the government of the prison system of this State, not inconsistent with the law, as it may deem proper, or to provide such details not embraced herein, and for such contingencies as may at any time arise concerning the management of the prison system, or its proper and effective operation, and such rules and regulations shall be made with a view of carrying out the general principles on which the penal laws are founded, and for which the prison system is established, and shall be binding on all underofficers, employes and all persons whomsoever in any way connected with the State prisons or its management, or its prisoners within and without the

It shall be the duty of the Prison Commission to make suitable provision and regulation for the safe and speedy transportation of prisoners from counties where sentenced to the penitentiaries at Huntsville by the sheriffs of such respective counties, if such sheriffs are willing to perform such services as cheaply as said Commission can have it done otherwise. Said transportation shall be on State account, and in no instance shall the prisoners be carried direct from the county jails to

the State farms, but shall first be carried to the penitentiary at Huntsville, where the character of labor which each prisoner may reasonably perform shall be determined. Upon the arrival of each prisoner at the penitentiary at Huntsville the Prison Commission shall cause a statement to be made by the prisoner, giving a brief history of his life, and showing where he has resided, the names and postoffice addresses of his immediate relatives, and such other facts as will tend to show his past habits and character; and the Prison Commission shall, by correspondence or otherwise, verify or disprove such statements, if practicable, and shall preserve the record and information so obtained for future reference.

During the term of his services such accountant shall be paid monthly a salary of two hundred dollars per month and all actual and necessary traveling expenses, to be paid at the end of each month out of any moneys belonging to the prison sys-

Sec. 24. Each member of the Board of Prison Commissioners in the discharge of his duties is authorized to administer oaths, to summon and examine witnesses, and take such other steps as he deems necessary to ascertain the truth of any matter about which he may have the right to inquire.

Sec. 25. Except for third-class prisoners, within a reasonable time and not later than six months after the taking effect of this act, the Prison Commission shall abolish striped or checked clothes for prisoners, except as a mode of punishment for the violation of prison discipline, substituting therefor some suitable uniform.

The Prison Commission shall prescribe and furnish to the prisoners suitable books and other reading matter, and to this end may establish and operate among the prisoners a circulating library, and may adopt such other means of distributing among the prisoners good and wholesome literature, as in the judgment of the Prison Commission will best enable the prisoners to avail themselves of the same; provided, that all teachers herein provided for shall, as far as practicable, be taken from the convicts, and such teachers may be excused from further labors. The chaplain shall be ex-officio librarian of the penitentiary, passing upon all library books, and direct such other work as may be prescribed for such library management.

Sec. 27. The Prison Commission shall provide for religious services at prisons, farms and camps where prisoners are kept or worked. They shall employ such chaplains as may be necessary to afford all prisoners an opportunity to attend at least two religious services each

Sec. 28. If any member of the Board of Prison Commissioners shall be guilty of malfeasance or nonfeasance in office or shall become incapable or unfit to discharge his official duties, or shall wilfully fail, refuse or neglect to discharge the duties of his office, such member shall be subject to removal from office as provided by Article 3528, Revised Statutes of 1895.

Sec. 29. The Prison Commission shall, except as provided in this act, fix the salaries of all officers and employees of the prison system upon such basis as the labor and ability of the officer or employee entitles him to, such salary to be paid monthly at the end of each month. They shall pay to those employed as guards of the convicts a salary of not less than thirty-five dollars per month and furnish them board and lodging free; provided, that for meritorious service and adaptability to the work, the Prison Commission may increase the pay of any guard to an amount not to exceed forty dollars per month. Sec. 30. The Prison Commission shall see that all State prisoners are fed good and wholesome food, properly prepared, under wholesome sanitary conditions and in sufficient quantity and reasonable variety, and they shall hold

all underofficers performing this work strictly to account for any failure to carry out this provision. That the food may be properly prepared, the Prison Commission shall provide for the training of prisoners as cooks.

Sec. 31. The Prison Commission shall require at the end of each month reports showing fully the condition and treatment of the prisoners and the changes in the prison population during the month, including itemized statements of all different items of food, clothing and utensils used and on hand in each of the units of the prison system, and such other matters as they may require.

They shall issue discharges to such prisoners as are entitled thereto by expiration of sentence or otherwise.

Sec. 33. That persons confined in the State prisons of this State may have every opportunity and encouragement for moral reform, it shall be the duty of the Prison Commission, in addition to the requirements of this act, to provide every reasonable and practicable means for the encouragement of such reform. To this end, the Prison Commission shall provide for the classification of all prisoners, separating them into the following classes: In the first class shall be included young men, first offenders, those appearing to be corrigible, or less vicious than others, and likely to observe the laws, and to maintain themselves by honest industry after their discharge. In the second class shall be included those appearing to be less corrigible, or more vicious, but content to work, and reasonably obedient to prison discipline as not to seriously interfere

with the productiveness of their labor, or with the labor or conduct of those with whom they may be employed. In the third class shall be included those appearing to be incorrigible, or so insubordinate, or so vicious in their nature as to seriously interfere with the labor and moral development of those with whom they must come in contact. The Prison Commission shall make rules and regulations for the promotion and reduction of the prisoners from one class to another, and shall transfer them from one class to another from time to time, as they may seem to merit promotion or reduction. The prisoners in each of the classes hereinbefore named shall be kept in or upon different or separate prisons or farms. Any prisoner, upon entering the prison system, shall be assigned to one of its institutions according to his class, as hereinbefore provided, and shall be entered in said institution in a neutral grade, which shall be known as grade No. 2, and in which he shall be furnished with a suitable uniform designated for that grade. The Prison Commission shall adopt rules for a higher grade, which shall be known as grade No. 1, as a reward for obedience to prison discipline and good conduct, and shall provide a suitable uniform for this grade; and they shall provide for a lower grade as a punishment for misconduct and violation of prison discipline, which grade shall be known as No. 3, and in which the prisoner shall be clothed in stripes. Whipping, with not exceeding twenty lashes on the bare rump and thighs may be resorted to with prisoners of the third class, who can not be made to observe the rules by milder methods of punishment. The strap to be used must be of leather, not over two and one-half inches wide, and twenty-four inches long, attached to a wooden han-

It shall further be the duty of the Penitentiary Commission to make a semi-annual report of the whipping of convicts to the district judge of the county where such whippings occurred, who shall report same to the grand jury, which is hereby authorized to make investigation thereof, if they deem same advisable. The utmost care must be used by the officer executing the order of the Commission not to break the skin of the prisoner whipped, and any person guilty of whipping a prisoner more lashes or other than as provided herein, or striking a prisoner, except in self-defense, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than \$25 nor more than \$250, and imprisoned in the county jail not less than thirty days nor more than six months. Sec. 35. The Prison Commission shall provide such labor for said female prisoners as in their judgment they can reasonably perform, but the prison physician for such female prisoners shall at any time have the authority to say whether the physical condition of said female prisoners is such that they can perform any physical labor; provided, that in the absence of the physician the matron shall pass upon the physical condition of said female prisoners.

Sec. 36. The Prison Commission shall keep the white female prisoners separate and apart from the negro female prisoners, and shall select and place over said female prisoners a matron or matrons, whose duty it shall be to give her personal attention to the welfare of such female prisoners. The matron or matrons so employed to look after the welfare of the female prisoners shall reside at the place where female prisoners are kept.

to work on Sunday shall be paid out of the funds of the prison system the sum of \$1 per day for each Sunday so worked.

Sec. 42. In order to encourage prison discipline, a distinction may be made in the treatment of prisoners so as to extend to all such as are orderly, industrious and obedient comforts and privileges according to their deserts. For extra meritorious conduct on the

part of any prisoner, he shall be recommended to the favorable consideration of the Governor for increased commutation or pardon, and in the case of any prisoner who shall have escaped and been captured, part or all of his good time thereby forfeited may be restored by the Prison Commission, if in their judgment his subsequent conduct entitles him thereto.

Sec. 43. Hereafter, life or long-term prisoners who have actually served fifteen years and have no sustained charges of misconduct and have a good prison record, and who shall be favorably recommended to the Governor, may receive at the hands of the Governor a reasonable commutation of sentence, and if a life sentence is commuted to a term of years, then such convict shall have the benefit of the ordinary commutation, as if originally sentenced for a term of years, except the Governor shall otherwise direct.

Sec. 57. Any sergeant, guard or other officer or employe of the prison system of this State who shall inflict any punishment upon a prisoner not authorized by the rules of the prison system shall be guilty of an assault, and upon conviction thereof shall be punished as prescribed by law, and it shall be the duty of the Prison Commission to make

complaint before the proper officer of any county in which such assault was committed upon such prisoner; provided, that in all cases where any person is charged by complaint or indictment with an offense against a prisoner, prisoners and ex-prisoners shall be permitted to testify.

Sec. 58. No gambling shall be permitted at any prison, farm or camp where prisoners are kept or worked. Any officer or employe engaging in or knowingly permitting gambling at any such prison, farm or camp shall be immediately dismissed from the service.

Sec. 59. The Prison Commission shall provide a seal whereon shall be engraved in the center a star of five points and the words "Board of Prison Commissioners of Texas" around the margin, which seal shall be used to attest all official acts.

Sec. 60. The Prison Commission, by and with the consent of the Governor, shall have the power to work convicts on public works, when they can not employ them on the State farms or within the walls by reason of some unforeseen calamity, such as failure of crops, or the destruction of crops by wind or flood. When convicts are worked on public works owned by the State

or a subdivision of the State, the humane provisions of this act shall be strictly complied with.

Sec. 61. Chapters 1, 2, 3, 4, 5, 6, 7 and 8, Title 79, of the Revised Statutes of 1895, relating to penitentiaries and their management, and all laws and parts of laws in conflict herewith, are hereby repealed.

Sec. 62. In view of the fact that the terms of office of the Superintendent, the Assistant Superintendent and the Financial Agent of the penitentiary system do not expire until about January 20, 1911, and the further fact that the penitentiary system is a large business enterprise, and to make the changes in the management thereof provided in this act will require some time, and the further fact that the crops grown upon the State farms are now being harvested, and the harvesting thereof will not be completed before January next, it is deemed expedient that this act shall take effect January 20, 1911, and not before, and it is so enacted.

Sec. 63. If any provision, or provisions, of this act shall be held invalid, the remaining provisions shall not be affected thereby, but the same shall be given full force and effect.
